In light of the resolutions above, the Chairman, before continuing the meeting, informed everyone that the Corporate Restructuring had been approved at the Extraordinary Shareholders' Meeting of TCP, which had been held at 12:00 p.m. and had already ended. After receiving such information, the shareholders present at the meeting concluded the following:

(c) (i) to approve, by the majority of votes of the shareholders attending the meeting, the valuation reports prepared by Planconsult with respect to the shares of TCP to be merged into the Company, based on their economic value that was used to determine the capital increase of the Company, as provided in article 252, first paragraph, combined with article 8, both from Law No. 6,404, of December 15, 1976 ("Valuation Report for Capital Increase").

In light of the approval by the shareholders of TCP of the merger of the shares of TCP into the Company, the shareholders of the Company agreed to approve the Valuation Report of the Capital Increase, which determined the capital increase to be equivalent to the value of the shares of TCP equal to R\$ 1,879,727,592.70 (one billion, eight hundred and seventy nine million, seven hundred and twenty seven thousand, five hundred and ninety two Brazilian reais and seventy cents). (ii) to approve, by the majority of votes of the shareholders attending the meeting, the valuation report of the net worth of the Company based on its book value ("Valuation Report of Net Worth at Book Value");

(iii) to approve by the majority of votes of the shareholders attending the meeting, the valuation reports by Citi of TCP and the Company based on their respective economic values, on March 31, 2009, by the methodology of discounted cash flow, for purposes of determining the exchange ratio of common and preferred shares of TCP for new shares to be issued by the Company ("Exchange Ratio Valuation Reports").

The shareholders were informed that for purposes of comparing the exchange ratios determined in the evaluations conducted by Citi (also stated by the companies in the Merger Protocol) with those conducted by Planconsult, which were based upon the net worth at market prices in compliance with article 264 of Law No. 6.404/76 ("Valuation Report of Net Worth at Market Prices"), further information in relation to the calculation of the share exchange ratios according to the criteria on March 31, 2009 was available.

(d) (i) to approve, with the majority of votes of the shareholders attending the meeting, the exchange ratio of the TCP shares to be merged into the Company; the new shares to be issued by the Company, as established in the Merger Protocol, with the subsequent conversion of TCP into a wholly-owned subsidiary of the Company; such converted TCP shares to have the same rights of the current outstanding shares of the Company, which shall be assigned to the owners of the merged shares. Each common or preferred share of TCP shall be exchanged for 1.37 new common or preferred share of the Company, as applicable, according to the criteria described in the Merger Protocol approved in this meeting, which was calculated by Citi (whose appointment was indicated by the Managers of the Company and ratified in this meeting) based upon the economic values of TCP and the Company, which were valued according to the discounted cash flow methodology, on March 31, 2009. As established in the Protocol already approved, it was announced that the shareholders of the Company, who, as a result of the share exchange, are entitled to fractional shares, shall be paid, pro rata for such fractions, to be determined by the net market value of the grouped fractions, resulting from the auction (or

In light of the approval of the merger of shares and the resulting capital increase, as well as the issuance of new shares, the shareholders resolved to adjust the capital stock description, amending article 5 of the Bylaws, which shall come to effect with the following wording:

“Article 5. The capital stock, subscribed and fully paid in, is R\$ 8,780,150,322.86 (eight billion, seven hundred and eighty million, one hundred and fifty thousand, three hundred and twenty two Brazilian reais and eighty six cents), represented by 400,713,827 (four hundred million, seven hundred and thirteen thousand, eight hundred and twenty seven) book entry shares, of which 137,269,188 (one hundred and thirty seven million, two hundred and sixty nine thousand, one hundred and eighty eight) are common shares and 263,444,639 (two hundred and sixty three million, four hundred and forty four thousand, six hundred and thirty nine) are preferred shares, nominal and without par value.”

The shareholders were reassured that, as previously disclosed, TC and TCP had created the Special Committees (“Committees”) on the terms and in compliance with Parecer de Orientação 35/08, issued by the Brazilian Securities and Exchange Commission, and that such Committees, upon analyzing the Valuation Reports and studies of the advisors retained by the Companies, as well as the management proposals related to the exchange ratios, were advised by Banco Bradesco BBI S.A., enrolled with the CNPJ/MF under No. 06.271.464/0001-93 (“Bradesco BBI”), as an independent financial adviser retained by the Committees to help them with the analysis of the valuation report prepared by Citi. The Chairman pointed out to the present shareholders that, as established in the Notices of Material Facts and other Corporate Restructuring documents made available, the Committee of TCP presented its opinion to the management and recommended to the Board of Directors of TCP the adoption of the exchange ratios within the range indicated in those reports as being the most adequate. The management of the Company assessed the proposal, which resulted in the final approval of the exchange ratio that was established in the Protocol, whose ranges were, in turn, within the ranges recommended in the Exchange Ratio Valuation Reports prepared by Citi.

MINUTES OF THE EXTRAORDINARY GENERAL SHAREHOLDERS' MEETING
HELD ON JULY 27, 2009

The shareholders of the Company acknowledged that the Corporate Restructuring was analyzed by Citi, as provided in article 30 of the Company's Bylaws, and that in the valuation report prepared by Citi and made available to all shareholders of the companies involved in the Corporate Restructuring, the exchange ratios established by the Companies' Board of Directors were within the exchange ratio range resulting from the range of the companies' valuation report, and therefore equitable treatment was being given to the Companies. In addition, Bradesco BBI determined in its analysis that the exchange ratio intervals presented to the Special Committees by Citi were equitable and that they were within the ranges of the Exchange Ratios calculated by Bradesco BBI in the material presented to the Special Committee.

Finally, the Company's management was authorized to practice all acts necessary to formalize the merger of shares of TCP into the Company, approved herein, before any public entities and third parties, since the shareholders of TCP had already authorized in its meeting the subscription of the capital increase of the Company with the shares of TCP (subsequent to the approval of the merger of shares of TC into TCP), as provided in article 252, paragraph second, of the Brazilian Corporations Law, through their officers or any other person designated by them.

As nothing else was left to be discussed, these minutes were read, approved and executed, and the shareholders legal representatives have acknowledged that it would be drawn up in the form of summary of the facts, as authorized by article 130, paragraph first, of Law No. 6,404/76. It was also determined that, as authorized by article 130, paragraph second, of Law No. 6,404/76, these minutes would be published without the shareholders' representatives signatures.

MINUTES OF THE EXTRAORDINARY GENERAL SHAREHOLDERS' MEETING
HELD ON JULY 27, 2009

The shareholders were reassured that, as previously disclosed, TC and the Company had created Special Committees ("Committees") in compliance with Parecer de Orientação 35/08, issued by the Brazilian Securities and Exchange Commission, and that such Committees, upon analyzing the Valuation Reports and studies of the advisors retained by the Companies, as well as the management proposals related to the exchange ratios, were advised by Banco Bradesco BBI S.A., enrolled with the CNPJ/MF under No. 06.271.464/0001-93 ("Bradesco BBI"), as an independent financial adviser retained by the Committees to help them with the analysis of the valuation report prepared by Citi. The Chairman pointed out to the present shareholders that, as established in the Notices of Material Facts and other Corporate Restructuring documents made available, the Company's Committee had presented its opinion to the management, and recommended the adoption of the exchange rates included in the ranges indicated to the Board of Directors of the Company as being the most adequate, whose ranges were, in turn, within the ranges recommended in the Exchange Ratio Valuation Reports prepared by Citi.

The shareholders of the Company acknowledged that the Corporate Restructuring was analyzed by Citi, as provided in article 49 of the Company's Bylaws, and that in the valuation report prepared by Citi and made available to all shareholders of the companies involved in the Corporate Restructuring, the exchange ratios established by the Companies' Board of Directors were within the exchange ratio range resulting from the range of the companies' valuation report, and therefore equitable treatment was being given to the companies. In addition, Bradesco BBI determined in its analysis that the exchange ratio ranges presented to the Special Committee by Citi were equitable and that they were within the ranges of the Exchange Ratios calculated by Bradesco BBI in the material presented to the Special Committee.

Finally, the Company's management was authorized to practice all acts necessary to formalize the merger of shares of TC into the Company and the merger of the Company's shares into Vivo Part. as approved herein, before any public entities and third parties, including the Company's capital subscription with the shares of TC as provided in article 252, second paragraph, of the Brazilian Corporations Law, through their officers or any other person designated by them.
