M.B.A. HOLDINGS, INC. AND SUBSIDIARY

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)
SIX MONTHS ENDED APRIL 30, 2004 AND 2003

1. BASIS OF PRESENTATION

In accordance with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X, the accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information. Accordingly, not all of the information and notes required by generally accepted accounting principles for complete financial statements are included. Accounting principles assume the continuation of the Company as a going concern. The Company's auditors, in their opinion on the financial statements for the year ended October 31, 2003, expressed concern about this uncertainty. The accompanying financial statements do not include any adjustment that might arise from the outcome of this assumption. In the opinion of management, the unaudited interim financial statements furnished herein reflect all adjustments (which include only normal, recurring adjustments), necessary for a fair statement of the

Edgar Filing: M B A HOLDINGS INC - Form 10-Q

results for the interim periods presented. Operating results for the six months ended April 30, 2004 may not be indicative of the results that may be expected for the year ending October 31, 2004. For further information, please refer to the consolidated financial statements and notes thereto included in the Company's Form 10-K for the year ended October 31, 2003.

2. NET LOSS PER SHARE

Net loss per share is calculated in accordance with SFAS No. 128, Earnings Per Share that requires dual presentation of basic and diluted EPS on the face of the statements of loss and requires a reconciliation of the numerator and denominator of basic and diluted EPS calculations. Basic loss per common share is computed on the weighted average number of shares of common stock outstanding during each period. Loss per common share assuming dilution is computed on the weighted average number of shares of common stock outstanding plus additional shares representing the exercise of outstanding common stock options using the treasury stock method. As the company has a net loss for the six months ended April 30, 2004 and 2003, the average number of outstanding shares for basic and dilutive net loss per share is 20,742,804 (post split) in 2004 and 19,801,870 (post split) in 2003. The 10-1 forward stock split is reflected. The dilutive effect of the voting rights of the Class A preferred stock and employee stock options are not reflected because dilutive effects are not reflected in loss situations.

3. OTHER COMPREHENSIVE GAIN (LOSS)

In March 2004, the Company completed the liquidation of its available-for-sale investments. Accordingly, there were no unrealized gains reported in the current period. Other comprehensive gain for the three months ended April 30, 2003 resulted from unrealized gains of \$851 on available-for-sale investments. During the six months ended April 30, 2004 and 2003, there were \$0 and \$877 of unrealized gains on available-for-sale investments, respectively.

4. INVESTMENTS

At October 31, 2003, all of the Company's investments are classified as available-for-sale and are stated at estimated fair value determined by the quoted market price. At April 30, 2004, the Company has sold all such investments and realized all gains and losses.

5. INCOME TAXES

There is no current provision for income taxes in the periods ended April 30, 2004 and 2003 as the Company has recovered all available federal income taxes paid in previous years. Similar provisions for recoverable state income taxes were not provided, as Arizona law does not allow for loss carry back.

Deferred income taxes are recorded based on differences between the financial statement and tax basis of assets and liabilities based on income tax rates currently in effect. As the realization of deferred tax assets is considered

7

doubtful, a valuation allowance has been provided to eliminate that asset in both the current quarter and the year ended October 31, 2003.

6. RELATED PARTY TRANSACTIONS

The Company leases its office space from Cactus Family Investments, LLC on a month-to-month basis. The managing member of Cactus Family Investments, LLC is Gaylen Brotherson, the Chief Executive Officer. Rent expense for this office space was \$73,204 and \$85,452 for the three months ended April 30, 2004 and 2003

Edgar Filing: M B A HOLDINGS INC - Form 10-Q

and \$147,220 and \$152,443.13 for the six months ended April 30, 2004 and 2003, respectively. The current lease expired on December 31, 2003 and is renewed monthly by agreement between the parties.

From time to time, Gaylen Brotherson, the Chief Executive Officer, directly and through an affiliated company, has loaned the Company funds to enable it to meet its operating expenses. The loans are evidenced by a note that matures on demand and bears interest at a rate of 6%. As security for the loan, the Company has granted the affiliated company, Cactus Family Investments, LLC, a security interest in all of its unencumbered assets.

7. RECAPITALIZATION

In March 2004, the Company increased its authorized but unissued preferred stock from 20,000,000 shares to 100,000,000 shares, changed the preferred stock from \$.001 par value to no par value, \$.0001 stated value and created a Class A Preferred Stock consisting of 2,000,000 shares that are assigned the voting power of one hundred (100) voting shares for each Preferred Stock share. Further, each Preferred Stock share is convertible into one hundred (100) Common Stock shares at the option of the holder thereof. The Company subsequently issued the 2,000,000 shares of Class A Preferred Stock to Cactus Family Investments, LLC, an affiliated company (See Note 6 above), in repayment of \$200,000 of rent and other debt due to that entity.

In addition, the Company increased the number of its authorized common shares to 800,000,000, changed the par value of those shares to no par value with a stated value of \$.0001 and increased its issued Common Stock shares to Twenty Million Six Hundred Seventeen Thousand Eight Hundred Seventy shares by means of a 10 - 1 forward stock split.

As of April 30, 2004, the Company holds 316,000 (post split) shares of its' common stock in the Treasury. These shares were purchased for the purpose of retirement and bonuses to employees. Management will explore additional uses of the stock.

8. EMPLOYEE STOCK OPTION PLAN

On April 7, 2004, the Company adopted the M.B.A. Holdings. Inc. Employee Stock Incentive Plan for the Year 2004 which has the purpose of advancing the business and development of the Company and its shareholders by affording employees of the Company the opportunity to acquire an equity interest in the Company. Under the terms of the plan, employees are granted options to purchase Company stock at specified prices. The options vest to the employees over time and are exercisable at the employees' discretion. The plan is administered by the Compensation Committee of the Board of Directors and is authorized to grant options for up to 48,000,000 shares of the common stock of the Company. As of April 30, 2004, the Company has granted options for 4,250,000 shares to selected employees. Compensation expense of \$6,984 was recorded in connection with this transaction.

On that same date, the Company also adopted the M.B.A. Holdings, Inc. Non-Employee Directors and Consultants Retainer Stock Plan for 2004. The Company seeks to motivate, retain and attract highly competent directors and consultants to advance the business and development of the Company and its shareholders by affording directors and consultants the opportunity to acquire an equity interest in the Company. Under the terms of the plan, directors and consultants are granted options to purchase Company stock at specified prices in return for their services to the Company. The options include a deferral option that allows the director/consultant to defer delivery of the stock retainer. The plan is administered by the Compensation Committee of the Board of Directors and is authorized to grant options for up to 12,000,000 shares of the common stock of the Company. As of April 30, 2004, the Company has granted options for 1,100,000

Edgar Filing: M B A HOLDINGS INC - Form 10-Q

shares to selected directors/consultants. Compensation expense of \$44,000 was recorded in connection with this transaction

8

9. COMMITMENTS AND CONTINGENCIES

The Company is subject to claims and lawsuits that arise in the ordinary course of business, consisting principally of alleged errors and omissions in connection with the sale of insurance and personnel matters and of disputes over outstanding accounts. The Company is currently involved in a dispute with one of its associated insurance companies over alleged wrongdoing, an alleged breach of its Administrative Agreement and over reimbursement for claims and cancellation expenditures. The Company maintains a \$40,000 reserve for claims arising in the ordinary course of business and believes that this reserve is sufficient to cover the costs of such claims. On the basis of information presently available, management does not believe the settlement of any such claims or lawsuits will have a material adverse effect on the financial position, results of operations or cash flows of the Company.

The Company had available a \$200,000 working capital line of credit which was renewed on April 30, 2003 and expired in February, 2004. Borrowings under the line of credit bear interest at a variable rate per annum equal to the sum of 3.15 % plus the thirty day dealer commercial paper rate, as published in The Wall Street Journal and are secured by the Company's investments. The line of credit was secured by a pledge of the Company's investments in marketable securities. The line of credit was repaid and cancelled upon its maturity.

10. NEW ACCOUNTING PRONOUNCEMENTS

In December 2002, the FASB issued Statement of Financial Accounting Standards No. 148, "Accounting for Stock-Based Compensation - Transition and Disclosure" ("SFAS 148"). SFAS 148 amends the transition provisions of FASB No. 123, "Accounting for Stock-Based Compensation" ("SFAS 123"), for entities that voluntarily change to the fair value method of accounting for stock-based compensation. SFAS 148 also amends the disclosure provisions of SFAS 123 to require prominent disclosure about the effects on reported net income of an entity's accounting policy decision with respect to stock-based employee compensation and amends APB Opinion No. 28, "Interim Financial Reporting" ("APB 28") to require disclosure about such effects in interim financial information. The amendments to APB 28 for interim disclosure of pro forma results are effective for interim periods beginning after December 15, 2002, which for the Company is the three months ended April 30, 2003. The adoption had no significant impact on the Company's financial position or results of operations.

In April 2003, the FASB issued Statement of Financial Accounting Standards No. 149, "Amendment of Statement 133 on Derivative Instruments and Hedging Activities" ("SFAS 149"). SFAS 149 amends the provisions of FASB No. 133, "Accounting for Derivative Instruments and Hedging Activities" by requiring that contracts with similar characteristics be accounted for similarly. SFAS 149 is effective for contracts entered into after June 30, 2003. The adoption had no significant impact on the Company's financial position or results of operations.

In May 2003, the FASB issued Statement of Financial Accounting Standards No. 150, "Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity" ("SFAS 150"). SFAS 150 establishes standards for how an issuer classifies and measures certain financial instruments with characteristics of both liabilities and equity. SFAS 150 is effective for financial instruments entered into after May 31, 2003. The adoption had no significant impact on the Company's financial position or results of operations.

In December 2003, the FASB issued Interpretation No. 46 (R), "Consolidation of

Edgar Filing: M B A HOLDINGS INC - Form 10-Q

Variable Interest Entities" (FIN 46) which requires the consolidation of variable interest entities, as defined. FIN 46 is applicable to financial statements to be issued by the Company after 2002; however, disclosures are required currently if the Company expects to consolidate any variable interest entities. The Company does not currently believe that any material entities will be consolidated with the Company as a result of FIN 46.

11. RECLASSIFICATIONS

Certain prior period amounts have been reclassified to conform to the current period presentation.

9

ITEM 2 MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with the financial statements and footnotes that appear elsewhere in this report.

FORWARD-LOOKING STATEMENTS:

This report on Form 10-Q contains forward-looking statements. Additional written or oral forward-looking statements may be made by us from time to time in filings with the Securities and Exchange Commission or otherwise. The words "believe," "expect," "anticipate," and "project," and similar expressions identify forward-looking statements, which speak only as of the date the statement was made. Such forward-looking statements are within the meaning of that term in section 27A of the Securities and Exchange Act of 1934, as amended. Such statements may include, but not be limited to, projections of revenues, income or loss, capital expenditures, plans for future operations, financing needs or plans, the impact of inflation, and plans relating to our products or services, as well as assumptions relating to the foregoing. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise.

Forward-looking statements are inherently subject to risks and uncertainties, some of which cannot be predicted or quantified. Future events and actual results could differ materially from those set forth in, contemplated by, or underlying the forward-looking statements. Statements in this Report, including the Notes to Condensed Consolidated Financial Statements (Unaudited) and "Management's Discussion and Analysis of Financial Condition and Results of Operations," describe factors, among others, that could contribute to or cause such differences.

CRITICAL ACCOUNTING POLICIES

The Company has prepared the accompanying unaudited condensed financial statements in conformity with accounting principles generally accepted in the United States for interim financial information. The preparation of the financial statements requires the use of judgement and estimates that affect the reported amounts of revenues, expenses, assets and liabilities. The Company has adopted accounting policies and practices that are generally accepted in the industry in which it operates. The Company believes the following are its most critical accounting policies that affect significant areas and involve management's judgement and estimates. If these estimates differ significantly from actual results, the impact to the consolidated financial statements may be material.

Revenue Recognition

The Company receives a single commission for the sale of each mechanical

Edgar Filing: M B A HOLDINGS INC - Form 10-Q

breakdown insurance policy ("MBI") that compensates it both for the effort in selling the policy, and for providing administrative claims services as required. The Company has no direct liability for claims losses on MBI. It acts as the issuing insurance company's agent in these transactions. The Company apportions the commissions received in a manner that it believes is proportionate to the values of the services provided. The revenues relating to policy sales are recorded in income when the policy information is received and approved by the Company. The revenues related to providing administrative claims services are deferred and recognized in income on a straight-line basis over the actual life of the policy.

A vehicle service contract ("VSC") is a contract for certain defined services between the Company and the purchaser. The Company reinsures its obligations by obtaining an insurance policy that guarantees its obligations under the contract. In accordance with Financial Accounting Standards Board Technical Bulletin 90-1, "Accounting for Separately Priced Extended Warranty and Product Maintenance Contracts", revenues and costs associated with the sales of these contracts are deferred and recognized in income on a straight-line basis over the actual life of the contracts.

10

Income Taxes

There is no current provision for income taxes in the periods ended April 30, 2004 and 2003 as the Company has recovered all available federal income taxes paid in previous years. Similar provisions for recoverable state income taxes were not provided, as Arizona law does not allow for loss carry back.

Deferred income taxes are recorded based on differences between the financial statement and tax basis of assets and liabilities based on income tax rates currently in effect. As the realization of deferred tax assets is considered doubtful, a valuation allowance has been provided to eliminate that asset in both the current period and the year ended October 31, 2003.

RESULTS OF OPERATIONS

COMPARISON OF THREE MONTHS ENDED APRIL 30, 2004 AND 2003

NET REVENUES

Net revenues for the fiscal quarter ended April 30, 2004 totaled \$1,326,000, down \$96,000 from the \$1,421,000 recognized in the quarter ended April 30, 2003. The 6.8% decline is the result of continuing competitive pressures being experienced by the Company from vehicle manufacturers and other competitors.

OPERATING EXPENSES

Operating costs decreased to \$1,569,000 in the quarter ended April 30, 2004 down \$173,000 from the \$1,743,000 expended in the quarter ended April 30, 2003. The decrease is the result of a continuation of the Company's actions to curtail expenses wherever possible and of a 7.7% decrease in the cost of the mix of products sold.

OTHER INCOME (EXPENSE)

Total other income declined in the quarter ended April 30, 2004 by approximately \$33,000 over the comparable 2003 quarter. The 2003 quarter included the receipt of the 2% fee that was negotiated as a part of the service termination agreement with two insurance companies in July 2002. The comparable 2004 Quarter included significant interest expense incurred as a result of borrowings on the line of

Edgar Filing: M B A HOLDINGS INC - Form 10-Q

credit and from related parties.

INCOME TAXES

There was no provision for income taxes in the quarter ended April 30, 2004 because the Company has already recovered all federal income taxes paid in prior years to the extent available. In the quarter ended April 30, 2003, provision was made for the tax consequences arising from changes in the temporary differences created by the fluctuation in the deferred revenue and deferred cost balances.

COMPARISON OF THE SIX MONTHS ENDED APRIL 30, 2004 AND 2003

NET REVENUES

The downward trend in revenues that has been noted in prior periods continued in the six months ended April 30, 2004 with net revenues down \$202,000 from the comparable six months in 2003. The number of contracts and policies sold continues to decline as a result of continuing competitive pressure from the vehicle manufacturers and others.

OPERATING EXPENSES

Operating costs decreased to \$3,079,000 in the six months ended April 30, 2004 down \$368,000 from the \$3,447,000 expended in the six months ended April 30, 2003. The decrease is the result of staff reductions and expense curtailments that have been instituted to protect the Company during this extended sales downturn.

11

OTHER INCOME (EXPENSE)

Other income (expense) rose in the six months ended April 30, 2004 by approximately \$36,000 over the comparable 2003 period. As explained above, the six months in 2003 contained the receipt of the 2% fee that was negotiated as a part of the service termination agreement with two insurance companies in July 2002. The comparable 2004 half year contained this same fee but also included an additional \$24,000 of interest expense incurred as a result of line of credit borrowings and the accrual of interest due to affiliates.

INCOME TAXES

Provision for income taxes in the six months ended April 30, 2004 were recorded in recognition of changes in the temporary differences created by the fluctuation in the deferred revenue and deferred cost balances.

LIQUIDITY AND CAPITAL RESOURCES

The Company incurred significant losses during the past fiscal year and has experienced additional losses in prior years. A related party has advanced funds on demand notes and through the deferral of rent payments in order to overcome working capital deficiencies during the year. In January 2004, the Company granted the related party, Cactus Family Investments, LLC, a security interest in all of its unencumbered assets. There is no assurance that additional advances will be made if additional working capital is required. The lack of continuing working capital infusions could affect future operations. Accordingly, the accompanying financial statements have been prepared assuming the Company will continue as a going concern. The Company has incurred a loss in the first two quarters of 2004 and expects such losses to continue further into 2004. The Company continues to pursue cost cutting measures, to relieve it of

Edgar Filing: M B A HOLDINGS INC - Form 10-Q

obligations to provide uncompensated services and to seek additional business to reduce working capital needs.

COMPARISON OF APRIL 30, 2004 AND OCTOBER 31, 2003

Working capital at April 30, 2004 consisted of current assets of \$4,004,000 and current liabilities of \$5,857,000, or a current ratio of 0.68 : 1. At October 31, 2003 the working capital ratio was 0.75 : 1 with current assets of \$4,825,000 and current liabilities of \$6,412,000. The negative trend continues as the Company has absorbed additional operating losses. Loans from the Company's principal shareholder have funded continuing operations.

Deferred Revenues decreased \$61,000 and Deferred Direct Costs decreased \$119,000 from balances at October 31, 2003. Deferred revenues consist of unearned VSC gross sales and estimated administrative service fees related to MBI policies. Deferred direct costs are costs that are directly related to the sale of VSCs. The change results from the overall decline in sales that has been experienced over the last several quarters.

The Company collects funds throughout the year and remits a portion of the funds to the insurance companies. As of April 30, 2004, the amount owed to insurance companies decreased \$61,000 over the balance at October 31, 2003. The change is due to differences in the timing of payments remitted to the insurance companies.

ITEM 3 QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Since the Company does not underwrite its own policies, a change in the current rates of inflation is not expected to have a material effect on the Company. Nevertheless, the precise effect of inflation on operations cannot be determined.

Under the terms of the Company's VSC contracts that are reinsured with highly rated insurance companies such as Fireman's Fund Insurance Company and Heritage RRG, the Company is primarily responsible for liability under these contracts. In the unlikely event that the third party reinsuring companies were unable to meet their contractual commitments to the Company, the Company itself would be required to perform under the contracts. Such an event could have a material adverse effect on the Company's operations.

12

The Company does not have any outstanding debt or long-term receivables. Therefore, it is not subject to significant interest rate risk.

ITEM 4. CONTROLS AND PROCEDURES

In the quarter and six months ended April 30, 2004, we did not make any significant changes in, nor take any corrective actions regarding our internal controls or other factors that could significantly affect these controls. We periodically review our internal controls for effectiveness and we have performed an evaluation of disclosure controls and procedures during this quarter. We will conduct a similar evaluation each quarter.

PART II - OTHER INFORMATION

Item 1 Legal Proceedings

The Company is subject to claims and lawsuits that arise in the ordinary course of business, consisting principally of alleged errors and omissions in

Edgar Filing: M B A HOLDINGS INC - Form 10-Q

connection with the sale of insurance and personnel matters and of disputes over outstanding accounts. The Company is currently involved in a dispute with one of its associated insurance companies over alleged wrongdoing, an alleged breach of its Administrative Agreement and over reimbursement for claims and cancellation expenditures. The Company maintains a \$40,000 reserve for claims arising in the ordinary course of business and believes that this reserve is sufficient to cover the costs of such claims. On the basis of information presently available, management does not believe the settlement of any such claims or lawsuits will have a material adverse effect on the financial position, results of operations or cash flows of the Company.

Item 2 Changes in Securities and Use of Proceeds

- a.) Securities sold - On March 22, 2004 the Company issued an additional 2,000,000 shares of its Class A Preferred Stock of 2,000,000 shares. Each Preferred Stock share is assigned the voting power of one hundred (100) voting shares of Common Stock. Further, each Preferred Stock share shall be convertible into one hundred (100) Common Stock shares at the option of the holder thereof. In addition, the Company authorized a 10 for 1 forward stock split of its Common Stock.
- b.) Underwriters and other purchasers -The new Class A Preferred shares were exchanged with Cactus Family Investments, LLC, an affiliated company, in repayment of \$200,000 of debt owing to that affiliate.
- c.) Consideration - The shares were issued at a price of \$.10 per share, which was determined to be the market price on the date of issuance. There was no underwriting discount or commission paid.
- d.) Exemption from registration claimed - The Securities Act of 1933 Section 4 (2).
- e.) Terms of conversion or exercise - Each Preferred Stock share shall be convertible into one hundred (100) Common Stock shares at the option of the holder thereof.
- f.) Use of proceeds - The Company converted \$200,000.00 of the indebtedness due to an affiliated company by issuing the new convertible preferred shares to Cactus Family Investments, LLC.

Item 3 Defaults upon Senior Securities

None

Item 4 Submissions of Matters to a Vote of Security Holders

On March 16, 2004, pursuant to Nevada statute section 78.315, the holders of a majority of the outstanding common stock shares of M.B.A. Holdings, Inc., a Nevada corporation (the "Corporation"), waived the required notice of a shareholder meeting and consented to an increase in its authorized Common Stock shares to Eight Hundred Million (800,000,000), change the par value of each Common Stock share to no par value shares with a stated value \$0.0001 per share and to an increase in its authorized Preferred Stock shares to One Hundred Million (100,000,000) shares and change the par value of each Common Stock share to no par value shares with a stated value \$0.0001 per share.
