17. RISKS AND FINANCIAL INSTRUMENTS (CONSOLIDATED)

The main risk factors to which the Company and its subsidiaries are exposed reflect strategic/operating and economic/financial aspects. Strategic/operating risks (such as behavior of demand, competition, technological innovation, and significant structural changes in industry, among others) are addressed by the Company's management model. Economic/financial risks mainly reflect customer default, macroeconomic variables such as exchange and interest rates, as well as the characteristics of the financial instruments used by the Company. These risks are managed through control policies, specific strategies and determination of limits, as follows:

- Customer default - These risks are managed by specific policies for accepting customers and analyzing credit, and are mitigated by diversification of sales. As of March 31, 2005, the subsidiaries Oxiteno S.A. - Indústria e Comércio and Oxiteno Nordeste S.A. - Indústria e Comércio maintained R\$2,014 (R\$2,077 as of December 31, 2004) and the subsidiaries of Ultragaz Participações Ltda. maintained R\$25,044 (R\$23,062 as of December 31, 2004) of allowance for doubtful accounts.
- Interest rates - The Company and its subsidiaries adopt conservative policies to obtain and invest funds and to minimize the cost of capital. Cash investments of the Company and its subsidiaries are comprised substantially of transactions linked to the CDI (interbank deposit rate), as described in Note 4. A portion of the financial assets is intended for foreign currency hedges, as shown below. Borrowings originate mainly from National Bank for Economic and Social Development (BNDES) and foreign currency financing, as mentioned in Note 13.
- Exchange rate - The Company's subsidiaries use hedge (mainly US\$ to CDI) instruments available in the financial market to cover assets and liabilities in foreign currency, so as to reduce the exchange variation effects on their results. Such hedges have amounts,

periods and indexes equivalent to the assets and liabilities in foreign currency, to which they are linked. Shown below are the assets and liabilities in foreign currency, translated into Brazilian reais at March 31, 2005:

19. CONTINGENCIES AND COMMITMENTS (CONSOLIDATED)

a) Labor, civil and tax lawsuits

The Petrochemical Industry Labor Union, of which the employees of Oxiteno Nordeste S.A. - Indústria e Comércio are members, filed an action against the subsidiary in 1990, demanding compliance with the adjustments established in collective labor agreements, in lieu of the salary policies effectively followed. At the same time, the employers' association proposed a collective bargaining for the interpretation and clarification of the fourth clause of the agreement. Based on the opinion of its legal counsel, who analyzed the last decision of the Federal Supreme Court (STF) on the collective bargaining, as well as the status of the individual lawsuit of the subsidiary, management believes that a reserve is not necessary as of March 31, 2005.

The subsidiary Companhia Ultragaz S.A. is a defendant in lawsuits relating to damages caused by an explosion in 1996 in a shopping mall in the city of Osasco, state of São Paulo. Such lawsuits involve: (i) individual suits filed by victims of the explosion claiming damages from Ultragaz for the loss of economic benefit and for pain and suffering; (ii) lawsuit for reimbursement of expenses by the administration company of the shopping mall and its insurance company; and (iii) class action suit seeking indemnification for material damages and pain and suffering for all the victims injured and deceased. The subsidiary believes that it has presented evidence that defective gas pipes in the shopping mall caused the accident and that Ultragaz's on-site LPG storage facilities did not contribute to the explosion. It has obtained a favorable judgment in all lawsuits which have been judged to date. The subsidiary has insurance for this contingency; the uninsured amount is R\$36,720. The Company did not record any provision for this amount, since it believes the probability of loss is remote.

18

Ultrapar Participações S.A. and Subsidiaries

The Company and its subsidiaries obtained injunctions to pay PIS and COFINS (taxes on revenues) without the changes introduced by Law No. 9,718/98 in its original version. The ongoing questioning refers to the levy of these taxes on sources other than revenues. The unpaid amounts were recorded in the financial statements of the Company and its subsidiaries, totaling R\$34,572 (R\$33,699 as of December 31, 2004).

The main tax discussions of the Company and subsidiaries refer to the taxation of PIS and COFINS (as detailed in the preceding paragraph) and the taxation of income earned abroad (as stated in Note 9.a). The potential losses on these discussions are accrued in long-term liabilities as other taxes and deferred income and social contribution taxes, respectively.

The subsidiary Oxiteno S.A. - Indústria e Comércio recorded an accrual of R\$7,543 (R\$7,346 as of December 31, 2004) for an ICMS tax assessment under judgment at the administrative level. The subsidiary currently awaits a decision on its appeal filed in July 2004.

The subsidiary Utingás Armazenadora S.A. has been challenging in court ISS tax assessments issued by the municipal government of Santo André. Legal counsel of the subsidiary classifies the risk as low, since a significant portion of the lower court decisions was favorable to the subsidiary. The thesis defended by the subsidiary is supported by the opinion of a renowned tax specialist. The updated amount of the unaccrued

Edgar Filing: ULTRAPAR HOLDINGS INC - Form 6-K

contingency as of March 31, 2005 is R\$27,495 (R\$25,405 as of December 31, 2004). The Company and its subsidiaries have other ongoing administrative and judicial proceedings; legal counsel classified the risks of these proceedings as possible or remote and, therefore, no reserves for potential losses on these proceedings have been recorded.

b) Contracts

The subsidiary Terminal Químico de Aratu S.A - Tequimar has contracts with CODEBA - Companhia Docas do Estado da Bahia and Complexo Industrial Portuário Governador Eraldo Gueiros, in connection with their port facilities in Aratu and Suape, respectively. Such contracts establish minimum cargo movement of 1,000,000 tons per year for Aratu, effective through 2022, and 250,000 tons per year for Suape, effective through 2027. If annual movement is less than the minimum required, the subsidiary is required to pay the difference between the actual movement and the minimum contractual movement, using the port rates in effect at the date established for payment.

19

Ultrapar Participações S.A. and Subsidiaries

As of March 31, 2005, such rates were R\$3.67 and R\$3.44 per ton for Aratu and Suape, respectively. The subsidiary has met the minimum cargo movement limits since the inception of the contracts.

The subsidiary Oxiteno Nordeste S.A. - Indústria e Comércio has a supply contract with Braskem S.A., effective through 2012, which establishes a minimum consumption level of ethylene per year. The minimum purchase commitment and the actual demand for the years ended March 31, 2005 and 2004, expressed in tons of ethylene, are summarized below. Should the minimum purchase commitment not be met, the subsidiary would be liable for a fine of 40% of the current ethylene price for the quantity not purchased.

c) Insurance coverage for subsidiaries

The Company has appropriate insurance policies to cover several risks, including loss and damage from fire, lightning, explosion of any nature, windstorm, plane crash and electrical damage, among others, protecting the units and other branches of all subsidiaries. The estimated amount of insured assets is US\$160 million.

For the Oxiteno and Canamex units, there is also a loss of income insurance against losses from potential accidents related to their assets, in the amount of US\$118 million.

The civil liability insurance program covers all the Group companies, with a coverage of US\$150 million, for losses and damages from accidents caused by third parties, related to the commercial/industrial operations and/or distribution and sale of products and services.

Group life insurance, personal accident insurance, health insurance, domestic and international transportation insurance are also contracted.

20. STOCK COMPENSATION PLAN (CONSOLIDATED)

The Extraordinary Stockholders' Meeting held on November 26, 2003 approved a compensation plan for the management of the Company and its subsidiaries, which provides for: (i) the initial grant of usufruct of shares issued by the Company and held in treasury by the subsidiaries in which the beneficiaries are employed; and (ii) the transfer of the beneficial ownership of the shares after ten years of the initial grant provided that the professional relationship between the beneficiary and the Company and its subsidiaries is not interrupted. 21. EMPLOYEE BENEFITS AND PRIVATE PENSION PLAN (CONSOLIDATED)

The Company and its subsidiaries offer benefits to their employees, such as life insurance, health care and pension plan. In addition, loans for the acquisition of vehicles and personal computers are available to employees of certain subsidiaries. These benefits are recorded on the accrual basis and terminate at the end of the employment relationship.

In August 2001, the Company and its subsidiaries began to provide a defined contribution pension plan to their employees. This plan is managed by Ultraprev - Associação de Previdência Complementar. 11% of his/her salary. The sponsoring companies provide a matching contribution in an identical amount as the basic contribution. As participants retire, they may opt to receive monthly: (i) a percentage varying between 0.5% and 1.0% of the fund accumulated in their name at Ultraprev; or (ii) a fixed monthly amount which will deplete the fund accumulated in the participant's name over a period of 5 to 25 years. Accordingly, neither the Company nor its subsidiaries assume responsibility for guaranteeing the amounts and periods of receipt of the retirement benefit. As of March 31 2005, the Company and its subsidiaries contributed R\$1,192 (R\$956 as of March 31, 2004) to Ultraprev, which was charged to income for the year. The total number of participating employees as of March 31, 2005 was 5,640 (5,197 as of March 31, 2004), with no participants retired to date. Additionally, Ultraprev has 1 active participant and 32 former employees receiving defined benefits according to the policies of a previous plan.

(2) Performance Analysis:

Net Sales and Services: The consolidated net sales and services of Ultrapar in 1Q05 amounted to R\$1,137.0 million, an increase of 8% in relation to the same quarter in 2004.

Ultragas: The Brazilian LPG market saw a nominal reduction of 3% in 1Q05, compared to 1Q04, due to the lower number of working days in the period, consequence of the greater concentration of holidays in this first quarter. On a same number of working days basis, the market remained unchanged. Comparing the two first quarters, Ultragas's total sales volume decreased by 4%, a consequence of the fewer working days in the period and the restructuring of the network of dealers that began in 4Q04. Considering a similar working day comparison, Ultragas's sales volume presented a 2% reduction in the same period. In relation to 4Q04, the LPG market suffered seasonal reduction of 8%, while Ultragas sales volume fell by a lower rate - 6%. Net sales and services at Ultragas was 5% lower in 1Q05, in line with the reduction in sales volume, given that prices remained unchanged.

Oxiten: Oxiten's total sales volume amounted to 120,000 tons in 1Q05, an increase of 10% in relation to 1Q04, a period during which production was lower, due to a programmed shutdown in its Camaçari plant for a scheduled substitution of catalyzers, reducing the volume exported. Sales to the domestic market totaled 84,000 tons, an increase of 9% in relation to 1Q04, driven mainly by new contracts signed during 2004 and the increase in sales to the cosmetic and detergent segments. Sales outside Brazil amounted to 36,000 tons, an increase of 11% in relation to 1Q04, a consequence of winning new clients in Argentina and the expansion of 26% in sales volume at Canamex. In comparison to the last quarter in 2004, sales volume dropped by 6%, basically due to seasonal factors. Net sales and services totaled R\$422.8 million in 1Q05, an increase of 36% compared to 1Q04, principally as a consequence of:

23

Ultrapar Participações S.A. and Subsidiaries

(i) the increased sales volume; (ii) the improved sales mix, increasing export sales to Argentina, where prices are very close to those in the domestic market; and (iii) the rise in international commodity prices.

Ultracargo: Net sales and services totaled R\$54.3 million, corresponding to an increase of 21% in relation to 1Q04, the consequence of the increased volume of operations and contractual tariff readjustments. The increase in the volume of operations at Ultracargo in the first quarter of 2005 was largely a result of the new operations which begun in 2004, both in the area of storage, as well as transport.

Cost of Sales and Services: Ultrapar's cost of sales and services amounted to R\$878.2 million in 1Q05, an increase of 5% in relation to 1Q04.

Ultragas: The cost of sales and services in 1Q05 amounted to R\$583.1 million in 1Q05, 4% lower when compared to 1Q04, due principally to the decrease in sales volume in the period.

Oxiten: The cost of sales and services for Oxiten in 1Q05 totaled R\$270.8 million, an increase of 30% in relation to 1Q04, principally as a result of the increase in volume sold and the rise in the price of naphtha in the international market, which had an impact on the unit cost of ethylene.

27

Edgar Filing: ULTRAPAR HOLDINGS INC - Form 6-K

Ultracargo: The cost of services provided in 1Q05 amounted to R\$36.7 million, an increase of 32%, compared to 1Q04. This increase was due to the: (i) higher volume transported/stored; (ii) increase of 53% in depreciation, as a result of investments made; and (iii) increase in the unit cost of fuel, tires and maintenance parts.

Gross Profit: Ultrapar's 1Q05 gross profit was R\$258.8 million, 19% higher than the R\$216.8 million in the 1Q04. Compared with the 4Q04, gross profit dropped by 10%, mainly a consequence of reduced sales volume due to seasonal factors.

Selling, General and Administrative Expenses: In the quarter, Ultrapar recorded an increase of 10% in consolidated selling, general and administrative expenses, compared to the same period in 2004, amounting to R\$137.3 million.

24

Ultrapar Participações S.A. and Subsidiaries

Ultragaz: Selling, general and administrative expenses for Ultragaz amounted to R\$72.8 million in 1Q05, an increase of 4% in relation to 1Q04. This increase was due basically to higher personnel expenses, specially a consequence of the collective wage increases celebrated in March and September 2004 and a higher annual payment of employee profit-sharing.

Oxitenó: Selling, general and administrative expenses amounted to R\$52.1 million in the quarter, an increase of 17% compared to 1Q04. Sales expenses increased up 15% as a result of the 10% increase in volume sold and the higher domestic and international freight costs. Administrative expenses increased by 18% as a result of higher personnel expenses, due to: (i) collective wage increases celebrated in 2004; (ii) an increase in employee profit-sharing, in line with the improved performance of Oxitenó; and (iii) the increase of 7% in the workforce.

Ultracargo: Selling, general and administrative expenses at Ultracargo amounted to R\$13.5 million in 1Q05, an increase of 19% compared to 1Q04, principally due to the rise in personnel expenses, as a result of the collective wage increases celebrated in 2004 and the increase in the workforce due to the expansion in operations.

Operating Income: Ultrapar's operating income increased 31% compared with 1Q04. This increase came mainly from Oxitenó, where the operating income increased 73% between quarters, from R\$58.5 million in 1Q04 to R\$101.2 million in 1Q05. Oxitenó's good result was due principally to the higher sales volume, an improved sales mix - directing export sales to Argentina - and the increase in international prices. Compared to 4Q04, Ultrapar's operating income reduced by 13%, mainly due to seasonal factors.

Financial Income (Expense), Net: Ultrapar reported a 32% improvement in its financial results, represented by an expense of R\$8.8 million in 1Q05, compared to an expense of R\$13.0 million in 1Q04. The main factors behind the reduction in financial expenses were: (i) the reduction in net debt, of R\$135 million in 1Q04 to R\$18 million in 1Q05; and (ii) the reducing to zero of the rates of PIS and COFINS taxes on our financial revenues.

Other Nonoperating Income (Expense): In 1Q05 Ultrapar reported a nonoperating expense of R\$1.8 million, corresponding to an improvement of R\$1.0 million compared to 1Q04, and an improvement of R\$2.1 million in relation to 4Q04. This net nonoperating expense is primarily attributable to the scrapping of storage cylinders by Ultragaz.

Income and Social Contribution Taxes: Income and social contribution tax expenses amounted to R\$31.4 million in 1Q05 and to R\$27.7 million in 1Q04, in line with taxable results evolution. In addition, nontaxable revenues

28

Edgar Filing: ULTRAPAR HOLDINGS INC - Form 6-K

resulted in a R\$5.4 million benefit in the first quarter.

Benefit of Tax Holidays: Ultrapar are entitle to Federal tax benefits for its activities in the Northeast Region of Brazil, due to the Federal program for development of the region. In 1Q05, tax benefits amounted to R\$20.9 million, 56% higher that in 1Q04 and 29% lower than that in 4Q04, mainly composed of tax benefits of the Camaçari plant.

Net Income: Consolidated 1Q05 net income was R\$100.8 million, a 60% growth compared to 1Q04.

EBITDA: Ultrapar reported consolidated Earnings Before Interest, Taxes, Depreciation and Amortization (EBITDA) of R\$168.2 million in 1Q05, an increase of 23%, compared to 1Q04.

25

Ultrapar Participações S.A. and Subsidiaries

Ultragas: Ultragas reported EBITDA of R\$45.4 million, 21% lower than in the 1Q04, due principally to the 4% reduction in sales volume and a consequent lower scale in the dilution of expenses.

Oxiteno: Oxiteno ended 1Q05 with EBITDA of R\$111.4 million, soaring 63% when compared to 1Q04. In this period, EBITDA/ton jumped by 49%, from R\$623/ton in 1Q04 to R\$928/ton in 1Q05, despite the 8% appreciation in the Brazilian real against the U.S. dollar between the periods. Oxiteno's good result was due principally to the higher sales volume, an improved sales mix - directing export sales to Argentina - and the increase in international prices.

Ultracargo: Ultracargo reported EBITDA of R\$10.0 million in 1Q05, the same level as that reported in the same period in 2004.
