Item 2.02 Results of Operations and Financial Condition.

On November 11, 2009, Altisource Portfolio Solutions S.A. issued a press release announcing financial results for its quarter ended September 30, 2009.

A copy of the press release is attached hereto as Exhibit 99.1. All information in the press release is furnished but not filed.

Non-GAAP Financial Information

Altisource discloses the following financial measure that is calculated and presented on a basis other than in accordance with generally accepted accounting principles in the United States of America (non-GAAP) in the attached press release:

Altisource evaluates performance based on several factors, of which the primary financial measure is income before interest, tax, depreciation and amortization (EBITDA). The Company believes that this non-GAAP financial measure is useful to investors and analysts in analyzing and assessing its overall business performance, for making operating and compensation decisions and for forecasting and planning future periods. The Company uses non-GAAP financial measures as a tool to enhance its understanding of certain aspects of its financial performance and to provide incremental insight into the underlying factors and trends affecting both the Company s performance and its cash-generating potential. The Company believes that disclosing non-GAAP financial measures to the readers of its financial statements provides such readers with useful supplemental data that allows for greater transparency in the review of its financial and operational performance and enables investors to more fully understand trends in its current and future performance.

Reconciliation of this non-GAAP financial measure to the most directly comparable financial measures calculated and presented in accordance with GAAP is included in the attached press release. This non-GAAP financial measure should be considered in addition to and not as a substitute for, or superior to, financial measures presented in accordance with GAAP.

Pro forma weighted average shares outstanding basic, for the three and nine months ended September 30, 2009 is calculated using the number of shares issued by Altisource on August 10, 2009, as if the shares had been issued on July 1, 2009 and January 1, 2009, respectively. Pro forma weighted average shares outstanding basic, for the three and nine months ended September 30, 2008 is calculated using the same number of shares as the pro forma weighted average shares outstanding basic for the 2009 periods as if the shares had been issued on July 1, 2009 and January 1, 2009, respectively. Pro forma weighted average shares outstanding diluted, for the three and nine months ended September 30, 2009, is calculated using the same number of shares as the pro forma weighted average shares outstanding basic, plus common stock equivalents from stock awards.

Item 9.01 Financial Statements and Exhibits.
