**NOTES TO UNAUDITED CONDENSED
CONSOLIDATED FINANCIAL STATEMENTS**

Note 1. Summary of Operations and Basis of Presentation

The unaudited condensed consolidated financial statements included herein have been prepared by Zapata Corporation (referred to as the Company, we, us, our, or Zapata) pursuant to the rules and regulations of the Securities and Exchange Commission (the Commission). The financial statements reflect all adjustments that are, in the opinion of management, necessary for a fair statement of such information. All such adjustments are of a normal recurring nature. Although Zapata believes that the disclosures are adequate to make the information presented not misleading, certain information and footnote disclosures, including a description of significant accounting policies normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America, have been condensed or omitted pursuant to such rules and regulations. The year-end condensed balance sheet data was derived from audited financial statements, but does not include all disclosures required by accounting principles generally accepted in the United States of America. The interim financial statements should be read in conjunction with the financial statements and the notes thereto included in Zapata's Annual Report on Form 10-K for the year ended December 31, 2008 filed with the Securities and Exchange Commission and with the information presented by Zap.Com Corporation (Zap.Com) in its Annual Reports on Form 10-K for the year ended December 31, 2008. The results of operations for the three and nine month periods ended September 30, 2009 are not necessarily indicative of the results for any subsequent quarter or the entire fiscal year ending December 31, 2009. The Company evaluated subsequent events through November 4, 2009, when the financial statements were issued.

Business Description

Zapata is a holding company with approximately \$153.2 million in consolidated cash, cash equivalents and investments at September 30, 2009 and currently owns approximately 98% of Zap.Com, a public shell company. Zap.Com is a public shell company that does not have any existing business operations other than complying with its reporting requirements under the Securities Exchange Act of 1934 (the Exchange Act). Zap.Com is searching for assets or businesses that it can acquire so that it can become an operating company and may also consider developing a new business suitable for its situation. Zap.Com trades on the over-the-counter electronic bulletin board under the symbol ZPCM.

As used throughout this report, Zapata Corporate is defined as Zapata Corporation exclusive of its majority owned subsidiary Zap.Com.

Noncontrolling Interests

On January 1, 2009, the Company adopted new accounting rules in accordance with Generally Accepted Accounting Principles (GAAP) which changed the accounting and reporting for minority interests by recharacterizing these amounts as noncontrolling interests classified as a component of equity in the consolidated balance sheets. Per the new rules, the consolidated statement of operations includes Net income, which represents net income attributable to Zapata Corporation, Net income attributable to noncontrolling interests and a new line item titled Net income attributable to Zapata Corporation, which is equal to the prior definition of net income. In addition, prior period amounts have been reclassified to conform to the requirements of the new standard.

Reclassification

Certain reclassifications of prior year information have been made to conform to the current presentation.

Table of Contents**Note 2. Change of Control**

On July 9, 2009, Harbinger Capital Partners Master Fund I, Ltd. (Master Fund), Global Opportunities Breakaway Ltd. (Global Fund) and Harbinger Capital Partners Special Situations Fund, L.P. (Special Situations Fund) and together with the Master Fund and Global Fund, the Harbinger Funds) purchased 9,937,962 shares, or 51.6%, of the Company s common stock and 757,907 shares, or 1.5%, of Zap.Com common stock from The Malcolm I. Glazer Family Limited Partnership, Malcolm I. Glazer, Avram A. Glazer, Linda Glazer, Bryan Glazer, Edward Glazer and Joel Glazer (the Sellers). The Company refers to this transaction as the Harbinger Purchase Transaction. The Harbinger Funds subsequently purchased 12,099 additional shares of the Company s common stock. In connection with the Harbinger Purchase Transaction, Philip A. Falcone, Lawrence M. Clark, Jr., Peter A. Jenson and Corrine J. Glass were elected to the Zapata board of directors (the Board) and two incumbent independent directors and four incumbent directors affiliated with our prior controlling stockholders resigned or were not re-elected at the 2009 annual meeting of our stockholders. Each of Messrs. Falcone, Clark and Jenson and Ms. Glass are employees of an affiliate of the Harbinger Funds.

The information in this Report relating to the Harbinger Purchase Transaction and the beneficial ownership of Zapata shares and Zap.Com shares by the Harbinger Funds and the Sellers is based solely on the Schedule 13Ds filed with the Commission by The Malcolm I. Glazer Family Limited Partnership, Malcolm Glazer, Linda Glazer and related beneficial owners on June 19, 2009 and July 13, 2009 and by Harbinger Capital Partners Master Fund I, Ltd. and related beneficial owners on June 19, 2009, July 13, 2009 and November 4, 2009.

On July 9, 2009, Zapata notified the New York Stock Exchange (NYSE) of its belief that, as a result of the changes in the composition of its Board, Zapata is no longer in compliance with the standards under Sections 303A.06 and 303A.07 of the NYSE Listed Company Manual relating to audit committee composition and independence. On July 10, 2009, Zapata received a letter from the NYSE noting this deficiency and acknowledging receipt of Zapata s notice. On October 7, 2009, Thomas M. Hudgins was elected to the Board and as a member and chairman of the Board s Audit Committee. The Board has determined that Mr. Hudgins qualifies as independent under the listing standards of the NYSE and as an audit committee financial expert as defined by regulations promulgated by the Commission. On October 31, 2009, Lap Wai Chan was elected to the Board and as a member of the Audit Committee. Based upon Mr. Chan s work experience, education and other relevant information, the Board has determined that Mr. Chan qualifies as independent under the listing standards of the NYSE and as an audit committee financial expert as defined by regulations promulgated by the Commission. The Audit Committee now consists of Robert V. Leffler, Jr., Thomas Hudgins and Lap Wai Chan. We are now in compliance with the requirements of Sections 303A.06 and 303A.07 of the NYSE Listed Company Manual. On October 7, 2009, Corrine J. Glass resigned and Keith Hladek, an employee of an affiliate of the Harbinger Funds, was elected to the Board.

Note 8. Commitments and Contingencies

Litigation

During the third quarter of 2004, Utica Mutual Insurance Company (Utica Mutual) commenced an action against Zapata in the Supreme Court for the County of Oneida, State of New York, seeking reimbursement under a general agreement of indemnity entered into by Zapata in the late 1970s. It appears that Utica Mutual is seeking reimbursement for payments it claims to have made under certain workers compensation surety bonds and reclamation bonds which were issued to certain former Zapata subsidiaries and are alleged by Utica Mutual to be covered by the general agreement of indemnity. While the precise amount of Utica Mutual's claim is unclear, it appears they are claiming approximately \$518,000. Zapata believes there are a number of valid defenses to the claims under both the workers compensation and reclamation bonds.

After the Company filed a formal answer and served a deposition notice, the suit remained largely dormant until March 2007 when Utica Mutual brought a motion for partial summary judgment. This motion was denied in June 2007. During the fourth quarter of 2007 the Court issued a formal discovery schedule and discovery has continued since that time. At this stage of the discovery process, the Company is unable to estimate the potential losses. As such, as of September 30, 2009 and December 31, 2008, no liabilities have been recorded for this matter. Zapata and its subsidiaries are subject to various claims and litigation relating to its past and current operations, which are being handled and vigorously defended in the ordinary course of business. While the results of any ultimate resolution cannot be predicted, in the opinion of management based upon discussions with counsel, any losses resulting from these matters will not have a material adverse effect on Zapata's financial position.

Environmental Matters

During the third quarter of 2005, Zapata was notified by Weatherford International Inc. (Weatherford) of a claim for reimbursement of approximately \$200,000 in connection with the investigation and cleanup of purported environmental contamination at two properties formerly owned by a non-operating Zapata subsidiary. The claim was made under an indemnification provision given by Zapata to Weatherford in a 1995 asset purchase agreement and relates to alleged environmental contamination that purportedly existed on the properties prior to the date of the sale. Weatherford has also advised the Company that it anticipates that further remediation and cleanup may be required, although they have not provided any information regarding the cost of any such future clean up. Zapata has challenged any responsibility to indemnify Weatherford. The Company believes that it has meritorious defenses to the claim, including that the alleged contamination occurred after the sale of the property, and intends to vigorously defend against it. As it is probable that some costs could be incurred related to this site, the Company has accrued \$100,000 related to this claim. This reserve represents the lower end of a range of possible outcomes as no other amount within the range is considered more likely than any other. There can be no assurance however that the Company will not incur material costs and expenses in excess of our reserve in connection with any further investigation and remediation at the site.

Zapata and its subsidiaries are subject to various claims and lawsuits regarding environmental matters in addition to those discussed above. Zapata's management believes that costs, if any, related to these matters will not have a material adverse effect on the Company's financial position.

Captive Insurance Arrangement

During a two year period commencing in 1993, the Company entered into a rent-a-captive arrangement for workers compensation insurance coverage whereby the Company funded premiums in an account maintained by an offshore entity related to a sponsor insurance carrier based in the United States. Due to significant liquidity concerns, the sponsor insurance company entered into voluntary rehabilitation during 2002. Based on this event, the Company wrote off the balance of the excess collateral arising from this arrangement. In September 2009, the Company received a refund of \$800,000 representing excess collateral relating to this arrangement and recorded this refund as Other Income on the Company's Condensed Consolidated Statements of Operations. There is one remaining open claim which is above the Company's deductible and significantly below policy limits. Accordingly, the Company does not believe that it has any material obligations under this arrangement and does not expect to receive additional material reimbursements.

Table of Contents**Guarantees**

Throughout its history, the Company has entered into numerous transactions relating to the sale, disposal or spin-off of past operations. Pursuant to certain of these transactions, the Company may be obligated to indemnify other parties to these agreements. These potential obligations include indemnifications for losses incurred by such parties arising out of the operations of such businesses prior to these transactions or the inaccuracy of representations of information supplied by the Company in connection with such transactions. These indemnification obligations existed prior to the Company's adoption of the current accounting rules for guarantees; accordingly, recognition requirements for these arrangements are not applicable. The Company is required to disclose these arrangements even if the likelihood of requiring the guarantor's performance is remote.

Note 9. Qualified Defined Benefit Plans

Zapata has a noncontributory defined benefit pension plan (the Plan) covering certain U.S. employees. In 2005, Zapata's Board authorized a plan to freeze the Plan in accordance with ERISA rules and regulations so that new employees, after January 15, 2006, would not be eligible to participate in the pension plan and further benefits would no longer accrue for existing participants. The freezing of the pension plan had the effect of vesting all existing participants in their pension benefits in the plan.

Additionally, Zapata has a supplemental pension plan, which provides supplemental retirement payments to certain former senior executives of Zapata. Effective December 1994, the supplemental pension plan was frozen.

Zapata plans to make no contributions to its pension plan or to its supplemental pension plan in 2009.

The amounts shown below reflect the consolidated defined benefit pension plan expense, including the supplemental pension plan expense.

Note 10. Share-Based Compensation

As of January 1, 2008, all share-based compensation arrangements were fully vested, and therefore, there is no unrecognized compensation cost as of September 30, 2009 or 2008. The Condensed Consolidated Statements of Operations for the three and nine months ended September 30, 2009 and 2008 included no share-based compensation costs or associated income tax benefits. Based on current grants, total share-based compensation cost for fiscal year 2009 is expected to be zero.

Zapata Corporate

Zapata Corporate had no share-based grants in the nine months ended September 30, 2009. A summary of option activity under the Zapata Corporate share-based compensation plans as of September 30, 2009, and changes during the nine months then ended is presented below:

Exercisable at September 30, 2009	399,040	\$ 5.01	3.2 years	\$ 780

The total intrinsic value of stock options exercised during the three and nine months ended September 30, 2009 was \$61,000. The stock options exercised were net exercises, pursuant to which the optionee received shares of common stock equal to the intrinsic value of the options (fair market value of common stock on date of exercise less exercise price) reduced by any applicable withholding taxes. The Company issued 8,516 shares of common stock during the third quarter of 2009 related to these exercises.

Zap.Com

Zap.Com had no share-based grants in the nine months ended September 30, 2009. A summary of option activity under the Zap.Com stock-based compensation plan as of September 30, 2009, and changes during the nine months then ended is presented below:

	Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term	Aggregate Intrinsic Value

Note 11. Related Party Transactions

Since its inception, Zap.Com has utilized the services of Zapata's management and staff under a shared services agreement that allocated these costs on a percentage of time basis. Zap.Com also subleases its office space in Rochester, New York from Zapata. Under the sublease agreement, annual rental payments are allocated on a cost basis. Zapata has waived its rights under the shared services agreement to be reimbursed for these expenses since May 1, 2000. For the three months ended September 30, 2009 and 2008, approximately \$2,000 and \$3,000, respectively, and \$9,000 and \$10,000, respectively, for the nine months ended September 30, 2009 and 2008 was recorded as contributed capital for these services.

Note 12. Recently Issued Accounting Pronouncements

Edgar Filing: ZAPATA CORP - Form 10-Q

Effective for the quarterly period beginning April 1, 2009, the Company was required to implement new accounting guidance that amended existing regulations for determining whether an other than temporary impairment of debt securities has occurred. Among other changes, the new guidance replaced the existing requirement that an entity's management assert it has both the intent and ability to hold an impaired security until recovery with a requirement that management assert (a) it does not have the intent to sell the security, and (b) it is more likely than not it will not have to sell the security before recovery of its cost basis. The adoption of this guidance did not have a material impact on the Company's financial position, results of operations or cash flows.

Effective starting with interim or annual financial periods ending after September 15, 2009, the Company is required to include additional disclosures for events that occur after the balance sheet date but before financial statements are

Table of Contents

issued or are available to be issued. The guidance with respect to such disclosures includes: (1) the period after the balance sheet date during which management of a reporting entity should evaluate events or transactions that may occur for potential recognition or disclosure in the financial statements; (2) the circumstances under which an entity should recognize events or transactions occurring after the balance sheet date in its financial statements; and (3) the disclosures that an entity should make about events or transactions that occurred after the balance sheet date. The implementation of this guidance did not have a material impact on the Company's financial position, results of operations or cash flows.

Note 14. Subsequent Events**Reincorporation Merger**

On November 3, 2009, our Board adopted an Agreement and Plan of Merger (the "Merger Agreement") between our company and its newly formed, wholly-owned subsidiary, Harbinger Group Inc., a Delaware corporation formed by us for this purpose ("Harbinger Group"). Also on November 3, 2009, the holders of a majority of our issued and outstanding shares of common stock consented in writing to the Merger Agreement. On November 4, 2009, we

entered into the Merger Agreement with Harbinger Group. The Merger Agreement provides for the merger of our company with and into Harbinger Group (the Reincorporation Merger) and will result in the following:

- o the domicile of our company will change from the State of Nevada to the State of Delaware;

- o we will be governed by the laws of the State of Delaware and by a new Certificate of Incorporation and new Bylaws prepared in accordance with Delaware law;

Table of Contents

- o our stockholders will receive one share of common stock of Harbinger Group for each share of our common stock owned by them at the time the Reincorporation Merger is effected;
- o the persons presently serving as our executive officers and directors will serve in their same respective positions with Harbinger Group;
- o our name will change to Harbinger Group Inc. ; and
- o Harbinger Group will be the successor corporation and continue the business of Zapata.

We filed a preliminary Information Statement on Schedule 14C (the Information Statement) with the Commission on November 4, 2009. We anticipate that the Reincorporation Merger will become effective 20 calendar days after the date we mail the definitive Information Statement to our stockholders. Following the Reincorporation Merger, our trading symbol will change to HRG .

Termination of Stock Repurchase Program

In December 2002, our Board authorized us to purchase up to 4.0 million shares of our outstanding common stock in the open market or privately negotiated transactions. On November 3, 2009, our Board terminated this authorization.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This Quarterly Report on Form 10-Q (the Report), future filings by Zapata and our majority owned subsidiary, Zap.Com, with the Commission may contain certain forward-looking statements as such term is defined by the Commission in its rules, regulations and releases, which represent our expectations or beliefs, including, but not limited to, statements concerning our operations, economic performance, financial condition, growth and acquisition strategies, investments and future operational plans, such as those disclosed under the caption Risk Factors appearing in Item 1A of Part II of this Report, and in Item 1A of our Annual Report on Form 10-K for the fiscal year ended December 31, 2008. For this purpose, any statements contained herein that are not statements of historical fact may be deemed to be forward-looking statements. Without limiting the generality of the foregoing, words such as may, will, expect, believe, anticipate, intend, could, estimate, might, or continue or the negative or other variations of comparable terminology are intended to identify forward-looking statements. These statements, by their nature, involve substantial risks and uncertainties, certain of which are beyond our control, and actual results may differ materially depending on a variety of important factors, including uncertainty related to acquisitions, governmental regulation and any other factors discussed in our filings with the Commission. These risks and uncertainties include, without limitation, the following:

- o We may not be successful in identifying any suitable acquisition opportunities.
- o Volatility in global credit markets may impact our ability to obtain financing to fund acquisitions.
- o We are majority owned by the Harbinger Funds. The interests of the Harbinger Funds may conflict with interests of other stockholders. As a result of this ownership, we are a controlled company within the meaning of the NYSE rules and are exempt from certain corporate governance requirements.
- o Future acquisitions and dispositions may not require a stockholder vote and may be material to us.
- o The market liquidity for our common stock is relatively low and may make it difficult to purchase or sell our stock.
- o We may suffer adverse consequences if we are deemed an investment company and we may incur significant costs to avoid investment company status.

Table of Contents

- o Since we already meet the ownership criteria of the personal holding company rules, we may be subject to an additional tax on future undistributed personal holding company income if we generate passive income in excess of operating expenses.
- o A change of ownership could reduce the benefits associated with our tax assets.
- o Agreements and transactions involving former subsidiaries or related parties may give rise to future claims that could materially adversely impact our capital resources.
- o Litigation defense and settlement costs may be material.
- o Section 404 of the Sarbanes-Oxley Act of 2002 requires us to document and test our internal controls over financial reporting and to report on our assessment as to the effectiveness of these controls. Any delays or difficulty in satisfying these requirements or negative reports concerning our internal controls could adversely affect our future results of operations and our stock price.

Zapata Corporation

We were incorporated in Delaware in 1954 and reincorporated in Nevada in April 1999. Our principal executive offices are at 100 Meridian Centre, Suite 350, Rochester, New York 14618. Our common stock is listed on the NYSE and trades under the symbol ZAP.

We are a holding company which has approximately \$153.2 million in consolidated cash, cash equivalents and investments at September 30, 2009 and currently owns approximately 98% of Zap.Com, a public shell company that trades on the over-the-counter electronic bulletin board (OTCBB) under the symbol ZPCM.

In December 2006, we completed the disposition of our 57% ownership interest in common stock of Omega Protein Corporation. Since that time, we have held cash, cash equivalents and investments in U.S. Government Agency or Treasury securities, and have held no investment securities (as that term is defined in the 1940 Act). In addition, we have not held, and do not hold, ourselves out as an investment company. During this time, we have conducted a good faith search for an acquisition or business combination candidate, and have repeatedly and publicly disclosed our intention to acquire or combine with such a business. Based on the foregoing, we believe that we are not an investment company under the 1940 Act.

On July 9, 2009, the Harbinger Funds purchased 9,937,962 shares, or 51.6%, of our common stock. The Harbinger Funds later purchased 12,099 additional shares of our common stock, resulting in a total of 9,950,061 shares, or 51.6% of our common stock. Our Board is now composed of Philip A. Falcone, Lawrence M. Clark, Jr., Peter A. Jenson and Keith Hladek, each of whom is an employee of an affiliate of the Harbinger Funds, and Lap Wai Chan, Thomas Hudgins and Robert V. Leffler Jr., each of whom is an independent director. Philip A. Falcone is Zapata's Chairman of the Board, President and Chief Executive Officer and Peter Jenson is Zapata's Secretary.

Our principal focus has been, and following the Harbinger Purchase Transaction continues to be, identifying and evaluating business combinations and acquisitions of businesses or assets. Our new affiliation with the Harbinger Funds gives us access to new acquisition and business combination opportunities, including businesses which are controlled by, affiliated with or otherwise known to the Harbinger Funds. As a result of these continuing efforts, we regularly review acquisition and business combination proposals, including those known to the Harbinger Funds, those presented by third parties and those sought out by us. At any time, we are likely to be engaged in ongoing discussions with respect to several possible acquisitions or business combinations of widely varying sizes and in disparate industries. As of the date of this Report, we do not have any agreement with respect to any such acquisition. There can be no assurance that any of these discussions will result in a definitive purchase agreement and if they do, what the terms or timing of any agreement would be.

We may pay acquisition consideration in the form of cash, our debt or equity securities or a combination. In addition, as a part of our acquisition strategy we will consider raising additional capital through the issuance of equity or debt securities, including the issuance of preferred stock.

Table of Contents

We have not focused and do not intend to focus our acquisition efforts solely on any particular industry. Additionally, while we generally focus our attention in the United States, we may investigate acquisition opportunities outside of the United States when we believe that such opportunities might be attractive.

In identifying, evaluating and selecting a target business, we may encounter intense competition from other entities having similar business objectives such as strategic investors, private equity groups and special purpose acquisition corporations. Many of these entities are well established and have extensive experience identifying and effecting business combinations directly or through affiliates. Many of these competitors possess greater technical, human and other resources than us, and our financial resources will be relatively limited when contrasted with many of these competitors. Any of these factors may place us at a competitive disadvantage in successfully negotiating a business combination. Moreover, the Harbinger Funds and their affiliates include other vehicles that actively are seeking investment opportunities, and any one of those vehicles may at any time be seeking investment opportunities similar to those targeted by the Company. The Company's directors and officers who are affiliated with the Harbinger Funds will allocate acquisition opportunities among vehicles consistent with their fiduciary duties and based upon, among other things, asset type and investment time horizon. In recognition of the potential conflicts that these persons and our other directors may have with respect to corporate opportunities, the certificate of incorporation for Harbinger Group permits our board of directors from time to time to assert or renounce Harbinger Group's interests and expectancies in one or more specific industries. We believe that our status as a public entity and potential access to the public equity markets may give us a competitive advantage over privately-held entities with a similar business objective to acquire certain target businesses on favorable terms.

As of the date of this Report, due to a variety of factors including the current global economic and financial market conditions and the significant deterioration of the credit markets, competitive pressures, and our limited funds (as compared to many competitors) available for such a transaction, we have been unable to consummate an acquisition or business combination. Also, as of the date of this Report, we have not formally engaged any investment banks or related firms, although we may do so in the future, in which event we may pay a finder's fee or other compensation in an amount and on such terms to be determined at the time of the engagement.

In December 2002, our Board authorized us to purchase up to 4.0 million shares of our outstanding common stock in the open market or privately negotiated transactions. No shares have been repurchased under this authorization and the Board has terminated this authorization.

Reincorporation Transaction

On November 3, 2009, our Board adopted a Merger Agreement between our company and its newly formed, wholly-owned subsidiary, Harbinger Group. Also on November 3, 2009, the holders of a majority of our issued and outstanding shares of common stock consented in writing to the Merger Agreement. On November 4, 2009, we entered into the Merger Agreement with Harbinger Group. For a discussion of the Merger Agreement, see Item 5.

Other Information, Entry into a Material Definitive Agreement, below.

Zap.Com

Zap.Com is a public shell company that does not have any existing business operations other than complying with its reporting requirements under the Exchange Act. Zap.Com is searching for assets or businesses that it can acquire so that it can become an operating company and may also consider developing a new business suitable for its situation.

Three Months Ended September 30, 2009 and 2008

Zapata reported a consolidated net loss of \$345,000 or \$0.02 per share for the three months ended September 30, 2009 as compared to a consolidated net loss of \$188,000 or \$0.01 per share for the three months ended September 30, 2008. On a consolidated basis, the increase in net loss resulted primarily from increases in professional fees and decreases in interest income for the three months ended September 30, 2009 as compared to the three months ended September 30, 2008 partially offset by the recognition of other income related to old businesses of Zapata.

The following presents a more detailed discussion of our consolidated operating results:

Revenues. For the three months ended September 30, 2009 and 2008, we had no revenues. Since the Company sold our remaining operating business in December 2006, we do not expect to recognize revenues until the Company acquires one or more operating businesses.

Cost of revenues. For the three months ended September 30, 2009 and 2008, we had no cost of revenues.

General and administrative expenses. Consolidated general and administrative expenses consist primarily of salaries and benefits, professional fees (including legal and accounting incurred in connection with ongoing regulatory compliance as a public company, financial statement audits and defense of pending litigation), occupancy costs for corporate offices, insurance costs and general corporate expenses. For the three months ended September 30, 2009, general and administrative expenses totaled \$1.4 million and had increased \$545,000 from the prior comparable period primarily due to increases in professional fees of \$482,000 predominately arising from the Harbinger Purchase Transaction and resulting change of control, the transition to a re-constituted Board and the proposed Reincorporation Merger and an increase in actuarially determined pension expense of \$223,000, partially offset by a decrease in payroll costs of \$127,000.

Table of Contents

Interest income. Consolidated interest income decreased \$435,000 from \$490,000 for the three months ended September 30, 2008 to \$55,000 for the current quarter, resulting from lower interest rates on our cash, cash equivalents and investments.

Other, net. Consolidated other, net was \$831,000 and \$3,000 for the three months ended September 30, 2009 and 2008, respectively. During September 2009, we received a refund of excess collateral of \$800,000 from a rent-a-captive insurance arrangement which was entered into during 1993. As we had previously written off the balance of our excess collateral, the full amount of this refund was recorded as Other Income. We do not believe that we have any material obligations under this arrangement and do not expect to receive any additional material reimbursements related to this program.

Income taxes. The Company recorded a consolidated benefit for income taxes of \$169,000 for the three months ended September 30, 2009 as compared to \$175,000 for the comparable period of the prior year.

Nine Months Ended September 30, 2009 and 2008

Zapata reported a consolidated net loss of \$1.5 million or \$0.08 per share for the nine months ended September 30, 2009 as compared to consolidated net income of \$444,000 or \$0.02 per diluted share for the nine months ended September 30, 2008. On a consolidated basis, the change from net income to net loss resulted primarily from decreased interest income and increased professional fees during the nine months ended September 30, 2009 as compared to the nine months ended September 30, 2008 partially offset by other income recognized related to old businesses of Zapata.

The following presents a more detailed discussion of our consolidated operating results:

Revenues. For the nine months ended September 30, 2009 and 2008, we had no revenues. Since the Company sold our remaining operating business in December 2006, we do not expect to recognize revenues until the Company acquires one or more operating businesses.

Cost of revenues. For the nine months ended September 30, 2009 and 2008, we had no cost of revenues.

General and administrative expenses. Consolidated general and administrative expenses consist primarily of salaries and benefits, professional fees (including legal and accounting incurred in connection with ongoing regulatory compliance as a public company, financial statement audits and defense of pending litigation), occupancy costs for corporate offices, insurance costs and general corporate expenses. For the nine months ended September 30, 2009, general and administrative expenses totaled \$3.8 million and had increased \$1.4 million from the prior comparable period primarily due to an increase in actuarially determined pension expense of \$661,000 and increases in professional fees of \$659,000 predominately arising from the Harbinger Purchase Transaction and resulting change of control, the transition to a re-constituted Board and the proposed Reincorporation Merger.

Interest income. Consolidated interest income decreased \$2.6 million from \$2.8 million for the nine months ended September 30, 2008 to \$197,000 for the current quarter, resulting from lower interest rates on our cash, cash equivalents and investments.

Other, net. Consolidated other, net was \$1.2 million and \$75,000 for the nine months ended September 30, 2009 and 2008, respectively. During the nine months ended September 2009, we received a refund of excess collateral of \$800,000 from a rent-a-captive arrangement which was entered into during 1993. As we had previously written off the balance of our excess collateral, the full amount of this refund was recorded as Other Income. We do not believe that we have any material obligations under this arrangement and do not expect to receive any additional material reimbursements related to this program. Also during the nine months ended September 2009, we received \$354,000 from settlement agreements entered into during 2009 related to two solvent schemes of arrangement with insurers in the London market. Under the terms of both agreements, the Company agreed to accept a payment in exchange for the termination of insurance coverage on certain non-operating subsidiaries. A solvent scheme is the mechanism by which solvent entities, including insurance companies, are able to shed liabilities and terminate their insurance and reinsurance obligations with judicial sanction. Such arrangements are authorized by Section 425 of the U.K. Companies Act of 1985.

Table of Contents

Income taxes. The Company recorded a consolidated benefit for income taxes of \$797,000 for the nine months ended September 30, 2009 as compared to a provision for income taxes of \$59,000 for the comparable period of the prior year. The change from a provision to a benefit for income taxes resulted from a decrease in net income recognized during the nine months ended September 30, 2009 as compared to the comparable period in the prior year.

Liquidity and Capital Resources

Zapata and Zap.Com are separate public companies. Accordingly, the capital resources and liquidity of Zap.Com is independent of Zapata. The working capital and other assets of Zap.Com are dedicated to Zap.Com and are not expected to be readily available for the general corporate purposes of Zapata, except for any dividends that may be declared and paid to its stockholders. Zapata has never received any dividends from Zap.Com. In addition, Zapata does not have any investment commitments to Zap.Com.

Zapata's liquidity needs are primarily for salaries and benefits, professional fees (including legal and accounting incurred in connection with ongoing regulatory compliance as a public company, financial statement audits and defense of pending litigation), occupancy costs for corporate offices, insurance costs and general corporate expenses. The Company may also utilize a significant portion of our cash, cash equivalents and investments to fund all or a portion of the cost of any future acquisitions.

Zapata's current source of liquidity is its cash, cash equivalents and investments and the interest income it earns on these funds. Zapata expects these assets to continue to be a source of liquidity except to the extent that they may be used to fund the acquisition of operating businesses and funding of start-up proposals. As of September 30, 2009, Zapata Corporate's cash, cash equivalents and investments were \$153.2 million as compared to \$154.7 million as of December 31, 2008.

Based on current levels of operations, Zapata management believes that the Company's cash, cash equivalents and investments on hand will be adequate to fund our operational and capital requirements for at least the next twelve months. Depending on the size and terms of future acquisitions of operating companies, Zapata may raise additional capital through the issuance of equity or debt. There is no assurance, however, that such capital will be available at the time, in the amounts necessary or with terms satisfactory to Zapata.

Off-Balance Sheet Arrangements

The Company and our subsidiaries do not have any off-balance sheet arrangements that are material to our financial position, results of operations or cash flows. The Company is a party to agreements with our officers, directors and to certain outside parties. For further discussion of these guarantees, see Note 8 to the Condensed Consolidated Financial Statements included in Item 1 of this report.

Summary of Cash Flows

The following table summarizes Zapata's consolidating cash flow information (in thousands):

Net decrease in cash and cash equivalents	\$ (137,546)	\$ (1,684)	\$ (139,230)

Net cash (used in) provided by operating activities. Consolidated cash used in operating activities was \$1.4 million for the nine months ended September 30, 2009 as compared to cash provided by operating activities of \$392,000 for the nine months ended September 30, 2008. The change from cash provided by operating activities to cash used in operating activities resulted from less net income during 2009 as compared to 2008.

Net cash used in investing activities. Consolidated cash used in investing activities was \$12.1 million and \$139.6 million for the nine months ended September 30, 2009 and 2008, respectively. This decrease resulted from fewer purchases of investments during the nine months ended September 30, 2009 as compared to the similar period of the prior year.

The Company had no cash flows from financing activities for the nine months ended September 30, 2009 or 2008.

Recent Accounting Pronouncements

Effective for the quarterly period beginning April 1, 2009, the Company was required to implement new accounting guidance that amended existing regulations for determining whether an other than temporary impairment of debt securities has occurred. Among other changes, the new guidance replaced the existing requirement that an entity's management assert it has both the intent and ability to hold an impaired security until recovery with a requirement that management assert (a) it does not have the intent to sell the security, and (b) it is more likely than not it will not have to sell the security before recovery of its cost basis. The adoption of this guidance did not have a material impact on the Company's financial position, results of operations or cash flows.

Effective starting with interim or annual financial periods ending after September 15, 2009, the Company is required to include additional disclosures for events that occur after the balance sheet date but before financial statements are issued or are available to be issued. The guidance with respect to such disclosures includes: (1) the period after the balance sheet date during which management of a reporting entity should evaluate events or transactions that may occur for potential recognition or disclosure in the financial statements; (2) the circumstances under which an entity should recognize events or transactions occurring after the balance sheet date in its financial statements; and (3) the disclosures that an entity should make about events or transactions that occurred after the balance sheet date. The implementation of this guidance did not have a material impact on the Company's financial position, results of operations or cash flows.

Critical Accounting Policies and Estimates

As of September 30, 2009, the Company's consolidated critical accounting policies and estimates have not changed materially from those set forth in the Company's Annual Report on Form 10-K for the year ended December 31, 2008.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Not required for Smaller Reporting Companies.

Item 4. Controls and Procedures**Evaluation of disclosure controls and procedures**

An evaluation was performed under the supervision of the Company's management, including the Chief Executive Officer (CEO) and Chief Financial Officer (CFO), of the effectiveness of the design and operation of the

Table of Contents

Company's disclosure controls and procedures (as defined in the Exchange Act Rules 13a-15(e) and 15d-15(e)) as of the end of the period covered by this report. Based on that evaluation, the Company's management, including the CEO and CFO, concluded that, as of September 30, 2009, the Company's disclosure controls and procedures were effective to ensure that information we are required to disclose in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Commission's rules and forms. Notwithstanding the foregoing, there can be no assurance that the Company's disclosure controls and procedures will detect or uncover all failures of persons within the Company to disclose material information otherwise required to be set forth in the Company's periodic reports. There are inherent limitations to the effectiveness of any system of disclosure controls and procedures, includes the possibility of human error and the circumvention or overriding of the controls and procedures. Accordingly, even effective disclosure controls and procedures can only provide reasonable, not absolute, assurance of achieving their control objectives.

Changes in Internal Controls Over Financial Reporting

An evaluation was performed under the supervision of the Company's management, including the CEO and CFO, of whether any change in the Company's internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) occurred during the quarter ended September 30, 2009.

As a result of the Harbinger Purchase Transaction and the related director elections, during the quarter ended September 30, 2009, the Board and its Audit Committee consisted of only one independent director and did not include a financial expert, as defined by Item 407(d)(5)(ii) of Regulation S-K. This was deemed by the Company's management, including the CEO and CFO, to be a significant change in the Company's internal controls over financial reporting that materially affected or is reasonably likely to materially affect the Company's internal control over financial reporting. However, the Company's management does not believe that this change resulted in any material error in our financial reporting or any material weakness in our internal controls, although, no assurance can be given that there are no such material errors or weaknesses existing. To remedy this situation, the Board has elected Thomas Hudgins and Lap Wai Chan, who are both independent directors under the listing standards of the NYSE and financial experts, as defined by regulations promulgated by the Commission, to the Board and its Audit Committee. Except as described above, there have been no changes in our internal controls over financial reporting that occurred during the quarter ended September 30, 2009 that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

PART II. OTHER INFORMATION**Item 1. Legal Proceedings**

None.

Item 1A. Risk Factors

In examining an investment in our common stock, you should be aware that there are various risks which could negatively impact our results of operations, cash flows and financial condition, including those described below. We urge you to carefully consider these risk factors together with all of the other information included in this filing and other risks and uncertainties identified in our filings made with the Commission, press releases and public statements made by our authorized officers before you decide to purchase or make an investment decision regarding our common stock.

We may not be successful in identifying any suitable acquisition opportunities.

There is no assurance that we will be successful in identifying or consummating any suitable acquisitions and, if we do complete an acquisition, there is no assurance that it will be successful in enhancing our business or our financial condition. We face significant competition for acquisition opportunities, which may inhibit our ability to complete suitable transactions or increase the cost we must pay. Acquisitions could divert a substantial amount of our

Table of Contents

management time and may be difficult for us to integrate. We may issue additional shares of common stock or other securities in connection with one or more acquisitions which may dilute the interest of our existing stockholders. Depending upon the size and number of any acquisitions, we may also borrow money to fund acquisitions or to fund operations of our business. In that event, we would be subject to the risks normally associated with indebtedness, including the inability to service the debt or the dedication of a significant amount of cash flow to service the debt, limits on our ability to secure future financing and the imposition of various covenants, including restrictions on our operations.

Volatility in global credit markets may impact our ability to obtain financing to fund acquisitions.

Our ability to consummate an acquisition may be largely dependent on our ability to obtain debt or equity financing. The current global economic and financial market conditions, including severe disruptions in the credit markets and the potential for a significant and prolonged global economic recession, may impact our ability to raise equity capital or to obtain sufficient credit to finance an acquisition until the conditions become more favorable.

The interests of the Harbinger Funds, our controlling stockholders, may conflict with interests of other stockholders.

The Harbinger Funds own more than 50% of our combined voting power and, because of this, exercise a controlling influence over our business and affairs and have the power to determine all matters submitted to a vote of our stockholders, including the election of directors, the removal of directors, and approval of significant corporate transactions such as amendments to our certificate of incorporation, mergers and the sale of all or substantially all of our assets. Moreover, a majority of the members of our Board were nominated by and are affiliated with or employed by the Harbinger Funds or their affiliates. The Harbinger Funds could cause corporate actions to be taken even if the interests of these entities conflict with or are not aligned with the interests or plans of our other stockholders. This concentration of voting power could have the effect of deterring or preventing a change in control of our company that might otherwise be beneficial to our stockholders.

In addition, our current Nevada Articles of Incorporation include a provision requiring the affirmative vote or consent of holders of 80% of our voting stock (the Super-Majority Vote) to approve certain merger, asset sale, acquisition and lease transactions with certain beneficial owners of our common stock. Following the Reincorporation Merger, the Delaware charter of Harbinger Group (our successor) will omit such provision. Therefore, the Company could enter into a merger, asset sale, acquisition or lease transaction with an entity controlled by the Harbinger Funds without the requirement of a Super-Majority Vote.

Future acquisitions and dispositions may not require a stockholder vote and may be material to us.

Any acquisitions could be material in size and scope, and since we have not yet identified any additional assets, property or business that we may acquire or develop, potential investors will have virtually no substantive information about any such new business upon which to base a decision whether to invest in our common stock. In any event, depending upon the size and structure of any acquisitions, stockholders may not have the opportunity to vote on the transaction, and may not have access to any information about any new business until the transaction is completed and we file a report with the Commission disclosing the nature of such transaction and/or business.

We are majority-owned by the Harbinger Funds. As a result of this ownership, we are a controlled company within the meaning of the NYSE rules and are exempt from certain corporate governance requirements.

Because the Harbinger Funds own more than 50% of our combined voting power, we are deemed a controlled company under the rules of the NYSE. As a result, we qualify for, and rely upon, the controlled company exception to the Board and committee composition requirements under the rules of the NYSE. Pursuant to this exception, we are exempt from rules that would otherwise require that our Board be comprised of a majority of independent directors (as defined under the rules of the NYSE), and that our compensation committee and corporate governance and nominating committee be comprised solely of independent directors, so long as the Harbinger Funds continue to own more than 50% of our combined voting power.

Table of Contents

The market liquidity for our common stock is relatively low and may make it difficult to purchase or sell our stock.
As of October 29, 2009, we had 19,284,850 shares of common stock outstanding. The average daily trading volume in our stock during the three month period ended October 29, 2009 was approximately 11,800 shares. Although a more active trading market may develop in the future, the limited market liquidity for our stock could affect a stockholder's ability to sell at a price satisfactory to that stockholder.

We may suffer adverse consequences if we are deemed an investment company and we may incur significant costs to avoid investment company status.

Since the December 2006 sale of our Omega shares, we have held substantially all of our assets in cash, cash equivalents and investments in U.S. Government Agency and Treasury securities, and have held no investment securities. In addition, we have not held, and do not hold, our self out as an investment company. We have been conducting a good faith search for a merger or acquisition candidate, and have repeatedly and publicly disclosed our intention to acquire a business. However, as of the date of this report, due to a variety of factors including the current global economic and financial market conditions and the significant deterioration of the credit markets, competitive pressures in the market and our limited funds (as compared to many competitors) available for such an acquisition, we have been unable to consummate such a transaction. Based on the foregoing, we believe that we are not an investment company under the 1940 Act. If the Commission or a Court were to disagree with us, we could be required to register as an investment company. This would negatively affect our ability to consummate an acquisition of an operating company, subjecting us to disclosure and accounting rules geared toward investment, rather than operating, companies; limiting our ability to borrow money, issue options, issue multiple classes of stock and debt, and engage in transactions with affiliates; and requiring us to undertake significant costs and expenses to meet the disclosure and regulatory requirements to which we would be subject as a registered investment company.

Since we already meet the ownership criteria of the personal holding company rules, we may be subject to an additional tax on future undistributed personal holding company income if we generate passive income in excess of operating expenses.

Section 541 of the Internal Revenue Code of 1986, as amended (the IRC), subjects a corporation which is a personal holding company, as defined in the IRC, to a 15% tax on undistributed personal holding company income in addition to the corporation's normal income tax. Generally, undistributed personal holding company income is based on taxable income, subject to certain adjustments, most notably a reduction for federal income taxes. Personal holding company income is comprised primarily of passive investment income plus, under certain circumstances, personal service income. A corporation generally is considered to be a personal holding company if (1) 60% or more of its adjusted ordinary gross income is personal holding company income and (2) more than 50% in value of its outstanding common stock is owned, directly or indirectly, by five or fewer individuals, as calculated under the applicable tax rule at any time during the last half of the taxable year.

We believe that five or fewer individuals held more than 50% in value of our outstanding common stock for purposes of IRC Section 541 as of September 30, 2009. Additionally, depending on a number of factors including cash available for investment, interest rates, and the nature and timing of business combination transactions, it is possible that we, or our domestic subsidiaries, could have at least 60% of adjusted ordinary gross income consist of personal holding company income. In addition, depending on the concentration of our stock, it is possible that more than 50% in value of our stock will continue to be owned by five or fewer individuals. Thus, there can be no assurance that we will not be subject to this tax in the future that in turn may materially and adversely impact our financial position, results of operations and cash flows. In addition, if we continue to be subject to this tax, future statutory tax rate increases could significantly increase consolidated tax expense and adversely affect operating results and cash flows.

A change of ownership could reduce the benefits associated with our tax assets.

An ownership change pursuant to Section 382 or 383 of the IRC could impact our ability to utilize our net operating losses and/or alternative minimum tax credits. A future ownership change could negatively impact our ability to utilize our net operating losses and/or alternative minimum tax credits. An ownership change for this purpose generally is a change in the majority ownership of a company over a three year period.

Agreements and transactions involving former subsidiaries or related parties may give rise to future claims that could materially adversely impact our capital resources.

Throughout our history, we have entered into numerous transactions relating to the sale, disposal or spin-off of partially and wholly owned subsidiaries. We may have continuing obligations pursuant to certain of these transactions, including obligations to indemnify other parties to agreements, and may be subject to risks resulting from these transactions. For example, during the third quarter of 2005, we were notified by Weatherford International Inc. of a claim for reimbursement in connection with the investigation and cleanup of purported environmental contamination at two properties formerly owned by one of our non-operating subsidiaries. The claim was made under an indemnification provision given by us to Weatherford in a 1995 asset purchase agreement. There can be no assurance that we will not incur costs and expenses in excess of our reserve in connection with the Weatherford claim.

Litigation defense and settlement costs may be material.

There can be no assurance that we will prevail in any pending litigation in which we are involved, or that our insurance coverage will be adequate to cover any potential losses. To the extent that we sustain losses from any pending litigation which are not presently reserved or otherwise provided for or insured against, our business, results of operations, cash flows and/or financial condition could be adversely affected.

Section 404 of the Sarbanes-Oxley Act of 2002 requires us to document and test our internal controls over financial reporting and to report on our assessment as to the effectiveness of these controls. Any delays or difficulty in satisfying these requirements or negative reports concerning our internal controls could adversely affect our future results of operations and our stock price.

We may in the future discover areas of our internal controls that need improvement, particularly with respect to businesses that we may acquire in the future. We cannot be certain that any remedial measures we take will ensure that we implement and maintain adequate internal controls over our financial reporting processes and reporting in the future. Any failure to implement required new or improved controls, or difficulties encountered in their implementation, could harm our operating results or cause us to fail to meet our reporting obligations. If we are unable to conclude that we have effective internal controls over financial reporting, or if our independent auditors are unable to provide us with an unqualified report regarding the effectiveness of our internal controls over financial reporting as required by Section 404, investors could lose confidence in the reliability of our financial statements, which could result in a decrease in the market price of our common stock. Failure to comply with Section 404 could potentially subject us to sanctions or investigations by the Commission, or other regulatory authorities, which could also result in a decrease in the market price of our common stock.

Item 2. Unregistered Sales of Securities and Use of Proceeds

None.

Item 3. Defaults upon Senior Securities

None.

Item 4. Submission of Matters to a Vote of Security Holders

On November 3, 2009, our Board recommended that the Majority Stockholders approve the Merger Agreement and Reincorporation Merger. Also on November 3, 2009, the Majority Stockholders approved the Merger Agreement and Reincorporation Merger by written consent in lieu of a meeting.

Item 5. Other Information

Entry into a Material Definitive Agreement.

On November 3, 2009, our Board adopted a Merger Agreement between our company and its newly formed, wholly-owned subsidiary, Harbinger Group. Also on November 3, 2009, the holders of a majority of our issued and outstanding shares of common stock consented in writing to the Merger Agreement. On November 4, 2009, we entered into the Merger Agreement with Harbinger Group. The Merger Agreement

Table of Contents

provides for the merger of our company with and into Harbinger Group (the Reincorporation Merger) and will result in the following:

- o the domicile of our company will change from the State of Nevada to the State of Delaware;
- o we will be governed by the laws of the State of Delaware and by a new Certificate of Incorporation and new Bylaws prepared in accordance with Delaware law;
- o our stockholders will receive one share of common stock of Harbinger Group for each share of our common stock owned by them at the time the Reincorporation Merger is effected;
- o the persons presently serving as our executive officers and directors will serve in their same respective positions with Harbinger Group;
- o our name will change to Harbinger Group Inc.; and
- o Harbinger Group will be the successor corporation and continue the business of Zapata.

We filed an Information Statement with the Commission on November 4, 2009. We anticipate that the Reincorporation Merger will become effective 20 calendar days after the date we mail the definitive Information Statement to our stockholders. Following the Reincorporation Merger, our trading symbol will change to HRG . A copy of the Merger Agreement is attached hereto as Exhibit 10.3 and incorporated herein by reference.

Departure of Directors or Certain Officers; Election of Directors; Appointment of Certain Officers; Compensatory Arrangements of Certain Officers

On October 31, 2009, our Board elected Mr. Lap Wai Chan as a director to fill the remaining Board vacancy. Mr. Chan was elected as a Class I director and will hold office until the Company's Annual Meeting to be held in 2011. Mr. Chan was also appointed to serve on the Board's Audit Committee.

Mr. Chan, 43, is a consultant to MatlinPatterson Global Advisors, a private equity firm focused on distressed control investments across a range of industries. From July 2002 to September 2009, Mr. Chan was a Managing Partner at MatlinPatterson. Prior to that, Mr. Chan was a Managing Director at Credit Suisse First Boston H.K. Ltd. Mr. Chan has extensive investment experience, particularly in Asia and Latin America.

Based upon Mr. Chan's work experience, education and other relevant information, the Board has determined that Mr. Chan qualifies as independent under the listing standards of the NYSE and as an audit committee financial expert as defined in regulations promulgated by the Commission.
