## ITEM 8.01 Other Events

This Current Report on Form 8-K is being filed for the purpose of updating CNA Financial Corporation's historical consolidated financial information for the effect of a change in accounting guidance adopted on January 1, 2009 which required retrospective presentation.

As previously disclosed in its Quarterly Report on Form 10-Q for the period ended March 31, 2009, CNA Financial Corporation and its controlled subsidiaries (CNAF or the Company) adopted changed accounting guidance related to noncontrolling interests on January 1, 2009. The changed guidance clarified that an ownership interest in a subsidiary should be reported as equity in consolidated financial statements, and required consolidated net income to be reported at amounts that include the amounts attributable to both the parent and the noncontrolling interest. The Company's adoption of this changed accounting guidance had no impact on the Company's financial condition or results of operations, but impacted the presentation of these amounts within the Consolidated Financial Statements.

As a result of the retrospective presentation and disclosure requirements of this changed accounting guidance, the Company has presented noncontrolling interests as a separate component of stockholders' equity in its Consolidated Balance Sheets for all periods subsequent to the date of adoption. Previously, these amounts were reported separately as minority interest in the Consolidated Balance Sheets. The effect on the Company's Consolidated Balance Sheets as of December 31, 2008, 2007, 2006, 2005 and 2004 related to the adoption of the changed accounting guidance is summarized as follows:

**December 31**

(In millions)	2008	2007	2006	2005	2004
Total stockholders' equity previously reported <sup>(1)</sup>	\$ 6,877	\$ 10,150	\$ 9,768	\$ 8,950	\$ 8,974
Reclassification of noncontrolling interests as a result of change in accounting guidance	420	385	335	291	275
Total equity, as adjusted for change in accounting guidance	7,297	10,535	10,103	9,241	9,249
Noncontrolling interests	(420)	(385)	(335)	(291)	(275)
Total CNAF stockholders' equity	\$ 6,877	\$ 10,150	\$ 9,768	\$ 8,950	\$ 8,974

Additionally, the adoption of this changed accounting guidance requires that net earnings reported in the Consolidated Statements of Operations include earnings attributable to noncontrolling interests. Subsequent to the date of adoption, earnings attributable to CNAF's stockholders and earnings attributable to noncontrolling interests are reported separately. Previously, earnings attributable to noncontrolling interests were reported separately as minority interests. Earnings per share computations under the changed accounting guidance continue to be based upon net earnings attributable to CNAF's stockholders, therefore the changed accounting guidance had no impact on previously reported earnings per share.

The effect on the Consolidated Statements of Operations for the years ended December 31, 2008, 2007, 2006, 2005 and 2004 related to the changed accounting guidance is summarized as follows:
