FORM 6-K
SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

Report of Foreign Private Issuer

**Pursuant to Rule 13a-16 or 15d-16
of the Securities Exchange Act of 1934**

April 27, 2006

Commission File Number 001-16125

Advanced Semiconductor Engineering, Inc.

(Exact name of Registrant as specified in its charter)

26 Chin Third Road
Nantze Export Processing Zone
Kaoshiung, Taiwan
Republic of China
(Address of principal executive offices)

Indicate by check mark whether the registrant files or will file annual reports under cover of Form 20-F or Form 40-F.

Form 20-F

Form 40-F

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(1): _____

Note: Regulation S-T Rule 101(b)(1) only permits the submission in paper of a Form 6-K if submitted solely to provide an attached annual report to security holders.

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(7): _____

Note: Regulation S-T Rule 101(b)(7) only permits the submission in paper of a Form 6-K if submitted to furnish a report or other document that the registrant foreign private issuer must furnish and make public under the laws of the jurisdiction in which the registrant is incorporated, domiciled or legally organized (the registrant's "home country"), or under the rules of the home country exchange on which the registrant's securities are traded, as long as the report or other document is not a press release, is not required to be and has not been distributed to the registrant's security holders, and, if discussing a material event, has already been the subject of a Form 6-K submission or other Commission filing on EDGAR.

Indicate by check mark whether by furnishing the information contained in this Form, the registrant is also thereby furnishing the information to the Commission pursuant to Rule 12g3-2(b) under the Securities Exchange Act of 1934.

Yes

No

If Yes is marked, indicate below the file number assigned to the registrant in connection with Rule 12g3-2(b):

Not applicable

Signatures

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

ADVANCED SEMICONDUCTOR ENGINEERING, INC. REPORTS CONSOLIDATED YEAR 2006 FIRST-QUARTER FINANCIAL RESULTS

Taipei, Taiwan, R.O.C., April 26, 2006 □ Advanced Semiconductor Engineering, Inc. (TAIEX: 2311, NYSE: ASX) (□We□, □ASE□, or the □Company□), the world□s largest independent provider of IC packaging and testing services, today reported unaudited consolidated net revenues¹ of NT\$24,837 million for the first quarter of 2006 (1Q06), up 39% year-over-year and down 6% sequentially². Net income for the quarter totaled NT\$3,182 million, up from net loss of NT\$128 million in 1Q05 and from net income of NT\$2,942 million in 4Q05. Earnings per share for the quarter was NT\$0.69 (or US\$0.106, per ADS), compared to loss per share of NT\$0.03 for 1Q05 and earnings per share of NT\$0.65 for 4Q05.

RESULTS OF OPERATIONS

1Q06 Results Highlights

- The revenue contribution from IC packaging operations, testing operations, module assembly, and others was NT\$17,831 million, NT\$5,123 million, NT\$1,475 million and NT\$408 million, respectively, and each represented approximately 72%, 21%, 6% and 1% respectively, of total net revenues for the quarter.
- Cost of revenues was NT\$18,202 million, down 8% sequentially and up 14% year-over-year.

- As a percentage of net revenues, cost of revenues was 73% in 1Q06, down from 75% in 4Q05 and from 90% in 1Q05.

- Raw material cost totaled NT\$7,727 million during the quarter, representing 31% of revenues; compared with NT\$8,611 million and 33% of revenues in the previous quarter.

- Depreciation, amortization and rental expenses totaled NT\$3,741 million during the quarter, down 4% sequentially and down 10% year-over-year.

¹ All financial information presented in this press release is unaudited, consolidated and prepared in accordance with generally accepted accounting principles in the Republic of China, or ROC GAAP. Such financial information is generated internally by us, and has not been subjected to the same review and scrutiny, including internal auditing procedures and review by independent auditors, to which we subject our audited consolidated financial statements, and may vary materially from the audited consolidated financial information for the same period. Any evaluation of the financial information presented in this press release should also take into account our published audited consolidated financial statements and the notes to those statements. In addition, the financial information presented is not necessarily indicative of our results for any future period.

² In October 2005, the Company disposed of its camera module assembly operation in Malaysia. Accordingly, the historical consolidated financial information presented in this press release has been retroactively adjusted to net out the results of these discontinued operations, which will be presented as a separate line item in our consolidated statement of operations. The consolidated financial information presented herein represents the results of continuing operations only.

1
April 26, 2006

Advanced Semiconductor Engineering, Inc.

- Total operating expenses during 1Q06 were NT\$1,950 million, including NT\$634 million in R&D and NT\$1,316 million in SG&A. Total operating expenses as a percentage of net revenues for the current quarter was 8%, down from 9% in 4Q05 and 11% in 1Q05.
- We recorded net non-operating expenses of NT\$602 million in 1Q06, which decreased by NT\$352 million sequentially, and increased by NT\$282 million year-over-year.

- The net exchange gain of NT\$43 million was mainly attributable to the exchange gain in US dollar-based loans and payables and exchange loss in Korean Won- based loans and payables due to the respective currency exchange rate changes.

- Gain on long-term investment was NT\$61 million related to investment income from minority-owned affiliates, including NT\$61 million of investment income from Universal Scientific Industrial Co. ("USI"), NT\$8 million of investment loss from Hung Ching Construction, and NT\$8 million of investment income from Hung Ching Kwan Co. Under the revised ROC SFAS No.25 issued in December 2005, goodwill amortization expenses related to such minority-owned affiliates will no longer be amortized over its estimated useful life beginning January 1st, 2006.

- Other non-operating expenses were primarily related to inventory provision adjustment and other miscellaneous expenses.

- Income before tax was NT\$4,083 million for 1Q06. We recorded an income tax expense of NT\$18 million during the quarter. The cumulative effect of change in accounting principle was a loss of NT\$457 million related to new ROC SFAS No. 34 adopted on January 1, 2006. Upon initial adoption of the aforementioned standards, we properly categorized its financial assets and liabilities including derivative instruments. The adjustments in original carrying amount for financial instruments categorized as financial assets or financial liabilities at fair value through profit or loss are included in the cumulative effect of change in accounting principles. Minority interest adjustment was NT\$426 million.

- In 1Q06, net income was NT\$3,182 million, compared to net income of NT\$2,942 million for 4Q05 and net loss of NT\$128 million for 1Q05.
- Our total shares outstanding at the end of the quarter were 4,389,359,048. Our fully-diluted EPS for 1Q06 was NT\$0.69, or US\$0.106 per ADS, based on 4,651,513,032 weighted average number of shares outstanding during the first quarter.

LIQUIDITY AND CAPITAL RESOURCES

- Capital expenditures in 1Q06 totaled US\$67 million, of which US\$25 million was for IC packaging, US\$3 million was for module assembly, US\$14 million was for testing, and US\$25 million was for interconnect materials.
- As of the end of 1Q06, we had total bank debts of NT\$50,199 million, decreased from NT\$53,385 million as of end of 2005. Total bank debts consisted of NT\$5,327 million of revolving working capital loans, NT\$4,586 million of current portion of long-term debts, NT\$30,944 million of long-term debts and NT\$9,342 million of long-term bonds payable. Total unused banking facilities were NT\$23,141 million.
- Current ratio improved from 1.54 as of end of 4Q05 to 1.63 as of end of 1Q06, and net debt to equity ratio was 0.56
- Total number of employees was 28,310 as of March 31, 2006.

Advanced Semiconductor Engineering, Inc.

BUSINESS REVIEW

IC Packaging Services

- Revenues generated from our IC packaging operations were NT\$17,831 million during the quarter, down NT\$899 million or 5% sequentially and up NT\$5,076 million or 40% year-over-year. On a sequential basis, the decrease in packaging revenue was primarily due to fewer working days during the quarter, unfavorable product mix changes and volume decrease. Average selling price remained stable.
- Revenues from advanced substrate and leadframe-based packaging accounted for 89% of total IC packaging revenues during the quarter, down by one percentage point from the previous quarter.
- Gross margin for our IC packaging operations was 24%, up by three percentage points sequentially and up by fourteen percentage points year-over-year as a result of increased utilization and favorable product mix changes.
- Capital expenditure for our IC packaging operations amounted to US\$25 million during the quarter, of which US\$16 million was for wirebonding packaging capacity, and US\$9 million was for wafer bumping and flip chip packaging equipment.
- As of March 31, 2006, there were 6,326 wirebonders in operation, of which 52 wirebonders were added and 92 wirebonders were disposed of during the quarter.
- Revenues from flip chip packages and wafer bumping services accounted for 16% of total packaging revenue, down from 19% in 4Q05.

Testing Services

- Revenues generated from our testing operations were NT\$5,123 million, down NT\$144 million or 3% sequentially and up NT\$1,430 million or 39% year-over-year.
- Final testing contributed 77% to total testing revenues, down by three percentage points from the previous quarter. Wafer sort contributed 19% to total testing revenues, up by two percentage points from the previous quarter. Engineering testing contributed 4% to total testing revenues, up by one percentage point from the previous quarter.
- Depreciation, amortization and rental expense associated with testing operation amounted to NT\$1,616 million, down from NT\$1,700 million in 4Q05 and NT\$1,946 million in 1Q05.
- In 1Q06, gross margin for our testing operations was 39%, down by one percentage point sequentially and up by twenty nine percentage points year-over-year. The sequential decline in gross margin was primarily due to fewer working days and increased incentives and overtime charges in the first quarter of 2006. Testing ASP also remained stable during the quarter.
- Capital spending on our testing operations amounted to US\$14 million during the quarter.
- As of March 31, 2006, there were 1,305 testers in operation, of which 36 testers were added and 35 testers were disposed of during the quarter.

Module Assembly Services

- Revenues generated from our module assembly operations were NT\$1,475 million, down NT\$579 million or 28% sequentially, and up NT\$296 million or 25% year-over-year mainly due to volume decrease.
- In 1Q06, gross margin for our module assembly operations was 18%, remained unchanged sequentially and was up by six percentage points year-over-year.

Advanced Semiconductor Engineering, Inc.

Substrate Operations

- PBGA substrate manufactured by ASE amounted NT\$1,832 million for the quarter, down by NT\$161 million or 8% from the previous quarter, and increased by NT\$389 million or 27% from a year-ago quarter.
- Gross margin for substrate operation was 26% during the quarter, down by one percentage point compared with previous quarter, and up by twenty five percentage points compared with a year-ago quarter.
- In 1Q06, the Company's internal substrate manufacturing operations supplied 37% (by value) of our total PBGA substrate requirements.
- As of end of March 31, 2006, the Company's PBGA capacity was at 36 million units per month.

Customers

- Our five largest customers together accounted for approximately 29% of our net revenues in 1Q06, decreased from 30% in 4Q05 and from 37% in 1Q05. No customer accounted for more than 10% of our total revenues.
- Our top 10 customers contributed 46% of our net revenues during the quarter, consistent with the previous quarter and decreased from 52% in 1Q05.
- Our customers that are integrated device manufacturers, or IDMs, accounted for 42% of our revenues in 1Q06, compared to 41% in 4Q05 and 47% in 1Q05.

About ASE, Inc.

ASE, Inc. is the world's largest independent provider of IC packaging services and, together with its subsidiary ASE Test Limited (Nasdaq: ASTSF), the world's largest independent provider of IC testing services, including front-end engineering testing, wafer probing and final testing services. ASE, Inc.'s international customer base of more than 200 customers include such leading names as ATI Technologies Inc., CSR plc, Freescale Semiconductor, Inc., IBM Corporation, NVIDIA Corporation, Koninklijke Philips Electronics N.V., Qualcomm Incorporated, RF Micro Devices Inc., STMicroelectronics N.V. and VIA Technologies, Inc. With advanced technological capabilities and a global presence spanning Taiwan, Korea, Japan, Singapore, Malaysia and the United States, ASE, Inc. has established a reputation for reliable, high quality products and services. For more information, visit our website at <http://www.aseglobal.com>.
