KORN/FERRY INTERNATIONAL AND SUBSIDIARIES
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
January 31, 2010

1. Organization and Summary of Significant Accounting Policies

Nature of Business

Korn/Ferry International, a Delaware corporation (the Company), and its subsidiaries are engaged in the business of providing executive search, outsourced recruiting and leadership and talent consulting on a retained basis. The Company s worldwide network of 78 offices in 37 countries enables it to meet the needs of its clients in all industries.

Basis of Consolidation and Presentation

The condensed consolidated financial statements for the three and nine months ended January 31, 2010 and 2009 include the accounts of the Company and its wholly and majority owned/controlled domestic and international subsidiaries. All intercompany balances and transactions have been eliminated in consolidation. The preparation of the condensed consolidated financial statements conform with United States (U.S.) generally accepted accounting principles (GAAP) and prevailing practice within the industry. The condensed consolidated financial statements include all adjustments, consisting of normal recurring accruals and any other adjustments that management considers necessary for a fair presentation of the results for these periods. These financial statements have been prepared consistently with the accounting policies described in the Company s Annual Report on Form 10-K for the fiscal year ended April 30, 2009 (the Annual Report) and should be read together with the Annual Report.

Investments in affiliated companies which are 50% or less owned and where the Company exercises significant influence over operations are accounted for using the equity method. Dividends and other distributions of earnings from cost-method investments are included in other income when declared.

Use of Estimates and Uncertainties

The preparation of the consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from these estimates. The most significant areas that require management judgment are revenue recognition, deferred compensation, marketable securities, evaluation of the carrying value of receivables, goodwill and other intangible assets and deferred income taxes.

Revenue Recognition

Substantially all professional fee revenue is derived from fees for professional services related to executive recruitment, middle-management recruitment and related services performed on a retained basis. Fee revenue from recruitment activities is generally one-third of the estimated first year compensation plus a percentage of the fee to cover indirect expenses. Other fee revenue is recognized as earned. The Company generally bills clients in three monthly installments commencing the month of client acceptance. Fees earned in excess of the initial contract amount are billed upon completion of the engagement. Any services that are provided on a contingent basis are recognized once the contingency is fulfilled.

Cash and Cash Equivalents

The Company considers all highly liquid investments with original maturities of three months or less to be cash equivalents.

KORN/FERRY INTERNATIONAL AND SUBSIDIARIES
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)
January 31, 2010

Marketable Securities

The Company classifies its marketable securities as either trading securities or available-for-sale. These investments are recorded at fair value and are classified as marketable securities in the accompanying consolidated balance sheets. Certain investments, which the Company intends to sell within the next twelve months, are carried as current. Investments are made based on the Company s investment policy which restricts the types of investments that can be made.

Trading securities consist of the Company s investments, which are held in trust to satisfy obligations under the Company s deferred compensation plans (see Note 5). The changes in fair values on trading securities are recorded as a component of net (loss) income in interest and other income, net.

Available-for-sale securities consist of time deposits. The changes in fair values, net of applicable taxes, are recorded as unrealized gains (losses) as a component of accumulated other comprehensive income (loss) in stockholders equity. When, in the opinion of management, a decline in the fair value of an investment below its cost or amortized cost is considered to be other-than-temporary, the investment s cost or amortized cost is written-down to its fair value and the amount written-down is recorded in the statement of operations in interest and other income (loss), net. The determination of other-than-temporary decline includes, in addition to other relevant factors, a presumption that if the market value is below cost by a significant amount for a period of time, a write-down may be necessary. The amount of any write-down is determined by the difference between cost or amortized cost of the investment and its fair value at the time the other-than-temporary decline is identified. During the three and nine months ended January 31, 2010, no other-than-temporary impairment was recognized, compared to a write-down of $15.3 million and $15.9 million for the three and nine months ended January 31, 2009, respectively.

Goodwill and Intangible Assets

Goodwill represents the excess of the purchase price over the fair value of assets acquired. Purchased intangible assets primarily consist of customer lists, non-compete agreements, proprietary databases, intellectual property and trademarks, and are recorded at the estimated fair value at the date of acquisition and are amortized using the straight-line method over their estimated useful lives of five to 24 years.

The Company s annual goodwill impairment test is performed as of January 31. The goodwill impairment test compares the fair value of a reporting unit with its carrying amount, including goodwill. If the carrying amount of a reporting unit exceeds its fair value, goodwill of the reporting unit would be considered impaired. To measure the amount of the impairment loss, the implied fair value of a reporting unit s goodwill is compared to the carrying amount of that goodwill. The implied fair value of goodwill shall be determined in the same manner as the amount of goodwill recognized in a business combination. If the carrying amount of a reporting unit s goodwill exceeds the implied fair value of that goodwill, an impairment loss shall be recognized in an amount equal to that excess. For each of these tests, the fair value of each of the Company s reporting units is determined using a combination of valuation techniques, including a discounted cash flow methodology. Results of the latest impairment tests as of January 31, 2009, indicated that the fair value of each reporting unit exceeded its carrying amount. As a result, no impairment charge was recognized as of January 31, 2009 or April 30, 2009. The Company s annual impairment test as of January 31, 2010 will be performed in the fourth quarter of fiscal 2010, although there was also no indication of impairment as of January 31, 2010.

As of January 31, 2010 and April 30 2009, there were no indicators of impairment with respect to the Company s intangible assets.

Stock-Based Compensation

The Company has employee compensation plans under which various types of stock-based instruments are granted. These instruments, principally include stock options, stock appreciation rights (SARs), restricted stock and an Employee Stock Purchase Plan (ESPP). In addition to recognizing compensation expense related to restricted stock and SARs, the Company also recognizes compensation expense related to the estimated fair value of stock options and stock purchases under the ESPP.

KORN/FERRY INTERNATIONAL AND SUBSIDIARIES
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)
January 31, 2010

Restructuring Charges

The Company accounts for its restructuring charges as a liability when the costs are incurred and are recorded at fair value. Changes in the estimates of the restructuring charges are recorded in the period the change is determined.

Fair Value of Financial Instruments

Effective May 1, 2008, the Company adopted Statement of Financial Accounting Standards (SFAS) 157, *Fair Value Measurements* (SFAS 157) for financial assets and liabilities, which defines fair value, provides guidance for measuring fair value and requires certain disclosures. SFAS 157 discusses valuation techniques, such as the market approach (comparable market prices), the income approach (present value of future income or cash flow) and the cost approach (cost to replace the service capacity of an asset or replacement cost). The statement establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The following is a brief description of those three levels:

Level 1: Observable inputs such as quoted prices (unadjusted) in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2: Inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active.

Level 3: Unobservable inputs that reflect the reporting entity s own assumptions.

As of January 31, 2010 and April 30, 2009, the Company held certain assets that are required to be measured at fair value on a recurring basis. These included cash equivalents, marketable securities and a put option. The carrying amount of cash, cash equivalents and accounts receivable approximates fair value due to the short maturity of these instruments. The fair values of marketable securities, other than auction rate securities, are obtained from quoted market prices. The fair value of the auction rate securities and put option are determined by the use of pricing models. The guidance for SFAS 157 may now be found in Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*.

Recently Adopted Accounting Standards

In August 2009, the Financial Accounting Standards Board (FASB) issued authoritative guidance to provide clarification on measuring liabilities at fair value when a quoted price in an active market is not available. In these circumstances, a valuation technique should be applied that uses either the quote of the liability when traded as an asset, the quoted prices for similar liabilities or similar liabilities when traded as assets, or another valuation technique consistent with existing fair value measurement guidance, such as an income approach or a market approach. The new guidance also clarifies that when estimating the fair value of a liability, a reporting entity is not required to include a separate input or adjustment to other inputs relating to the existence of a restriction that prevents the transfer of the liability. This guidance became effective for the Company s fiscal 2010 third quarter and did not have an impact on the Company s consolidated financial statements.

In December 2007, the FASB issued SFAS No. 141 (Revised 2007), *Business Combinations* (SFAS 141R). SFAS 141R expands the definition of transactions and events that qualify as business combinations; requires that the acquired assets and liabilities including contingencies and any noncontrolling interests in the acquiree, be recorded at the fair value determined on the acquisition date and changes thereafter be reflected in earnings, rather than goodwill; changes the recognition timing for restructuring costs; and requires acquisition costs to be expensed as incurred. SFAS 141R also includes a substantial number of new disclosure requirements. SFAS 141R will have an impact on accounting for business combinations but the effect is dependent upon acquisitions at that time. For acquisitions completed prior to May 1, 2009, the new standard requires that changes in deferred tax valuation allowances and acquired income tax uncertainties after the measurement period must be recognized in earnings rather than as an adjustment to the cost of the acquisition. The adoption of SFAS 141R did not have a material impact on the Company s consolidated financial position and results of operations. The guidance for SFAS 141R may now be found in ASC 805, *Business Combinations*.

KORN/FERRY INTERNATIONAL AND SUBSIDIARIES
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)
January 31, 2010

In December 2007, the FASB issued SFAS No. 160, *Noncontrolling Interests in Consolidated Financial Statements An Amendment of ARB No. 51* (SFAS 160). SFAS 160 establishes new accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. Specifically, this statement requires the recognition of a noncontrolling interest (minority interest) as equity in the consolidated financial statements and separate from the parent s equity. The amount of net income attributable to the noncontrolling interest will be included in consolidated net income on the face of the income statement. SFAS 160 clarifies that changes in a parent s ownership interest in a subsidiary that do not result in deconsolidation are equity transactions if the parent retains its controlling financial interest. In addition, this statement requires that a parent recognize a gain or loss in net income when a subsidiary is deconsolidated. Such gain or loss will be measured using the fair value of the noncontrolling equity investment on the deconsolidation date. SFAS 160 also includes expanded disclosure requirements regarding the interests of the parent and its noncontrolling interest. The Company currently does not have significant minority interests in its consolidated subsidiaries and as such SFAS 160 did not have an impact on the Company s condensed consolidated financial statements. The guidance for SFAS 160 may now be found in ASC 810, *Consolidation*.

In April 2009, the FASB issued FASB Staff Position No. 157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly* (FSP 157-4). FSP 157-4 provides guidance on (1) estimating the fair value of an asset or liability when the volume and level of activity for the asset or liability have significantly decreased and (2) identifying transactions that are not orderly. FSP 157-4 was effective for interim and annual periods ending after June 15, 2009. The adoption of FSP 157-4 did not have a material impact on the Company s condensed consolidated financial statements. The guidance for FSP 157-4 may now be found in ASC 820-10-65-4, *Fair Value Measurements and Disclosures*.

In April 2009, the FASB issued FASB Staff Position No. 107-1 and APB 28-1, *Interim Disclosures about Fair Value of Financial Instruments* (FSP 107-1). FSP 107-1 requires disclosures about the fair value of financial instruments in interim reporting periods of publicly traded companies as well as in annual financial statements. FSP 107-1 was effective for interim periods ending after June 15, 2009. The adoption of FSP 107-1 did not have a material impact on the Company s condensed consolidated financial statements. The guidance for FSP 107-1 may now be found in ASC 825-10-65-1, *Financial Instruments.*

In May 2009, the FASB issued SFAS No. 165, *Subsequent Events* (SFAS 165). SFAS 165 provides guidance to establish general standards of accounting for and disclosures of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. SFAS 165 also requires entities to disclose the date through which subsequent events were evaluated as well as the rationale for why that date was selected. SFAS 165 is effective for interim and annual periods ending after June 15, 2009, and accordingly, the Company adopted this standard during the three months ended July 31, 2009. The implementation of this standard did not have any impact on the financial statements of the Company. Subsequent events through the filing date of this Form 10-Q have been evaluated for disclosure and recognition and the Company concluded that no subsequent events have occurred that would require recognition in the condensed consolidated financial statements. The guidance for SFAS 165 may now be found in ASC 855, *Subsequent Events*.

In June 2009, the FASB issued SFAS No. 168*, The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles a Replacement of FASB Statement No. 162* (SFAS 168). SFAS 168 establishes the FASB Accounting Standards Codification (the Codification) as the source of authoritative accounting principles recognized by the FASB to be applied by nongovernmental entities in the preparation of financial statements in conformity with U.S. GAAP, except for rules and interpretive releases of the Securities and Exchange Commission (SEC), which are sources of authoritative GAAP for SEC registrants. The Codification does not change current U.S. GAAP, but is intended to simplify user access to all authoritative U.S. GAAP by providing all the authoritative literature related to a particular topic in one place. The Codification is effective for interim and annual periods ending after September 15, 2009. The Company adopted SFAS 168 in the second fiscal quarter 2009. As the Codification was not intended to change or alter existing GAAP, it did not impact the Company s condensed

consolidated financial statements. The guidance for SFAS 168 may now be found in ASC 105, *Generally Accepted Accounting Principles.*

2. Basic and Diluted Earnings (Loss) Per Share

Basic earnings (loss) per common share was computed by dividing net earnings (loss) by the weighted-average number of common shares outstanding. Diluted earnings per common share reflects the potential dilution that would occur if all in-the-money outstanding options or other contracts to issue common stock were exercised or converted and was computed by dividing net earnings (loss) attributable to common stockholders by the weighted-average number of common shares outstanding plus dilutive common equivalent shares. During the three months ended January 31, 2010 and the nine months ended January 31, 2009, SARs and options to purchase 1.3 million shares and 1.9 million shares, respectively, were outstanding but not included in the computation of diluted earnings per share because they were anti-dilutive. Due to the loss attributable to common stockholders during the nine months ended January 31, 2010 and the three months ended January 31, 2009, no potentially dilutive shares are included in the loss per share calculation as including such shares in the calculation would be anti-dilutive.

The following table summarizes basic and diluted earnings (loss) per share calculations:

The Company uses the Black-Scholes option valuation model to estimate the grant date fair value of employee stock options. The expected volatility reflects the consideration of the historical volatility in the Company s publicly traded instruments during the period the option is granted. The Company believes historical volatility in these instruments is more indicative of expected future volatility than the implied volatility in the price of the Company s common stock. The expected life of each option is estimated using historical data. The risk-free interest rate is based on the U.S. Treasury zero-coupon issue with a remaining term approximating the expected term of the option. The Company uses historical data to estimate forfeiture rates applied to the gross amount of expense determined using the option valuation model.

The weighted-average assumptions used to estimate the fair value of each employee stock option and SARs were as follows:

	Nine Months Ended January 31,	
	2010	**2009**
Expected volatility	48.91%	44.11%
Risk-free interest rate	2.53%	3.27%
Expected option life (in years)	5.00	4.25
Expected dividend yield	0.00%	0.00%

The Black-Scholes option pricing model was developed for use in estimating the fair value of traded options. The assumptions used in option valuation models are highly subjective, particularly the expected stock price volatility of the underlying stock.

Stock Incentive Plans

The Korn/Ferry International 2008 Stock Incentive Plan (the 2008 Plan) was amended by the Company s stockholders on September 10, 2009, at the 2009 Annual Stockholder Meeting. The amendment made available an additional 2,360,000 shares of the Company s common stock for stock-based compensation awards. The 2008 Plan, as amended, provides for the grant of awards to eligible participants, designated as either nonqualified or incentive stock options, SARs, restricted stock and restricted stock units, any of which may be performance-based, and incentive bonuses, which may be paid in cash or a combination thereof.

Stock Options and SARs

Stock options and SARs transactions under the Company s stock incentive plans were as follows:

	Nine Months Ended January 31, 2010			
	Options	**Weighted-Average Exercise Price**	**Weighted-Average Remaining Contractual Life (In Years)**	**Aggregate Intrinsic Value**
	(in thousands, except per share data)

Exercisable, January 31, 2010	2,269	$ 15.68	3.12	$ 5,333

Included in the table above are 45,235 SARs outstanding and exercisable as of January 31, 2010 with a weighted-average exercise price of $11.87. As of January 31, 2010, there was $2.2 million of total unrecognized compensation cost related to non-vested awards of stock options and SARs. That cost is expected to be recognized over a weighted-average period of 1.9 years. For stock option awards subject to graded vesting, the Company recognizes the total compensation cost on a straight-line basis over the service period for the entire award.

Restricted Stock

The Company grants restricted stock to executive officers and other senior employees generally vesting over a three to four year period. Restricted stock is granted at a price equal to the fair market value of the Company s common stock on the date of grant. Employees may receive restricted stock annually in conjunction with the Company s performance review as well as upon commencement of employment. The fair value of restricted stock is determined based on the closing price of the Company s common stock on the date of grant.

Restricted stock activity is summarized below:

	Nine Months Ended January 31,		
	Shares		Weighted-Average Grant Date Fair Value
	(in thousands, except per share data)		
Non-vested, April 30, 2009	2,387	$	15.50

Forfeited/expired	(154)	$	17.55
Non-vested, January 31, 2010	2,481	$	12.92

As of January 31, 2010, there was $28.5 million of total unrecognized compensation cost related to non-vested awards of restricted stock, which is expected to be recognized over a weighted-average period of 2.3 years. For restricted stock awards subject to graded vesting, the Company recognizes the total compensation cost on a straight-line basis over the service period for the entire award. In the three and nine months ended January 31, 2010, 17,460 shares and 146,114 shares of restricted stock totaling $0.3 million and $1.7 million, respectively, were repurchased by the Company at the option of the employee to pay for taxes related to vesting of restricted stock. In the three and nine months ended January 31, 2009, 3,936 shares and 130,245 shares of restricted stock totaling $0.1 million and $2.2 million, respectively, were repurchased by the Company at the option of the employee to pay for taxes related to vesting of restricted stock.

Common Stock

In the three and nine months ended January 31, 2010, the Company issued 114,815 shares and 455,695 shares of common stock as a result of the exercise of stock options. In the three and nine months ended January 31, 2009, the Company issued 15,390 shares and 111,802 shares of common stock, respectively, as a result of the exercise of stock options.

Employee Stock Purchase Plan

In October 2003, the Company implemented an ESPP that, in accordance with Section 423 of the Internal Revenue Code, allows eligible employees to authorize payroll deductions of up to 15% of their salary to purchase shares of the Company s common stock at 85% of the fair market price of the common stock on the last day of the enrollment period. The maximum number of shares of common stock reserved for ESPP issuance is 1.5 million shares, subject to adjustment for certain changes in the Company s capital structure and other extraordinary events. During the three months ended January 31, 2010 and 2009, employees purchased 67,917 shares at $14.03 per share and 90,895 shares at $9.71 per share, respectively. During the nine months ended January 31, 2010 and 2009, employees purchased 209,840 shares at $10.66 per share and 209,510 shares at $11.78 per share, respectively.

5. Marketable Securities

As of January 31, 2010 marketable securities consisted of the following:

	Trading (in thousands)
Auction rate securities	$ 9,723
Auction rate securities put option	1,177
Mutual funds (1)	64,503
Total	75,403

Less: current portion of marketable securities	(2,261)	(2,002)	(4,263)
Non-current marketable securities	$ 70,992	$	$ 70,992

(1) These investments are held in trust for settlement of the Company s obligations

under certain of its deferred compensation plans with $3.9 million and $2.3 million classified as current assets as of January 31, 2010 and April 30, 2009, respectively.

(2) Due to the short maturities for these instruments, fair value approximates amortized cost.

Investments in marketable securities are made based on the Company s investment policy which restricts the types of investments that can be made. The Company s investments associated with cash equivalents and marketable securities consist of money market funds, United States government and government agency bonds and equity securities for which market prices are readily available. The Company s investments in marketable securities also include student loan portfolios (ARS), which are classified as noncurrent marketable securities and reflected at fair value.

As of January 31, 2010 and April 30, 2009, the Company s marketable securities included $64.5 million (net of unrealized losses of $1.3 million) and $60.8 million (net of unrealized losses of $10.0 million) respectively, held in trust for settlement of the Company s obligations under certain of its deferred compensation plans, of which $60.6 million and $58.5 million are classified as noncurrent. The Company s obligations for which these assets were held in trust totaled $64.5 million and $60.7 million as of January 31, 2010 and April 30, 2009, respectively. Based upon a review of the Company s available-for-sale securities, as of January 31, 2009, the Company determined that the unrealized losses were other-than-temporary as a result of the severity and duration of the change in fair value of these securities. Therefore, as of January 31, 2009, the Company recorded an other-than-temporary impairment charge of $15.9 million in the accompanying statement of operations in interest and other income (loss), net.

6. Restructuring Charges

During the nine months ended January 31, 2010, the Company reorganized its operating structure and as a result incurred restructuring charges of $25.8 million against operations. This restructuring expense was partially offset by $5.2 million of recoveries from previously estimated restructuring charges resulting in net restructuring costs of $20.6 million during the nine months ended January 31, 2010. The Company s basic and diluted (loss) earnings per share for the nine months ended January 31, 2010 would have decreased by $0.08 per share had recoveries of previously recorded restructuring charges of $5.2 million (or $3.3 million, net of taxes) not been recorded.

Changes in the restructuring liability during the three months ended January 31, 2010 are as follows:

	Severance	Facilities (in thousands)	Total

7. Deferred Compensation and Retirement Plans

The Company has several deferred compensation and retirement plans for vice-presidents that provide defined benefits to participants based on the deferral of current compensation subject to vesting and retirement or termination provisions.

The components of net periodic benefit costs are as follows:

	Three Months Ended January 31,		Nine Months Ended January 31,	
	2010	2009	2010	2009
	(in thousands)

Amortization of net transition obligation		53		159

Net periodic benefit costs	$	1,010	$	1,116	$	3,030	$	3,348

The Company also has an Executive Capital Accumulation Plan (ECAP) which is intended to provide certain employees an opportunity to defer salary and/or bonus on a pre-tax basis, or make an after-tax contribution. The Company made contributions of $0.3 million to the ECAP in each of the three months ended January 31, 2010 and 2009. The Company made contributions to the ECAP during the nine months ended January 31, 2010 and 2009, of $0.9 million and $15.0 million, respectively. Participants generally vest in Company contributions over a four year period. The ECAP is accounted for whereby the changes in the fair value of the vested amounts owed to the participants are adjusted with a corresponding charge (or credit) to compensation and benefits costs. During the three and nine months ended January 31, 2010, deferred compensation liability increased; therefore the Company recognized a compensation expense of $1.4 million and $5.4 million, respectively. The reduction in the deferred compensation liability recognized in income during the three and nine months ended January 31, 2009 was $2.0 million and $10.6 million, respectively.

9. Acquisitions

On June 11, 2009, the Company acquired all of the outstanding share capital of Whitehead Mann Limited and Whitehead Mann SAS, together referred to as Whitehead Mann (WHM). WHM is engaged in providing executive recruitment and other related recruiting services in the United Kingdom, Dubai and France. Actual results of operations of WHM are included in the Company s consolidated financial statements from June 11, 2009, the effective date of the acquisition, and include approximately $10.7 million and $26.9 million in fee revenue from this acquisition during the three and nine months ended January 31, 2010, respectively.

On January 1, 2010, the Company acquired SENSA Solutions, Inc. (SENSA), a leading management consulting firm widely respected for its leadership and organizational development solutions utilized by U.S. federal agencies. Founded in 1996, SENSA has developed strong recognition for its deep U.S. government relationships and specialized human capital solutions ranging from strategic planning, training and development to executive coaching, change management and strategic communications. Actual results of operations of SENSA are included in the Company s consolidated financial statements from January 1, 2010, the effective date of the acquisition, and include $0.8 million in fee revenue from this acquisition during the three months ended January 31, 2010.

10. Income Taxes

The Company s income tax returns are subject to audit by the Internal Revenue Service and various state and foreign tax authorities. Significant disputes may arise with these tax authorities involving issues of the timing and amount of deductions and allocations of income among various tax jurisdictions because of differing interpretations of tax laws and regulations. The Company periodically evaluates its exposures associated with tax filing positions. While management believes its positions comply with applicable laws, the Company records liabilities based upon estimates of the ultimate outcomes of these matters. During the three and nine months ended January 31, 2010, the Company reversed a $10.3 million reserve for a previous uncertain tax position, as the federal statue of limitations expired. Changes in the unrecognized tax benefits are as follows:

	Nine Months Ended January 31,	
	2010	2009
	(in thousands)	
Unrecognized tax benefits, beginning of period	$ 13,392	$ 10,770
Estimated interest for the year	445	466
Recognized tax benefits	(10,329)	
Unrecognized tax benefits, end of period	$ 3,508	$ 11,236

11. Long-Term Debt

In January 2010, the Company amended its Senior Secured Revolving Credit facility (the Facility), with Wells Fargo Bank, N.A., to, among other things, modify certain covenants and borrowing base requirements. The aggregate commitments under the Facility are $50 million, with a $15 million sublimit for letters of credit, subject to satisfaction of borrowing base requirements based on eligible domestic accounts receivable and cash held on deposit. As of January 31, 2010, the Company pledged $6.0 million in cash. The maturity date of the Facility remains unchanged at March 14, 2011. Borrowings under the Facility bear interest, at the election of the Company, at either the base rate or the Eurodollar rate in effect at such time plus, in each case, the applicable margin. The applicable margins for base rate loans and Eurodollar rate loans are 3.00% and 4.00%, respectively. The Company pays quarterly commitment fees of 0.50% on the Facility s unused commitments. The Facility is secured by substantially all of the Company s assets and assets of significant subsidiaries, including certain accounts receivable balances and guarantees by and pledges of the capital stock of significant subsidiaries. The financial covenants include a maximum consolidated leverage ratio, minimum consolidated quick ratio and minimum consolidated earnings before taxes, interest and depreciation and amortization tests. As of January 31, 2010, the Company had no borrowings under its Facility; however, at January 31, 2010 there were $5.8 million of standby letters of credit issued under this Facility.

Forward-looking Statements

This Quarterly Report on Form 10-Q may contain certain statements that we believe are, or may be considered to be, forward-looking statements, within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. These forward-looking statements generally can be identified by use of statements that include phrases such as believe , expect , anticipate , intend , plan , foresee , may , will , estimates , or other similar words or phrases. Similarly, statements that describe our objectives, plans or goals also are forward-looking statements. All of these forward-looking statements are subject to risks and uncertainties that could cause our actual results to differ materially from those contemplated by the relevant forward-looking statement. The principal risk factors that could cause actual performance and future actions to differ materially from the forward-looking statements include, but are not limited to, dependence on attracting and retaining qualified and experienced consultants, portability of client relationships, global, local political or economic developments in or affecting countries where we have operations, currency fluctuations in our international operations, ability to manage growth, competition, reliance on information processing systems, risks related to the growth and results of Futurestep, restrictions imposed by off-limits agreements, employment liability risk, an impairment in the carrying value of goodwill and other intangible assets, deferred tax assets that we may not be able to use and alignment of our cost structure to our revenue level, and also includes risks related to the successful integration of recently acquired businesses as well as the matters disclosed under the heading Risk Factors in the Company s Exchange Act reports, including in Item 1A of the Company s Annual Report of Form 10-K for the fiscal year ended April 30, 2009 (Form 10-K). Readers are urged to consider these factors carefully in evaluating the forward-looking statements. The forward-looking statements included in this Quarterly Report on Form 10-Q are made only as of the date of this Quarterly Report on Form 10-Q and we undertake no obligation to publicly update these forward-looking statements to reflect subsequent events or circumstances.

The following presentation of management s discussion and analysis of our financial condition and results of operations should be read together with our consolidated financial statements and related notes included in this Quarterly Report on Form 10-Q.

Executive Summary

Korn/Ferry International (referred to herein as the Company, Korn/Ferry, or in the first person notations we, our, us) is a premier global provider of talent management solutions that helps clients to attract, develop, retain and sustain their talent. We are the largest provider of executive recruitment, leadership and talent consulting and talent acquisition solutions, with the broadest global presence in the recruitment industry. Our services include executive recruitment, middle-management recruitment (through Futurestep), recruitment process outsourcing (RPO), leadership and talent consulting (LTC) and executive coaching. Over half of the executive recruitment searches we performed in fiscal 2009 were for board level, chief executive and other senior executive and general management positions. Our 4,328 clients in fiscal 2009 included many of the world s largest and most prestigious public and private companies, middle market and emerging growth companies, as well as government and nonprofit organizations, including approximately 45% of the FORTUNE 500 companies. We have built strong client loyalty with 75% of the executive recruitment assignments we performed during fiscal 2009 being on behalf of clients for whom we had conducted assignments in the previous three fiscal years.

In an effort to maintain our long-term strategy of being the leading provider of executive search, middle-management recruitment, RPO, LTC and executive coaching, our strategic focus for the remainder of fiscal 2010 will center upon enhancing the cross-selling of our multi-service strategy. We plan to continue to address areas of increasing client demand, including RPO and LTC. We plan to explore new products and services, continue to pursue a disciplined acquisition strategy, enhance our technology and processes and aggressively leverage our brand through thought leadership and intellectual capital projects as a means of delivering world-class service to our clients.

Fee revenue increased 8% in the three months ended January 31, 2010 to $146.8 million compared to $136.2 million in the year-ago period, with increases in fee revenue in all regions in executive search, offset by declines in Futurestep fee revenue. The North America and Europe, Middle East and Africa (EMEA) regions in executive recruitment experienced the largest dollar increases in fee revenue. During the three months ended January 31, 2010, we recorded

operating income of $6.4 million with operating income from executive recruitment and Futurestep of $18.5 million and $0.6 million, respectively and corporate expenses of $12.7 million. This represents an increase of 157% from operating loss of $11.3 million in the three months ended January 31, 2009.

Our cash, cash equivalents and marketable securities decreased $79.1 million, or 24% to $251.2 million at January 31, 2010 compared to $330.3 million at April 30, 2009. As of January 31, 2010, we held marketable securities, to settle obligations under our Executive Capital Accumulation Plan (ECAP) with a cost value of $65.8 million and a fair value of $64.5 million. Our working capital decreased $18.1 million in the nine months ended January 31, 2010, to $180.1 million. We believe that cash on hand and funds from operations will be sufficient to meet our anticipated working capital, capital expenditures and general corporate requirements in the next twelve months. We had no long-term debt nor any outstanding borrowings under our credit facility at January 31, 2010.

Critical Accounting Policies

The following discussion and analysis of our financial condition and results of operations are based on our unaudited condensed consolidated financial statements. Preparation of this Quarterly Report on Form 10-Q requires us to make estimates and assumptions that affect the reported amount of assets and liabilities, disclosure of contingent assets and liabilities at the date of our financial statements and the reported amount of revenues and expenses during the reporting period. Actual results may differ from those estimates and assumptions. In preparing our interim financial statements and accounting for the underlying transactions and balances, we apply our accounting policies as disclosed in the notes to our condensed consolidated financial statements. We consider the policies related to revenue recognition, deferred compensation, marketable securities and the carrying values of goodwill, intangible assets and deferred income taxes as critical to obtaining an understanding of our interim consolidated financial statements because their application places the most significant demands on management s judgment. Specific risks for these critical accounting policies are described in our Form 10-K filed with the Securities Exchange Commission.

Three Months Ended January 31, 2010 Compared to Three Months Ended January 31, 2009

Fee Revenue

Fee Revenue. Fee revenue increased $10.6 million, or 8%, to $146.8 million in the three months ended January 31, 2010 compared to $136.2 million in the three months ended January 31, 2009. The increase in fee revenue was primarily attributable to a 5% increase in the number of engagements billed during the three months ended January 31, 2010 as compared to the three months ended January 31, 2009 and a 2% decrease in the weighted-average fees billed per engagement during the same period. Exchange rates favorably impacted fee revenues by $7.8 million in the three months ended January 31, 2010.

Executive Recruitment. Executive recruitment reported fee revenue of $129.2 million, an increase of $12.6 million, or 11%, in the three months ended January 31, 2010 compared to $116.6 million in the three months ended January 31, 2009. This increase was due to a 13% increase in the number of engagements billed in the three months ended January 31, 2010 as compared to the year-ago period, offset by a 2% decrease in the average fees billed per engagement during the same period. Exchange rates favorably impacted fee revenues by $6.1 million in the three months ended January 31, 2010.

North America reported fee revenue of $70.2 million, an increase of $3.2 million, or 5%, in the three months ended January 31, 2010 compared to $67.0 million in the three months ended January 31, 2009, primarily due to a 5% increase in the number of engagements billed during the three months ended January 31, 2010 as compared to the three months ended January 31, 2009. The overall increase in fee revenue was driven by increases in fee revenue in the education, technology, consumer goods and life sciences sectors. Exchange rates favorably impacted North America fee revenue by $0.9 million in the three months ended January 31, 2010.

EMEA reported fee revenue of $36.6 million, an increase of $6.2 million, or 20%, in the three months ended January 31, 2010 compared to $30.4 million in the three months ended January 31, 2009. EMEA s increase in fee revenue was driven by a 23% increase in the number of engagements billed in the three months ended January 31, 2010 as compared to the three months ended January 31, 2009, offset by a 2% decrease in average fees billed per engagement during the same period. The performance in existing offices in the United Kingdom and France were the primary contributors to the increase in fee revenue in the three months ended January 31, 2010 in comparison to the year-ago period. The life sciences, industrial, consumer goods and financial services sectors experienced the largest increase in fee revenue in the three months ended January 31, 2010 as compared to the three months ended January 31, 2009. Exchange rates favorably impacted EMEA fee revenue by $3.1 million in the three months ended January 31, 2010.

Asia Pacific reported fee revenue of $16.6 million, an increase of $3.0 million, or 22%, in the three months ended January 31, 2010 compared to $13.6 million in the three months ended January 31, 2009. Asia Pacific s increase in fee revenue was due to a 13% increase in the number of engagements billed and a 7% increase in average fees billed per engagement in the three months ended January 31, 2010 compared to the three months ended January 31, 2009. The increase in performance in Australia and Hong Kong were the primary contributors to the increase in fee revenue in the three months ended January 31, 2010 over the year-ago period. The largest increase in fee revenue was experienced in the financial services and consumer sectors. Exchange rates favorably impacted fee revenue for Asia Pacific by $1.3 million in the three months ended January 31, 2010.

South America reported fee revenue of $5.8 million, an increase of $0.2 million, or 4%, in the three months ended January 31, 2010 compared to $5.6 million in the three months ended January 31, 2009. The number of engagements billed increased 5% within the region in three months ended January 31, 2010 compared to the three months ended January 31, 2009. This increase was partially offset by a 2% decrease in the average fees billed per engagement during the same period. The increase in performance in the technology, life sciences and consumer goods sectors was the primary contributor to the increase in fee revenue in the three months ended January 31, 2010 compared to the three months ended January 31, 2009. Exchange rates favorably impacted fee revenue for South America by $0.8 million in the three months ended January 31, 2010.

Futurestep. Futurestep reported fee revenue of $17.6 million, a decrease of $2.0 million, or 10%, in the three months ended January 31, 2010 compared to $19.6 million in the three months ended January 31, 2009. The decline in Futurestep s fee revenue was due to an 8% decrease in the number of engagements billed in the three months ended January 31, 2010 as compared to the three months ended January 31, 2009 and a 2% decrease in average fees billed per engagement during the same period. Of the total decrease in fee revenue in the three months ended January 31, 2010 compared to the three months ended January 31, 2009, North America experienced the largest dollar decline, with a decrease in fee revenue of $1.2 million, or 16%, to $6.4 million; followed by EMEA where fee revenue decreased by $1.0 million, or 16%, to $5.4 million. These decreases were partially offset by an increase in Asia Pacific fee revenue of $0.2 million, or 4%, to $5.8 million. Exchange rates favorable impacted fee revenue for Futurestep by $1.7 million in the three months ended January 31, 2010.

Compensation and Benefits

Compensation and benefits expense increased $8.7 million, or 9%, to $102.7 million in the three months ended January 31, 2010 from $94.0 million in the three months ended January 31, 2009. The increase in compensation and benefits expenses is primarily due to an increase of $8.8 million in the variable components of compensation when compared to the three months ended January 31, 2009, which was lower than normal due to the challenging economic conditions. Exchange rates unfavorably impacted compensation and benefits expenses by $5.3 million during the three months ended January 31, 2010.

Table of Contents

Executive recruitment compensation and benefits costs increased $9.3 million, or 13%, to $82.8 million in the three months ended January 31, 2010 compared to $73.5 million in the three months ended January 31, 2009 primarily due to an increase of $8.1 million in variable components of compensation. Executive recruitment compensation and benefits expenses, as a percentage of fee revenue, was 64% in the three months ended January 31, 2010 compared to 63% in the three months ended January 31, 2009.

Futurestep compensation and benefits expense decreased $3.1 million, or 19%, to $13.4 million in the three months ended January 31, 2010 from $16.5 million in the three months ended January 31, 2009 primarily due to an approximately 27% decline in Futurestep headcount, offset by an increase in weighted-average compensation in the three months ended January 31, 2010 as compared to the three months ended January 31, 2009. Futurestep compensation and benefits expense, as a percentage of fee revenue, decreased to 76% in the three months ended January 31, 2010 from 84% in the three months ended January 31, 2009.

Corporate compensation and benefits expense increased $2.5 million, or 63%, to $6.5 million in the three months ended January 31, 2010 compared to $4.0 million in the three months ended January 31, 2009 primarily due to a $3.0 million increase in certain other deferred compensation liabilities during the three months ended January 31, 2010. We hold marketable securities in a trust for settlement of certain of these deferred compensation obligations as discussed in Note 5 *Marketable Securities*, in the notes to our condensed consolidated financial statements. The change in the marketable securities is included in interest income and other income (loss), net, discussed below, offsets the increase in compensation and benefits expense and provides liquidity to meet the deferred compensation liabilities. This increase was offset by a $1.3 million decrease in certain other deferred compensation retirement plan liabilities due to an increase in cash surrender value of company owned life insurance policies (COLI).

General and Administrative Expenses

General and administrative expenses increased $0.6 million, or 2%, to $31.6 million in the three months ended January 31, 2010 compared to $31.0 million in the three months ended January 31, 2009 due to a $1.5 million increase in unrealized foreign exchange loss, which was partially offset by reductions in premises and office costs. Exchange rates unfavorably impacted general and administrative expenses by $1.7 million in the three months ended January 31, 2010.

Executive recruitment general and administrative expenses were $22.5 million in both the three months ended January 31, 2010 and 2009. Executive recruitment general and administrative expenses, as a percentage of fee revenue, was 17% in the three months ended January 31, 2010 compared to 19% in the three months ended January 31, 2009.

Futurestep general and administrative expenses decreased $1.3 million, or 28%, to $3.4 million in the three months ended January 31, 2010 compared to $4.7 million in the three months ended January 31, 2009 primarily due to decreases of $0.8 million in premises and office expense and $0.6 million in other general and administrative expense. Premises and office expense decreased due to the closure of offices in the second half of fiscal 2009 and general expenses decreased primarily due to the decline in Futurestep s overall business activities. Futurestep general and administrative expenses, as a percentage of fee revenue, was 19% in the three months ended January 31, 2010 compared to 24% in the three months ended January 31, 2009.

Corporate general and administrative expenses increased $1.9 million, or 50%, to $5.7 million in the three months ended January 31, 2010 compared to $3.8 million in the three months ended January 31, 2009 primarily due to an increase in marketing and business development expenses and professional services.

Out-of-Pocket Engagement Expenses

Out-of-pocket engagement expenses consist of expenses incurred by candidates and our consultants that are generally billed to clients. Out-of-pocket engagement expenses decreased $1.2 million, or 11%, to $9.8 million in the three months ended January 31, 2010, compared to $11.0 million in the three months ended January 31, 2009. Out-of-pocket engagement expenses as a percentage of fee revenue, was 7% in the three months ended January 31, 2010 compared to 8% in the three months ended January 31, 2009.

Table of Contents

Depreciation and Amortization Expenses

Depreciation and amortization expenses were $2.7 million and $2.9 million in the three months ended January 31, 2010 and 2009, respectively. This expense relates mainly to computer equipment, software, furniture and fixtures and leasehold improvements.

Restructuring Charges

We reduced previously recorded restructuring charges by $0.3 million in the three months ended January 31, 2010, which relate to the recoveries of premise costs. During the three months ended January 31, 2009, we recorded $16.8 million in restructuring charges with $13.5 million of severance costs related to a reduction in our work force and $3.3 million relating to the consolidation of premises.

Operating Income (Loss)

Operating income increased $17.7 million, to $6.4 million in the three months ended January 31, 2010 compared to operating loss of $11.3 million in the three months ended January 31, 2009. This increase in operating income resulted from a $10.6 million increase in fee revenue and a decrease in restructuring expenses of $17.1 million during the three months ended January 31, 2010 as compared to the three months ended January 31, 2009. These increases were partially offset by an $8.7 million increase in compensation and benefits, and to a lesser extent an increase in general and administrative expenses.

Executive recruitment operating income increased $13.3 million, or 256%, to $18.5 million in the three months ended January 31, 2010 compared to operating income of $5.2 million in the three months ended January 31, 2009. The increase in executive recruitment operating income is attributable to a $12.6 million increase in fee revenue during the three months ended January 31, 2010 as compared to the three months ended January 31, 2009 and a decrease in restructuring expenses of $11.1 million recorded in the three months ended January 31, 2009 of which none was recorded in the three months ended January 31, 2010. These increases were partially offset by a $9.3 million increase in compensation and benefits, primarily due to the acquisition of Whitehead Mann. Executive recruitment operating income during the three months ended January 31, 2010, as a percentage of fee revenue, was 14% compared to 5% in the three months ended January 31, 2009.

Futurestep operating income increased by $8.9 million, to $0.6 million in the three months ended January 31, 2010 as compared to an operating loss of $8.3 million in the three months ended January 31, 2009. The change in Futurestep operating income is primarily due to decreases of $6.1 million in restructuring expenses and $3.1 million compensation and benefits expenses. Futurestep operating income, as a percentage of fee revenue, was 3% in the three months ended January 31, 2010, compared to operating loss, as a percentage of fee revenue of 43% in the three months ended January 31, 2009.

Interest Income and Other Income (Loss), Net

Interest and other income (loss), net increased by $17.0 million, to income of $2.2 million in the three months ended January 31, 2010 compared to a loss of $14.8 million in the three months ended January 31, 2009. The increase in interest and other income (loss), net is primarily due to an increase in net trading gains on marketable securities in the three months ended January 31, 2010 as compared to the three month ended January 31, 2009, and a non-cash asset impairment of $15.3 million related to marketable securities in the three months ended January 31, 2009. There was no such impairment of marketable securities in the three months ended January 31, 2010.

Interest Expense

Interest expense, primarily related to borrowings under our COLI policies, was $1.4 million in the three months ended January 31, 2010 compared to $1.3 million in the three months ended January 31, 2009.

Income Tax Benefit

The benefit for income taxes was $0.2 million in the three months ended January 31, 2010 compared to a benefit for income taxes of $4.5 million in the three months ended January 31, 2009. The benefit for income taxes in the three months ended January 31, 2010 reflects a 3% tax benefit, compared to a 17% tax benefit for the three months ended January 31, 2009. The effective income tax rate in the three months ended January 31, 2010 is lower when compared to the effective income tax rate in three months ended January 31, 2009, primarily due to a $10.3 million reversal of a reserve related to a tax position taken in fiscal 2004, offset by additional reserves of $7.5 million set-up for the tax impact of future repatriations of cash dividends and additional valuation allowances on the Company s current inventory of foreign tax credit carryforwards during the three months ended January 31, 2010.

Equity in Earnings of Unconsolidated Subsidiary

Equity in earnings of unconsolidated subsidiary is comprised of our less than 50% interest in our Mexican subsidiary. We report our interest in earnings or loss of our Mexican subsidiary on the equity basis as a one-line adjustment to net income (loss), net of taxes. Equity in earnings was $0.4 million in both the three months ended January 31, 2010 and 2009.

Nine Months Ended January 31, 2010 Compared to Nine Months Ended January 31, 2009

Fee Revenue

Fee Revenue. Fee revenue decreased $127.5 million, or 24%, to $403.7 million in the nine months ended January 31, 2010 compared to $531.2 million in the nine months ended January 31, 2009. The decrease in fee revenue was primarily attributable to a 17% decrease in the number of engagements billed during the nine months ended January 31, 2010 as compared to the nine months ended January 31, 2009 and a 8% decrease in average fees billed per engagement during the same period, both of which were driven by the depressed global economic conditions in fiscal 2009 and the first half of fiscal 2010, which continues to have an impact on many of our client s people initiatives. Exchange rates unfavorably impacted fee revenues by $3.6 million in nine months ended January 31, 2010.

Executive Recruitment. Executive recruitment reported fee revenue of $353.8 million, a decrease of $97.6 million, or 22%, in the nine months ended January 31, 2010 compared to $451.4 million in the nine months ended January 31, 2009. The decline in executive recruitment fee revenue was due to a 13% decrease in the number of engagements billed in the nine months ended January 31, 2010 as compared to the year-ago period and to a 10% decrease in the average fees billed per engagement during the same period. Exchange rates unfavorably impacted fee revenues by $3.6 million in the nine months ended January 31, 2010.

North America reported fee revenue of $193.7 million, a decrease of $58.9 million, or 23%, in the nine months ended January 31, 2010 compared to $252.6 million in the nine months ended January 31, 2009 primarily due to a 17% decrease in the number of engagements billed during the nine months ended January 31, 2010 as compared to the nine months ended January 31, 2009 and a 7% decrease in the average fees billed per engagement in the region during the same period. The overall decline in fee revenue was driven by declines in fee revenue in the industrial, technology, financial services and life sciences sectors. Exchange rates favorably impacted North America fee revenue by $0.2 million in the nine months ended January 31, 2010.

EMEA reported fee revenue of $101.2 million, a decrease of $21.3 million, or 17%, in the nine months ended January 31, 2010 compared to $122.5 million in the nine months ended January 31, 2009. EMEA s decrease in fee revenue was driven by a 7% decrease in the number of engagements billed in the nine months ended January 31, 2010 as compared to the nine months ended January 31, 2009 and an 11% decrease in average fees billed per engagement during the same period. The performance in existing offices in the United Arab Emirates, Germany, the Netherlands and Italy were the primary contributors to the decrease in fee revenue in the nine months ended January 31, 2010 in comparison to the year-ago period. The technology, industrial and financial services sectors experienced the largest decrease in fee revenue in the nine months ended January 31, 2010 as compared to the nine months ended January 31, 2009. Exchange rates unfavorably impacted EMEA fee revenue by $4.2 million in the nine months ended January 31, 2010.

Asia Pacific reported fee revenue of $42.5 million, a decrease of $13.7 million, or 24%, in the nine months ended January 31, 2010 compared to $56.2 million in the nine months ended January 31, 2009 due to a 10% decline in the number of engagements billed and a decrease of 15% in average fees billed per engagement in the nine months ended January 31, 2010 compared to the nine months ended January 31, 2009. The decline in performance in Japan, Hong Kong, Singapore and India were the primary contributors to the decrease in fee revenue in the nine months ended January 31, 2010 over the year-ago period. The largest decrease in fee revenue was experienced in the industrial and financial services sectors. Exchange rates favorably impacted fee revenue for Asia Pacific by $0.5 million in the nine months ended January 31, 2010.

South America reported fee revenue of $16.4 million, a decrease of $3.7 million, or 18%, in the nine months ended January 31, 2010 compared to $20.1 million in the nine months ended January 31, 2009. The number of engagements billed decreased 19%, within the region in nine months ended January 31, 2010 compared to the nine months ended January 31, 2009. The decline in performance in the financial services, industrial and consumer goods sectors were the primary contributor to the decrease in fee revenue in the nine months ended January 31, 2010 compared to the nine months ended January 31, 2009. Exchange rates unfavorably impacted fee revenue for South America by $0.1 million in the nine months ended January 31, 2010.

Futurestep. Futurestep reported fee revenue of $49.9 million, a decrease of $29.9 million, or 37%, in the nine months ended January 31, 2010 compared to $79.8 million in the nine months ended January 31, 2009. The decline in Futurestep s fee revenue is due to a 26% decrease in the number of engagements billed in the nine months ended January 31, 2010 as compared to the nine months ended January 31, 2009 and a 16% decrease in average fees billed per engagement during the same period. Of the total decrease in fee revenue in the nine months ended January 31, 2010 compared to the nine months ended January 31, 2009, North America experienced the largest dollar decline, with a decrease in fee revenue of $14.5 million, or 45%, to $17.8 million; Europe fee revenue decreased by $10.8 million, or 43%, to $14.1 million and Asia fee revenue decreased $4.6 million, or 20%, to $18.0 million. Overall, exchange rates did not impact fee revenue in the nine months ended January 31, 2010.

Compensation and Benefits

Compensation and benefits expense decreased $70.6 million, or 19%, to $295.2 million in the nine months ended January 31, 2010 from $365.8 million in the nine months ended January 31, 2009. The decrease in compensation and benefits expenses is primarily due to a decline in global headcount, of approximately 14% coupled with a decrease in the weighted-average compensation in the nine months ended January 31, 2010 as compared to the nine months ended January 31, 2009. As discussed below in *Restructuring Charges*, due to our acquisition of Whitehead Mann and the reorganization of our go-to-market and operating structure in EMEA, we implemented a restructuring in the nine months ended January 31, 2010 which further reduced our workforce. The reduction in workforce was related to restructurings in response to the unprecedented global economic downturn, the acquisition of Whitehead Mann and our reorganization of our go-to-market and operating structure. Exchange rates favorably impacted compensation and benefits expenses by $4.4 million during the nine months ended January 31, 2010.

Executive recruitment compensation and benefits costs decreased $55.3 million, or 19%, to $238.3 million in the nine months ended January 31, 2010 compared to $293.6 million in the nine months ended January 31, 2009 primarily due to a decline in executive search headcount of approximately 10% and a decrease in the weighted-average compensation. Exchange rates impacted executive recruitment compensation and benefits expense favorably by $4.3 million. Executive recruitment compensation and benefits expenses, as a percentage of fee revenue, was 67% in the nine months ended January 31, 2010 compared to 65% in the nine months ended January 31, 2009.

Futurestep compensation and benefits expense decreased $19.9 million, or 34%, to $38.5 million in the nine months ended January 31, 2010 from $58.4 million in the nine months ended January 31, 2009 primarily due to a decline in Futurestep headcount of approximately 27% and a decline in the weighted-average compensation in the nine months ended January 31, 2010 as compared to the nine months ended January 31, 2009. Exchange rates favorably impacted Futurestep compensation and benefits expense by $0.1 million. Futurestep compensation and benefits expense, as a percentage of fee revenue, increased to 77% in the nine months ended January 31, 2010 from 73% in the nine months ended January 31, 2009.

Corporate compensation and benefits expense increased $4.6 million, or 33%, to $18.4 million in the nine months ended January 31, 2010 compared to $13.8 million in the nine months ended January 31, 2009 primarily due to a $15.1 million increase in certain other deferred compensation liabilities during the nine months ended January 31, 2010. We hold marketable securities in a trust for settlement of certain of these deferred compensation obligations as discussed in Note 5 *Marketable Securities*, in the notes to our condensed consolidated financial statements. The change in the marketable securities is included in interest income and other income (loss), net, discussed below, offsets the increase in compensation and benefits expense and provides liquidity to meet the deferred compensation liabilities This decrease was partially offset by a $10.6 million decrease in certain other deferred compensation retirement plan liabilities due to an increase in cash surrender value of COLI and reduction in salaries.

General and Administrative Expenses

General and administrative expenses decreased $10.4 million, or 11%, to $86.9 million in the nine months ended January 31, 2010 compared to $97.3 million in the nine months ended January 31, 2009. Exchange rates favorably impacted general and administrative expenses by $0.9 million in the nine months ended January 31, 2010.

Executive recruitment general and administrative expenses decreased $7.5 million, or 11%, to $62.8 million in the nine months ended January 31, 2010 from $70.3 million in the nine months ended January 31, 2009. The decrease in general and administrative expenses was driven by decreases in bad debt expense of $3.3 million, business development expense of $2.5 million and $1.6 million in premises and office expense. General expenses decreased primarily due to the decline in our overall business activities as a result of the global economic crisis, including lower premises and office expense due to the closure of offices in the second half of fiscal 2009. Executive recruitment general and administrative expenses, as a percentage of fee revenue, was 18% in the nine months ended January 31, 2010 compared to 16% in the nine months ended January 31, 2009.

Futurestep general and administrative expenses decreased $6.3 million, or 38%, to $10.4 million in the nine months ended January 31, 2010 compared to $16.7 million in the nine months ended January 31, 2009 primarily due to decreases of $2.5 million in premises and office expense, $2.3 million in miscellaneous expenses including travel and meeting expenses, $1.0 million in business development expense and $0.4 million in bad debt expenses. Miscellaneous expenses decreased primarily due to the decline in Futurestep s overall business activities. Bad debt expense decreased due to an overall lower accounts receivable balance contributing to fewer bad debt write-offs during the nine months ended January 31, 2010 as compared to the year-ago period. Futurestep general and administrative expenses, as a percentage of fee revenue, was 21% in both the nine months ended January 31, 2010 and 2009.

Corporate general and administrative expenses increased $3.4 million, or 33%, to $13.7 million in the nine months ended January 31, 2010 compared to $10.3 million in the nine months ended January 31, 2009 primarily due to an increase in legal and professional fees primarily incurred in connection with the acquisition of Whitehead Mann and an increase in business development expense incurred during the last half of the nine months ended January 31, 2010.

Out-of-Pocket Engagement Expenses

Out-of-pocket engagement expenses consist of expenses incurred by candidates and our consultants that are generally billed to clients. Out-of-pocket engagement expenses decreased $11.0 million, or 28%, to $28.1 million in the nine months ended January 31, 2010, compared to $39.1 million in the nine months ended January 31, 2009. Out-of-pocket engagement expenses as a percentage of fee revenue, was 7% in both the nine months ended January 31, 2010 and 2009.

Depreciation and Amortization Expenses

Depreciation and amortization expenses decreased $0.2 million, or 2%, to $8.4 million in the nine months ended January 31, 2010, compared to $8.6 million in the nine months ended January 31, 2009. This expense relates mainly to computer equipment, software, furniture and fixtures and leasehold improvements.

Restructuring Charges

We reorganized our go-to-market and operating structure in EMEA and in an effort to reduce redundancy attributed to the acquisition of Whitehead Mann we incurred restructuring charges in the nine months ended January 31, 2010 of $25.8 million to reduce the combined work force and to consolidate premises. This restructuring expense was partially offset by $5.2 million of reductions from previously estimated restructuring charges ($1.9 million in severance costs and $3.3 million in premise and facilities costs) resulting in net restructuring costs of $20.6 million in nine months ended January 31, 2010. During the nine months ended January 31, 2009, we incurred $16.8 million in restructuring charges with $13.5 million of severance costs related to a reduction in our work force and $3.3 million relating to the consolidation of premises.

Table of Contents

Operating (Loss) Income

Operating income decreased $50.3 million, to an operating loss of $16.3 million in the nine months ended January 31, 2010 compared to operating income of $34.0 million in the nine months ended January 31, 2009. This decrease in operating income resulted from a $127.5 million decrease in fee revenue during the nine months ended January 31, 2010 as compared to the nine months ended January 31, 2009, which was partially offset by a decrease in operating expenses of $88.6 million during the same period. The decrease in operating expenses is primarily attributable to a decrease in compensation and benefits and general and administrative expenses.

Executive recruitment operating income decreased $48.4 million to $15.1 million in the nine months ended January 31, 2010 compared to operating income of $63.5 million in the nine months ended January 31, 2009. The decline in executive recruitment operating income is attributable to a decrease in revenues offset by a reduction in compensation expenses relating to a decrease in headcount and weighted-average compensation, and to a lesser extent a decrease in general and administrative expenses. These decreases were partially offset by an increase in restructuring charges of $12.4 million recorded in the nine months ended January 31, 2010 as compared to the nine months ended January 31, 2009. Executive recruitment operating income during the nine months ended January 31, 2010, as a percentage of fee revenue, was 4% compared to operating income as a percentage of fee revenue of 14% in the nine months ended January 31, 2009.

Futurestep operating income increased by $6.6 million to $2.4 million in the nine months ended January 31, 2010 as compared to an operating loss of $4.2 million in the nine months ended January 31, 2009. The change in Futurestep operating income is primarily due to a decrease in fee revenue of $29.9 million as a result of a decline in the number of engagements billed during the nine months ended January 31, 2010 compared to the same period a year-ago. The decrease in fee revenue was offset by a decrease in compensation and benefits, general and administrative expenses and reductions of previously recorded restructuring expenses during the nine months ended January 31, 2010 compared to the nine months ended January 31, 2009. Futurestep operating income, as a percentage of fee revenue, was 5% in the nine months ended January 31, 2010, compared to operating loss, as a percentage of fee revenue of 5% in the nine months ended January 31, 2009.

Interest Income and Other Income (Loss), Net

Interest and other income (loss), net increased by $22.7 million, to income of $9.4 million in the nine months ended January 31, 2010 compared to a loss of $13.3 million in the nine months ended January 31, 2009. The increase in interest and other income (loss), net is primarily due to an increase in net trading gains on marketable securities in the nine months ended January 31, 2010 as compared to the nine month ended January 31, 2009, and a non-cash asset impairment of $15.9 million related to marketable securities in the nine months ended January 31, 2009. There was no such impairment of marketable securities in the nine months ended January 31, 2010.

Interest Expense

Interest expense, primarily related to borrowings under our COLI policies, was $4.1 million in the nine months ended January 31, 2010 compared to $3.6 million in the nine months ended January 31, 2009.

Income Tax (Benefit) Provision

The benefit for income taxes was $6.7 million in the nine months ended January 31, 2010 compared to a provision for income taxes of $12.3 million in the nine months ended January 31, 2009. The income taxes in the nine months ended January 31, 2010 reflects a 61% tax benefit compared to a 72% effective tax rate for the nine months ended January 31, 2009. The effective income tax rate in the nine months ended January 31, 2010 is lower when compared to the effective income tax rate in the nine months ended January 31, 2009, due primarily to the inability to recognize the tax benefits from net operating losses associated with the Company s recent restructuring in certain European countries during the nine months ended January 31, 2010.

Equity in Earnings of Unconsolidated Subsidiary

Equity in earnings of unconsolidated subsidiary is comprised of our less than 50% interest in our Mexican subsidiary. We report our interest in earnings or loss of our Mexican subsidiary on the equity basis as a one-line adjustment to net (loss) income, net of taxes. Equity in earnings was $0.6 million in the nine months ended January 31, 2010 compared to $2.3 million in the nine months ended January 31, 2009.

Liquidity and Capital Resources

Although global economic conditions and demand for our services continued to show signs of improvement during the later half of the nine months ended January 31, 2010, the demand for executive searches remains well below its peak level. In response to the uncertain economic environment and labor markets, we took steps to align our cost structure with anticipated revenue levels, in an effort to retain positive cash flow. Continued adverse changes in our revenue, however, could require us to institute additional cost cutting measures. To the extent our efforts are insufficient, we may incur negative cash flows, and if such conditions persist over an extended period of time, it might require us to obtain additional financing to meet our capital needs. We believe that our cash on hand and funds from operations will be sufficient to meet anticipated working capital, capital expenditures and general corporate requirements during the next twelve months.

Our performance is subject to the general level of economic activity in the geographic regions and industries in which we operate. The economic activity in those regions and industries have shown improvement but total recovery may be long and gradual. If the national or global economy or credit market conditions in general were to deteriorate further in the future, it is possible that such changes could put additional negative pressure on demand for our services and affect our cash flows.

As of January 31, 2010 and April 30, 2009, our marketable securities included $64.5 million (net of unrealized losses of $1.3 million) and $60.8 million (net of unrealized losses of $10.0 million) respectively, held in trust for settlement of our obligations under certain deferred compensation plans, of which $60.6 million and $58.5 million are classified as noncurrent. Our obligations for which these assets were held in trust totaled $64.5 million and $60.7 million as of January 31, 2010 and April 30, 2009, respectively.

The net decrease in our working capital of $18.1 million as of January 31, 2010 compared to April 30, 2009 is primarily attributable to a net decrease in cash and cash equivalents, offset to some extent by an increase in accounts receivable and a decrease in accrued compensation and benefits payable. Cash and cash equivalents decreased due to the payment of annual bonuses while compensation and benefits payable decreased due to a reduction in worldwide headcount and a reduction in variable compensation. Accounts receivable increased due to an increase in the number of engagements billed during the later half of the nine months ended January 31, 2010 compared to the year-ago period.

Cash and cash equivalents and marketable securities were approximately $251.2 million and $330.3 million as of January 31, 2010 and April 30, 2009, respectively. Cash and cash equivalents consisted of cash and highly liquid investments purchased with original maturities of three months or less. Marketable securities consist of auction rate municipal securities and mutual funds. The primary objectives for these investments are liquidity or to meet the obligations under certain of our deferred compensation plans.

Cash used in operating activities was $70.8 million in the nine months ended January 31, 2010, an increase of $35.8 million, from cash used in operating activities of $35.0 million in the nine months ended January 31, 2009. The increase in cash used in operating activities is primarily due to an increase in receivables of $53.1 million, other than temporary impairment on marketable securities of $15.9 million recorded in the nine months ended January 31, 2009 and none in the current period, deferred income taxes of $21.2 million offset by a decrease in cash used to settle accounts payable and accrued liabilities of $60.0 million. The increase in receivables is due to an increase in fee revenue during the later half of the nine months ended January 31, 2010 compared to fiscal 2009. The increase in cash used related to deferred income taxes is a result of a reversal of a reserve previously taken against an uncertain tax position and an increased valuation allowance related to cash repatriations and foreign tax credits and the decrease in accounts payable and accrued liabilities is attributable mainly to a reduction in worldwide headcount and weighted-average compensation.

29

Cash used in investing activities was $20.0 million in the nine months ended January 31, 2010, a decrease of $5.0 million, from cash used in investing activities of $25.0 million in the nine months ended January 31, 2009. The decrease in primarily attributable to greater proceeds received from the sale of marketable securities offset by more cash used for acquisitions.

Cash provided by financing activities was $4.9 million in the nine months ended January 31, 2010, an increase of $9.7 million from cash used in financing activities of $4.8 million in the nine months ended January 31, 2009. Borrowings under life insurance policies increased $3.8 million in the nine months ended January 31, 2010 as compared to the nine months ended January 31, 2009. In addition, cash used to repurchase shares of common stock decreased $7.9 during the nine months ended January 31, 2010 as compared to the nine months ended January 31, 2009. As of January 31, 2010, $36.4 million remained available for repurchase under our repurchase program, approved by the Board of Directors on November 2, 2007.

Long-Term Debt

Total outstanding borrowings under our COLI policies were $66.7 million and $61.6 million as of January 31, 2010 and April 30, 2009, respectively. Generally, we borrow under our COLI policies to pay related premiums. Such borrowings do not require annual principal repayments, bear interest primarily at variable rates and are secured by the cash surrender value of the life insurance policies of $132.7 million and $124.7 million as of January 31, 2010 and April 30, 2009, respectively.

In January 2010, the Company amended its Senior Secured Revolving Credit facility (the Facility), with Wells Fargo Bank, N.A., to, among other things, modify certain covenants and borrowing base requirements. The aggregate commitments under the Facility are $50 million, with a $15 million sublimit for letters of credit, subject to satisfaction of borrowing base requirements based on eligible domestic accounts receivable and cash held on deposit. As of January 31, 2010, the Company pledged $6.0 million in cash. The maturity date of the Facility remains unchanged at March 14, 2011. Borrowings under the Facility bear interest, at the election of the Company, at either the base rate or the Eurodollar rate in effect at such time plus, in each case, the applicable margin. The applicable margins for base rate loans and Eurodollar rate loans are 3.00% and 4.00%, respectively. The Company pays quarterly commitment fees of 0.50% on the Facility s unused commitments. The Facility is secured by substantially all of the Company s assets and assets of significant subsidiaries, including certain accounts receivable balances and guarantees by and pledges of the capital stock of significant subsidiaries. The financial covenants include a maximum consolidated leverage ratio, minimum consolidated quick ratio and minimum consolidated earnings before taxes, interest and depreciation and amortization tests. As of January 31, 2010 the Company had no borrowings under its Facility; however, at January 31, 2010 there were $5.8 million of standby letters of credit issued under this Facility.

We are not aware of any other trends, demand or commitments that would materially affect liquidity or those that relate to our resources.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements and have not entered into any transactions involving unconsolidated, limited purpose entities.

Item 3. ***Quantitative and Qualitative Disclosures About Market Risk***

As a result of our global operating activities, we are exposed to certain market risks, including foreign currency exchange fluctuations and fluctuations in interest rates. We manage our exposure to these risks in the normal course of our business as described below. We have not utilized financial instruments for trading, hedging or other speculative purposes nor do we trade in derivative financial instruments.

Foreign Currency Risk.

Substantially all our foreign subsidiaries operations are measured in their local currencies. Assets and liabilities are translated into U.S. dollars at the rates of exchange in effect at the end of each reporting period and revenue and expenses are translated at average rates of exchange during the reporting period. Resulting translation adjustments are reported as a component of comprehensive income on our consolidated statement of stockholders equity and accumulated other comprehensive income on our consolidated balance sheets.

Transactions denominated in a currency other than the reporting entity s functional currency may give rise to transaction gains and losses that impact our results of operations. Historically, we have not realized significant foreign currency gains or losses on such transactions. During the three and nine months ended January 31, 2010, we recognized foreign currency losses, after income taxes, of $0.7 million and $1.0 million, respectively, primarily related to our Latin America, Asia Pacific and EMEA operations.

Our primary exposure to exchange losses is based on outstanding intercompany loan balances denominated in U.S. dollars. If the U.S. dollar strengthened 15%, 25% and 35% against the Pound Sterling, the Euro, the Canadian dollar, the Australian dollar and the Yen, our exchange loss would have been $0.7 million, $1.2 million and $1.7 million, respectively, based on outstanding balances at January 31, 2010. If the U.S. dollar weakened by the same increments against the Pound Sterling, the Euro, the Canadian dollar, the Australian dollar and the Yen, our exchange gain would have been $0.7 million, $1.2 million and $1.7 million, respectively, based on outstanding balances at January 31, 2010.

Interest Rate Risk.

We primarily manage our exposure to fluctuations in interest rates through our regular financing activities, which generally are short term and provide for variable market rates. As of January 31, 2010, we had no outstanding borrowings under our Facility. We had $66.7 million of borrowings against the cash surrender value of COLI contracts as of January 31, 2010 bearing interest primarily at variable rates. The risk of fluctuations in these variable rates is minimized by the fact that we receive a corresponding adjustment to our borrowed funds crediting rate on the cash surrender value on our COLI contracts.

As of January 31, 2010, we held approximately $10.9 million par value (fair value of $9.7 million) of ARS. Continued liquidity issues in the global credit markets caused auctions for all of our ARS to fail. As a result of the current situation in the auction markets, our ability to liquidate our investment in ARS in the near term may be limited or impossible. An auction failure means that the parties wishing to sell securities cannot sell these types of securities. In August 2008, we received a settlement offer and entered into a repurchase agreement with an investment security firm, which gave us the right (Put Option) to sell our auction rate securities at par value to the investment security firm between June 30, 2010 and July 2, 2012 and (2) gave the investment security firm the right to purchase the auction rate securities from us any time after October 28, 2008 as long as we receive the par value. Based on our expected operating cash flows, and our other sources of cash, we do not anticipate the potential lack of liquidity on these investments will affect our ability to execute our current business plan.

Item 4. ***Controls and Procedures***

(a) Evaluation of Disclosure Controls and Procedures.

Based on their evaluation of our disclosure controls and procedures conducted as of the end of the period covered by this Quarterly Report on Form 10-Q, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) promulgated under the Securities Exchange Act of 1934, as amended) are effective.

(b) Changes in Internal Control over Financial Reporting.

There were no changes in our internal control over financial reporting during the three months ended January 31, 2010, that have materially affected or are reasonably likely to materially affect our internal control over financial reporting.

PART II.

Item 1. ***Legal Proceedings***

From time to time, we are involved in litigation both as a plaintiff and a defendant, relating to claims arising out of our operations. As of the date of this report, we are not engaged in any legal proceedings that are expected, individually or in the aggregate, to have a material adverse effect on our business, financial condition or results of operations.

Item 1A. ***Risk Factors***

In our Form 10-K for the year ended April 30, 2009, and in our Form 10-Q for the period ended July 31, 2009, we described material risk factors facing our business. Additional risks not presently known to us or that we currently deem immaterial may also impair our business operations. As of the date of this report, there have been no material changes to the risk factors described in our Form 10-K and Form 10-Q.

Item 2. ***Unregistered Sale of Equity Securities, Use of Proceeds and Issuers Purchases of Equity Securities***

Issuer Purchases of Equity Securities
