 2. We conducted our review in accordance with specific standards established by the Brazilian Institute of Independent Auditors (IBRACON), together with the Federal Accounting Council, which consisted principally of: (a) inquiries of and discussions with persons responsible for the accounting, financial and operating areas as to the criteria adopted in preparing the interim financial statements, and (b) review of the information and subsequent events that had or might have had material effects on the financial position and results of operations of the Company and its subsidiaries.

NOTES TO THE INTERIM FINANCIAL STATEMENTS
FOR THE QUARTER AND NINE-MONTH PERIOD ENDED SEPTEMBER 30, 2006
(In thousands of Brazilian reais - R\$, unless otherwise stated)

1. OPERATIONS

Ultrapar Participações S.A. (the "Company") invests in commercial and industrial activities, including subscription or purchase of shares of other companies with similar activities.

Through its subsidiaries, the Company is engaged in the distribution of liquefied petroleum gas - LPG (Ultragaz), production and sale of chemicals (Oxiten) and logistic services for chemicals and fuels (Ultracargo).

2. PRESENTATION OF INTERIM FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING PRACTICES

The accounting practices adopted to record transactions and prepare the interim financial statements - ITR are those established by Brazilian accounting practices and the Brazilian Securities Commission (CVM).

a) Results of operations

Determined on the accrual basis of accounting. Revenues from sales and respective costs are recognized when the products are delivered to the customers or services are performed, and the transfer of risks, rights and obligations associated with the ownership of products takes place.

b) Current and long-term assets

Temporary cash and long-term investments are stated at cost, plus accrued income (on a "pro rata temporis" basis), which approximate to the market value. Temporary cash investments include the results from hedge transactions, as described in Notes 4 and 19, that management intends to hold to maturity.

The allowance for doubtful accounts is based on estimated losses and is considered by management to be sufficient to cover potential losses on accounts receivable.

Inventories are stated at the lower of average cost of acquisition or production, market or net realizable value.

Other assets are stated at the lower of cost or probable realizable values, including, when applicable, accrued income and monetary variations or net of allowances for potential losses.

Ultrapar Participações S.A. and Subsidiaries

Depreciation is calculated on a straight-line basis at the annual rates described in Note 11, based on the economic useful lives of the assets.

- Deferred charges

Deferred charges comprise costs incurred in the installation of equipment at customers' facilities, projects to modernize systems, and goodwill on acquisition of subsidiaries, as mentioned in Note 12.

d) Current and long-term liabilities

Stated at known or estimated amounts including, when applicable, accrued charges, and monetary and exchange variations incurred during the period.

e) Income and social contribution taxes

c) Tax exemption

The following indirect subsidiaries have partial or full exemption from income tax in connection with a government program for the development of the Northeast Region of Brazil:

(*) In December 2005, the Suape unit's exemption expired and a request was filed with ADENE (Northeast Development Agency), the agency in charge of managing this incentive program, seeking a 75% income tax reduction until 2015. This reduction was granted on April 22, 2006. On June 8, 2006, the incentive-granting report issued by ADENE was forwarded to the Federal Revenue Service (SRF) for approval within 120 days. Should such request not be approved, the company will file a new request, for an income tax reduction of 25% until 2008 and 12.5% from 2009 until 2013, to which it is entitled as it is located in an incentive area and considered a priority economic activity for the region's development. On October 06, 2006 the Federal Revenue Service's deadline for approval of this reduction expired, meaning that the Company can automatically be considered fully entitled to the intended reduction, as long as no decision to the contrary arises. However, for this quarter, no reduction regarding the Suape unit was yet considered.

b) Notes in the foreign market

In June 1997, the subsidiary Companhia Ultragaz S.A. issued US\$60 million in notes, (Original Notes), maturing in 2005. In June 2005, maturity was extended to June 2020, with put/call options in June 2008.

In June 2005, the subsidiary Oxiteno Overseas Corp. acquired the full amount of Original Notes issued by Companhia Ultragaz S.A., with funds from a syndicated loan in the amount of US\$60 million with maturity in June 2008 and interest rate of 5.05% per year. The syndicated loan was guaranteed by the Company and the subsidiary Oxiteno S.A. - Indústria e Comércio.

In April 2006, the subsidiary Oxiteno Overseas Corp. sold the Original Notes to a financial institution. Concurrently, the subsidiary acquired from this financial institution a credit linked note backed by the Original Notes, as mentioned in Note 4, thus obtaining an additional return on this investment. The transaction matures in 2020, and the subsidiary as well as the financial institution may redeem it early, with the subsidiary having only an annual option of redemption (purchase) in or after June 2008. In the event of insolvency of the financial institution, Companhia Ultragaz S.A. would be required to settle the Original Notes, although Oxiteno Overseas Corp. would continue to be creditor of the credit linked note. Thus, the Company stopped eliminating the Original Notes in its financial statements.

In December 2005, the subsidiary LPG International Inc. issued notes in the amount of US\$250 million, maturing in December 2015, with annual interest rate of 7.25% paid semiannually, with the first payment scheduled for June 2006. The issue price was 98.75% of the notes' face value, which represented a total yield for investors of 7.429% per year upon issuance. The notes were guaranteed by the Company and by Oxiteno S.A. - Indústria e Comércio.

As a result of the issuance of notes and the syndicated loan, the Company and its subsidiaries mentioned above are subject to covenants that limit, among other things:

- Limitation of transactions with shareholders that hold amounts of 5% or more of any class of Capital Stock of Ultrapar, except upon fair and reasonable terms no less favorable to Ultrapar than could be obtained in a comparable arm's-length transaction with a third party;

Ultrapar Participações S.A. and Subsidiaries

- Obligation of having board of directors resolution for transactions with related parties higher than US\$15 million (excluding transactions by the Company with subsidiaries and between subsidiaries);
- Restriction of disposal of the totality or near totality of the assets of Ultrapar and subsidiaries;
- Restriction of encumbrances on assets in excess of US\$150 million or 15% of the value of consolidated tangible assets;
- Maintenance of financial ratio, between consolidated net debt and consolidated EBITDA, less than or equal to 3.5; and
- Maintenance of financial ratio, between consolidated EBITDA and consolidated net financial expenses higher than or equal to 1.5.

The restrictions imposed on the Company and its subsidiaries are usual in transactions of this nature and have not limited their ability to conduct their business to date.

c) Debentures

On February 2, 2005, the Extraordinary Stockholders' Meeting approved the issuance by the Company and the public distribution in a single series of 30,000 nonconvertible debentures with nominal unit value of R\$10,000.00 (ten thousand Brazilian reais), totaling R\$300,000.

On March 30, 2005, the Company's Board of Directors, as delegated by the Extraordinary Stockholders' Meeting, approved the interest rate determined through a bookbuilding process on the same date.

On April 6, 2005, the Brazilian Securities Commission (CVM) registered the operation, and funds of R\$304,854, net of commission, were received on April 8, 2005.

Characteristics of the debentures are:

Nominal unit value:	R\$10,000.00
Final maturity:	March 1, 2008
Nominal value payment:	Lump sum at final maturity
Yield:	102.5% of CDI
Yield payment:	Semiannually, beginning March 1, 2005
Repricing:	None

The debentures are subject to commitments that restrict, among other things, certain operations of merger or spin-off, as well as the disposal of operating assets that would result in a reduction of more than 25% of consolidated net sales, and also included the obligation to maintain a consolidated net debt to EBITDA ratio less than or equal to 3.5. Thus far, none of these commitments have restricted the ability of the Company and its subsidiaries to conduct business.

d) Collateral

A portion of the financing is collateralized by liens on property, plant and equipment, shares, promissory notes and guarantees provided by the Company and its subsidiaries, as shown below:

	<u>09/30/2006</u>	<u>06/30/2006</u>
Amount of financing secured by:

Certain subsidiaries have issued guarantees to financial institutions related to amounts owed to those institutions by some of their customers (vendor financing). In the event any subsidiary is required to make a payment under the guarantees, the subsidiary may recover such amounts paid directly from its customers through commercial collection. Maximum future payments related to these guarantees amount to R\$32,854 (R\$26,349 as of June 30, 2006), with terms of up to 210 days. As of September 30, 2006, the Company and its subsidiaries have not incurred any loss nor recorded any liability related to these guarantees.

Certain subsidiaries have conducted operations denominated "supplier finance" with its suppliers. In the operation, the banks advance to suppliers the proceeds from sales made to the subsidiaries, through acceptance by the subsidiaries with the banks. Those operations have an average term of nine days and are recorded as bank loans, since the suppliers received the funds from the banks, using the subsidiaries' credit. The amount as of September 30, 2006 totaled R\$412 (R\$411 as of June 30, 2006). Financial income related to this operation for the quarter amounted to R\$8 (R\$7 as of June 30, 2006) and is recorded in financial income.

19. RISKS AND FINANCIAL INSTRUMENTS (CONSOLIDATED)

The main risk factors to which the Company and its subsidiaries are exposed reflect strategic/operating and economic/financial aspects. Strategic/operating risks (such as behavior of demand, competition, technological innovation, and significant structural changes in industry, among others) are addressed by the Company's management model. Economic/financial risks mainly reflect customer default, macroeconomic variables such as exchange and interest rates, as well as the characteristics of the financial instruments used by the Company. These risks are managed through control policies, specific strategies and the determination of limits, as follows:

- Customer default - These risks are managed by specific policies for accepting customers and analyzing credit, and are mitigated by diversification of sales. As of September 30, 2006, the subsidiaries of Oxiteno S.A. - Indústria e Comércio maintained R\$918 (R\$853 as of June 30, 2006) and the subsidiaries of Ultragaz Participações Ltda. maintained R\$21,380 (R\$24,055 as of June 30, 2006) as an allowance for doubtful accounts.

Ultrapar Participações S.A. and Subsidiaries

- Interest rates - The Company and its subsidiaries adopt conservative policies to obtain and invest funds and to minimize the cost of capital. Temporary cash investments of the Company and its subsidiaries are comprised substantially of transactions linked to the interbank deposit rate (CDI), as described in Note 4. A portion of the financial assets is intended for foreign currency hedges, as mentioned below. Borrowings are originate from the BNDES, and foreign currency financing, as mentioned in Note 13.
- Exchange rate - The Company's subsidiaries use hedge (mainly CDI and US\$) instruments available in the financial market to cover assets and liabilities in foreign currency, so as to reduce the exchange variation effects on their results. Such hedges have amounts, periods and indexes substantially equivalent to the assets and liabilities in foreign currency to which they are linked. Shown below are the assets and liabilities in foreign currency, translated into Brazilian reais at September 30, 2006 and June 30, 2006:

20. CONTINGENCIES AND COMMITMENTS (CONSOLIDATED)

a) Labor, civil and tax lawsuits

The Petrochemical Industry Labor Union, of which the employees of Oxiteno Nordeste S.A. - Indústria e Comércio are members, filed an action against the subsidiary in 1990, demanding compliance with the adjustments established in a collective labor agreement, in lieu of the salary policies effectively followed. At the same time, the employers' association proposed a collective bargaining for the interpretation and clarification of the fourth clause of the agreement. Based on the opinion of its legal counsel, who analyzed the last decision of the Federal Supreme Court (STF) on the collective bargaining, as well as the status of the individual lawsuit of the subsidiary, management believes that a reserve is not necessary as of September 30, 2006.

The subsidiaries Companhia Ultragaz S.A. and SPGás Distribuidora de Gás Ltda. are parties to an administrative proceeding at the SDE (Economic Law Department), linked to CADE (Administrative Council for Economic Defense), under the allegation of anticompetitive practice in the municipalities of a region of the State of Minas Gerais in 2001. In September 2005, the SDE issued a technical notice recommending to CADE a ruling against the companies involved in this proceeding. In their defense, the subsidiaries' arguments, among others, are that: (i) under the terms of the notice issued by the Company's chief executive officer on July 4, 2000, the subsidiaries' employees were forbidden to discuss with third parties matters related to prices; and (ii) no consistent evidence was attached to the proceeding's records, and the SDE acknowledges its failure in the attempt to prove the practice. In view of the arguments presented, the fact that the technical notice has no binding effect on CADE's decision, and their legal counsel's opinion, the subsidiaries did not record a provision for this issue. Should CADE's decision be unfavorable, the subsidiaries can still discuss the issue at the judicial level.

Ultrapar Participações S.A. and Subsidiaries

The subsidiary Companhia Ultragaz S.A. is a defendant in lawsuits relating to damages caused by an explosion in 1996 in a shopping mall in the city of Osasco, State of São Paulo. Such lawsuits involve: (i) individual suits filed by victims of the explosion claiming damages from Ultragaz for the loss of economic benefit and for pain and suffering; (ii) lawsuit for reimbursement of expenses by the administration company of the shopping mall and its insurance company; and (iii) class action suit seeking indemnification for property damage and pain and suffering for all the victims injured and deceased. The subsidiary believes that it has presented evidence that defective gas pipes in the shopping mall caused the accident and that Ultragaz's on-site LPG storage facilities did not contribute to the explosion. Of the 56 (fifty six) lawsuits judged thus far, a favorable judgment was obtained for 55 (fifty five), and of these 11 (eleven) have already been dismissed and only 1 (one) had an unfavorable decision, which is still subject to appeal, and whose amount, should the decision be upheld, is R\$17. The subsidiary has insurance for this contingency, and the uninsured contingent amount is R\$39,633. The Company has not recorded any provision for this amount, since it believes the probability of loss is remote.

The Company and its subsidiaries obtained injunctions to pay PIS and COFINS (taxes on revenues) without the changes introduced by Law No. 9718/98 in its original version. The ongoing questioning refers to the levy of these taxes on sources other than revenues. The unpaid amounts were recorded in the financial statements of the Company and its subsidiaries, totaling R\$20,816 (R\$20,415 as of June 30, 2006). Recently the Federal Supreme Court (STF) has decided the matter favorable to the taxpayer. Although it is a precedent, the effect of this decision does not automatically apply to all companies, since they must await judgment of their own lawsuits. On 3/29/2006 and 6/14/2006 final and unappealable decisions were rendered on the lawsuits of the subsidiaries Companhia Ultragaz S.A. and Transultra - Armazenagem e Transporte Especializado Ltda., and the subsidiaries reversed the existing provisions in the amount of R\$15,886 and R\$1,331, net of attorney's fees, as financial income in the statement of income for the quarter. Likewise, on 04/11/2006, a final and unappealable decision was rendered on the lawsuit related to the subsidiary Oxiteno Nordeste S.A. Indústria e Comércio. As this subsidiary had not obtained an injunction, it paid undue PIS and COFINS in prior periods. The amount of R\$26,225, related to the favorable outcome in this lawsuit, net of attorney's fees, was recorded as financial income and will be used for future offset of federal taxes. The Company has other subsidiaries whose lawsuits have not yet been judged. Thus, should there be final favorable outcomes for the subsidiaries in all lawsuits, the Company estimates that the total positive effect in addition to the already recorded in income before income and social contribution taxes should reach R\$20,130, net of attorney's fees.

The subsidiary Oxiteno S.A. - Indústria e Comércio and its subsidiary Oxiteno Nordeste S.A. - Indústria e Comércio accrued R\$15,360 (R\$15,098 as of June 30, 2006) for ICMS tax assessments being judged at lower-level and appeal-level administrative courts. The subsidiaries are currently awaiting a decision on the appeals.

Ultrapar Participações S.A. and Subsidiaries

The subsidiary Utingás Armazenadora S.A. has been challenging in court ISS (Service Tax) tax assessments issued by the municipal government of Santo André. Legal counsel of the subsidiary classifies the risk as low, since a significant portion of the lower-court decisions was favorable to the subsidiary. The thesis defended by the subsidiary is supported by the opinion of a renowned tax specialist. The unprovisioned updated amount of the contingency as of September 30, 2006 is R\$33,010 (R\$31,455 as of June 30, 2006).

On October 7, 2005, the subsidiaries of Ultragas Participações Ltda. filed for and obtained an injunction to support the offset of PIS and COFINS credits against other federal taxes administered by the Federal Revenue Service (SRF), notably income and social contribution taxes. According to the injunction obtained, the subsidiaries have been making escrow deposits for these debits and recognizing the corresponding liability for this purpose.

The Company and its subsidiaries have other ongoing administrative and judicial proceedings; legal counsel classified the risks on these proceedings as possible and/or remote and, therefore, no reserves for potential losses on these proceedings have been recorded.

Escrow deposits and provisions are summarized below:

Provisions	Balance on 06/30/2006	Additions	Update	Balance on 09/30/2006
Income and social contribution taxes	16,964	10,178	509	27,651

b) Contracts

The subsidiary Terminal Químico de Aratu S.A. - Tequimar has contracts with CODEBA - Companhia das Docas do Estado da Bahia and Complexo Industrial Portuário Governador Eraldo Gueiros in connection with their port facilities in Aratu and Suape, respectively. Such contracts establish minimum cargo movement of 1,000,000 tons per year for Aratu, effective through 2022, and 250,000 tons per year for Suape, effective through 2027. If annual movement is less than the minimum required, the subsidiary is required to pay the difference between the actual movement and the minimum contractual movement, using the port rates in effect at the date established for payment. As of September 30, 2006, such rates were R\$3.67 and R\$3.44 per ton for Aratu and Suape, respectively. The subsidiary has met the minimum cargo movement limits since inception of the contracts.

Ultrapar Participações S.A. and Subsidiaries

The subsidiary Oxiteno Nordeste S.A. - Indústria e Comércio has a supply contract with Braskem S.A., effective through 2021, which establishes a minimum consumption level of ethylene per year. The minimum purchase commitment and the actual demand for the period ended September 30, 2006 and 2005, expressed in tons of ethylene, are summarized below. Should the minimum purchase commitment not be met, the subsidiary would be liable for a fine of 40% of the current ethylene price for the quantity not purchased.

	Minimum purchase commitment	Actual demand (real) 3 rd quarter	
		2006	2005

c) Insurance coverage for subsidiaries

The Company has appropriate insurance policies to cover various risks, including loss and damage from fire, lightning, explosion of any nature, windstorm, plane crash and electrical damage, among others, protecting the units and other branches of all subsidiaries, with coverage amounting to US\$250 million.

For the units of Oxiteno S.A. - Indústria e Comércio, Oxiteno Nordeste S.A. - Indústria e Comércio and Canamex Químicos S.A. de C.V., there is also loss of income insurance against losses from potential accidents related to their assets, with coverage amounting to US\$129 million.

A civil liability insurance program covers all Group companies, with coverage of US\$150 million, for losses and damage from accidents caused to third parties, related to the commercial/industrial operations and/or distribution and sale of products and services.

Group life insurance, personal accident insurance, health insurance, and domestic and international transportation insurance are also contracted.

21. STOCK COMPENSATION PLAN (CONSOLIDATED)

The Extraordinary Stockholders' Meeting held on November 26, 2003 approved a compensation plan for management of the Company and its subsidiaries, which provides for: (i) the initial grant of usufruct of shares issued by the Company and held in treasury by the subsidiaries in which the beneficiaries are employed; and (ii) the transfer of the beneficial ownership of the shares after ten years from the initial grant, provided that the professional relationship between the beneficiary and the Company and its subsidiaries is not interrupted. The total amount granted to executives until September 30, 2006, including taxes, was R\$8,940 (R\$8,940 as of June 30, 2006). This amount is being amortized over a period of ten years and the amortization related to the period ended September 30, 2006, in the amount of R\$669 (R\$574 as of September 30, 2005), was recorded as an operating expense.

22. EMPLOYEE BENEFITS AND PRIVATE PENSION PLAN (CONSOLIDATED)

The Company and its subsidiaries offer benefits to their employees, such as life insurance, health care and pension plan. In addition, loans for the acquisition of vehicles and personal computers are available to employees of certain subsidiaries. These benefits are recorded on the accrual basis and terminate at the end of the employment relationship.

In August 2001, the Company and its subsidiaries began to provide a defined contribution pension plan to their employees. This plan is managed by Ultraprev - Associação de Previdência Complementar. Under the terms of the plan, the basic contribution of each participating employee is defined annually by the participant between 0% and 11% of his/her salary. The sponsoring companies provide a matching contribution in an identical amount as the basic contribution. As participants retire, they may opt to receive monthly: (i) a percentage varying between 0.5% and 1.0% of the fund accumulated in their name in Ultraprev; or (ii) a fixed-monthly amount that will deplete the fund accumulated in the participant's name in a period of 5 to 25 years. Accordingly, neither the Company nor its subsidiaries assume responsibility for guaranteeing the levels of amounts or periods of receipt of the retirement benefit. (2) Performance Analysis:

Net Sales and Services - Ultrapar's net consolidated sales and services in 3Q06 amounted to R\$ 1,295.2 million, up 5% and 8%, on the net sales in 3Q05 and 2Q06, respectively. In the first nine months of this year, Ultrapar's net sales and services amounted to R\$ 3,590.3 million, up 1% on the same period in 2005.

Ultragas: The Brazilian LPG market in 3Q06 was practically unchanged compared to the same period in 2005, with the continuing improvement in the Brazilian population disposable income being offset by the anticipation of demand buildup in 2Q06, as a result of the uncertainties related to the natural gas supply from Bolivia. Compared to 2Q06, the market experienced a 3% growth, due to the seasonally stronger sales in 3Q06. For the first nine months

of this year, market growth amounted to 1%. Ultragas's sales volume in the bottled gas segment amounted to 281,000 tons, flat compared to 3Q05 and in line with market performance. In the bulk segment, there was a drop of 1,500 tons in the volume sold, due to the loss of a large industrial client in 2Q06. Ultragas's total sales volume in 3Q06 amounted to 408,000 tons, down 0.5% on 3Q05 – slightly lower than the performance of the market, as a result of the loss of the above mentioned industrial client. Compared to 2Q06, Ultragas's sales volume was up 4%, basically due to the seasonal difference between the two periods. In the first nine months of this year, Ultragas's sales volume totaled 1,156,000 tons, stable compared to the same period in 2005. Net sales and services at Ultragas amounted to R\$ 817.0 million in 3Q06, up 6% on the figure in 3Q05, principally as a result of the benefits arising from the company's distribution structure review and the improved sales mix in the bulk segment. Compared to 2Q06, there was a 5% increase, basically as a result of the seasonal increase in sales volume. In 9M06 Ultragas's net sales amounted to R\$ 2,292.3 million, up 5% on the same period in 2005.

Oxiteno: Total sales volume in 3Q06 amounted to 149,000 tons, up 1% on 3Q05. Despite the modest growth in total sales volume, specific market initiatives taken by Oxiteno and the improved performance in certain segments of the economy resulted in expansion of 8% in the domestic market, generating a better geographical sales mix as well as an improved product mix. Sales volume in the domestic market totaled 109,000 tons, with the improvements spread across the various segments served by Oxiteno, however with particular emphasis on the building and agrochemical sectors. In the international market, the volume sold was 14% lower than in 3Q05, due to the reduced availability of products as a result of the increased sales in the domestic market. Compared to 2Q06, Oxiteno recorded an 11% increase in total volume, due to the seasonally stronger sales and the market initiatives, which resulted in sales growth in 3Q06 in the domestic market. In the first nine months of this year, accumulated sales volume amounted to 413,000 tons, up 2% on the volume sold in 9M05, with volume expanding by 7% in the domestic market and retracting by 8% in the international market. Oxiteno reported net sales and services of R\$ 434.6 million in 3Q06, up 6% compared to 3Q05, due principally to (i) a better sales mix, with an increased proportion of specialty chemicals and sales to the domestic market, as a percentage of the total volume, (ii) the improvement in the international price of glycols, resulting from delays in the startup of new plants in the Middle-East and (iii) extraordinary revenues of R\$ 3.3 million. In comparison with 2Q06, net sales and services were up 17%, basically as a result of a seasonal increase in sales volume. In the first nine months of this year, net sales and services amounted to R\$ 1,162.4 million, down 7% on 9M05, basically as a result of the appreciation in the Brazilian Real between the two periods.

Ultracargo: Average storage volumes at Ultracargo in 3Q06, measured in cubic meters, were 9% higher than in 3Q05, and up 5% on 2Q06, basically due to the expansion in operations at the Santos Terminal, inaugurated in July 2005. In the transport segment, total kilometrage traveled was down 26% and 12% compared to 3Q05 and 2Q06, respectively, as a result of the decision to discontinue certain operations that had a lower aggregate value. In the first nine months of this year, Ultracargo's average storage volume measured in cubic meters was up 10% compared to the same period in 2005, while average kilometrage traveled was down 14%. Ultracargo reported net sales and services of R\$ 55.3 million in 3Q06, down 10% and 6% compared to 3Q05 and 2Q06, respectively. Despite the increase in sales due to the increased volume handled at the Santos Terminal, there was a reduction in transport sales, due to the lower kilometrage traveled in 3Q06. In the first nine months of this year, Ultracargo's net sales and services amounted to R\$ 172.1 million, almost unchanged on the same period a year earlier.

Cost of Sales and Services: Ultrapar's cost of sales and services amounted to R\$ 1,029.9 million in 3Q06, up 2% and 7% on 3Q05 and 2Q06, respectively. For 9M06, Ultrapar's cost of sales and services amounted to R\$ 2,889.3 million, a 2% increase compared to the same period in 2005.

Ultragas: Ultragas's cost of sales and services amounted to R\$ 673.3 million in 3Q06. Despite the salary increase as a result of the annual collective wage agreements, this figure remained practically unchanged as a result of the slight drop in volume and cost reduction initiatives associated with the company's distribution structure review, so minimizing the effects of the increased personnel costs. Compared to 2Q06, the cost of sales and services was up by 3%, due basically to the 4% increase in volume sold. In the first nine months of this year, the company's cost of sales and services amounted to R\$ 1,919.2 million, up 2% on the same period in 2005.

Oxiteno: The cost of sales and services at Oxiteno amounted to R\$ 332.7 million, up 8% on 3Q05, basically as a function of (i) a 21% increase in the unit cost of ethylene in dollar terms and (ii) the increased volume of specialty chemicals, raising the cost of other raw materials, partially offset by the 7% appreciation in the Real. Compared

to 2Q06, there was an increase of 17% in the company's cost of sales and services due to an 11% rise in volume sold, added to the 14% increase in the unit cost of ethylene in dollar terms. The cost of sales and services at Oxiteno over the first nine months of this year amounted to R\$ 896.7 million, 2% higher than in the same period in 2005.

Ultracargo: The cost of services provided by Ultracargo amounted to R\$ 35.6 million in 3Q06, down 11% and 2% compared to 3Q05 and 2Q06, respectively, due to a drop in costs in the transport segment because of the lower kilometrage traveled, partially offset by the cost increase related to the expansion in storage operations. In the first nine months of this year, the company's total cost of services provided was down 3% on the same period in 2005.

Gross Profit: Ultrapar reported gross profit of 265.3 million in 3Q06, 21% and 12% above the figures reported in 3Q05 and 2Q06, respectively. The year-to-date gross profit totaled R\$ 701.0 million, a 4% decrease in relation to the same period in 2005.

Selling, General and Administrative Expenses: Ultrapar's sales, general and administrative expenses amounted to R\$ 154.1 million, up 9% and 5% compared to 3Q05 and 2Q06, respectively. For the first nine months of this year, sales, general and administrative expenses amounted to R\$ 441.8 million, an increase of 8% compared to the same period in 2005.

Ultragaz □ Sales, general and administrative expenses at Ultragaz totaled R\$ 82.7 million in 3Q06, up 13% on 3Q05, basically as a result of (i) salary increases arising from annual collective wage agreements and (ii) a higher level of variable remuneration, in line with the improvement in earnings. Compared to 2Q06, sales, general and administrative expenses were up 4%, basically because of higher sales expenses due to the 4% increase in volume sold, as well as higher variable remuneration expenses. For the first nine months of this year, sales, general administrative expenses totaled 236.3 million, 9% higher than in the same period in 2005.

Oxiteno □ Sales, general and administrative expenses at Oxiteno totaled R\$ 55.1 million in 3Q06, up 5% and 7% on 3Q05 and 2Q06, respectively. Administrative expenses amounted to R\$ 30.9 million, up 14% and 7% on 3Q05 and 2Q06, respectively, basically due to: (i) R\$ 1.8 million in extraordinary expenses and (ii) increased personnel expenses compared to 3Q05, as a result of salary adjustments arising from the annual collective wage agreement. Sales expenses were down 6% on 3Q05, due to the reduction seen in international freight expenses, because of the lower exports. In relation to 2Q06, there was an 8% increase in sales expenses, basically due to the 11% rise in volume sold - partially offset by the lower proportion of exports, as a percentage of total volume. For the first nine months of the year, sales, general and administrative expenses were 1% higher than in the same period in 2005.

Ultracargo □ Ultracargo's sales, general and administrative expenses totaled R\$ 17.5 million in 3Q06, up 5% compared to 3Q05, as a result of the rise in administrative expenses, due to (i) the increase in personnel expenses, largely because of the salary adjustments arising from the annual collective wage agreements; and (ii) the extraordinary expenses of discontinuing certain less profitable operations. Compared to 2Q06, SG&A expenses saw a slight drop of 1%. For the nine months ended in September 2006, Ultracargo's sales, general and administrative expenses amounted to R\$ 53.6 million, 22% up on the same period in 2005.

Income from Operations before Financial Items: Ultrapar reported income from operations before financial items of R\$ 111.9 million in 3Q06, 41% higher than the operating income reported in 3Q05. Compared to 2Q06, Ultrapar's income from operations before financial items increased by 24%. Income from operations before financial items totaled R\$ 261.0 million in 9M06, down 19% 9M05.

Financial Income (Expenses), Net: Ultrapar's financial result in 3Q06 amounted to expenses of R\$ 2.9 million, practically unchanged on 3Q05.

Nonoperating Income (Expenses), Net: In 3Q06 Ultrapar reported nonoperating expenses, net, of R\$ 7.7 million. The year-to-date nonoperating expenses, net, totaled R\$ 20.9 million, basically composed by R\$ 13.1 million of project analyses and R\$ 12.0 million (R\$ 4.0 million in 9M05) from the sale of permanent assets and provision for losses on sale of real state property.

Income and Social Contribution: Ultrapar's 3Q06 income and social contribution taxes expenses amounted to R\$ 26.6 million, a 17% increase compared to 3Q05, due to the recovery in the company's earnings, partially offset by the reduction in undeductable expenses. Compared to 2Q06, Ultrapar's income and social contribution taxes expenses were 17% lower, also as a result of the reduction in undeductable expenses. The income and social contribution taxes expenses in 9M06 were 4% lower than the figure in 9M05.

Benefit of Tax Holidays: Ultrapar is entitled to federal tax benefits for its activities in the Northeast Region of Brazil, due to the federal program for development of that region. Tax benefits cover Oxiteno's plant in Camaçari, Bahiana Distribuidora de Gás and Tequimar. Ultrapar's operations generated R\$ 15.3 million in benefits of tax holidays in 3Q06, practically unchanged compared to the figure in 3Q05. The benefits of tax holidays totaled to R\$ 46.1 million in 9M06, 16% lower than the amount in 9M05.

Net Income: The Company's consolidated net income in 3Q06 amounted to R\$ 88.8 million, up 32% on 3Q05 and flat in relation to 2Q06. Despite the improvement in the operational results, in 2Q06 there was a positive non-recurring item of R\$ 27 million in the financial result, related to the winning of a lawsuit against the federal tax authorities related to the payment of PIS and COFINS taxes. Excluding this non-recurring item, Ultrapar's net income was 45% higher compared to 2Q06. For the first nine months of the year, net income amounted to R\$ 233.7 million, down 9% on the net income reported in the same period in 2005.

EBITDA: Ultrapar reported consolidated Earnings Before Interest, Depreciation and Amortization (EBITDA) of R\$ 158.2 million in 3Q06, up 25% and 16% on 3Q05 and 2Q06, respectively. EBITDA accumulated in the first nine months of 2006 amounted to R\$ 400.8 million, 13% down on the same period in 2005.

Ultragas □ Ultragas reported EBITDA of R\$ 89.2 million in 3Q06, up 68% on 3Q05 - as a result of the benefits arising from the company's distribution structure review. Compared to 2Q06, EBITDA was up 15%, also reflecting seasonally stronger sales in 3Q06. In the first nine months of this year, Ultragas's EBITDA amounted to R\$ 222.1 million, 38% higher than in the same period in 2005.

Oxiteno □ EBITDA at Oxiteno totaled R\$ 58.8 million in 3Q06, practically unchanged on 3Q05. Market initiatives and a better performance in some segments of the market resulted in gains in market share and an improved sales mix - both in geographical as well as product terms, neutralizing the negative effects of the appreciation in the Brazilian Real and the behavior in the price of ethylene. Compared to 2Q06, EBITDA was up 27%, principally due to the higher seasonal sales in the domestic market and the improved price of glycol in the international market. EBITDA for the first nine months of this year totaled R\$ 145.5 million, down 44% compared to the same period in 2005.

Ultracargo □ Ultracargo reported EBITDA of R\$ 8.7 million, down 30% and 20%, compared to 3Q05 and 2Q06, respectively. Despite increased operations at TIS, extraordinary expenses arising from the discontinuation of some transport operations negatively impacted Ultracargo's EBITDA in 3Q06. In the first nine months of this year Ultracargo's EBITDA amounted to R\$ 28.9 million, 20% lower than the EBITDA for the same period in 2005.
