ANNOUNCEMENT

The Board hereby announces certain selected unaudited key operational statistics of the Group for the first quarter of 2014 (ended 31 March 2014). The comparative statistics for the first quarter of 2013 (ended 31 March 2013) are also disclosed in this announcement.

The board of directors of CNOOC Limited (the “Company”) (the “Board”) hereby announces certain selected unaudited key operational statistics of the Company and its subsidiaries (together the “Group”) for the first quarter of 2014 (ended 31 March 2014). The comparative statistics for the first quarter of 2013 (ended 31 March 2013) are also disclosed in this announcement.

The Company achieved a total net production of 108.1 million barrels of oil equivalent (“BOE”) for the first quarter of 2014, representing an increase of 15.5% year over year (“YoY”), mainly attributable to: firstly, the production contribution from the acquisition of Nexen Inc. (“Nexen”); secondly, production ramp-up from major overseas projects such as Eagle Ford in the U.S. and Missan oilfields in Iraq.

For the first quarter of 2014, the Company made five new discoveries and eight successful appraisal wells in offshore China. New discovery of Bozhong 22-1 demonstrated great exploration potential of natural gas in Bohai buried hill at deeper zone; Another discovery of Lingshui 17-2 marked a breakthrough of the Company’s independent deepwater exploration. After further successful appraisals, Bozhong 8-4 and Wushi 17-2 were proved to be mid-sized oil and gas structures.

The unaudited oil and gas sales revenue of the Company reached approximately RMB 59.15 billion for the first quarter of 2014, representing an increase of 6.9% YoY, mainly due to the increase of oil and gas production. During the period, the Company’s average realized oil price decreased 5.1% YoY to US\$104.63 per barrel, mainly due to the weak performances of the Far East benchmark oil prices and Brent oil price. The Company’s average realized gas price was US\$6.33 per thousand cubic feet, representing an increase of 9.3% YoY, mainly due to the price hike with certain customers in China and higher realized gas price of Nexen.

For the first quarter of 2014, the Company's capital expenditure reached approximately RMB 19.31 billion.

The words “expect”, “anticipate”, “continue”, “estimate”, “objective”, “ongoing”, “may”, “will”, “project”, “believe”, “plans”, “intends” and similar expressions are intended to identify such forward-looking statements. These statements are based on assumptions and analyses made by the Company in light of its experience and its perception of historical trends, current conditions and expected future developments, as well as other factors the Company believes are appropriate under the circumstances. However, whether actual results and developments will meet the expectations and predictions of the Company depends on a number of risks and uncertainties which could cause the actual results, performance and financial condition to differ materially from the Company’s expectations, including those associated with fluctuations in crude oil and natural gas prices, the exploration or development activities, the capital expenditure requirements, the business strategy, whether the transactions entered into by the Group can complete on schedule pursuant to its terms and timetable or at all, the highly competitive nature of the oil and natural gas industries, the foreign operations, environmental liabilities and compliance requirements, and economic and political conditions in the People’s Republic of China. For a description of these and other risks and uncertainties, please see the documents the Company files from time to time with the United States Securities and Exchange Commission, including the 2013 Annual Report on Form 20-F filed on 17 April 2014.

Consequently, all of the forward-looking statements made in this press release are qualified by these cautionary statements. The Company cannot assure that the results or developments anticipated will be realised or, even if substantially realised, that they will have the expected effect on the Company, its business or operations.
