ABOUT THIS PROSPECTUS

This prospectus is part of a registration statement that we filed with the Securities and Exchange Commission, which we refer to as the SEC, using a shelf registration process. Under this prospectus, the selling stockholder may sell the shares of common stock described in this prospectus in one or more offerings. This prospectus may be supplemented from time to time to add, update or change information contained in this prospectus. Any statement that we make in this prospectus will be modified or superseded by any inconsistent statement made by us in a prospectus supplement. You should read both this prospectus and any prospectus supplement together with additional information described under the heading "Where You Can Find More Information" and "Incorporation of Certain Documents by Reference."

In accordance with the SEC's Plain English guidelines, this prospectus has been written in the first person. In this document, the words we, our, ours and us refer only to Holly Corporation and its consolidated subsidiaries or to Holly Corporation or an individual subsidiary and not to any other person. HEP refers to Holly Energy Partners, L.P. and its consolidated subsidiaries.

THE COMPANY

We are an independent petroleum refiner engaged primarily in the production of high value light petroleum products, such as gasoline, diesel fuel and jet fuel, and high value specialty lubricants. We currently own and operate three refineries in Artesia and Lovington, New Mexico, Woods Cross, Utah and Tulsa, Oklahoma, which we refer to as the Tulsa Refinery. As of September 30, 2009, our refineries had a combined crude capacity of 216,000 barrels per stream day. Our profitability depends largely on the spread between market prices for refined petroleum products and crude oil prices. At September 30, 2009, we also owned a 41% interest in HEP (which includes our 2% general partnership interest), which owns and operates pipeline and terminalling assets, owned a 70% interest in Rio Grande Pipeline Company, and a 25% interest in SLC Pipeline LLC, which owns and operates a 95-mile intrastate pipeline system that services refiners in the Salt Lake City, Utah area.

On October 19, 2009, Holly Refinery & Marketing-Tulsa LLC, or Holly Tulsa, our wholly-owned subsidiary, entered into an asset sale and purchase agreement with Sinclair Tulsa Refining Company, or Sinclair, which is the selling stockholder, pursuant to which Holly Tulsa agreed to purchase refining assets at Sinclair's refinery facility in Tulsa, Oklahoma, or the Sinclair Refinery, for an aggregate consideration of \$128.5 million, consisting of 2,789,155 shares of our common stock to be issued by us to Sinclair (which under the asset sale and purchase agreement are valued at \$74 million based on the average price of our common stock during the 15 trading day period prior to the date of the asset sale and purchase agreement) and \$54.5 million in cash from Holly Tulsa. In addition, Holly Tulsa will purchase the related inventory at the Sinclair Refinery for cash based upon the market value of the inventory at closing and will also be obligated to reimburse Sinclair for up to \$17 million of capital expenditures Sinclair incurs to comply with an environmental consent decree applicable to the Sinclair Refinery.

Our principal corporate offices are located at 100 Crescent Court, Suite 1600, Dallas, Texas 75201-6915 and our telephone number is (214) 871-3555.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

This prospectus and some of the documents we incorporate by reference contain various forward-looking statements and information that are based on our beliefs, as well as assumptions made by and information currently available to us. These forward-looking statements are identified as any statement that does not relate strictly to historical or current facts. When used in this prospectus or the documents we have incorporated herein or therein by reference, words such as anticipate, project, expect, plan, goal, forecast, intend, could, believe, may, expressions and statements regarding our plans and objectives for future operations, are intended to identify forward-looking statements. Although we believe that such expectations reflected in such forward-looking statements are reasonable, we cannot give assurances that such expectations will prove to be correct. Such statements are subject to a variety of risks, uncertainties and assumptions. If one or more of these risks or uncertainties materialize, or if underlying assumptions prove incorrect, our actual results may vary materially from those anticipated, estimated, projected or expected. Certain factors could cause actual results to differ materially from results anticipated in the forward-looking statements. Those factors include, but are not limited to:

risks and uncertainties with respect to the actions of actual or potential competitive suppliers of refined petroleum products in our markets;

the demand for and supply of crude oil and refined products;

the spread between market prices for refined products and market prices for crude oil;

the possibility of constraints on the transportation of refined products;

the possibility of inefficiencies, curtailments or shutdowns in refinery operations or pipelines;

effects of governmental and environmental regulations and policies;

the availability and cost of our financing;

the effectiveness of our capital investments and marketing strategies;

our efficiency in carrying out construction projects;

our ability to acquire refined product operations or pipeline and terminal operations on acceptable terms and to integrate any future acquired operations;

our ability to successfully integrate the operations of the Tulsa Refinery and the Sinclair Refinery into a single refinery and into our business;

the possibility of terrorist attacks and the consequences of any such attacks;

general economic conditions; and

other financial, operational and legal risks and uncertainties set forth in Item 1A, Risk Factors, in our 2008 Annual Report on Form 10-K and the other documents incorporated by reference.

Cautionary statements identifying important factors that could cause actual results to differ materially from our expectations are set forth in this prospectus, including without limitation, the forward-looking statements that are referred to above. When considering forward-looking statements, you should keep in mind the risk factors set forth in our Annual Report on Form 10-K for the year ended December 31, 2008 in Risk Factors. All forward-looking statements included in this prospectus and all subsequent written or oral forward-looking statements attributable to us

or persons acting on our behalf are expressly qualified in their entirety by these cautionary statements. The forward-looking statements speak only as of the date made and, other than as required by law, we undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

RISK FACTORS

An investment in our securities involves risks. Before you invest in our securities, you should carefully consider the risk factors included in our most recent Annual Report on Form 10-K, subsequent Quarterly Reports on Form 10-Q and those that may be included in any applicable prospectus supplement, as well as risks described in

Management's Discussion and Analysis of Financial Condition and Results of Operations and cautionary notes regarding forward-looking statements included or incorporated by reference herein, together with all of the other information included in this prospectus, any prospectus supplement and the documents we incorporate by reference.

You should consider carefully the risks below together with all of the other information included in, or incorporated by reference into, this prospectus before deciding whether to invest in our securities. If any of these risks were to materialize, our business, results of operations, cash flows and financial condition could be materially adversely affected.

The risks associated with the proposed acquisition of the Sinclair Refinery and the recently completed acquisition of the Tulsa Refinery and their integration, and other future acquisitions, could have a material adverse effect on our business, financial condition and results of operations. We may not be able to successfully integrate any of these acquisitions into our business.

A substantial portion of our growth is expected to come from acquisitions, including our recent acquisition of the Tulsa Refinery from Sunoco Inc. on June 1, 2009 and our planned acquisition of the Sinclair Refinery. A principal component of our strategy going forward is to continue to selectively acquire refining and refining-related assets to strengthen our competitive and financial position. Our ability to do so will depend upon a number of factors, including our ability to identify acceptable acquisition candidates, consummate acquisitions on favorable terms, successfully integrate acquired assets and businesses and obtain financing to support our growth and many other factors beyond our control.

In connection with the recent Tulsa Refinery acquisition, the planned Sinclair Refinery acquisition or with future acquisitions, we may experience unforeseen operating difficulties as we integrate the acquired assets into our existing operations. These difficulties may require significant management attention and financial resources that would otherwise be available for the ongoing development or expansion of existing operations.

The recent Tulsa Refinery acquisition, the planned Sinclair Refinery acquisition and any other future acquisitions involve risks, including:

unexpected losses of key employees, customers and suppliers of the acquired operations;

difficulties in integrating the financial, technological and management standards, processes, procedures and controls of the acquired business with those of our existing operations, realizing general and administrative savings and achieving meaningful synergies;

challenges in managing the increased scope, geographic diversity and complexity of our operations; and

mitigating contingent and/or assumed liabilities.

If we continue to grow and acquire refining and refining-related assets, it could place a strain on our administrative, financial and operational resources. To manage growth effectively, we will need to control costs, attract and retain highly skilled employees, improve our operating efficiency and enhance our management, financial and reporting systems and procedures.

If we are unable to successfully meet the challenges associated with one or more of our acquisitions, this could have a material adverse effect on our business, financial condition and results of operations.

We may not be able to successfully integrate our Tulsa Refinery and the Sinclair Refinery into a single facility.

Our expectations regarding the Sinclair Refinery acquisition depend in large part upon our ability to integrate the Sinclair Refinery with our Tulsa Refinery and operate the two facilities as a single refinery. The acquisition and subsequent operation of a new refinery alone is a challenging, time-consuming and costly process. In this instance a large part of the value we see in the Sinclair Refinery stems from successfully integrating the Sinclair Refinery with our Tulsa Refinery and operating the two facilities as a single facility. There can be no guarantee that we will be able to successfully integrate the two refineries or that this integration will yield the cost savings and synergies that we currently expect.

The integration of the two refineries is dependent upon our being able to send various diesel, gas oil and other streams of heavy oil, hydrogen and naphtha between the two refineries. To do so will require us to utilize either existing third party pipelines and/or build new pipelines to link the two refineries. There is no guarantee that we will be able to obtain sufficient access to the third-party pipelines at a cost that we deem reasonable or that we will be able to construct new pipelines at their anticipated cost and on schedule. Similarly, we currently anticipate the integration of the two refineries will include an expansion of the diesel hydrotreater at the Sinclair Refinery and there is no guarantee that we will be able to complete that capital project at its anticipated cost and on schedule. The integration of the two refineries will take time and will require the dedication of significant management resources. If we are not able to successfully integrate the operations of the two refineries' units, systems and personnel in a timely and efficient manner, the anticipated benefits of the acquisition of the Sinclair Refinery may not be realized fully or at all or may take longer to realize than expected.

We may be liable for significant environmental costs relating to past and/or future acquisitions.

In connection with acquisitions of refineries, we may become responsible for certain environmental clean-up liabilities or costs. Although the sellers of the Tulsa Refinery and the Sinclair Refinery have each agreed to indemnify us for certain environmental cleanup liabilities and costs, they have not agreed to indemnify us for all such liabilities and costs. We have also agreed to indemnify each of these sellers for certain environmental liabilities and costs to the extent these liabilities and costs are not covered by the sellers' indemnities to us. There can be no assurances that the sellers will satisfy their obligations under their agreements or that the liabilities and costs in excess of those that the sellers have agreed to reimburse us for will not be significant or that significant liabilities will not arise with respect to other matters we have assumed or for which we are indemnifying the sellers. Moreover, if either of the sellers were to become insolvent, that seller would likely be unable to indemnify us for any environmental liabilities. In addition, we may agree to be responsible for these or other types of environmental liabilities in connection with future acquisitions. There can be no assurances that these environmental liabilities and/or costs or expenditures to comply with environmental laws will not have a material adverse effect on our current or future results of operations and financial condition.

Our indebtedness could adversely affect our ability to operate our business.

As of September 30, 2009, we had total indebtedness of \$200 million in aggregate principal amount, not taking into account original issue discount, excluding letters of credit outstanding under our credit agreement aggregating \$46.8 million and indebtedness of HEP. On October 26, 2009, we issued \$100 million aggregate principal amount of our senior notes as an add-on offering to the \$200 million aggregate principal amount of 9.875% senior notes due 2017 issued in June 2009.

Our indebtedness could have important consequences to you. For example, it could:

- limit our ability to obtain additional financing to fund our working capital, expenditures, debt service requirements or for other purposes;

- limit our ability to use operating cash flow in other areas of our business because we must dedicate a portion of these funds to service debt;

- limit our ability to compete with other companies who do not have as much leverage; and

- limit our ability to react to changing market conditions in our industry and in our customers' industries and to economic downturns.

In addition, the indenture governing our notes contains, and our credit agreement also contains financial or other restrictive covenants that limit our ability to engage in activities that may be in our long-term best interests. Our failure to comply with those covenants could result in an event of default that, if not cured or waived, could result in the acceleration of all of our debt. Our ability to satisfy our debt obligations will depend upon our future operating performance. Prevailing economic conditions and financial, business and other factors, many of which are beyond our control, will affect our ability to make payments on our debt obligations. If we cannot generate sufficient cash from operations to meet our obligations, we may need to refinance or sell assets. Our business may not generate sufficient cash flow, or we may not be able to obtain sufficient funding, to make the payments required by all of our debt.

Our Restated Certificate of Incorporation, as well as Delaware law, contain provisions that could discourage acquisition bids or merger proposals, which may adversely affect the market price of our common stock.

Our Restated Certificate of Incorporation authorizes our board of directors to issue preferred stock without stockholder approval. If our board of directors elects to issue preferred stock, it could be more difficult for a third party to acquire us. In addition, Delaware law prohibits us from engaging in any business combination with any interested stockholder, meaning generally that a stockholder who beneficially owns more than 15% of our common stock cannot acquire us for a period of three years from the date this person became an interested stockholder, unless various conditions are met, such as approval of the transaction by our board of directors.

USE OF PROCEEDS

The common stock to be offered and sold using this prospectus will be offered and sold by the selling stockholder named in this prospectus or in any supplement to this prospectus. We will not receive any proceeds from the sale of such common stock.

SELLING STOCKHOLDER

This prospectus covers the offering for resale of up to 2,789,155 shares of our common stock by the selling stockholder identified below. No offer or sale may occur unless this prospectus is effective at the time the selling stockholder offers or sells such common stock.

The selling stockholder listed below may from time to time offer and sell pursuant to this prospectus all of the shares of our common stock covered by this prospectus as indicated in the table below.

On October 19, 2009, Holly Tulsa, our wholly-owned subsidiary, entered into an asset sale and purchase agreement with Sinclair, which is the selling stockholder, pursuant to which Holly Tulsa agreed to purchase refining assets at the Sinclair Refinery for an aggregate consideration of \$128.5 million, consisting of 2,789,155 shares of our common stock to be issued by us to Sinclair (which under the asset sale and purchase agreement are valued at \$74 million based on the average price of our common stock during the 15 trading day period prior to the date of the asset sale and purchase agreement) and \$54.5 million in cash from Holly Tulsa. In addition, Holly Tulsa will purchase the related inventory at the Sinclair Refinery for cash based upon the market value of the inventory at closing and will also be obligated to reimburse Sinclair for up to \$17 million of capital expenditures Sinclair incurs to comply with an environmental consent decree applicable to the Sinclair Refinery. Pursuant to the same asset sale and purchase agreement, HEP Tulsa LLC, a wholly-owned subsidiary of HEP, an affiliate of us, agreed to purchase tankage, loading racks and pipeline assets at the Sinclair Refinery for an aggregate consideration of \$75 million, consisting of \$53.5 million of HEP common units to be issued by HEP to Sinclair and \$21.5 million in cash from HEP Tulsa.

In December 2007, we entered into a definitive agreement with an affiliate of the selling stockholder to jointly build a 12-inch refined products pipeline from Salt Lake City, Utah to Las Vegas, Nevada, together with terminal facilities in the Cedar City, Utah and North Las Vegas areas, which we refer to collectively as the UNEV Pipeline. Under the agreement, we will own a 75% interest in the joint venture pipeline and the selling stockholder will own the remaining 25% interest. For more information about the UNEV Pipeline joint venture and the Acquisition, please see the documents we incorporate by reference herein. For more information on how to obtain these documents, please see [Where You Can Find More Information](#) and [Incorporation of Certain Documents by Reference](#).

No Preemptive or Similar Rights. No holder of our common stock is entitled to preemptive rights to subscribe for any shares of capital stock and our common stock is not subject to conversion or redemption.

Right to Receive Liquidation Distributions. Upon our liquidation, dissolution or winding-up, the assets legally available for distribution to our stockholders are distributable ratably among the holders of our common stock and any participating preferred stock outstanding at that time, after payment of liquidation preferences, if any, on any outstanding preferred stock and payment of other claims of creditors. Each outstanding share of common stock is fully paid and nonassessable.

Preferred Stock

Our board of directors may, without any action by holders of the common stock:
adopt resolutions to issue preferred stock in one or more series;

fix or change the number of shares constituting any series of preferred stock; and

establish or change the rights of the holders of any series of preferred stock.

The rights of any series of preferred stock may include, among others:
general or special voting rights;

preferential liquidation or preemptive rights;

preferential cumulative or noncumulative dividend rights;

redemption or put rights; and

conversion or exchange rights.

We may issue shares of, or rights to purchase, preferred stock, the terms of which might: adversely affect voting or other rights evidenced by, or amounts otherwise payable with respect to, the common stock;

discourage an unsolicited proposal to acquire us; or

facilitate a particular business combination involving us.

Any of these actions could discourage a transaction that some or a majority of our stockholders might believe to be in their best interests or in which our stockholders might receive a premium for their stock over its then-prevailing market price.

Anti-Takeover Provisions of Delaware Law, Our Restated Certificate of Incorporation and By-Laws

Amendment of our By-Laws

Under Delaware law, the power to adopt, amend or repeal bylaws is conferred upon the stockholders. A corporation may, however, in its certificate of incorporation also confer upon the board of directors the power to adopt, amend or repeal its bylaws. Our Restated Certificate of Incorporation and By-Laws provide that the By-Laws may be amended by our board of directors or by the affirmative vote of the holders of at least 67% of the aggregate voting power of our outstanding capital stock issued and outstanding and entitled to vote on such amendment at any regular or special meeting of the stockholders.

Other Limitations on Stockholder Actions

Advance notice as described in our By-Laws is required for stockholders to nominate directors or to submit proposals for consideration at meetings of stockholders.

Limitation of Liability of Officers and Directors

Our Restated Certificate of Incorporation provides that no director shall be personally liable to us or our stockholders for monetary damages for a breach of fiduciary duty as a director, except for liability:

for any breach of the director's duty of loyalty to us or to our stockholders;

for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law;

for unlawful payment of a dividend or unlawful stock purchase or stock redemption; and

for any transaction from which the director derived an improper personal benefit.

The effect of these provisions is to eliminate our rights and our stockholders' rights, through stockholders' derivative suits on our behalf, to recover monetary damages against a director for a breach of fiduciary duty as a director, including breaches resulting from grossly negligent behavior, except in the situations described above.

Business Combination Under Delaware Law

We are subject to the provisions of Section 203 of the Delaware General Corporation Law. In general, Section 203 prohibits a publicly held Delaware corporation from engaging in a business combination with an interested stockholder for a period of three years after the date of the transaction in which the person became an interested stockholder, unless the business combination is approved in a prescribed manner.

An interested stockholder is defined as a person who, together with any affiliates or associates of such person, beneficially owns, directly or indirectly, 15% or more of the outstanding voting shares of a Delaware corporation. The term business combination is broadly defined to include a broad array of transactions, including mergers, consolidations, sales or other dispositions of assets having a total value in excess of 10% of the consolidated assets of the corporation or all of the outstanding stock of the corporation, and some other transactions that would increase the interested stockholder's proportionate share ownership in the corporation.

This prohibition is effective unless:

The business combination or the transaction which resulted in the stockholder becoming an interested stockholder is approved by the corporation's board of directors prior to the time the interested stockholder becomes an interested stockholder;

The interested stockholder acquired at least 85% of the voting stock of the corporation, other than stock held by directors who are also officers or by qualified employee stock plans, in the transaction in which it becomes an interested stockholder; or

The business combination is approved by a majority of the board of directors and by the affirmative vote of 66 2/3% of the outstanding voting stock that is not owned by the interested stockholder.

This provision has an anti-takeover effect with respect to transactions not approved in advance by our board of directors, including discouraging takeover attempts that might result in a premium over the market price for the shares of our common stock. With approval of our stockholders, we could amend our Restated Certificate of Incorporation in the future to elect not to be governed by the anti-takeover law. This election would become effective 12 months after the adoption of the amendment and would not apply to any business combination with any person who became an interested stockholder on or before the adoption of the amendment.

PLAN OF DISTRIBUTION

As of the date of this prospectus, we have not been advised by the selling stockholder as to any plan of distribution. The selling stockholder may choose not to sell any common stock. The common stock offered by this prospectus may be sold from time to time to purchasers:

directly by the selling stockholder or its successors, which includes its donees, pledgees or transferees or its successors-in-interest, or

through underwriters, broker-dealers or agents, who may receive compensation in the form of discounts, commissions or agent's commissions from the selling stockholder or the purchasers of the common stock. These discounts, concessions or commissions may be in excess of those customary in the types of transactions involved.

The selling stockholder reserves the right to accept and, together with its agents, to reject, any proposed purchases of common stock to be made directly or through agents.

The selling stockholder and any underwriters, broker-dealers or agents who participate in the sale or distribution of the common stock may be deemed to be underwriters within the meaning of the Securities Act. If the selling stockholder is a registered broker-dealer, it will be deemed to be an underwriter. If the selling stockholder is deemed to be an underwriter, any profits on the sale of the common stock by the selling stockholder and any discounts, commissions or agent's commissions or concessions received by it may be deemed to be underwriting discounts and commissions under the Securities Act. If the selling stockholder is deemed to be an underwriter within the meaning of Section 2(a)(11) of the Securities Act, it will be subject to the prospectus delivery requirements of the Securities Act. Underwriters are subject to certain statutory liabilities, including, but not limited to, Sections 11, 12 and 17 of the Securities Act.

The common stock may be sold in one or more transactions at:

fixed prices;

prevailing market prices at the time of sale;

prices related to such prevailing market prices;

varying prices determined at the time of sale; or

negotiated prices.

These sales may be effected in one or more transactions:

on any national securities exchange or quotation on which the common stock may be listed or quoted at the time of the sale;

in the over-the-counter market;

in transactions other than on such exchanges or services or in the over-the-counter market;

through the writing of options (including the issuance by the selling stockholder of derivative securities), whether the options or such other derivative securities are listed on an options exchange or otherwise;

through the settlement of short sales; or

through any combination of the foregoing.

These transactions may include block transactions or crosses. Crosses are transactions in which the same broker acts as an agent on both sides of the trade.

In connection with sales of the common stock, the selling stockholder may enter into hedging transactions with broker-dealers or other financial institutions which in turn may:

engage in short sales of the common stock in the course of hedging their positions;

sell the common stock short and deliver the common stock to close out short positions;

loan or pledge the common stock to broker-dealers or other financial institutions that in turn may sell the common stock;

enter into option or other transactions with broker-dealers or other financial institutions that require the delivery to the broker-dealer or other financial institution of the common stock, which the broker-dealer or other financial institution may resell under the prospectus; or

enter into transactions in which a broker-dealer makes purchases as a principal for resale for its own account or through other types of transactions.

To our knowledge, there are currently no plans, arrangements or understandings between the selling stockholder and any underwriter, broker-dealer or agent regarding the sale of the common stock by the selling stockholder.

Our common stock is listed on the New York Stock Exchange under the symbol HOC.

There can be no assurance that the selling stockholder will sell any or all of the common stock under this prospectus. Further, we cannot assure you that the selling stockholder will not transfer, devise or gift the common stock by other means not described in this prospectus. In addition, any common stock covered by this prospectus that qualifies for sale under Rule 144 or Rule 144A of the Securities Act may be sold under Rule 144 or Rule 144A rather than under this prospectus. The common stock covered by this prospectus may also be sold to non-U.S. persons outside the U.S. in accordance with Regulation S under the Securities Act rather than under this prospectus. The common stock may be sold in some states only through registered or licensed brokers or dealers. In addition, in some states the common stock may not be sold unless it has been registered or qualified for sale or an exemption from registration or qualification is available and complied with.

The selling stockholder and any other person participating in the sale of the common stock will be subject to the Exchange Act. The Exchange Act rules include, without limitation, Regulation M, which may limit the timing of purchases and sales of the common stock by the selling stockholder and any other such person. In addition, Regulation M may restrict the ability of any person engaged in the distribution of the common stock to engage in market-making activities with respect to the particular common stock being distributed. This may affect the marketability of the common stock and the ability of any person or entity to engage in market-making activities with respect to the common stock.

We have agreed to indemnify the selling stockholder against certain liabilities, including liabilities under the Securities Act.

We entered into a registration rights and transfer restriction agreement with the selling stockholder, pursuant to which:

we agreed to, among other things, bear all expenses, other than brokers' or underwriters' discounts and commissions, in connection with the registration and sale of the common stock covered by this prospectus, including the payment of federal securities law and state blue sky registration fees, except that we will not bear any underwriting discounts or commissions or transfer taxes relating to the sale of shares of the common stock; and

the selling stockholder agreed that it would not transfer more than 58,000 shares of the common stock in any trading day, which we refer to as the base amount, *provided, however*, that:

it may exceed the base amount in any trading day to make up for shares of the common stock that it failed to sell up to the base amount in the 10 preceding trading days or that it failed to sell as a result of a black-out period imposed by us under the terms of the registration rights and transfer restriction agreement (though it may not sell more than twice the base amount in any trading day to make up for these shortfalls); and

with respect to each black-out period imposed by us under the terms of the registration rights and transfer restriction agreement, the selling stockholder may execute a single block-trade of a number of shares of the common stock equal to the lesser of the aggregate base amount for all trading days during such blackout period or 250,000 shares.

LEGAL MATTERS

The validity of the common stock offered by this prospectus will be passed upon by Fulbright & Jaworski L.L.P., Dallas, Texas, as our counsel. Any underwriter or agent will be advised about other issues relating to any offering by its own legal counsel.

ITEM 15. Indemnification of Directors and Officers

Section 145 of the Delaware General Corporation Law (DGCL) provides that a corporation may indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding whether civil, criminal, administrative or investigative (other than an action by or in the right of the corporation) by reason of the fact that he is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against expenses (including attorneys' fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by him in connection with such action, suit or proceeding if he acted in good faith and in a manner he reasonably believed to be in or not opposed to the best interests of the corporation, and, with respect to any criminal action or proceeding, had no reasonable cause to believe his conduct was unlawful. Section 145 further provides that a corporation similarly may indemnify any such person serving in any such capacity who was or is a party or is threatened to be made a party to any threatened, pending or completed action or suit by or in the right of the corporation to procure a judgment in its favor by reason of the fact that he is or was a director, officer, employee or agent of the corporation or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against expenses (including attorneys' fees) actually and reasonably incurred in connection with the defense or settlement of such action or suit if he acted in good faith and in a manner he reasonably believed to be in or not opposed to the best interests of the corporation and except that no indemnification shall be made in respect of any claim, issue or matter as to which such person shall have been adjudged to be liable to the corporation unless and only to the extent that the Delaware Court of Chancery or such other court in which such action or suit was brought shall determine upon application that, despite the adjudication of liability but in view of all of the circumstances of the case, such person is fairly and reasonably entitled to indemnity for such expenses which the Delaware Court of Chancery or such other court shall deem proper.

The By-Laws of the Company provide that indemnification shall be to the fullest extent permitted by the DGCL for all current or former directors or officers of the Company. As permitted by the DGCL, the Restated Certificate of Incorporation of the Company provides that directors of the Company shall have no personal liability to the Company or its stockholders for monetary damages for breach of fiduciary duty as a director, except (1) for any breach of the director's duty of loyalty to the Company or its stockholders, (2) for acts or omissions not in good faith or which involve intentional misconduct or knowing violation of law, (3) for unlawful payment of a dividend or unlawful stock purchase or stock redemption or (4) for any transaction from which a director derived an improper personal benefit.

ITEM 17. Undertakings

The undersigned registrant hereby undertakes:

1. To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

- To include any prospectus required by section 10(a)(3) of the Securities Act of 1933 (the "Securities Act");
- To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the SEC pursuant to Rule 424(b) if, in the aggregate, the

changes in volume and price represent no more than a 20% change in the maximum aggregate offering price set forth in the Calculation of Registration Fee table in the effective registration statement;

c. To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement;

Provided, however, that paragraphs 1(a), 1(b) and 1(c) of this section do not apply if the information required to be included in a post-effective amendment by those paragraphs is contained in reports filed with or furnished to the SEC by the registrant pursuant to section 13 or 15(d) of the Securities Exchange Act of 1934 (the Exchange Act) that are incorporated by reference in the registration statement, or is contained in a form of prospectus filed pursuant to Rule 424(b) that is part of the registration statement.

2. That, for the purpose of determining any liability under the Securities Act, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

3. To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

4. That, for the purpose of determining liability under the Securities Act to any purchaser:

a. Each prospectus filed by the registrant pursuant to Rule 424(b)(3) shall be deemed to be part of the registration statement as of the date the filed prospectus was deemed part of and included in the registration statement; and

b. Each prospectus required to be filed pursuant to Rule 424(b)(2), (b)(5), or (b)(7) as part of a registration statement in reliance on Rule 430B relating to an offering made pursuant to Rule 415(a)(1)(i), (vii), or (x) for the purpose of providing the information required by section 10(a) of the Securities Act shall be deemed to be part of and included in the registration statement as of the earlier of the date such form of prospectus is first used after effectiveness or the date of the first contract of sale of securities in the offering described in the prospectus. As provided in Rule 430B, for liability purposes of the issuer and any person that is at that date an underwriter, such date shall be deemed to be a new effective date of the registration statement relating to the securities in the registration statement to which that prospectus relates, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof. Provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such effective date, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such effective date.

5. That, for purposes of determining any liability under the Securities Act, each filing of the registrant's annual report pursuant to section 13(a) or section 15(d) of the Exchange Act that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

6. Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

SIGNATURES

Pursuant to the requirements of the Securities Act of 1933, the registrant certifies that it has reasonable grounds to believe that it meets all of the requirements for filing on Form S-3 and has duly caused this Registration Statement to be signed on its behalf by the undersigned, thereunto duly authorized, in the city of Dallas, in the State of Texas, on December 1, 2009.
