Resolution:

Item 2

Proposal: Please ratify the Company's 2004 earnings distribution plan.

Explanation: The Board of Directors has drafted the Company's 2004 earnings distribution plan as the table below in accordance with the Company Law and the Articles of Incorporation for your ratification.

Advanced Semiconductor Engineering, Inc.
2004 Earnings Distribution Plan

		Unit: NT\$
Amount available for distribution:		
Undistributed earnings from the previous year	\$	40,696,903
Plus: net income this year		4,209,689,445
		<hr/>
Total	\$	4,250,386,348
		<hr/>
Items of distribution:		
Appropriation of legal earnings reserve	\$	420,968,945
Appropriation of remuneration to Directors and Supervisors		75,720,000
Appropriation of bonus to employees		265,210,000
Distribution of bonus to Shareholders (Note 1)		3,289,769,120
Transfer of undistributed earnings to next year		198,718,283
		<hr/>
Total	\$	4,250,386,348
		<hr/>

Note 1: Shareholder bonus of NT\$3,289,769,120 appropriated this time includes NT\$0.8 for each share, of which NT\$0.1 was in cash for a total of NT\$411,221,140 and the remaining NT\$ 2,878,547,980 will be distributed by stock dividend (70 shares non-remunerative capitalization of earnings for each 1,000 shares.) In addition, the management plans to carry out capitalization of capital surplus of NT\$1,233,663,420, from which shareholders are appropriated 30 shares of non-remunerative capitalization of capital surplus for each 1,000 shares. In all, the amount of appropriated dividend this time totaled NT\$1.1 per share, including NT\$0.1 in cash and NT\$1 in stock. The above-mentioned appropriation of dividend and its ratio are calculated on the basis of 4,112,211,400 shares on the date of the board resolution. Subsequently, if due to exercise for conversion by GDR holders for stock, subscription of new shares through employee

- 5 -

stock option warrants, buybacks of company stocks by the management, or sale or cancellation of treasury stocks that affect the number of shares eligible for appropriation of dividend, dictating adjustment of the ratio of dividend appropriation, the shareholders' meeting will be asked to authorize the board to make the adjustment at its discretion.

Note 2: Employee bonus NT\$265,210,000 appropriated this time includes NT\$9,535,400 in cash and the remaining NT\$255,674,600 in stocks. New shares issued on the basis of capital increase from employee bonuses total 25,567,460 shares.

Note 3: In conjunction with the 2-in-1 new tax policy, appropriation of surplus this time appropriates the surplus of the most recent year as a priority.

Resolution:

Matters for Discussion

Item 1 (Proposed by the Board of Directors)

Proposal: Proposed issuance of new shares based on earnings, employee bonuses, and capitalization of capital surplus.

Explanation:

1. In Coordination with plant expansion plan, the Company plans to apply the appropriation of shareholder bonus of NT\$2,878,547,980 and employee bonus of NT\$255,674,600, totaling NT\$3,134,222,580, or 313,422,258 shares at NT\$10 par per share for capital.
2. In addition, appropriation of NT\$1,233,663,420 from capital surplus is made for capital. The afore-mentioned appropriated capital surplus shall, as a priority, be appropriated from the premium capital surplus due to our merger with the extinguished ASE (Chung Li) Inc. and ASE Material Inc generated prior to the combination that was not appropriated in 2004.
3. Measures concerning issuance of new shares: For the two items mentioned above, the planned capital increase totals NT\$4,367,886,000, or 436,788,600 shares. If calculated on the basis of 4,112,211,400 shares that are registered on the roster of shareholders on the date of the board resolution, shareholders will be given 70 shares of non-re munerative capital increase from surplus and 30 shares of stock dividend, totaling 100 shares for each 1,000 shares.

Subsequently, if due to exercise for conversion by GDR holders for stock, subscription of new shares through employee stock option warrant, buyback of company stocks by the management, or sale or cancellation of treasury stocks that affect the number of shares eligible for appropriation of dividend, dictating adjustment of the ratio of dividend appropriation, the shareholders' meeting will be asked to authorize the board to make the adjustment at its discretion. Where odd shares that are less than one share are concerned, shareholders may, within 5 days of the base date for appropriation of shares, manage to combine by themselves and make it a full share before filing the registration. If not, the odd shares will be paid in cash or be purchased by specific individuals as designated by the chairman. In addition, capital increase from employee bonuses, shall be dealt with by the Articles of Incorporation and Rules for Distribution of Bonus to Employees.

4. The rights and duties given to the new shares are identical to those of previously issued shares.
5. The ex-right determination date: After the Shareholders' Meeting has adopted it and the authorities concerned have approved it, the Board of Directors is fully authorized to separately set it.
6. Where matters concerning this merger are required, by the authorities concerned, to be changed or the objective environment requires the Company to change, the Board of Directors is fully authorized to handle such related matters.

Resolution:

- 7 -

Item 2 (Proposed by the Board of Directors)

Proposal: Revisions to the Articles of Incorporation

- Explanation:
1. In coordination with the needs of operation, part of the Company's Articles of Incorporation is recommended for revision.
 2. See Attachment 4 for the table of comparison of suggested revisions.

Resolution:

Item 3 (Proposed by the Board of Directors)

Proposal: To respond to the Company's future production capacity expansion plan, replenish operating funds, pay off bank loans or meet other funding needs of the Company's long-term development, and to make the fund raising vehicles more diverse and flexible, the Board proposes to authorize the Board of Directors to raise funds at an appropriate time by issuance of common stock for cash to participate in issuance of global depository receipts, by domestic issuance of common stock for cash, or by issuance of domestic/foreign convertible corporate bonds in light of the market condition and the Company's funding needs in accordance with the Articles of Incorporation, pertinent laws and various handling principles stated in the following explanation.

- Explanation:
1. The principles of authorizing the Board of Directors to carry out the issuance of new shares to participate in issuance of global depository receipts :

- (1) New shares issued to participate in issuance of global depository receipts this time shall be limited to 500,000,000 shares. The Shareholders' Meeting authorizes the Board of Directors and Chairperson to adjust the issuance within the aforesaid limit to stay in line with market situation, and place the entire issuance in one offering.
- (2) The price of shares issued this time for increase in capital in cash by issuing common shares for participation in the issuance of GDR shall be governed by the Self-discipline Rules Governing Fund-raising and Issuance of Securities Assisted by Member Underwrites issued by Chinese Securities Association, which stipulates that the price shall not be lowered than the closing price for the common share on domestic open market on the date the price is set. The issuer may select one of the closing prices for the common share on the first, third and fifth business day prior to the price-setting date and calculate the closing price for common share at the simple arithmetic average minus 90% of average stock price after ex-rights of the non-remunerative appropriated share. If there are changes in related domestic laws and regulations, the price-setting method may change accordingly. In view of the short and

- 8 -

volatile function of domestic stock price, the chairman of the board is authorized to adjust the actual issuance price within the above-prescribed scope in consultation with the underwriter, according to international practice, and in reference to international capital market, domestic stock price and the purchase condition so as to raise acceptance by overseas buyers. As such, the price-setting method for issuance of new shares should be reasonable. The deciding method for the price of the GDR issued this time is based on the fair price of common stock traded at the domestic open market, which allows original shareholders to purchase the common share at home at a price close to that for the GDR without bearing the foreign exchange risk and mobility risk. In other words, the interest of original shares has been taken of.

- (3) In accordance with Article 267 of the Company Law, 10% of the new issuance will be set aside for purchase by the Company's employees.

The remaining 90% will be publicly offered entirely in the form of global depository receipts as the original shareholders forfeit their rights of subscription according to Article 28-1 of the Securities and Exchange Law. For shares not subscribed by employees, the Board of Directors may contact specific parties for purchase or include them in the issuance of global depository receipts, depending on market needs.
- (4) The Board of Directors is authorized to determine the important particulars of this issuance of stock for cash, including issuance price, shares issued, issuing terms, source of funds, expected net proceeds, planned schedule, and expected benefits, and the global depository receipts issuance plan.
- (5) The Board of Directors is authorized to handle matters related to issuance of new shares after the issuance of stock for cash has been approved by the authorities concerned.
- (6) The Board of Directors is fully authorized to make changes to the issuing time, issuing terms, share issuance, issuance amount and other items in connection with this issuance of stock for cash and issuance of global depository receipts necessitated by the order of the authorities concerned, reevaluation of the operational plan, or the objective environment.
- (7) The Chairperson and his/her appointed representative are authorized to sign all documents in connection with this issuance of stock for cash and

issuance of global depository receipts on behalf of the Company, and handle all related matters.

- (8) The Board of Directors is fully authorized to handle matters not specified herein as provided by law.
2. The principles of authorizing the Board of Directors to issue new shares for raising funds in the domestic market:
- (1) New shares issued this time shall be limited to 500,000,000 shares.
 - (2) The new shares will have a par value of NT\$10 per share. The actual issuance price will be jointly decided by the Chairperson and underwriters in line with then market status and self-discipline Rules of issuance securities assisted by Member Underwrites issued by Chinses security Association. The new shares will be offered after the plan has been approved by the authorities concerned.
 - (3) This issuance of stock for cash of new shares will be carried out by book building. In accordance with Article 267 of the Company Law, 10% - 15% of the new issuance will be set aside for purchase by company employees. The remaining will be publicly offered entirely via book building as the original shareholders forfeit their rights of subscription according to Article 28-1 of the Securities and Exchange Law. For shares not subscribed by employees, the Board of Directors may contact specific parties for purchase.
 - (4) The Board of Directors is authorized to determine the important particulars in this issuance of stock for cash, including issuance price, shares issued, issuing terms, source of funds, expected net proceeds, planned schedule, and expected benefits. The Board of Directors is also fully authorized to make changes to the issuing plan in connection with this issuance of stock for cash necessitated by the order of the authorities concerned, reevaluation of the operational plan, or the objective environment.
 - (5) The Board of Directors is authorized to separately set the determination date after this issuance of stock for cash plan has been approved by the authorities concerned.
 - (6) The Board of Directors is fully authorized to make changes to the method of issuance as described in the preceding Subparagraph (3) necessitated by regulatory change or the objective environment.

-
- (7) The Board of Directors is fully authorized to handle matters not specified herein as provided by law.

3.

The principles of authorizing the Board of Directors to issue domestic/foreign convertible corporate bonds:

- (1) Shares for conversion: They shall be limited to shares reserved for conversion of corporate bonds at the time of issuance.
- (2) Time of issuance: It depends on funding needs of the Company and market status.
- (3) Coupon rate: In reference to market rate at the time of issuance and being reasonable.
- (4) Term of maturity: Depending on funding needs of the Company.
- (5) Issuance conditions: As advised by the underwriters and in compliance with relevant laws and regulations.
- (6) The Board of Directors is authorized to determine the issuing rules, expected net proceeds, planned schedule, and expected benefits in connection with the issuance of convertible bonds.
- (7) The Chairperson and his/her appointed representative are authorized to sign all documents in connection with this issuance of convertible bonds on behalf of the Company, and handle all related matters.
- (8) The Board of Directors is fully authorized by handle matters not specified herein as provided by law.

Resolution:

Item 4 (Proposed by the Board of Directors)

Proposal : Please discuss the proposal to authorize the Board of Directors to raise funds through private placement when the Company conducts the aforesaid issuance of common stock for cash to participate in issuance of global depository receipts, domestic issuance of common stock for cash, or issuance of domestic/foreign convertible corporate bonds in consideration of the actual market condition and assurance of feasibility and urgency in completing the fund raising to meet pressing funding needs.

Explanation: 1. In processing the issuance of common shares for participation in the issuance of GDR issued overseas for capital increase in cash or capital increase in cash at home or issuance of domestic or foreign convertible corporate bond, the Company may, for consideration of market condition and assurance of feasibility and urgency to raise the needed fund, request the Shareholder Meeting to authorize the Board of Directors to raise the fund by private placement as specified under Article 43-6 of the Securities Trading Act, which

2. Basis for price setting and rationale

- (1) Issuance of common shares from capital increase in cash for participation in the issuance of GDR by private placement or capital increase in cash by private placement
 - (1) The base price for private placement price is based on the closing price for the Company's GDR on the date the price is set/the closing price of the Company's common share or the prior business day or a period of time earlier (not to exceed 30 business days) of the Company's GDR/the average closing price for the Company's common shares. Where the price is not lowered than the scope of 80% of the base price, the Shareholder's Meeting will be requested to authorize the Board of Directors to decide for the private placement price in accordance with the market condition then prevailing.
 - (2) The private placement price is not lowered than the scope of 80% of the base price stems from the consideration that the Securities Trading Act has imposed restrictions on transfer securities by private placement. Moreover, after consultation with the Self-discipline Rules Governing Fund-raising and Issuance of Securities Assisted by Member Underwrites issued by Chinese Securities Association, hereinafter the Self-discipline Rules, which stipulates that the issuance price shall not be lowered than the closing prices for the common share on the first, third and fifth business day prior to the price-setting date and calculate the closing price for common share at the simple arithmetic average minus 70% of average stock price after ex-rights of the non-remunerative appropriated share closing price for the common share, it seems that the price set is fairly reasonable.
- (2) Domestic and foreign convertible corporate bond by private placement
 - (1) The private placement price for convertible corporate bond by private placement should not lower than the computed theoretic price minus 90% of the mobile discount. The Shareholder's Meeting is therefore requested to authorize the Board of Directors to set the price according to the prevalent market condition provided that the price is not below the par value. The various conditions for the theoretic price and convertible corporate bond by private placement mentioned above shall be calculated and set in accordance with Article 20 of the Self-discipline Rules. As to adjustment of the mobile discount, apart from the provisions set forth in the Self-discipline Rules, consideration must be given to the three-year no-transfer restriction imposed on securities by private placement. That is to say the adjustment should be based on the compound interest for a 3-year fixed-term deposit.
 - (2) The private placement price for convertible corporate bond by private placement should not lower than the computed theoretic price minus 90% of the mobile discount and it should not be below the par value. Since the Securities Trading Act has imposed a strict 3-year restriction on transfer of securities by private placement, the rule has affected the mobility of the secondary bond market. Consequently, apart from the requirements for pricing and compliance with the theoretic price calculation method for convertible corporate bond issued openly that the competent regulatory

agency has set, adjustment should also be based on the compound interest for a 3-year fixed-term deposit. The price-setting manner is mandatory and reasonable.

3. Selection method for specific individual

Article 43-6 of the Securities Trading Act shall apply.

4. The necessary reason for conducting private placement

In consideration of current capital market condition and the effectiveness and feasibility of raising fund as well as effective lowering capital cost and ensuring efficiency of capital raising, the management decides to apply to private placement for fund raising in accordance with the Company Law and Securities Trading Act and related laws and regulations.

5. If it has become necessary that the private placement requires implementation in phases due to actual needs, the Shareholder's Meeting is requested to authorize the Board of Directors to act in phases in accordance with the description as mentioned above within a year from the date the Board passed the resolution for private placement.

6. Three years after delivery of the securities by private placement, the Company may, in accordance with related laws and regulations, file the supplementary open issuance formalities for the said securities, including the common shares after conversion, and may further approach the competent regulatory agency for listing the said securities in the stock exchange or trading over the counter.

7. Any matters that are not mentioned herein with regard to the private placement this time, on the premises that they are not in violation of the law, should there be changes in law, opinion from the competent regulatory agency, or based on changes of market condition, impact brought upon by objective environment that dictates change or revision, the Shareholder's Meeting is requested to authorize the Board of Directors to act at its discretion.

Resolution:

- 13 -

Item 5 (Proposed the Board of Directors)

Proposal: Revision of restriction on investment in Mainland China

Explanation: 1. On July 11, 2000, resolution by the Shareholder's Meeting authorized the Board of Directors to handle investment in Mainland China provided that the amount involved is within the scope of 20% of the Company's paid-in capital net value, whichever is higher.

2. In coordination with the Company's operation and business needs, the management plans to revise the above-mentioned restrictions to the extent that the accumulated amount does not exceed the investment amount or ratio as set forth in government-announced Guidelines for Examination of Investment or Technical Cooperation on Mainland China where the amount of

investment is limited to 40% of the net value that is \$5 billion; 30% of the net value that is between \$5 billion and \$10 billion; 20% of the net value that is over \$10 billion. Therefore, the Board of Directors is authorized to handle the company's investment and technical cooperation in accordance with the government guidelines mentioned above.

Elections

Proposal: Election of replacement for director

Explanation: Director Liu Hsiao-ming, representing A.S.E. Enterprises Limited, tendered in his letter of resignation on personal reason to take effect as of March 31, 2005. Meanwhile A.S.E. Enterprises Limited has notified the Company in writing that as of March 31, 2005 when the said resignation takes effect, the company will not assign its representative to make up the remaining term of office of the directorship. Therefore, the said company recommend a replacement director be elected in the 2005 Shareholder's Meeting to fill up the remaining term of office until June 18, 2006.

Business Report

Business Report for 2004

In the journey of ASE Group development, 2004 is particularly a meaningful year for us. It marked the 20th anniversary. Besides, it was a year in which we began to be ahead of all of our competitors, becoming the world

largest professional IC packaging and testing firm with an absolute leading position in the industry. The combined revenues for the Group in 2004 reached a new record high NT\$81.7 billion, or an increase of 43% compared to 2003 while the after-tax net profit showed 160% increase to stand at NT\$4.2 billion, compared to NT\$2.7 billion in 2003. We may therefore say that 2004 was the best year in growth for revenue and profit ever since the company was organized.

Apart from the growth in revenue and profit, ASE Inc. continued to expand externally and intergrate internally. On the one hand, we have raised the synergy of the overall operation, for we had completed the merge of subsidiaries ASE (Chung Li) Inc. and ASE Material Inc. in 2004, thereby strengthening the Company's one-shop service to elevate operating performance by simplifying internal organizational architecture within the group. On the other hand, while internal integration was in progress, we did not slow down our expansion pace, as we continued to make investment in high-end packaging, testing and material. Meanwhile, we also acquired NEC's Yamagata Ltd., an IC packaging and testing plant in Yamagata Prefecture, Japan. The acquisition indicates the trend in Japan that Japanese semiconductor makers have now formally begun outsourcing service. To ASE Inc., the Yamagata plant is a strategic tactical platform in Japan area, as it provides the business opportunities that enables us to use the Yamagata facilities to seek outsourcing orders from Japanese semiconductor makers.

Operation Guidelines for 2005

Statistics have shown that investment in back-end productivity by IDM intergrated denice manufacturers clients has dropped massively. As such, growth of foundry business for the back-end IC packaging and testing in future will naturally surpass the growth of global semiconductor industry, let alone the advantage it has over foundries for wafers. At the time when forecast for future economic condition is uncertain, it is estimated IDM will sell the back-end packaging and testing plants or equipments accompanied with the orders. It indicates that the trend for outsourcing by IDM is quite clear and correct. Under the

- 16 -

outsourcing trend, ASE Inc. is bound to be favored with more and more orders from IDM on the strength of its advantageous large-scale packaging facilities for foundry business.

Since growth in the semiconductor market has tended to be slow, growth of ASE Inc. in 2005 will be far less than the close to 50% growth seen in 2004. Nonetheless, there will be growth in 2005 compared to 2004. As to investment, despite continued expansion and investment will be made in 2005, it is estimated that capital outlay for 2005 will be sliced to more than half of the amount the Company spent in 2004. This is so on the ground that growth in the semiconductor industry in 2005 will be rather slow compared to the year before and the need to fully and effectively implement use of existing productivity. In the circumstances when the current productivity has been utilized to reach some 80%, the most important operation goal of the management for 2005 is to elevate productivity use ratio and raise the overall profitability, thereby improve the financial structure.

The Group is devoted to continuing effective use of cost and competitiveness to establish competitive edge in the marketplace. From time to time, our strategy calls for taking the initiative to strike first. We will lay emphasis on R&D and investment and better service quality to earn more orders from more heavyweight customers. As such, the strategic focus for the Group in 2005 will be optimization of fundamental structure, including effective use and integration of the group's resources, improvement of cost structure and enhancement of R&D benefit.

Implement resources integration and develop synergy

Through (1) Overall distribution and management of resources, technology and resources are interactively used supported; (2) to provide customers even more comprehensive on-stop service so as to satisfy more demands from customers; (3) concentration of niche to enable each operation outlet to develop its strength, produce and develop the most advantageous product to elevate use efficiency of resources and, through instant

command and dispatch, provide swift and efficient response to market demand.

Improvement cost structure and create even higher reward

To enhance use ratio of productivity and equipment and raise its efficiency so as to increase the return on investment; to develop technological advantage, to develop the optimal manufacturing process design with the most economic benefit; to set up simplified and optimized manufacturing process and upgrade the steadiness of the manufacturing process; to implement interactive use of resources so as to raise resources value for strengthening the Company's cost competitiveness.

- 17 -

Strengthen R&D benefit and elevate physical profit

To develop R&D technological edge higher economic value products, flow process and materials to provide more cost efficient and diversified manufacturing process solutions to meet customer's requirements for addition value, better products, reasonable price and better quality to continue developing production technology for green products, seek the minimum production turnover cost and expedite product turnover speed in order to elevate market opportunity.

Report on "Impairment of Assets" for 2004

On December 31, 2004, the Company adopted ROC SFAS No. 35. The adoption of ROC SFAS No. 35 resulted in the decrease in the balance of long-term investment by NT\$493,380 thousand and increase other investment loss of NT\$493,380 thousand. Further, the subsidiaries also adopted ROC SFAS No.35 on December 31, 2004. The Subsidiaries recorded net investment loss of NT\$1,968,717 thousand in 2004 under the equity-method. As result, as of December 31, 2004, the Company recorded the decrease in the balance of long-term investment by NT\$1,549,743 thousand and the increase of investment loss under the equity method by the same amount.

We thank our shareholders for their long-standing support and we are confident that ASE Group will continue to grow in 2005. At the same time, the Company's substance will be further strengthened. The Management shall seek the production and R&D strategy that will offer the maximum value, develop and create the maximum return on investment to feed back shareholders and employees of ASE Group that have accorded with us their longstanding support. That will be the mission of operation for the Group in future.

INDEPENDENT AUDITORS' REPORT

The Board of Directors and Shareholders
Advanced Semiconductor Engineering, Inc.

We have audited the accompanying balance sheets of Advanced Semiconductor Engineering, Inc. (the "Company") as of December 31, 2004 and 2003, and the related statements of income, changes in shareholders' equity and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the Rules Governing the Audit of Financial Statements by Certified Public Accountants and auditing standards generally accepted in the Republic of China. Those rules and standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Company as of December 31, 2004 and 2003, and the results of its operations and its cash flows for the years then ended, in conformity with accounting principles generally accepted in the Republic of China.

As disclosed in Note 3 to the financial statement, the Company adopted Republic of China Statement of Financial Accounting Standards No. 35 "Impairment of Assets" on December 31, 2004.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

February 1, 2005

The Board of Directors and Shareholders
Advanced Semiconductor Engineering, Inc.

We have audited the accompanying consolidated balance sheets of Advanced Semiconductor Engineering, Inc., a corporation incorporated under the laws of the Republic of China, and its consolidated subsidiaries (the "Company") as of December 31, 2003 and 2004, and the related consolidated statements of income, changes in shareholders' equity and cash flows for each of the years in the three year period ended December 31, 2004, which are required to be prepared in accordance with accounting principles generally accepted in the Republic of China and expressed in New Taiwan dollars. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the Rules Governing the Audit of Financial statements by Certified Public Accountants, auditing standards generally accepted in the Republic of China and the Standards of the Public Company Accounting Oversight Board (United States). These rules and standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. (The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting.) Our audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting.

Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Company as of December 31, 2003 and 2004, and the results of their operations and their cash flows for each of the years in the three year period ended December 31, 2004, in conformity with accounting principles generally accepted in the Republic of China.

As disclosed in Note 3 to the consolidated financial statements, the Company adopted Republic of China Statement of Financial Accounting Standards No. 35 "Impairment of Assets" on December 31, 2004.

- 31 -

Accounting principles generally accepted in the Republic of China vary in certain significant respects from accounting principles generally accepted in the United States of America. Information relating to the nature and effect of such differences is presented in Note 29 to the consolidated financial statements.

Our audits also comprehended the translation of New Taiwan dollar amounts into U.S. dollar amounts and, in our opinion, such translation has been made in conformity with the basis stated in Note 2. Such U.S. dollar amounts are presented solely for the convenience of the readers.

Rules of Procedure for the Shareholders' Meeting for Advanced Semiconductor Engineering, Inc.

1. The Shareholders' Meeting of the Company shall be conducted in accordance with the Rules.
- 2.

Present Shareholders (or their proxies) shall wear attendance badges, and shall submit attendance cards in lieu of signing in. The number of voting right shall be calculated according to the attendance cards submitted.

3. There is one vote for each share. When a Shareholder is unable to attend the Shareholders' Meeting for causes, the Shareholder may present a proxy statement printed by the Company that states the scope of authorization to entrust a proxy to attend the Shareholders' Meeting. With the exception of trust enterprises or stock affair agencies approved by securities authorities concerned, the votes that may be cast by one proxy representing two or more Shareholders shall not exceed three percent of the votes of total shares issued; any votes in excess of that limit shall not be counted.
4. The venue for the Shareholders' Meeting shall be where the Company is located or a place convenient for Shareholders to attend and suited for convening the Shareholders' Meeting. The beginning time for the Meeting may not be earlier than 9 a.m. or later than 3 p.m.
5. Unless otherwise provided by the Company Law, the Shareholders' Meeting shall be convened by the Board of Directors and presided by the Chairperson. If the Chairperson is on leave or unable to exercise powers for causes, Article 208 Paragraph 3 of the Company Law shall govern. If the Shareholders' Meeting is convened by someone entitled to convene such a meeting who is not a member of the Board of Directors, the Meeting shall be presided by the convening person; where there are two or more persons entitled to convene the Shareholders' Meeting, they shall nominate among them one person to preside the meeting.
6. The Company may appoint the retained lawyers, certified public accountants or relevant personnel to observe the Shareholders' Meeting. The staff handling administrative affairs of the Shareholders' Meeting shall wear identification badges or arm-bands.
7. The Company shall record the whole course of the Shareholders' Meeting on audio tape or video tape, and shall keep the tapes for at least one year.

- 43 -

-
8. When the time comes for the Shareholders' Meeting to begin, the chairperson shall Immediately call the meeting in session. However, if the Shareholders present represent less than half of the total issued shares, the chairperson may postpone the commencement of the meeting. The Meeting may be postponed up to twice, and the total duration of postponement may not exceed one hour. If after two postponements the number of Shareholders present is still insufficient while the Shareholders present do represent at least one third of the total issued shares, provisional resolutions may be adopted in accordance with Article 175 Paragraph 1 of the Company Law. If prior to the end of the Meeting the Shareholders present have represented at least half of the total issued shares, the chairperson may resubmit the provisional resolutions adopted by the Meeting for a vote in accordance with Article 174 of the Company Law.
 9. Where the Shareholders' Meeting is convened by the Board of Directors, the meeting agenda shall be set by the Board of Directors. The Meeting shall proceed in accordance with the agenda, which may not be altered unless by the resolution of the Shareholders' Meeting.

If the Shareholders' Meeting is convened by someone entitled to convene such a meeting who is not a member of the Board of Directors, the rules of the preceding Paragraph shall apply *mutatis mutandis*.

Unless by the resolution of the Shareholders' Meeting, the chairperson may not declare the Meeting ended until all items on the agenda (including extemporaneous motions) arranged in the preceding two Paragraphs have been completed.

After the meeting is declared ended, the Shareholders may not elect a chairperson to resume the Meeting at the original location or other premises, unless such declaration has violated the Rules of Procedure, where one person may be elected the chairperson with the consent of one half of the votes represented by Shareholders present to resume the Meeting.

10. When the Shareholders' Meeting is in session, the chairperson may in his/her discretion allocate and announce time for breaks.
11. Before a present Shareholder speaks, he/she shall first fill out a statement slip noting the main points of the statement, the Shareholder's account number (or the attendance identification number) and account name, so that the chairperson may determine the order of speaking. The present Shareholder that merely submits a statement slip without speaking is considered not having spoken. If the contents of the statement do not conform to the contents of the statement slip, the contents of the statement shall govern. Unless given consent by the chairperson and the speaking Shareholder, the other Shareholders may not speak to interrupt when a present Shareholder is speaking, where the chairperson shall stop the interruption.
12. Unless permitted by the chairperson, no Shareholder may speak for more than twice regarding the same proposal, and shall not last for more than five minutes each time.

If a Shareholder violates rules under the preceding Paragraph or goes beyond the scope of topics for discussion in speaking, the chairperson may stop him/her from speaking.

- 44 -

-
13. When an institutional person attends the Shareholders' Meeting as a proxy, the institutional person may assign only one representative to attend the Meeting. When an institutional Shareholder assigns two or more representatives to attend the Shareholders' Meeting, only one of them may speak for any single proposal.
 14. After a present Shareholder speaks, the chairperson may reply in person or assign concerned personnel to reply.
 15. With respect to the discussion of a proposal, if the chairperson feels that a consensus has been reached where a vote can be taken on the proposal, he/she may announce that the discussion shall cease and the proposal be submitted for a vote.
 16. The chairperson shall appoint scrutineers and ballot keepers for voting on proposals, while the scrutineers shall be Shareholders. The results of each vote shall be announced on the spot and made into the minutes.
 17. Unless otherwise provided by the Company Law or the Company's Articles of Incorporation, a proposal shall be approved given consent by more than half of the votes of shares represented by Shareholders present. In voting, a proposal is considered approved if the chairperson receives no dissenting opinions after requesting, which has the same effect as in voting by ballot.
 18. Where there is an amendment or a substitution for a proposal, the chairperson shall determine the order in which they are to be voted on with the original proposal. If any of the proposals has been approved, the other shall be treated as rejected and not be voted on separately.

19. The chairperson may instruct the inspectors (or security personnel) to assist in maintaining order in the meeting venue. While assisting in maintaining order at the venue, the inspectors (or security personnel) shall wear arm-bands reading "Inspector."
20. All matters not provided by the Rules shall be handled in accordance with the Company Law, relevant laws and regulations, as well as the Company's Articles of Incorporation.
21. The Rules shall come into force given the approval of the Shareholders' Meeting, and so shall the amendment.

Appendix 2

Rules of Election of Directors and Supervisors for Advanced Semiconductor Engineering, Inc.

- Article 1 Unless otherwise provided by the Company Law and the Company's Articles of Incorporation, election of the Company's Directors and Supervisors shall all be handled in accordance with the Rules.
- Article 2 In the election of the Company's Directors and Supervisors, each share shall have the voting right equivalent to the number of Directors or Supervisors to be elected. The Board of Directors shall produce and prepare ballots with the number equivalent to that of Directors or Supervisors to be elected to be distributed to each Shareholder. The ballots stated in the preceding Paragraph may be all cast for one person or separately cast for several persons. The Shareholders whose ballots received represent more voting right are elected as Directors or Supervisors. In recording names of the voters, the attendance identification numbers printed on the ballots may be used instead. The ballots shall be produced and distributed by the Board of Directors according to the attendance identification numbers, and shall additionally bear the numbers of voting shares.
- Article 3 In the election of the Company's Directors and Supervisors for vacancies prescribed in the Articles of Incorporation, the candidates winning more voting right from the votes received are elected. If two or more candidates receive the same number of voting right so as to have more winners than required, it shall be Resolution by drawing lots, where the chairperson will draw lots on behalf on the absent winners. When a candidate is simultaneously elected as a Director and a Supervisor, he/she shall decide to serve either as a Director or as a Supervisor, and the vacancy will be filled by the candidate receiving the next most votes.
- Article 4 When the election begins, the chairperson appoints several scrutineers and ballot keepers to perform various pertinent duties.
- Article 5 If a voter is a Shareholder, he/she shall fill in the column of "Candidate" on the ballot with the candidate's account name and the Shareholder's account number; if the voter is not a Shareholder, he/she shall fill in the column with the candidate's name and the uniform ID number. However, if a Governmental or Institutional Shareholder is a candidate, the voter shall fill in the column of "Candidate's Account Name" on the ballot with the name of the Government or Institution, and may also fill in the column with the name of the Government or Institution and the name of its representative; where there are several representatives,

their names shall be separately filled up.

- 46 -

-
- Article 6 A ballot shall be invalid under any of the following circumstances:
1. The ballot is not the one provided by the Rules.
 2. The ballot is not placed into the ballot box or is left blank.
 3. The handwriting is blurred and cannot be identified.
 4. The candidate stated is a Shareholder and its account name and Shareholder's account number are inconsistent with those recorded on the Register of Shareholders; the candidate stated is not a Shareholder and its name and uniform ID number are inconsistent after verification.
 5. Any words other than the candidate's account name (name), Shareholder's account number (uniform ID number) and number of allocated voting right are written on the ballot.
 6. The candidate's account name (name) or Shareholder's account number (uniform ID number) is not written.
 7. There are names of two or more candidates written on the same ballot.
- Article 7 Once all the ballots have been placed into the ballot box, the scrutineer will open the ballot box.
- Article 8 If there is any doubt regarding a ballot, the scrutineer will examine the ballot to determine whether it shall be declared invalid. The ballots declared invalid shall be separately placed, and will be identified for their numbers of votes and voting right, and then handed over to the scrutineer to be marked invalid and signed/sealed after the vote counting is completed.
- Article 9 When counting and announcing the ballots, the ballot keeper will oversee it by the side, and the result will be announced by the chairperson on the spot.
- Article 10 The Company separately issues certificates of election to the elected Directors and Supervisors.
- Article 11 The Rules shall come into force after adopted by the Shareholders' Meeting, and so shall the amendment of the Rules.
