CENTURY ALUMINUM COMPANY
Notes to the Consolidated Financial Statements
Six month periods ending June 30, 2006 and 2005
(Dollars in thousands, except per share amounts)
(Unaudited)

1. General

The accompanying unaudited interim consolidated financial statements of Century Aluminum Company should be read in conjunction with the audited consolidated financial statements for the year ended December 31, 2005. In management's opinion, the unaudited interim consolidated financial statements reflect all adjustments, which are of a normal and recurring nature, that are necessary for a fair presentation of financial results for the interim periods presented. Operating results for the first six months of 2006 are not necessarily indicative of the results that may be expected for the year ending December 31, 2006. Certain reclassifications of 2005 information were made to conform to the 2006 presentation. Throughout this Form 10-Q, and unless expressly stated otherwise or as the context otherwise requires, "Century Aluminum," "Century," "we," "us," "our" and "ours" refer to Century Aluminum Company and its consolidated subsidiaries.

2. Stock-Based Compensation

We adopted Statement of Financial Accounting Standards ("SFAS") No. 123(R), "Share-Based Payment," on January 1, 2006. Prior to January 1, 2006, we accounted for stock based compensation in accordance with Accounting Principles Board Opinion No. 25 "Accounting for Stock Issued to Employees." Prior to the adoption of SFAS 123(R), we recognized expense for our performance share units and service-based stock awards, but not our stock option awards because the exercise prices of the stock options granted were equal to the market value of our common stock on the date of grant. Had compensation cost for these awards been determined using the fair value method provided under SFAS No. 123(R), our net income and earnings per share would have changed to the pro forma amounts indicated as follows:

		Three months ended June 30, 2005	Six months ended June 30, 2005
Net income applicable to common shareholders	As reported	\$ 40,744	\$ 52,474
Add: Stock-based employee compensation expense included in reported net income, net of related tax effects		252	1,683
Deduct: Total stock-based employee compensation expense determined under fair value based method for all awards, net of related tax effects		(392)	(1,953)
Pro forma net income		\$ 40,604	\$ 52,204
	As reported		
Basic earnings per share		\$ 1.27	\$ 1.63
	Pro forma	\$ 1.26	\$ 1.63
Diluted earnings per share		\$ 1.27	\$ 1.63

	As			
	reported			
	Pro forma	\$	1.26	\$ 1.62

1996 Stock Incentive Plan— We award performance-based and service-based (time vested) stock awards and grant qualified incentive stock options and nonqualified stock options to our salaried officers, non-employee directors, and other key employees from our 1996 Stock Incentive Plan (the “Stock Incentive Plan”). The Stock Incentive Plan has 5,000,000 shares authorized for issuance with approximately 3,599,920 shares remaining in reserve. Granted stock options have a term of 10 years and typically vest one-third on the grant date and additional one-third on the first and second anniversary dates of the grant. Our non-employee director’s annual option grants vest one-fourth each calendar quarter. In addition to the stock options, we grant service-based stock awards that typically vest over a period of three years from the date of grant provided that the recipient is still our employee at the time of vesting. As of June 30, 2006, options to purchase 384,372 shares of common stock were outstanding and approximately 98,500 service-based stock awards have been authorized and will vest if the employee recipients are employed for the requisite service periods.

The Stock Incentive Plan provides for grants of performance share units upon the attainment of certain established performance goals. The performance share units represent the right to receive common stock, on a one-for-one basis on their vesting dates. As of June 30, 2006, approximately 195,000 performance share units have been authorized and will vest upon the attainment of the performance goals.

Table of Contents

CENTURY ALUMINUM COMPANY
Notes to Consolidated Financial Statements - (continued)

Non-Employee Directors Stock Option Plan— Our non-employee directors' stock option plan is no longer an active plan. As of June 30, 2006, this plan has 57,334 outstanding options, but no new options will be issued out of this plan.

Option Pricing Model - The fair value of each option grant is estimated on the date of grant using the Black-Scholes option-pricing model using the following assumptions for 2006 and 2005.

	2006	2005
Weighted average fair value per option granted during the period	\$ 26.81	\$ 15.19
Risk-free interest rate	4.30-4.99%	3.98-4.29%
Expected dividend yield	\$ 0.00	\$ 0.00
Expected volatility	60%	67%
Expected forfeiture rate	5%	--
Expected lives (years)	5.5	5.5

The risk-free interest rate is based on the yield on the measurement date for five year zero-coupon U.S. Treasury bonds. The dividend yield is based on our current expectation to not pay dividends on our common stock for the foreseeable future. Expected volatility is based on the historical volatility of the price of our common stock over the expected term of the options. The expected forfeiture rate is based on our historical forfeiture rate after 1999 (the year we sold our rolling business). The expected life of the options is estimated using the method specified in the Securities and Exchange Commission's Staff Accounting Bulletin No. 107.

A summary of the changes in options outstanding under our Stock Incentive Plan and the Non-Employee Directors Stock Option Plan during the six months ended June 30, 2006 is presented below:

Options	Number	Weighted Average Exercise Price
Outstanding at January 1, 2006	453,661	\$ 20.93
Granted	91,000	37.27
Exercised	(159,622)	18.55
Forfeited	(667)	24.32
Outstanding at June 30, 2006	384,372	\$ 25.78

Service-based stock awards (1)	Number
Outstanding at January 1, 2006	59,000
Granted	39,500
Outstanding at June 30, 2006	98,500

(1) All of our service-based stock awards require the recipients to remain an employee for a certain period of time before the award vests. Recipients receive common stock upon vesting.

The following table summarizes information about outstanding stock options at June 30, 2006:

Options Outstanding:

Range of Exercise Prices	Number Outstanding at 6/30/2006	Weighted Avg. Remaining Contractual Life	Weighted Avg. Exercise Price	Aggregate Intrinsic Value
\$26.70 to \$47.61	113,834	9.6 years	\$ 35.19	\$ 920
\$23.98 to \$24.70	188,010	9.3 years	\$ 24.25	3,575
\$7.03 to \$23.18	82,528	6.3 years	\$ 16.21	2,233
	384,372			\$ 6,728

Table of Contents

CENTURY ALUMINUM COMPANY
Notes to Consolidated Financial Statements - (continued)

Exercisable Options:

Range of Exercise Prices	Number Exercisable at 6/30/2006	Weighted Avg. Remaining Contractual Life	Weighted Avg. Exercise Price	Aggregate Intrinsic Value
\$26.70 to \$47.61	37,581	9.5 years	\$ 33.20	\$ 379
\$23.98 to \$24.70	27,929	8.6 years	\$ 24.35	528
\$7.03 to \$23.18	63,597	5.7 years	\$ 14.13	1,853
	129,107			\$ 2,760

The following table summarizes the changes in non-vested stock options during the six months ended June 30, 2006:

Non-vested Options:	Number	Weighted Average Fair Value
Non-vested options at January 1, 2006	205,430	\$ 14.59
Granted	67,669	22.98
Vested	(17,167)	16.05
Forfeited	(667)	14.48
Non-vested options at June 30, 2006	255,265	\$ 16.72

The following table summarizes the compensation cost recognized for the three and six months ended June 30, 2006 and 2005, respectively, for all options and service-based stock awards. No stock-based compensation cost was capitalized during these periods.

	Three months ended June 30,		Six months ended June 30,	
	2006	2005	2006	2005
Compensation expense reported:				
Stock option grants	\$ 916	\$ --	\$ 2,921	\$ --
Service-based stock awards	398	--	839	--
Performance-based stock grants	231	394	2,767	2,630
Total compensation expense before income tax	1,545	394	6,527	2,630
Income tax benefit	(552)	(142)	(2,330)	(947)
Total compensation expense, net of income tax benefit	\$ 993	\$ 252	\$ 4,197	\$ 1,683

As of June 30, 2006, we had unrecognized compensation expense of \$4,332 before taxes, related to non-vested stock options and service-based stock awards. This expense will be recognized over a weighted average period of 1.3 years. The unrecognized compensation expense is expected to be recognized over the following periods:

	Remainder			
	2006	2007	2008	2009
Stock-based compensation expense (pre-tax)	\$ 1,564	\$ 2,195	\$ 516	\$ 57

During the six month periods ended June 30, 2006, we received \$2,961 from employees for the exercise of stock options. For the three and six month periods ended June 30, 2006, we recorded a tax benefit of \$235 and \$1,090, respectively, related to these stock option exercises. In addition, we issued approximately 79,000 common shares (net of shares withheld to satisfy tax liabilities) in the first quarter 2006 to satisfy a performance share liability of \$5,208.

It has been our policy to issue new shares to satisfy the requirements of our stock-based compensation plans. We do not expect to repurchase shares in the future to support our stock-based compensation plans.

7

Table of Contents

CENTURY ALUMINUM COMPANY
Notes to Consolidated Financial Statements - (continued)

3. Inventories

Inventories consist of the following:

	June 30, 2006	December 31, 2005
Raw materials	\$ 57,086	\$ 47,352
Work-in-process	18,235	11,461
Finished goods	5,410	5,446
Operating and other supplies	52,225	47,177
	\$ 132,956	\$ 111,436

Inventories are stated at the lower of cost or market, using the first-in, first-out method.

4. Goodwill and Intangible Asset

We test our goodwill for impairment annually in the second quarter of the fiscal year and at other times whenever events or circumstances indicate that the carrying amount of goodwill may exceed its fair value. If the carrying value of goodwill exceeds its fair value an impairment loss will be recognized. No impairment loss was recorded in 2006 or 2005. The fair value is estimated using market comparable information.

The intangible asset consists of the power contract acquired in connection with our acquisition of the Hawesville facility ("Hawesville"). The contract value is being amortized over its term using a method that results in annual amortization equal to the percentage of a given year's expected gross annual benefit to the total as applied to the total recorded value of the power contract. As of June 30, 2006, the gross carrying amount of the intangible asset was \$155,986 with accumulated amortization of \$87,868.

For the three month periods ended June 30, 2006 and June 30, 2005, amortization expense for the intangible asset totaled \$3,262 and \$3,674, respectively. For the six month periods ended June 30, 2006 and June 30, 2005, amortization expense for the intangible asset totaled \$6,524 and \$7,214, respectively.

For the year ending December 31, 2006, the estimated aggregate amortization expense for the intangible asset will be approximately \$13,048. The estimated aggregate amortization expense for the intangible asset through the Hawesville power contract's term is as follows:

	2007	2008	2009	2010
Estimated Amortization Expense	\$ 13,991	\$ 15,076	\$ 16,149	\$ 16,379

The intangible asset is reviewed for impairment in accordance with SFAS 142, "Goodwill and Other Intangible Assets," whenever events or circumstances indicate that its net carrying amount may not be recoverable.

Table of Contents

CENTURY ALUMINUM COMPANY
Notes to Consolidated Financial Statements - (continued)

5.	Debt	June 30, 2006	December 31, 2005
	Debt classified as current liabilities:		
	1.75% convertible senior notes due 2024, interest payable semiannually (1)(2)(3)(4)	\$ 175,000	\$ 175,000
	Hancock County industrial revenue bonds due 2028 (“IRBs”), interest payable quarterly (variable interest rates (not to exceed 12%))(1)	7,815	7,815
	Current portion of long-term debt	16,093	581
	Long-term debt:		
	7.5% senior unsecured notes payable due 2014, interest payable semiannually (3)(4)(6)	250,000	250,000
	Nordural Senior term loan facility maturing in 2010, variable interest rate, principal and interest payments due semiannually through 2010, less current portion (5)	275,500	222,000
	Various Nordural loans, with interest rates ranging from 2.70% to 6.75% due 2012 to 2020, less current portion	8,136	8,436
	Borrowings under revolving credit facility (4)	--	8,069
	Total Debt	\$ 732,544	\$ 671,901

(1) The convertible notes are classified as current because they are convertible at any time by the holder. The IRBs are classified as current liabilities because they are remarketed weekly and could be required to be repaid upon demand if there is a failed remarketing. The IRB interest rate at June 30, 2006 was 4.27%.

(2) The convertible notes are convertible at any time by the holder at an initial conversion rate of 32.7430 shares of Century common stock per one thousand dollars of principal amount of convertible notes, subject to adjustments for certain events. The initial conversion rate is equivalent to a conversion price of approximately \$30.5409 per share of Century common stock. Upon conversion, the holder of the convertible note shall receive cash equal to the principal amount of the convertible note and, at our election, either cash or Century common stock, or a combination thereof, for the conversion value in excess of such principal amount, if any.

(3) The obligations of Century pursuant to the notes are unconditionally guaranteed, jointly and severally, on a senior unsecured basis by all of our existing domestic restricted subsidiaries.

(4) The indentures governing our note obligations contain customary covenants, including limitations on our ability to incur additional indebtedness, pay dividends, sell assets or stock of certain subsidiaries and purchase or redeem capital stock. Our revolving credit facility contains customary covenants, including

limitations on capital expenditures, additional indebtedness, affiliate transactions, liens, guarantees, mergers and acquisitions, dividends, distributions, capital redemptions and investments.

(5) The senior term loan interest rate at June 30, 2006 was 6.87%. Nordural's \$365,000 loan facility contains customary covenants, including limitations on additional indebtedness, investments, capital expenditures (other than related to the expansion project), dividends, and hedging agreements. Nordural is also subject to various financial covenants, including a net worth covenant and certain maintenance covenants, including minimum interest coverage and debt service coverage beginning as of December 31, 2006. Nordural's obligations under the term loan facility are secured by a pledge of all of Nordural's shares pursuant to a share pledge agreement with the lenders. In addition, substantially all of Nordural's assets are pledged as security under the loan facility. Nordural is required to make the following minimum repayments of principal on the facility: \$15,500 on February 28, 2007 and \$14,000 on each of August 31, 2007, February 29, 2008, August 31, 2008, February 28, 2009, August 31, 2009, and all remaining outstanding principal amount on February 28, 2010.

(6) On or after August 15, 2009, we may redeem any of the senior notes, in whole or in part, at an initial redemption price equal to 103.75% of the principal amount, plus accrued and unpaid interest. The redemption price will decline each year after 2009 and will be 100% of the principle amount, plus accrued and unpaid interest, beginning on August 15, 2012.

CENTURY ALUMINUM COMPANY
Notes to Consolidated Financial Statements - (continued)

Revolving Line of Credit

In September 2005, we replaced our revolving credit facility that was due to expire in March 2006 with a new \$100,000 senior secured revolving credit facility (“Credit Facility”) with a syndicate of banks. The Credit Facility will mature September 19, 2010. Our obligations under the Credit Facility are unconditionally guaranteed by our domestic subsidiaries (other than Century Aluminum Holdings, Inc., Century Louisiana, Inc., and Nordural US LLC) and secured by a first priority security interest in all accounts receivable and inventory belonging to Century and our subsidiary borrowers. The availability of funds under the Credit Facility is subject to a \$15,000 reserve and limited by a specified borrowing base consisting of certain eligible accounts receivable and inventory. Borrowings under the Credit Facility are, at our option, at the LIBOR rate or bank base rate, plus or minus in each case an applicable margin. We issued two letters of credit totaling \$800 in June 2006. Other than the letters of credit issued, we had no other outstanding borrowings under the Credit Facility as of June 30, 2006. As of June 30, 2006, we had a borrowing availability of \$99,053 under the Credit Facility. We could issue up to a maximum of \$25,000 in letters of credit under the Credit Facility. We pay a commitment fee for the unused portion of the line.

6. Contingencies and Commitments

Environmental Contingencies

We believe our current environmental liabilities do not have, and are not likely to have, a material adverse effect on our financial condition, results of operations or liquidity. However, there can be no assurance that future requirements or conditions at currently or formerly owned or operated properties will not result in liabilities which may have a material adverse effect.

Century Aluminum of West Virginia, Inc. (“Century of West Virginia”) continues to perform remedial measures at our Ravenswood, West Virginia facility (“Ravenswood”) pursuant to an order issued by the Environmental Protection Agency (“EPA”) in 1994 (the “3008(h) Order”). Century of West Virginia also conducted a RCRA facility investigation (“RFI”) under the 3008(h) Order evaluating other areas at Ravenswood that may have contamination requiring remediation. The RFI has been approved by appropriate agencies. Century of West Virginia has completed interim remediation measures at two sites identified in the RFI, and we believe no further remediation will be required. A Corrective Measures Study, which will formally document the conclusion of these activities, is being completed with the EPA. We believe a significant portion of the contamination on the two sites identified in the RFI is attributable to the operations of third parties and is their financial responsibility.

Prior to our purchase of Hawesville, the EPA issued a final Record of Decision (“ROD”) under the Comprehensive Environmental Response, Compensation and Liability Act. By agreement, Southwire is to perform all obligations under the ROD. Century Aluminum of Kentucky, LLC (“Century Kentucky”) has agreed to operate and maintain the ground water treatment system required under the ROD on behalf of Southwire, and Southwire will reimburse Century Kentucky for any expense that exceeds \$400 annually.

Century is a party to an EPA Administrative Order on Consent (the “Order”) pursuant to which other past and present owners of an alumina refining facility at St. Croix, Virgin Islands have agreed to carry out a Hydrocarbon Recovery Plan to remove and manage hydrocarbons floating on groundwater underlying the facility. Pursuant to the Hydrocarbon Recovery Plan, recovered hydrocarbons and groundwater are delivered to the adjacent petroleum refinery where they are received and managed. Lockheed Martin Corporation (“Lockheed”), which sold the facility to one of our affiliates, Virgin Islands Alumina Corporation (“Vialco”), in 1989, has tendered indemnity and defense of this matter to Vialco pursuant to the terms of the Lockheed-Vialco Asset Purchase Agreement. Management does not

believe Vialco's liability under the Order or its indemnity to Lockheed will require material payments. Through June 30, 2006, we have expended approximately \$440 on the Recovery Plan. Although there is no limit on our obligation to make indemnification payments, we expect the future potential indemnification payments related to the Order will be approximately \$200, which may be offset in part by sales of recoverable hydrocarbons.

In May 2005, Century and Vialco were among the defendants listed in a lawsuit filed by the Commissioner of the Department of Planning and Natural Resources, in his capacity as Trustee for Natural Resources of the United States Virgin Islands. The complaint alleges damages to natural resources caused by alleged releases from the alumina refinery facility at St. Croix and the adjacent petroleum refinery. Lockheed has tendered indemnity and defense of the case to Vialco pursuant to terms of the Lockheed-Vialco Asset Purchase Agreement. The complaint seeks unspecified monetary damages, costs and attorney fees.

Table of Contents

CENTURY ALUMINUM COMPANY
Notes to Consolidated Financial Statements - (continued)

In July 2006, Century was named as a defendant together with certain affiliates of Alcan Inc. in a lawsuit brought by Alcoa Inc. seeking to determine responsibility for certain environmental indemnity obligations related to the sale of a cast aluminum plate manufacturing facility located in Vernon, California which we purchased from Alcoa Inc. in December 1998, and sold to Alcan Rolled Products-Ravenswood LLC (formerly Pechiney Rolled Products, LLC) in July 1999. The complaint also seeks costs and attorney fees.

It is our policy to accrue for costs associated with environmental assessments and remedial efforts when it becomes probable that a liability has been incurred and the costs can be reasonably estimated. The aggregate environmental-related accrued liabilities were \$729 and \$532 at June 30, 2006 and December 31, 2005, respectively. All accrued amounts have been recorded without giving effect to any possible future recoveries. With respect to cost for ongoing environmental compliance, including maintenance and monitoring, such costs are expensed as incurred.

Because of the issues and uncertainties described above, and our inability to predict the requirements of future environmental laws, there can be no assurance that future capital expenditures and costs for environmental compliance will not have a material adverse effect on our future financial condition, results of operations, or liquidity. Based upon all available information, management does not believe that the outcome of these environmental matters will have a material adverse effect on our financial condition, results of operations, or liquidity.

Legal Contingencies

We have pending against us or may be subject to various lawsuits, claims and proceedings related primarily to employment, commercial, environmental and safety and health matters. Although it is not presently possible to determine the outcome of these matters, management believes their ultimate disposition will not have a material adverse effect on our financial condition, results of operations, or liquidity.

Power Commitments

Hawesville currently purchases substantially all of its power from Kenergy Corp. (“Kenergy”), a local retail electric cooperative, under a power supply contract that expires at the end of 2010. Approximately 73% of this power is at fixed prices. Kenergy acquires the power it provides to Hawesville mostly from a subsidiary of LG&E Energy Corporation (“LG&E”), with delivery guaranteed by LG&E. For 2006, all but two percent of our power requirements at Hawesville are priced. Hawesville’s unpriced power requirements increase to 27% of its total power requirements in calendar years 2007 through 2010.

Appalachian Power Company supplies all of Ravenswood’s power requirements. After December 31, 2007, Century Aluminum of West Virginia, Inc. (“CAWV”) may terminate the agreement by providing 12 months notice of termination. Power delivered under the supply agreement is as set forth published tariffs. Effective July 28, 2006, the Public Service Commission for the State of West Virginia approved an experimental rate design in connection with an increase in the applicable tariff rates. Under the experimental rate, CAWV may be excused from or may defer the payment of the increase in the tariff rate if aluminum prices as quoted on the LME fall below pre-determined levels.

The Mt. Holly facility (“Mt. Holly”) purchases all of its power from the South Carolina Public Service Authority at rates established by published schedules. Mt. Holly’s current power contract expires December 31, 2015. Power delivered through 2010 will be priced as set forth in currently published schedules, subject to adjustments for fuel costs. Rates for the period 2011 through 2015 will be as provided under then-applicable schedules.

The Nordural facility purchases power from Landsvirkjun, a power company jointly owned by the Republic of Iceland and two Icelandic municipal governments, under a long-term contract due to expire in 2019. The power delivered by Landsvirkjun is priced at a rate based on the LME price for primary aluminum and is from hydroelectric and geothermal sources. Nordural has entered into a power contract with Hitaveita Suðurnesja hf. (“HS”) and Orkuveita Reykjavíkur (“OR”) to supply the power required for the expansion from 90,000 to 220,000 metric tons (“mtpy”) of production capacity.

Table of Contents

CENTURY ALUMINUM COMPANY
Notes to Consolidated Financial Statements - (continued)

In April 2006, we announced that a further expansion of the Nordural facility from 220,000 mtpy to 260,000 mtpy is expected to be completed by the fourth quarter of 2007. Previously, we announced that OR had agreed to deliver the power for the additional expansion by late 2008. Landsvirkjun has agreed to deliver power for the additional capacity on an interim basis until power is available from OR in late 2008.

In June 2006, Nordural signed a memorandum of understanding (“MOU”) to purchase power from HS and OR for a planned primary aluminum reduction project in Helguvik, Iceland. Under the agreement, power will be supplied to the new Helguvik plant in stages, beginning with an initial phase of up to 250 megawatts (“MW”), which will support production capacity of up to 150,000 mtpy. HS will provide up to 150 MW in this initial stage, and OR will supply up to 100 MW. Electricity delivery for this first phase is targeted for 2010. The MOU provides for a total of 435 MW, which will ultimately provide power for a 250,000 mtpy facility. The agreement is subject to the satisfaction of certain conditions.

Power under Nordural’s agreements with HS and OR will be generated from geothermal resources and prices will be LME-based. Landsvirkjun has agreed on a best commercial efforts basis to provide backup power to Nordural’s Grundartangi smelter should HS or OR be unable to meet the obligations of their contract to provide power for the Nordural expansion.

Labor Commitments

Approximately 82% of our U.S. based work force is represented by the United Steelworkers of America (the “USWA”). In May 2006, our Hawesville, Kentucky plant employees represented by the USWA ratified a four-year collective bargaining agreement that will extend through April 1, 2010. The agreement covers approximately 600 hourly workers at the Hawesville plant.

Our Ravenswood USWA workers issued a 72 hour strike notice on July 29, 2006. On August 1, 2006 Century and the United Steelworkers jointly announced that they reached a tentative agreement on a restructured offer. As a result, the union rescinded a 72 hour notice to strike and extended the current labor contract to permit a ratification vote on the tentative agreement. On August 4, 2006, the membership of United Steelworkers Local 5668 voted to ratify a three-year labor agreement covering approximately 580 hourly workers at the Ravenswood facility.

Approximately 89% of Nordural’s work force is represented by six labor unions under an agreement that expires on December 31, 2009.

Other Commitments and Contingencies

Our income tax returns are periodically examined by various tax authorities. We are currently under audit by the Internal Revenue Service (“IRS”) for the tax years through 2002. In connection with such examinations, the IRS has raised issues and proposed tax deficiencies. We are reviewing the issues raised by the IRS and have filed an administrative appeal with the IRS, contesting the proposed tax deficiencies. We believe our tax position is well supported and based on current information, we do not believe that the outcome of the tax audit will have a material impact on our financial condition or results of operations.

At June 30, 2006 and December 31, 2005, we had outstanding capital commitments related to the Nordural expansion of approximately \$88,759 and \$89,910, respectively. Our cost commitments for the Nordural expansion may materially change depending on the exchange rate between the U.S. dollar and certain foreign currencies, principally the Euro and the Icelandic krona.

In May 2006, we purchased foreign currency options with a notional value of \$41,627 to hedge a portion of our foreign currency risk in the Icelandic krona associated with capital expenditures from the ongoing 40,000 mtpy expansion to 260,000 mtpy at Nordural. The option contracts, which are designated as cash flow hedges and qualify for hedge accounting under SFAS 133, have maturities through November 2007. The critical terms of the contracts match those of the underlying exposure.

As of June 30, 2006, the fair value of the foreign currency options of \$1,483 is recorded in other assets. The accumulated other comprehensive income balance includes an unrealized loss of \$595, net of taxes.

CENTURY ALUMINUM COMPANY
Notes to Consolidated Financial Statements - (continued)

7. Forward Delivery Contracts and Financial Instruments

As a producer of primary aluminum products, we are exposed to fluctuating raw material and primary aluminum prices. We routinely enter into fixed and market priced contracts for the sale of primary aluminum and the purchase of raw materials in future periods. The following tables present our long-term primary aluminum sales and tolling contracts. "Glencore" refers to Glencore International AG and its subsidiaries.

Primary Aluminum Sales Contracts

Contract	Customer	Volume	Term	Pricing
Alcan Metal Agreement (1)	Alcan	276 to 324 million pounds per year	Through July 31, 2007	Based on U.S. Midwest market
Glencore Metal Agreement I (2)	Glencore	50,000 mtpy	Through December 31, 2009	LME-based
Glencore Metal Agreement II (3)	Glencore	20,400 mtpy	Through December 31, 2013	Based on U.S. Midwest market
Southwire Metal Agreement (4)	Southwire	240 million pounds per year (high purity molten aluminum)	Through March 31, 2011	Based on U.S. Midwest market
		60 million pounds per year (standard-grade molten aluminum)	Through December 31, 2010	Based on U.S. Midwest market

(1) Alcan has the right, upon 12 months notice, to reduce its purchase obligations by 50% under this contract. Following receipt of a 72 hour notice to strike by the USWA, we commenced an orderly shutdown of the Ravenswood facility and on August 2, 2006 delivered a force majeure notice to Alcan informing it that deliveries under the Alcan Metal Agreement were being reduced. USWA workers approved a new labor agreement on August 4, 2006 and full deliveries under the Alcan Metal Agreement are expected to resume in three months. See Note 17, Subsequent Events.

(2) We account for the Glencore Metal Agreement I as a derivative instrument under SFAS No. 133. We have not designated the Glencore Metal Agreement I as "normal" because it replaced and substituted for a significant portion of a sales contract which did not qualify for this designation. Because the Glencore Metal Agreement I is variably priced, we do not expect significant variability in its fair value, other than changes that might result from the absence of the U.S. Midwest premium.

(3) We account for the Glencore Metal Agreement II as a derivative instrument under SFAS No. 133. Under the Glencore Metal Agreement II, pricing is based on then-current market prices, adjusted by a negotiated U.S. Midwest premium with a cap and a floor as

applied to the current U.S. Midwest premium. Following receipt of a 72 hour notice to strike by the USWA, we commenced an orderly shutdown of the Ravenswood facility and on August 2, 2006 delivered a force majeure notice to Glencore informing it that deliveries under the Glencore Metal Agreement II were being reduced. USWA workers approved a new labor agreement on August 4, 2006 and full deliveries under the Alcan Metal Agreement are expected to resume in three months. See Note 17, Subsequent Events.

(4) The Southwire Metal Agreement will automatically renew for additional five-year terms, unless either party provides 12 months notice that it has elected not to renew.

Table of Contents

CENTURY ALUMINUM COMPANY
Notes to Consolidated Financial Statements - (continued)

Tolling Contracts

Contract	Customer	Volume	Term	Pricing
Billiton Tolling Agreement (1)	BHP Billiton	130,000 mtpy	Through December 31, 2013	LME-based
Glencore Tolling Agreement (2)(3)	Glencore	90,000 mtpy	Through July 2016	LME-based

(1) In September 2005, Nordural and BHP Billiton amended the Billiton Tolling Agreement to increase the tolling arrangement from 90,000 metric tons to 130,000 metric tons of the per annum production capacity at Nordural effective upon the completion of the expansion.

(2) Nordural entered into a 10-year LME-based alumina tolling agreement with Glencore for 90,000 metric tons of the expansion capacity at Nordural. In July 2006, we began deliveries under the Glencore Tolling agreement.

(3) In December 2005, Glencore assigned 50% of its tolling rights under this agreement to Hydro Aluminum for the period 2007 to 2010.

Apart from the contracts listed in the Primary Aluminum Sales Contracts table above, we had forward delivery contracts to sell 79,526 metric tons and 107,546 metric tons of primary aluminum at June 30, 2006 and December 31, 2005, respectively. Of these forward delivery contracts, we had fixed price commitments to sell 3,879 metric tons and 4,643 metric tons of primary aluminum at June 30, 2006 and December 31, 2005, respectively, of which 186 metric tons were with Glencore at December 31, 2005 (none were with Glencore at June 30, 2006).

Financial Sales Agreements

To mitigate the volatility in our unpriced forward delivery contracts, we enter into fixed price financial sales contracts which settle in cash in the period corresponding to the intended delivery dates of the forward delivery contracts. Certain of these fixed price financial sales contracts are accounted for as cash flow hedges depending on our designation of each contract at its inception. Glencore is the counterparty for all of the contracts summarized below:

Primary Aluminum Financial Sales Contracts as of:

(Metric Tons)

	June 30, 2006			December 31, 2005		
	Cash Flow	Derivatives	Total	Cash Flow	Derivatives	Total
	Hedges			Hedges		
2006	73,000	12,600	85,600	142,750	51,000	193,750
2007	119,500	50,400	169,900	119,500	50,400	169,900
2008	9,000	100,200	109,200	9,000	100,200	109,200
2009	--	105,000	105,000	--	105,000	105,000
2010	--	105,000	105,000	--	105,000	105,000
2011-2015	--	375,000	375,000	--	375,000	375,000
Total	201,500	748,200	949,700	271,250	786,600	1,057,850

In the event of a material adverse change in our creditworthiness, our counterparty under these primary aluminum financial sales contracts has the option to require a letter of credit, or any other acceptable security or collateral for outstanding balances on these contracts.

Substantially all of the contracts accounted for as derivatives contain clauses that trigger additional volume when the market price for a contract month is above the contract ceiling price. If the market price exceeds the ceiling price for all contract months through 2015, the maximum additional shipment volume would be 748,200 metric tons. These contracts will be settled monthly. We had no fixed price financial contracts to purchase aluminum at June 30, 2006 or December 31, 2005.

Table of Contents

CENTURY ALUMINUM COMPANY
Notes to Consolidated Financial Statements - (continued)

Additionally, to mitigate the volatility of the natural gas markets, we enter into financial purchase contracts, accounted for as cash flow hedges, which settle in cash in the period corresponding to the intended usage of natural gas.

Natural Gas Financial Purchase Contracts as of:

(Thousands of DTH)

	June 30, 2006	December 31, 2005
2006	2,500	1,680
2007	780	780
2008	480	480
Total	3,760	2,940

Based on the fair value of our financial sales contracts for primary aluminum and financial purchase contracts for natural gas that qualify as cash flow hedges as of June 30, 2006, an accumulated other comprehensive loss of \$76,238 is expected to be reclassified as a reduction to earnings over the next 12 month period.

The forward financial sales and purchase contracts are subject to the risk of non-performance by the counterparties. However, we only enter into forward financial contracts with counterparties we determine to be creditworthy. If any counterparty failed to perform according to the terms of the contract, the accounting impact would be limited to the difference between the contract price and the market price applied to the contract volume on the date of settlement.

8. Supplemental Cash Flow Information

	Six months ended June 30,	
	2006	2005
Cash paid for:		
Interest	\$ 20,273	\$ 13,514
Income tax	31,448	2,975
Cash received for:		
Interest	300	415
Income tax refunds	577	--
Non-cash investing activities:		
Accrued Nordural expansion costs	\$ (1,918)	\$ 7,192

9. Asset Retirement Obligations

The reconciliation of the changes in the asset retirement obligations is as follows:

	For the six months ended June 30, 2006	For the year ended December 31, 2005
--	---	---

Beginning balance, ARO liability	\$	11,808	\$	17,232
Additional ARO liability incurred		1,332		1,849
ARO liabilities settled		(1,474)		(3,330)
Accretion expense		851		1,370
FIN 47 adoption		--		(5,313)
Ending balance, ARO liability	\$	12,517	\$	11,808

Table of Contents

CENTURY ALUMINUM COMPANY
Notes to Consolidated Financial Statements - (continued)

10. Recently Adopted Accounting Standards

We adopted SFAS No. 151, "Inventory Costs" in the first quarter of 2006. This Statement amends the guidance in Accounting Research Bulletin No. 43, Chapter 4, "Inventory Pricing" to clarify the accounting treatment for certain inventory costs. In addition, the Statement requires that the allocation of production overheads to the cost of conversion be based on the normal capacity of the production facilities. The adoption of SFAS No. 151 did not impact our financial position and results of operations.

11. New Accounting Standard

In July 2006, the FASB issued FASB Interpretation ("FIN") No. 48, "Accounting for Uncertainty in Income Taxes." FIN No. 48 clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with SFAS No. 109, "Accounting for Income Taxes." It prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. This Interpretation also provides guidance on derecognition, classification, interest, and penalties, accounting in interim periods, disclosure, and transition.

The Interpretation was issued to provide consistent criteria to recognize, derecognize, and measure benefits related to income taxes. SFAS No. 109 contains no specific guidance on how to address uncertainty in accounting for income tax assets and liabilities. Disclosure provisions of the Interpretation will provide more information about the uncertainty in income taxes and liabilities.

The Interpretation will be effective for our 2007 fiscal year. We are currently assessing the Interpretation and have not yet determined the impact of adopting FIN No. 48 on our financial position and results of operations.

12. Comprehensive Income and Accumulated Other Comprehensive Income (Loss)*Comprehensive Income:*

	Six months ended June 30,	
	2006	2005
Net income (loss)	\$ (95,771)	\$ 52,474
Other comprehensive income (loss):		
Net unrealized (gain) loss on financial instruments, net of tax of \$37,319 and \$(8,762), respectively	(66,647)	15,205
Net amount reclassified to income, net of tax of \$(21,625) and \$(9,413), respectively	38,249	16,354
Comprehensive income (loss)	\$ (124,169)	\$ 84,033

Components of Accumulated Other Comprehensive Loss:

June 30, 2006

December 31, 2005

Edgar Filing: CENTURY ALUMINUM CO - Form 10-Q

Unrealized loss on financial instruments, net of tax of \$65,471 and \$49,776	\$	(116,856)	\$	(88,458)
Minimum pension liability adjustment, net of tax of \$1,665		(2,960)		(2,960)
Accumulated other comprehensive loss	\$	(119,816)	\$	(91,418)

13. Earnings Per Share

The following table provides a reconciliation of the computation of the basic and diluted earnings per share:

	For the three months ended June 30,			2006			2005		
	Income	Shares	Per-Share	Income	Shares	Per-Share	Income	Shares	Per-Share
Net income	\$ 45,800			\$ 40,744					
Basic EPS:									
Income applicable to common shareholders	45,800	32,419	\$ 1.41	40,744	32,140	\$ 1.27			
Effect of Dilutive Securities:									
Plus:									
Options	--	99		--	56				
Service-based stock awards	--	93		--	--				
Assumed conversion of convertible debt	490	1,686		--	--				
Diluted EPS:									
Income applicable to common shareholders with assumed conversion	\$ 46,290	34,297	\$ 1.35	\$ 40,744	32,196	\$ 1.27			

	For the six months ended June 30,			2006			2005		
	Income	Shares	Per-Share	Income	Shares	Per-Share	Income	Shares	Per-Share
Net income (loss)	\$ (95,771)			\$ 52,474					
Basic EPS:									
Income (loss) applicable to common shareholders	(95,771)	32,341	\$ (2.96)	52,474	32,099	\$ 1.63			
Effect of Dilutive Securities:									
Plus:									
Options	--	--		--	63				
Diluted EPS:									
Income (loss) applicable to common shareholders with assumed conversion	\$ (95,771)	32,341	\$ (2.96)	\$ 52,474	32,162	\$ 1.63			

Options to purchase 384,372 and 276,913 shares of common stock were outstanding during the periods ended June 30, 2006 and 2005, respectively. There were 98,500 unvested shares of service-based stock outstanding during the period ended June 30, 2006. Based on the average price for our common stock in the three months ended June 30, 2006, we would have been required to issue approximately 1,686,000 shares upon an assumed conversion of our convertible debt. For the three month period ending June 30, 2006, 25,000 options were excluded from the calculation of diluted EPS because the option exercise prices were greater than the average market price of the underlying common shares. For the six month period ending June 30, 2006 all options, service-based stock, and shares to be issued upon the assumed conversion of our convertible debt were excluded from the calculation of diluted EPS because of their antidilutive effect on earnings per share.

Service-based stock for which vesting is based upon continued service is not considered issued and outstanding shares of common stock until vested. However, the service-based stock is considered a common stock equivalent and therefore was included in average common shares outstanding for diluted earnings per share computations, if they had a dilutive effect on earnings per share. Our goal-based performance share units are not considered common stock equivalents until it becomes probable that performance goals will be obtained.

16. Condensed Consolidating Financial Information

Our 7.5% Senior Notes due 2014, and 1.75% Convertible Senior Notes due 2024 are guaranteed by each of our material existing and future domestic subsidiaries, except for Nordural US LLC. These notes are not guaranteed by our foreign subsidiaries (such subsidiaries and Nordural US LLC, collectively the “Non-Guarantor Subsidiaries”). During the second quarter of 2005, Century Kentucky became a guarantor subsidiary. In the periods presented prior to the current reporting period, Century Kentucky was classified with the Non-Guarantor Subsidiaries. Our policy for financial reporting purposes is to allocate corporate expenses or income to subsidiaries. For the three months ended

Edgar Filing: CENTURY ALUMINUM CO - Form 10-Q

June 30, 2006 and June 30, 2005, we allocated total corporate income (expense) of \$149 and \$2,505 to our subsidiaries, respectively. For the six months ended June 30, 2006 and June 30, 2005, we allocated total corporate income (expense) of (\$3,452) and \$1,986 to our subsidiaries, respectively. Additionally, we charge interest on certain intercompany balances.

The following summarized condensed consolidating balance sheets as of June 30, 2006 and December 31, 2005, condensed consolidating statements of operations for the three and six months ended June 30, 2006 and June 30, 2005 and the condensed consolidating statements of cash flows for the three months ended June 30, 2006 and June 30, 2005 present separate results for Century, the Guarantor Subsidiaries and the Non-Guarantor Subsidiaries.

This summarized condensed consolidating financial information may not necessarily be indicative of the results of operations or financial position had Century, the Guarantor Subsidiaries or the Non-Guarantor Subsidiaries operated as independent entities.

CENTURY ALUMINUM COMPANY
Notes to Consolidated Financial Statements - (continued)

17. Subsequent Events

On July 29, we received a 72-hour Notice of Termination of Extension Agreement and Intent to Strike the Employer from the United Steelworkers, which represents the 580 hourly workers at the Ravenswood facility. Based on the USWA's notice to strike, we completed an orderly shut down of one of the four potlines at the Ravenswood facility. On August 1, 2006, Century and the United Steelworkers jointly announced that they reached a tentative agreement on a restructured offer. As a result, the USWA rescinded the 72 hour notice to strike and extended the current labor contract to permit a ratification vote on the tentative agreement. On August 4, 2006, the membership of the United Steelworkers Local 5668 voted to ratify a three-year labor agreement covering the hourly workers at the Ravenswood facility. Following the ratification of the labor contract, we began the process of restarting the shutdown potline. Based on preliminary information, the restart is expected to cost approximately \$4,000 and we estimate that it will take up to three months to achieve full production on that line and in the plant.

As a result of the potline shutdown at Ravenswood, we delivered force majeure notices to Alcan and Glencore and reduced deliveries under the Alcan Metal Agreement and the Glencore Metal Agreement II. Until full production resumes at the Ravenswood facility, we will continue to deliver reduced volumes under the Alcan Metal Agreement and the Glencore Metal Agreement II.

Table of Contents

FORWARD-LOOKING STATEMENTS - CAUTIONARY STATEMENT UNDER THE PRIVATE SECURITIES REFORM ACT OF 1995.

This Quarterly Report on Form 10-Q contains forward-looking statements. We have based these forward-looking statements on current expectations and projections about future events. Many of these statements may be identified by the use of forward-looking words such as “expects,” “anticipates,” “plans,” “believes,” “projects,” “estimates,” “intends,” “could,” “would,” and “potential,” and similar words. These forward-looking statements are subject to risks, uncertainties and assumptions including, among other things, those discussed under Part I, Item 2, “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” and Part I, Item 1, “Financial Statements and Supplementary Data,” and:

- Our high level of indebtedness reduces cash available for other purposes and limits our ability to incur additional debt and pursue our growth strategy;
- The cyclical nature of the aluminum industry causes variability in our earnings and cash flows;
- The loss of a customer to whom we deliver molten aluminum would increase our production costs;
- Glencore International AG (together with its subsidiaries, “Glencore”) owns a large percentage of our common stock and has the ability to influence matters requiring shareholder approval;
- We could suffer losses due to a temporary or prolonged interruption of the supply of electrical power to one or more of our facilities, such interruptions could be caused by unusually high demand, blackouts, equipment failure, natural disasters or other catastrophic events;
- Due to volatile prices for alumina and electricity, the principal cost components of primary aluminum production, our production costs could be materially impacted if we experience changes to or disruptions in our current alumina or power supply arrangements, production costs at our alumina refining operation increase significantly, if we are unable to obtain economic replacement contracts for power for those portions of our power requirements that are currently unpriced, or if we are subject to significant fuel cost adjustments under our existing power contracts;
- By expanding our geographic presence and diversifying our operations through the acquisition of bauxite mining, alumina refining and additional aluminum reduction assets, we are exposed to new risks and uncertainties that could adversely affect the overall profitability of our business;
- Changes in the relative cost of certain raw materials and energy compared to the price of primary aluminum could affect our margins;
- Most of our employees are unionized and any labor dispute or failure to successfully renegotiate an existing labor agreement could materially impair our ability to conduct our production operations at our unionized facilities;
- We are subject to a variety of existing environmental laws that could result in unanticipated costs or liabilities;
- We may not realize the expected benefits of our growth strategy if we are unable to successfully integrate the businesses we acquire; and
- We cannot guarantee that our subsidiary Nordural will be able to complete its ongoing expansions in the time forecast or without significant cost overruns or that we will be able to realize the expected benefits of the ongoing

expansions.

We believe the expectations reflected in our forward-looking statements are reasonable, based on information available to us on the date of this filing. However, given the described uncertainties and risks, we cannot guarantee our future performance or results of operations and you should not place undue reliance on these forward-looking statements. We undertake no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. When reading any forward-looking statements in this filing, the reader should consider the risks described above and elsewhere in this report as well as those described in our Annual Report on Form 10-K for the year ended December 31, 2005. Given these uncertainties and risks, the reader should not place undue reliance on these forward-looking statements.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Recent Developments

Labor Agreement with USWA at Ravenswood Ratified

On July 29, we received a 72-Hour Notice of Termination of Extension Agreement and Intent to Strike the Employer from the United Steelworkers of America ("USWA"), which represents the 580 hourly workers at the Ravenswood facility. On August 1, 2006, Century and the United Steelworkers jointly announced that they reached a tentative agreement on a restructured offer. As a result, the USWA rescinded the 72 hour notice to strike and extended the current labor contract to permit a ratification vote on the tentative agreement. On August 4, 2006, the membership of the United Steelworkers Local 5668 voted to ratify a three-year labor agreement covering the hourly workers at the Ravenswood facility.

Potline Shutdown and Restart at Ravenswood

Based on the USWA's notice to strike, we completed an orderly shut down of one of the four potlines at the Ravenswood facility. Following the ratification of the labor contract, we began the process of restarting the shutdown potline. Based on preliminary information, the restart is expected to cost approximately \$4.0 million and we estimate that it will take up to three months to achieve full production on that line and in the plant.

As a result of the strike notice and subsequent potline shutdown at Ravenswood, we delivered force majeure notices to Alcan and Glencore and reduced deliveries under the Alcan Metal Agreement and the Glencore Metal Agreement II. Until full production resumes at the Ravenswood facility, we will continue to deliver reduced volumes under the Alcan Metal Agreement and the Glencore Metal Agreement II. Our power supply agreement with Appalachian Power Company allows us to reduce our monthly consumption of power to 60% of our contracted rate.

Labor Agreement with USWA at Hawesville Ratified

In May 2006, our Hawesville, Kentucky plant employees represented by the United Steelworkers ratified a four-year collective bargaining agreement that will extend through April 1, 2010. The agreement covers approximately 600 hourly workers at the Hawesville plant.

Nordural Expansion Schedule Accelerated

In April 2006, we announced that we will accelerate the further expansion of our Nordural facility from 220,000 metric tons per year ("mtpy") to 260,000 mtpy. The construction of the expansion is expected to be completed by the fourth quarter of 2007. We had previously announced that Orkuveita Reykjavíkur ("OR") had agreed to deliver the power for the additional expansion by late 2008. Landsvirkjun, Iceland's national power company, has agreed on an interim basis to deliver power to facilitate the early startup of the expansion beginning in July 2007 until power is available from OR in late 2008.

Alumina Supply Contract with Glencore

Effective April 26, 2006, Century entered into a three year supply contract with Glencore for the supply of alumina. Glencore will supply approximately 330,000 metric tons per year of alumina beginning January 1, 2007 through December 31, 2009. The contract pricing will be variable, based on the LME price for primary aluminum.

Coal Tar Pitch Supplier declares force majeure

On July 20, 2006, the coal tar pitch supplier for our Ravenswood and Hawesville smelters declared a force majeure for the coal tar pitch supply contracts for those smelters. As a result, we expect to receive reduced quantities of pitch in the near future and possibly a reduction in the quality of the pitch received. The reduction is not expected to have a significant impact on operations in the near term. However, a prolonged shortage could deplete our inventory which could significantly impact future operations unless we can purchase additional coal tar pitch supplies economically. The duration of the production shortfall is not known at this time.

Table of Contents**Helguvik Power memorandum of understanding signed**

In furtherance of an action plan to evaluate the possible construction of a new aluminum smelter in the vicinity of Helguvik, Iceland, approximately 30 miles from the city of Reykjavik, Nordural signed a memorandum of understanding (“MOU”) to purchase electrical energy. The agreement was reached with the two major Icelandic geothermal power producers, Hitaveita Sudurnesja (“HS”) and OR. Under the agreement, power will be supplied to the new Helguvik plant in stages, beginning with an initial phase of up to 250 MW, which will support production capacity of up to 150,000 metric tons per year (mtpy). HS will provide up to 150 MW in this initial stage, and OR will supply up to 100 MW. Electricity delivery for this first phase is targeted for 2010. The MOU provides for a total of 435 MW, which will ultimately provide power for a 250,000 mtpy facility. The agreement is subject to the satisfaction of certain conditions.

Joint Venture with Minmetals Aluminum Company

In May 2006, we entered into a joint venture agreement with Minmetals Aluminum Company to explore the potential of developing a bauxite mine and associated 1.5 million mtpy alumina refining facility in Jamaica.

The first stage of the project, a pre-feasibility stage, will assess the quality and quantity of bauxite reserves. This stage is expected to take up to 18 months. If this stage is successful, a full feasibility study would follow. The parties estimate that the mine and alumina refinery could be operational within three years following the completion of the feasibility study.

New Executive Vice President and General Counsel

Effective May 1, 2006, Robert R. Nielsen succeeded Gerald J. Kitchen as executive vice president, general counsel and secretary. Mr. Kitchen retired April 30, 2006. Mr. Kitchen, who joined Century in 1995 prior to our initial public offering, will continue to work for us on a contract basis.

Results of Operations

The following discussion reflects our historical results of operations.

Century’s financial highlights include:

	Three months ended June 30,		Six months ended June 30,	
	2006	2005	2006	2005
	(In thousands, except per share data)			
Net sales:				
Third-party customers	\$ 356,242	\$ 243,329	\$ 654,715	\$ 490,754
Related party customers	49,734	39,927	98,207	77,898
Total	\$ 405,976	\$ 283,256	\$ 752,922	\$ 568,652
Net income (loss)	\$ 45,800	\$ 40,744	\$ (95,771)	\$ 52,474
Earnings (loss) per common share:				
Basic	\$ 1.41	\$ 1.27	\$ (2.96)	\$ 1.63
Diluted	\$ 1.35	\$ 1.27	\$ (2.96)	\$ 1.63

Net sales: Net sales for the three months ended June 30, 2006 increased \$122.7 million or 43% to \$406.0 million. Higher price realizations for primary aluminum in the second quarter 2006, due to improved London Metal Exchange ("LME") prices for primary aluminum, contributed \$95.8 million to the sales increase. Additional sales volume contributed \$26.9 million to the sales increase. Direct shipments were 3.6 million pounds more than the previous year period due to increased smelter production. Toll shipments were 35.5 million pounds more than the previous year period due to ongoing Nordural expansion capacity coming on-stream during the current quarter.

Net sales for the six months ended June 30, 2006 increased \$184.3 million or 32% to \$752.9 million. Higher price realizations for primary aluminum in the first half of 2006, due to improved London Metal Exchange ("LME") prices for primary aluminum, contributed \$150.6 million to the sales increase. Additional sales volume contributed \$33.7 million to the sales increase. Direct shipments were 8.6 million pounds more than the previous year period due to increased smelter production. Toll shipments were 39.5 million pounds more than the previous year period due to ongoing Nordural expansion capacity coming on-stream during the current period.

Table of Contents

Gross profit: Gross profit for the three months ended June 30, 2006 increased \$62.7 million or 138% to \$108.0 million from \$45.3 million for the same period in 2005. Improved price realizations on direct shipments, net of increased market based alumina costs, improved gross profit by \$64.4 million. Improved price realizations on toll shipments, net of Nordural power cost increases, improved gross profit by \$10.7 million. Increased shipment volume contributed \$9.4 million in additional gross profit. Partially offsetting these gains were \$21.8 million in net cost increases during the current quarter comprised of: increased power and natural gas costs at our U.S. smelters, \$8.2 million; increased costs for Gramercy alumina, \$5.3 million; increased costs for maintenance, materials and supplies, \$2.8 million; increased net amortization and depreciation charges, \$3.1 million; other spending increases, \$2.4 million.

Gross profit for the six months ended June 30, 2006 increased \$87.6 million or 90% to \$184.5 million from \$96.9 million for the same period in 2005. Improved price realizations on direct shipments, net of increased market based alumina costs, improved gross profit by \$101.6 million. Improved price realizations on toll shipments, net of Nordural power cost increases, improved gross profit by \$15.9 million. Increased shipment volume contributed \$10.1 million in additional gross profit. Partially offsetting these gains were \$40.0 million in net cost increases during the six month period comprised of: increased power and natural gas costs at our U.S. smelters, \$16.8 million; increased costs for Gramercy alumina, \$12.3 million; increased costs for maintenance, supplies and materials, \$9.0 million; increased net amortization and depreciation charges, \$4.2 million. Other spending decreases of \$2.3 million offset these spending increases.

Selling, general and administrative expenses: Selling, general and administrative expenses for the three months ended June 30, 2006 increased \$0.3 million to \$8.4 million from the same period in 2005. Increased expenses of \$1.3 million due to the adoption of SFAS 123R, "Share-Based Payment" were offset by net decreases in expenses of \$1.0 million in other selling, general and administrative expenses.

Selling, general and administrative expenses for the six months ended June 30, 2006 increased \$3.7 million to \$20.5 million from the same period in 2005 primarily due to adoption of SFAS No. 123(R), "Share-Based Payment."

Interest expense, net: Interest expense for the three months ended June 30, 2006 increased \$2.4 million to \$8.6 million from the same period in 2005 due to increased interest on the Nordural debt.

Interest expense for the six months ended June 30, 2006 increased \$2.5 million to \$15.2 million from the same period in 2005 due to increased interest on the Nordural debt.

Net loss on forward contracts: Net loss on forward contracts for the three months ended June 30, 2006 was \$30.5 million as compared to a net gain on forward contracts of \$24.5 million for the same period in 2005. The loss and gain reported for the three month periods ended June 30, 2006 and 2005, were primarily a result of mark-to-market adjustments associated with our long term financial sales contracts with Glencore that do not qualify for cash flow hedge accounting.

Net loss on forward contracts for the six months ended June 30, 2006 was \$317.2 million compared to a net gain on forward contracts of \$0.1 million for the same period in 2005. The loss and gain reported for the six month periods ended June 30, 2006 and 2005, were primarily a result of mark-to-market adjustments associated with our long term financial sales contracts with Glencore that do not qualify for cash flow hedge accounting.

Tax provision: Our recorded income tax expense for the three months ended June 30, 2006 was \$19.1 million. Tax expense of \$17.9 million was recorded for the same period in 2005. The change in the income tax provision was primarily a result of the change in pre-tax income.

Our recorded income tax benefit for the six months ended June 30, 2006 was \$65.2 million. Tax expense of \$22.7 million was recorded for the same period in 2005. The change in the income tax provision was primarily a result of the change in pre-tax loss.

Table of Contents

Equity in earnings of joint ventures: Equity in earnings from the Gramercy and St. Ann Bauxite Ltd. (“SABL”) investments were \$4.3 million for the three months ended June 30, 2006 compared to \$3.5 million for the same period in 2005. These earnings represent our share of profits from third party bauxite, hydrate and chemical grade alumina sales.

Equity in earnings from the Gramercy and SABL investments were \$7.5 million for the six months ended June 30, 2006 compared to \$6.9 million for the same period in 2005. These earnings represent our share of profits from third party bauxite, hydrate and chemical grade alumina sales.

Liquidity and Capital Resources

Our statements of cash flows for the six months ended June 30, 2006 and 2005 are summarized below:

	Six months ended June 30,	
	2006	2005
	(dollars in thousands)	
Net cash provided by operating activities	\$ 67,290	\$ 58,724
Net cash used in investing activities	(120,561)	(126,426)
Net cash provided by financing activities	64,694	58,708
Net change in cash and cash equivalents	\$ 11,423	\$ (8,994)

Net cash from operating activities in the first six months of 2006 was \$67.3 million due to improved market conditions as discussed above, were partially offset by increases in working capital.

Our net cash used in investing activities for the six month period ended June 30, 2006 was \$120.6 million, primarily a result of the ongoing expansion of the Nordural facility. The remaining net cash used in investing activities consisted of capital expenditures to maintain and improve plant operations and cash placed on deposit to support future energy purchases. During the six month period ended June 30, 2005, we used cash for the Nordural expansion project and for capital expenditures to maintain and improve plant operations. In addition, we made a payment of \$7.0 million to Southwire in connection with the 2001 acquisition of the Hawesville facility. We were required to make post-closing payments of up to \$7.0 million if the LME price exceeded specified levels during any of the seven years following closing. The payment was made in April 2005.

Net cash provided by financing activities during the first six months of 2006 was \$64.7 million. We increased our borrowings under Nordural’s \$365.0 million senior term loan facility by \$69.0 million. We also received proceeds from the issuance of common stock of \$3.0 million related to the exercise of stock options and excess tax benefits from share-based compensation of \$1.1 million, which were offset by repayments on our revolving credit facility of \$8.1 million and on our long-term debt of \$0.3 million. During the six months ended June 30, 2005, we borrowed \$145.4 million under Nordural’s new term loan facility, used cash of \$83.0 million to retire the Nordural Senior Term Loan, the Senior Secured First Mortgage Loan and the Landsvirkjun Power Contract Debt, and paid \$4.6 million in financing fees. We also received proceeds from the issuance of common stock of \$1.0 million related to the exercise of stock options.

Liquidity

Our principal sources of liquidity are cash flow from operations, available borrowings under Nordural's term loan facility and our revolving credit facility. We believe these sources will provide sufficient liquidity to meet working capital needs, fund capital improvements, and provide for debt service requirements. As of June 30, 2006, Nordural had borrowing availability of \$74.0 million under their \$365.0 million term loan facility. At June 30, 2006, we had borrowing availability of \$99.1 million under our revolving credit facility, subject to customary covenants. We issued two letters of credit totaling \$0.8 million in June 2006. Other than the letters of credit issued, we had no other outstanding borrowings under the Credit Facility as of June 30, 2006. We could issue up to a maximum of \$25.0 million in letters of credit under the Credit Facility.

Table of Contents

We are party to fixed price financial sales contracts for primary aluminum with Glencore. In the event of a material adverse change in our creditworthiness, Glencore has the option to require a letter of credit, or any other acceptable security or collateral for outstanding balances on these contracts.

On August 4, 2006, Moody's Investors Service upgraded our public debt rating to Ba3 from B1.

Our principal uses of cash are operating costs, payments of principal and interest on our outstanding debt, payments on our derivative contracts, the funding of capital expenditures and investments in related businesses, working capital and other general corporate requirements.

Capital Resources

Capital expenditures for the six months ended June 30, 2006 were \$116.6 million, \$109.0 million of which was for the expansion project at Nordural, with the balance principally related to upgrading production equipment, maintaining facilities and complying with environmental requirements. Exclusive of the Nordural expansion, we anticipate capital expenditures of approximately \$15.0 to \$20.0 million in 2006. The Nordural expansion will require approximately \$143.0 million of capital expenditures in 2006 to complete the expansion to 220,000 mtpy. We expect to spend approximately an additional \$30 million in 2006 for the expansion from 220,000 mtpy to 260,000 mtpy. At June 30, 2006, we had outstanding capital commitments related to the Nordural expansion of approximately \$88.8 million. Our cost commitments for the Nordural expansions may materially change depending on the exchange rate between the U.S. dollar and certain foreign currencies, principally the Euro and the Icelandic krona.

In May 2006, we purchased foreign currency options with a notional value of \$41.6 million to hedge our foreign currency risk in the Icelandic krona associated with a portion of the capital expenditures from the ongoing Nordural expansion project to 260,000 mtpy. The option contracts, which are designated as cash flow hedges and qualify for hedge accounting under SFAS 133, have maturities through November 2007. The critical terms of the contracts match those of the underlying exposure.

As of June 30, 2006, the fair value of the foreign currency options of \$1.5 million was recorded in other assets. Accumulated other comprehensive income net of taxes includes an unrealized loss of \$0.6 million related to the foreign currency options.

Other Contingencies

Our income tax returns are periodically examined by various tax authorities. We are currently under audit by the Internal Revenue Service ("IRS") for the tax years through 2002. In connection with such examinations, the IRS has raised issues and proposed tax deficiencies. We are reviewing the issues raised by the IRS and have filed an administrative appeal within the IRS, contesting the proposed tax deficiencies. We believe that our tax position is well-supported and, based on current information, do not believe that the outcome of the tax audit will have a material impact on our financial condition or results of operations.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Commodity Price Sensitivity

We are exposed to changes in the price of primary aluminum. We manage our exposure to fluctuations in the price of primary aluminum by selling aluminum at fixed prices for future delivery and through financial instruments, as well

as by purchasing alumina and power under supply contracts with prices tied to the same indices as our aluminum sales contracts (the LME price of primary aluminum). Our risk management activities do not include trading or speculative transactions. The following table shows our forward priced sales as a percentage of our estimated production capacity.

31

Table of Contents*Forward Priced Sales as of June 30, 2006*

	2006 (1)(2)	2007(2)	2008 (2)	2009 (2)	2010 (2)	2011-2015 (2)
Base Volume:						
Pounds (000)	197,267	374,565	240,745	231,485	231,485	826,733
Metric tons	89,479	169,900	109,200	105,000	105,000	375,000
Percent of capacity	24%	22%	14%	13%	13%	9%
Potential additional volume (2):						
Pounds (000)	27,778	111,113	220,903	231,485	231,485	826,733
Metric tons	12,600	50,400	100,200	105,000	105,000	375,000
Percent of capacity	3%	7%	12%	13%	13%	9%

(1) The forward priced sales in 2006 exclude July 2006 shipments to customers that are priced based upon the prior month's market price.

(2) Certain financial contracts included in the forward priced sales base volume for the period 2006 through 2015 contain clauses that trigger potential additional sales volume when the market price for a contract month is above the base contract ceiling price. These contracts will be settled monthly and, if the market price exceeds the ceiling price for all contract months through 2015, the potential sales volume would be equivalent to the amounts shown above.

Apart from the forward sales contracts described in Note 7 of the Notes to the Consolidated Financial Statements, we had forward delivery contracts to sell 79,526 metric tons and 107,546 metric tons of primary aluminum at June 30, 2006 and December 31, 2005, respectively. Of these forward delivery contracts, we had fixed price commitments to sell 3,879 metric tons and 4,643 metric tons of primary aluminum at June 30, 2006 and December 31, 2005, respectively, of which, 186 metric tons at December 31, 2005 were with Glencore (none as of June 30, 2006).

Primary Aluminum Financial Sales Contracts as of:

	(Metric Tons)					
	June 30, 2006			December 31, 2005		
	Cash Flow Hedges	Derivatives	Total	Cash Flow Hedges	Derivatives	Total
2006	73,000	12,600	85,600	142,750	51,000	193,750
2007	119,500	50,400	169,900	119,500	50,400	169,900
2008	9,000	100,200	109,200	9,000	100,200	109,200
2009	--	105,000	105,000	--	105,000	105,000
2010	--	105,000	105,000	--	105,000	105,000
2011-2015	--	375,000	375,000	--	375,000	375,000
Total	201,500	748,200	949,700	271,250	786,600	1,057,850

Substantially all of the contracts accounted for as derivatives contain clauses that trigger additional volume when the market price for a contract month is above the contract ceiling price. If the market price exceeds the ceiling price for all contract months through 2015, the maximum additional shipment volume would be 748,200 metric tons. These contracts will be settled monthly. We had no fixed price financial contracts to purchase aluminum at June 30, 2006 or December 31, 2005.

Additionally, to mitigate the volatility of the natural gas markets, we enter into financial purchase contracts, accounted for as cash flow hedges, which settle in cash in the period corresponding to the intended usage of natural gas.

Table of Contents**Natural Gas Financial Purchase Contracts as of:**

(Thousands of DTH)

	June 30, 2006	December 31, 2005
2006	2,500	1,680
2007	780	780
2008	480	480
Total	3,760	2,940

On a hypothetical basis, a \$100 per ton increase in the market price of primary aluminum is estimated to have an unfavorable impact of \$12.9 million after tax on accumulated other comprehensive income for the contracts designated as cash flow hedges, and \$47.9 million on net income for the contracts designated as derivatives, for the period ended June 30, 2006 as a result of the forward primary aluminum financial sales contracts outstanding at June 30, 2006.

On a hypothetical basis, a \$1.00 per DTH decrease in the market price of natural gas is estimated to have an unfavorable impact of \$2.4 million after tax on accumulated other comprehensive income for the period ended June 30, 2006 as a result of the forward natural gas financial purchase contracts outstanding at June 30, 2006.

Our metals and natural gas risk management activities are subject to the control and direction of senior management. The metals related activities are regularly reported to the Board of Directors of Century.

This quantification of our exposure to the commodity price of aluminum is necessarily limited, as it does not take into consideration our inventory or forward delivery contracts, or the offsetting impact on the sales price of primary aluminum products. As of June 30, 2006, approximately 48% of our production for the second half of 2006 is hedged by the alumina contracts, Nordural electrical power and tolling contracts, and/or by fixed price forward delivery and financial sales contracts.

Nordural. Presently, all of Nordural's revenues are derived from toll conversion agreements whereby Nordural converts alumina provided into primary aluminum for a fee based on the LME price for primary aluminum. Because of these agreements, Nordural's revenues are subject to the risk of decreases in the market price of primary aluminum; however, Nordural is not exposed to increases in the price for alumina, the principal raw material used in the production of primary aluminum. In addition, under its power contract, Nordural purchases power at a rate which is a percentage of the LME price for primary aluminum, providing Nordural with a natural hedge against downswings in the market for primary aluminum.

Nordural is exposed to foreign currency risk due to fluctuations in the value of the U.S. dollar as compared to the Euro and the Icelandic krona. Nordural's revenues and power costs are based on the LME price for primary aluminum, which is denominated in U.S. dollars. There is no currency risk associated with these contracts. Nordural's labor costs are denominated in Icelandic krona and a portion of its anode costs are denominated in Euros. As a result, an increase or decrease in the value of those currencies relative to the U.S. dollar would affect Nordural's operating margins.

Nordural does not currently have financial instruments to hedge commodity price risk. Nordural may hedge such risks in the future, including the purchase of aluminum put options. We have entered into currency options to mitigate a portion of our foreign currency exposure to the Icelandic krona for the capital plant expansion. These cash flow currency hedges were entered into to mitigate the foreign currency risk associated with the capital expenditures from the 40,000 mtpy expansion project to 260,000 mtpy at Nordural, see the discussion in the Capital Resources section of

Management's Discussion and Analysis.

Interest Rates

Interest Rate Risk. Our primary debt obligations are the \$250.0 million of outstanding senior unsecured notes, \$175.0 million of outstanding convertible notes, the \$7.8 million in industrial revenue bonds (“IRBs”), borrowings under our revolving credit facility, and the Nordural debt, including \$291.0 million of borrowings under its term loan facility. Because the senior unsecured notes and convertible notes bear a fixed rate of interest, changes in interest rates do not subject us to changes in future interest expense with respect to these borrowings. Borrowings under our revolving credit facility are at variable rates at a margin over LIBOR or the bank base rate, as defined in the credit agreement. There were no outstanding borrowings on our revolving credit facility at June 30, 2006. The IRBs bear interest at variable rates determined by reference to the interest rate of similar instruments in the industrial revenue bond market. Borrowings under Nordural's term loan facility bear interest at a margin over the applicable Eurodollar rate. At June 30, 2006, we had \$300.8 million of variable rate borrowings. A hypothetical one percentage point increase in the interest rate would increase our annual interest expense by \$3.0 million, assuming no debt reduction. We do not currently hedge our interest rate risk, but may do so in the future through interest rate swaps which would have the effect of fixing a portion of our floating rate debt.

Our primary financial instruments are cash and short-term investments, including cash in bank accounts and other highly rated liquid money market investments and government securities.

Table of Contents**Item 4. Controls and Procedures**

a. Evaluation of Disclosure Controls and Procedures

As of June 30, 2006, we carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and our Chief Financial Officer, of the effectiveness of our disclosure controls and procedures. Based upon that evaluation, our management, including the Chief Executive Officer and the Chief Financial Officer, concluded that our disclosure controls and procedures were effective.

b. Changes in Internal Control over Financial Reporting

During the quarter ended June 30, 2006, there have not been any changes in our internal controls over financial reporting that would have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION**Item 1A. Risk Factors**

We may be unable to restore full production at our Ravenswood facility as forecasted .

On August 1, 2006, we completed an orderly shut down of one of the four potlines at the Ravenswood facility in anticipation of a planned strike of USWA workers at the Ravenswood facility. As a result of the potline shutdown at Ravenswood, we delivered force majeure notices to Alcan and Glencore and reduced deliveries under the Alcan Metal Agreement and the Glencore Metal Agreement II. Until full production resumes at the Ravenswood facility, we will continue to deliver reduced volumes under the Alcan Metal Agreement and the Glencore Metal Agreement. Although we expect to return to full production at Ravenswood in three months, it may take longer than anticipated and the cost may exceed current estimates, which would further impact the profitability of our operations at the Ravenswood facility.

Item 4. Submission of Matters to a Vote of Stockholders

The Annual Meeting of our stockholders was held June 9, 2006. The following are the results of stockholder voting on proposals that were presented and adopted:

1. The election of the following directors for a term of three (3) years expiring at the Annual Meeting of Stockholders to be held in 2009:

	For	Withheld
Logan W. Kruger	29,402,452	714,952
Willy R. Strothotte	29,380,953	736,451
Jarl Berntzen	30,035,878	81,526

2. To ratify the appointment of Deloitte & Touche LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2005.

	For	Against	Withheld
	29,750,794	361,778	4,832

Ratify Deloitte and
Touche LLP
