Item 2.05. Costs Associated with Exit or Disposal Activities.

On August 20, 2009, Accenture Ltd (Accenture or the Company) announced that, as part of its strategy to drive future growth and profitability, it is taking steps to reduce excess real estate capacity and to realign its workforce. These actions will result in a pre-tax restructuring charge of approximately \$247 million in the fourth quarter of fiscal 2009, ending August 31.

Approximately \$119 million of the charge is related primarily to the reduction of excess office space globally, which will increase the productivity of the Company s fixed cost base and generate ongoing savings.

Approximately \$128 million of the charge is for severance and related costs of workforce actions, primarily at the senior-executive level, which are designed to ensure that the Company s global workforce is properly aligned to best serve the evolving needs of its clients and its business. These actions will reduce Accenture s senior-executive ranks by approximately 7 percent.

The Company expects the space reductions to be completed by the end of the current fiscal year and the workforce actions to be substantially completed during the first quarter of fiscal year 2010.

The pre-tax restructuring charge includes approximately \$22 million of non-cash asset impairments principally related to the global consolidation of excess office space. The remaining \$225 million comprises cash-related expenditures primarily for workforce- and office-lease-related costs, the majority of which will affect the company s cash flows in the first quarter of fiscal 2010.
