Standard & Poor's Corporation and Moody's Investors Service rate GE Interest Plus Corporate Notes AAA and Aaa respectively. These companies are nationally recognized statistical rating organizations, each approved by the United States Securities and Exchange Commission to measure the safety of securities. Standard and Poor's awards a AAA rating to companies they define as the best quality companies, reliable and stable. Moody's assignment of their Aaa rating indicates that obligations are judged to be of the highest quality, with minimal credit risk.

TYPES OF INVESTMENT ACCOUNTS t are the types of investment accounts that you open? We open individual investments, joint investments, custodial investments (Uniform Gifts to Minor s Accounts) and Trust investments. What is required to open a Trust Investment? To verify your trust, you must also provide us with the first two and last two pages of the trust agreement. Make sure the name of the trustee (and co-trustee if applicable) appears on these pages. What is a Uniform Gift to Minor s Account? The Uniform Gift to Minors Act (UGMA) or the Uniform Transfers to Minors Act (UTMA) is a type of custodial account for children. Most states have adopted one form of these uniform acts as a means of transferring ownership of property to children. The Acts allow a person to fund an account for a child, but limit that child s access to the account until the child reaches the age of majority. The age of majority is set by state law and typically ranges from 18 to 21. The child is the account owner, but the parent (or other adult) is named as custodian. The custodian controls the account until the child is no longer a minor. At that point, the custodial relationship ends and the child controls the account.
