PROXY STATEMENT
ANNUAL MEETING OF STOCKHOLDERS
May 11, 2010

This Proxy Statement is being sent to stockholders on or about April 1, 2010, in connection with the solicitation of the accompanying proxy by our Board of Directors. Only stockholders of record at the close of business on March 22, 2010 are entitled to notice of and to vote at the meeting. We have retained Morrow & Co., LLC, 470 West Ave., Stamford, Connecticut. 06902, a firm specializing in the solicitation of proxies, to assist in the solicitation at a fee estimated to be \$5,000 plus expenses. Officers of the Company may make additional solicitations in person or by telephone. Expenses incurred in the solicitation of proxies will be borne by the Company. If the accompanying form of proxy is executed and returned in time or you vote your shares by telephone or via the Internet as set forth in the enclosed proxy, the shares represented thereby will be voted. A proxy may be revoked at any time prior to its voting by execution of a later dated proxy or by voting in person at the annual meeting.

As of March 22, 2010, we had 8,522,001 shares of Common Stock (the "Common Stock") outstanding and such shares are the only shares entitled to vote at the annual meeting. Each holder of Common Stock is entitled to one vote per share on all matters to come before the meeting. For purposes of the meeting, a quorum means a majority of the outstanding shares. In determining whether a quorum exists, all shares represented in person or by proxy will be counted.

Directors will be elected by a plurality of the votes cast at the meeting by the holders of shares represented in person or by proxy. If any nominee should become unavailable for election as a director, which is not contemplated, the proxies will have discretionary authority to vote for a substitute. In the absence of a specific direction from the stockholders, proxies will be voted for the election of all named director nominees. Because directors are elected by a plurality of the votes cast at the meeting, a proxy card marked "Withhold" with respect to one or more director nominees will have no effect on the election of the nominees.

The ratification of Ernst & Young LLP as the Company's independent registered public accounting firm requires the approval of the affirmative vote of a majority of the shares of Common Stock present or represented by proxy and voting at the meeting. Accordingly, a proxy card marked "Abstain" with respect to the proposal will constitute a vote against this proposal.

Proxies received but marked as abstentions and broker non-votes will be included in the calculation of the number of shares considered to be present at the meeting. In general, banks, brokers or other nominees are permitted to vote shares held by them on behalf of their customers on matters determined to be routine, even though the bank, broker or nominee has not received instructions from its customer. The ratification of Ernst & Young LLP as the Company's independent registered public accounting firm is considered a routine matter, therefore brokers or other nominees have the discretion to vote shares held by them on behalf of their customers if instructions are not received from the client in a timely manner. The election of directors is considered a non-routine matter, therefore, brokers or other nominees will not have the discretion to vote shares held by them on behalf of customers if no instructions are received.

Proposal 1: Election of Directors

Stockholders are entitled to cumulative voting in the election of directors. Under cumulative voting, each stockholder is entitled to that number of votes equal to the number of directors to be elected, multiplied by the number of shares such stockholder owns, and such stockholder may cast its votes for one nominee or distribute them in any manner it chooses among any number of nominees. Unless otherwise indicated on the proxy card, votes may, in the discretion of the proxies, be equally or unequally allocated among the nominees named below. Directors will be elected by a plurality of the votes cast at the meeting by the holders of shares represented in person or by proxy. Thus, assuming a quorum is present, the three persons receiving the greatest number of votes will be elected as directors and votes that are withheld will have no affect.

The By-Laws of the Company provide that the Board of Directors shall consist of such number of members, between five and nine, as the Board of Directors determines from time to time. The size of the Board of Directors is currently set at nine members. The Board of Directors is divided into three classes, with one class being elected each year for a three-year term. At the annual meeting, three directors are to be elected to serve until 2013.

CORPORATE GOVERNANCE

Board Leadership Structure

Our Amended and Restated By-Laws provide that the roles of Board Chairman and Chief Executive Officer may be filled by the same or different individuals. This provides the Board the flexibility to determine whether these roles should be combined or separated based on the Company’s circumstances and needs at any given time. The role of Chairman of the Board is currently held by Ronald Port M.D. and the position of Chief Executive Officer is currently held by Mr. Thomas Neri. This structure has been in place since 2007. The separation of the Chairmanship and the Chief Executive Officer functions provides the Board with additional independence and oversight. The Board believes this leadership structure has served the Company well and believes it is in the best interest of the Company’s shareholders to continue with this structure at this time.

Board of Director Meetings and Committees

The Board of Directors has determined that Mr. Postek is an audit committee financial expert as such term is defined by the SEC.

The Compensation Committee

The Compensation Committee discharges the responsibilities of the Board of Directors relating to compensation of the Chief Executive Officer and establishes compensation for all other executive officers of the Company. The Compensation Committee is responsible for (i) reviewing and approving corporate goals and objectives relevant to the compensation for executive officers; (ii) evaluating the performance of executive officers in light of those goals and objectives and (iii) setting the compensation level of executive officers based on this evaluation. The Compensation Committee also administers incentive-compensation plans and equity-based plans established or maintained by the Company from time to time; makes recommendations to the Board of Directors with respect to the adoption, amendment, termination or replacement of the plans; and recommends to the Board of Directors the compensation for members of the Board of Directors. Brophy who served as a member of the Nominating and Governance Committee until October 19, 2009, also satisfied the independence requirements of The Nasdaq Stock Market and the SEC.

Director Nominations

The Nominating and Governance Committee will consider Board of Director nominees recommended by stockholders. Those recommendations should be sent to the Chairman of the Nominating and Governance Committee, at c/o Corporate Secretary of Lawson Products, Inc., 1666 East Touhy Avenue, Des Plaines, Illinois 60018. In order for a stockholder to nominate a candidate for director, under the Company's certificate of incorporation, timely notice of the nomination must be given in writing to the Secretary of the Company. With respect to the meeting, in order to be timely, such notice must be mailed or delivered to the Secretary of the Company not less than fourteen days prior to the meeting. The Company's certificate of incorporation specifies additional information regarding the nominee that must accompany the notice.

The Nominating and Governance Committee will follow procedures which the Nominating and Governance Committee deems reasonable and appropriate in the identification of candidates for election to the Board of Directors and evaluating the background and qualifications of those candidates. Those processes include consideration of nominees suggested by an outside search firm, by incumbent members of the Board of Directors and by stockholders. The manner in which the nominating committee evaluates nominees for director is the same regardless of whether the nominee is recommended by a security holder.

The Nominating and Governance Committee will seek candidates having experience and abilities relevant to serving as a director of the Company and who represent the best interests of stockholders as a whole and not any specific interest group or constituency. The Nominating and Governance Committee does not have a policy with regard to consideration of diversity in identifying director nominees. Nominating and Governance Committee will consider a candidate's qualifications and background, including, but not limited to responsibility for operating a public company or a division of a public company, other relevant business experience, a candidate's technical background or professional qualifications and other public company boards of directors on which the candidate serves. The Nominating and Governance Committee will also consider whether the candidate would be independent for purposes of The Nasdaq Stock Market and the rules and regulations of the SEC. The Nominating and Governance Committee may from time to time engage the service of a professional search firm to identify and evaluate potential nominees.

Director Independence

The Company's Board of Directors has determined that Directors Andrew B. Albert, I. Steven Edelson, James S. Errant, Lee S. Hillman, Thomas S. Postek, Robert G. Rettig and Wilma J. Smelcer are independent within the meaning of the rules of The Nasdaq Stock Market. In determining independence, the Board of Directors considered the specific criteria for independence under The Nasdaq Stock Market rules and also the facts and circumstances of any other relationships of individual directors with the Company.

The independent directors and the committees of the Board of Directors regularly meet in executive session without the presence of any management directors or representatives.

The Board's Role in Risk Management

The Board is responsible for overseeing the most significant risks facing the Company and for determining whether management is responding appropriately to those risks. The Board implements its risk oversight function both as a whole and through Committees. The Board is formalizing much of its risk management oversight function through the Audit Committee.

In 2010, the Audit Committee adopted a plan to implement a formalized Enterprise Risk Management (ERM) program. The goal of the ERM program is to formalize the oversight, control and discipline to drive continuous improvement of our risk management capabilities in a constantly changing operating environment. Under the plan, management will identify and prioritize risks along with those processes that are currently in place to mitigate enterprise risks. Metrics will be developed for measuring and reporting risks to the Board. A steering committee, comprised of operating management, will be charged with effectively communicating risk awareness throughout the Company.

In addition to the formal ERM program, the Board Committees have significant roles in carrying out the risk oversight function which include but are not limited to the following:

The Audit Committee oversees risks related to the Company's financial statements, the financial reporting process, accounting and legal matters and oversees the internal audit function;

The Compensation Committee oversees the Company's compensation programs from the perspective of whether they encourage individuals to take unreasonable risks that could result in having a materially adverse affect on the Company;

The Management Development Committee oversees management development and succession planning across senior management positions;

The Financial Strategies Committee oversees risk inherent in allocating capital and developing financial plans.

While the Board oversees risk management, Company management is charged with managing risk. Management is responsible for establishing and maintaining an adequate system of internal control over financial reporting and establishing controls to prevent or detect any unauthorized acquisition, use, or disposition of the Company's assets. The Company has an Internal Audit Department that reports to the Audit Committee on a regular basis. Part of the Internal Audit Department's mission, as described in its charter, is to bring a systematic, disciplined approach to evaluate and improve the effectiveness of risk management, control, and governance processes. One way which the Internal Audit Department carries this out is by evaluating the Company's network of risk management programs and reporting the results to the Audit Committee.

Management conducts detailed periodic business reviews with each of the Company's subsidiaries. These reviews include discussions of future risks faced by various departments and functional areas across the organization. Additionally, the Company has established a Disclosure Committee which is comprised of senior management from various functional areas. The Disclosure Committee meets at least quarterly to review that all disclosures and forward-looking statements made by Lawson to its security holders are accurate and complete, and all disclosures fairly present Lawson Products' financial condition and results of operations in all material respects.

The Company has also established and communicated to its employees a Code of Business Conduct and an ethics hotline where employees can confidentially and anonymously express any concerns they may have of any suspected ethics violations either through a dedicated web site or through a toll free number.

Compensation Risk

The Company has reviewed its compensation programs, including all of its business units, to determine if they encourage individuals to take unreasonable risks; and has determined that the risks arising from these compensation programs are not reasonably likely to have a material adverse effect on the Company.

Code of Business Conduct

The Company has adopted a Code of Business Conduct (the Code of Conduct) applicable to all employees and sales agents. The Code of Conduct is applicable to senior financial executives including the principal executive officer, principal financial officer and principal accounting officer of the Company. The Code of Conduct is available on the Corporate Governance page in the Investor Relations section of the Company's website at www.lawsonproducts.com. The Company intends to post on its website any amendments to or waivers from the Code of Conduct applicable to senior financial executives. REMUNERATION OF EXECUTIVE OFFICERS

Compensation Discussion and Analysis (CD&A)

Compensation Philosophy and Objectives

The Company’s executive compensation programs are designed to reward executives for the development and execution of successful business strategies. In determining the type and amount of compensation for each executive, we use both annual cash compensation, which includes a base salary and an annual incentive plan, and a long-term incentive opportunity. We believe the mix of these three forms of compensation in the aggregate balance the reward for each executive’s contributions to our Company. Our compensation programs are designed to encourage and reward the creation of long-term shareholder value.

The Company guides its executive compensation programs with a compensation philosophy expressed in these three principles:

1. *Talent Acquisition & Retention.* We believe that having qualified people at every level of our Company is critical to our success. Although we strive to develop executives from within to lead the organization, due to the particular needs of the Company, a significant number of executives have been recruited from outside the Company during the past few years. Our compensation programs are designed to encourage talented executives to join and continue their careers as part of our senior management team.
2. *Accountability for Lawson’s Business Performance.* To achieve alignment between the interests of our executives and our stockholders, we use short-term and long-term incentive plans. Our executives compensation increases or decreases based on how well they achieve their performance goals.
3. *Accountability for Individual Performance.* We believe teams and individuals should be rewarded when their contributions are exemplary and significantly support Company performance and value creation.

When making compensation decisions, the various elements of compensation are evaluated together, and the level of compensation opportunity provided for one element may impact the level and design of other elements. Lawson attempts to balance its executive officer total compensation program to promote the achievement of both current and long-term performance goals. While each compensation program has specific objectives, in aggregate, the Company strives to position its executive officer total compensation program in alignment with the competitive practices of the market.

Named Executive Officers

For 2009, our named executive officers were as follows:

Executive Name	Title
Thomas J. Neri	President and Chief Executive Officer
Ronald J. Knutson	Senior Vice President and Chief Financial Officer
Harry A. Dochelli	Executive Vice President and Chief Operating Officer
Neil E. Jenkins	Executive Vice President, Secretary & General Counsel
Stewart A. Howley	Senior Vice President Strategic Business Development
F. Terrence Blanchard ¹	Former Chief Financial Officer

¹ Mr. Blanchard, former Chief Financial Officer, resigned from the Company in December 2009.

Determining Competitive Practices

Peer Group for Compensation Benchmarking

In 2009 we worked with an independent compensation consulting firm to develop a peer group of 16 companies used for evaluating competitive total compensation levels. This peer group represents a mix of companies in which we would likely compete for business and talent, with revenues and market capitalization similar to that of Lawson. Specifically, in 2008, the peer group companies had median revenue of approximately \$638 million and a market capitalization of \$157 million compared to Lawson's 2008 revenue of \$485 million and market capitalization of \$151 million. We used this peer group specifically to review the level of base salaries, mix and size of annual and long-term incentives, and other benefits and perquisites provided to executives of similar-sized companies.

The compensation peer group included the following companies:

Aceto Corp.

Barnes Group Inc.

Colfax Corp

DXP Enterprises, Inc.

Harding Inc.

Houston Wire & Cable Co.

Huttig Building Products, Inc.

Interline Brands, Inc.

Kaman Corp.

NN Inc.

Nu Horizons Electronics Corporation

Richardson Electronics LTD.

Robbins & Myers Inc.

SED International Holdings, Inc.

Simpson Manufacturing, Inc.

Thermadyne Holdings, Corp.

Other Competitive Benchmarks

To supplement compensation data gathered from our peer group companies, compensation for our named executive officers is also compared to published survey data from the Watson Wyatt Top Management Survey and the Mercer Benchmark Executive Survey. These surveys include data from various companies and wholesale and retail trade organizations of similar size to Lawson.

Elements of Total Compensation

We provide our executives a compensation package designed to promote both current and long-term results. This package includes a base salary, an annual incentive bonus, a long-term incentive plan and other benefits. During 2009,

executives were also awarded equity based compensation as we reevaluated the design of the performance-based long-term incentive plan. These compensation elements are described in detail below.

Base Salary

We provide base salaries to compensate executives for the services rendered during the fiscal year. In setting base salaries for the CEO and other executives, the Compensation Committee considers:

Competitive market data;

The experience, skills and competencies of the individual;

The duties and responsibilities of the respective executive;

The compensation of the individual relative to other members of the executive team; and

Individual performance of the executive in the prior year.

Given the current economic recession and its negative impact on our financial performance, the Compensation Committee determined that none of the executive officers would receive a base salary increase in 2009.

The base salaries for selected named executive officers in 2009 were as follows:

Executive Name	2009 Base Salary
Thomas J. Neri	\$ 500,000
Ronald J. Knutson ¹	280,000
Harry A. Dochelli	400,000
Neil E. Jenkins	365,000
Stewart A. Howley	295,610

¹ Joined the Company on November 16, 2009.

Annual Incentive Plan (AIP)

The AIP is designed to reward executives for the achievement of fiscal year goals that, depending on the role of the executive, are composed of a mix of corporate and individual objectives. The purpose of the AIP is to focus on the achievement of key business objectives for the fiscal year, and also to be aligned with the strategic plan which has a longer-term time horizon focused on creating shareholder value. Mr. Knutson did not participate in the 2009 AIP, however, he will participate in the 2010 AIP.

At the beginning of each year, AIP award opportunities are established as a percentage of the participant's annual base salary. The 2009 AIP award opportunities at threshold, target and maximum for the named executive officers in 2009 are provided in the table in the section entitled Grants of Plan Based Awards in 2009.

The 2009 AIP target opportunities as a percent of each NEO's salary were set as follows:

	AIP Target		AIP Goal Weighting		
	Amount	Percent of Base Salary	Adjusted EBITDA	Working Capital Reduction	Individual Objectives
Thomas J. Neri	\$ 500,000	100%	45%	25%	30%
Harry A. Dochelli	240,000	60	40	20	40
Neil E. Jenkins	182,500	50	40	20	40
Stewart A. Howley	147,805	50	40	20	40

In 2009, the AIP goals for each executive officer included two key corporate performance measures and individual objectives. The key corporate performance measures were EBITDA excluding incentive compensation and the net market loss of the cash surrender value of life insurance and the deferred compensation liability (Adjusted EBITDA) and reduction in working capital. Working capital for purposes of calculating bonuses consists of accounts receivable, inventory and accounts payable and rewards executives for improving the Company's cash flow and balance sheet.

The 2009 corporate performance measure targets and actual results were as follows (dollars in thousands):

Performance measure	Actual	Performance Targets		
	Results	Threshold	Target	Maximum
Adjusted EBITDA	\$ 15,432	\$ 11,300	\$ 15,700	\$ 25,000
Payout percentage	96.95%	50.00%	100.00%	150.00%
Working capital reduction	\$ 18,847	\$ 4,735	\$ 8,485	\$ 14,485
Payout percentage	150.00%	50.00%	100.00%	150.00%

Adjusted EBITDA was \$6.9 million. This amount was then amended for (i) various factors outside of management's control and decisions made by the prior management team that had an adverse effect on the Company's value and (ii) costs incurred in 2009 to restructure the Company pursuant to a plan with the Board's prior consent, that should benefit the Company in future years. These items include severance charges related to restructuring and certain expenses related to prior year tax issues. The aggregate amount of all amendments was \$8.5 million resulting in an Adjusted EBITDA of \$15.4 million or 96.95% achievement of the goal.

The individual objectives were established to reward the named executive officers for the attainment of certain financial goals and also for reaching certain progress benchmarks in the implementation of the Company's three major strategic initiatives; 1) re-structure our sales organization 2) optimize our distribution network and 3) replace our legacy information systems with an Enterprise Resource Planning (ERP) system.

Specific weightings for each NEO's individual performance goals, percentage achieved and resulting payout percentage were as follows:

Working Capital Reduction	36,500	150.00	54,750
Individual Objectives	73,000	83.75	61,138
Total	\$ 182,500	102.28	\$ 186,662
Stewart A. Howley

Individual Objectives	59,122	43.75	25,866
Total	\$ 147,805	86.28	\$ 127,527

We anticipate the Compensation Committee will evaluate potential AIP goals and executive award opportunities for 2010 based on a number of factors, including but not limited to, the achievement of operational goals, the Company's adjusted EBITDA performance and the Company's cash flow performance, relative to predetermined targets.

Equity Based Compensation

Historically, Lawson has issued equity based compensation, in the form of Stock Performance Rights (SPRs), to members of the Board of Directors to link a portion of their compensation to the creation of shareholder value. In 2008 and 2009, to supplement the AIP and performance-based long-term incentive plan (LTIP) during the severe economic recession and restructuring of the Company, Lawson granted SPRs to selected executives and key employees. In 2009 the Company also granted restricted stock awards (RSAs) to certain of its executives and key employees. The number of SPRs and RSAs granted to each named executive officer was determined by the Compensation Committee which took into consideration each executive's total compensation, competitiveness as compared to market levels and competitive practices as it relates to the granting of long-term incentives to comparable executives working for similar companies.

Operating similarly to a stock option, the exercise price of an SPR is equal to the fair market value of the Company's stock as of date of grant and value is only realized by the executive if the stock price at the time of exercise is higher than at grant. The executive receives a cash payment for the difference upon exercise. Generally, SPR grants have a three-year vesting schedule, with awards vesting ratably over that period on the anniversary of the grant date. The SPRs granted to the named executive officers in 2009 expire seven years from the date of grant.

RSAs vest ratably over a three year period beginning on the first anniversary of the date of the grant. On each vesting date the vested RSAs are exchanged for an equal number of the Company's common stock. Common stock received by the participant cannot be transferred until either the end of the three year vesting period, or employment with the Company is terminated without cause. The participants have no voting or dividend rights with the RSAs or the common shares received through vesting until the third anniversary of the date of the grant.

Performance-based Long-Term Incentive Plans

Through various long-term incentive opportunities, Lawson ties a considerable portion of each executive's compensation to sustained growth and the achievement of measurable corporate performance goals. Goals are established to link executive compensation levels to increased shareholder value.

In 2008, the Compensation Committee recommended and received shareholder approval for a new performance-based LTIP. The LTIP is intended to provide for cash or stock awards payable upon achievement of predetermined three-year operating performance goals. The intent of the LTIP is to provide such opportunities each year under overlapping performance periods that commence on January 1 and end on December 31 three years later. LTIP participants will generally include the named executive officers plus other senior executives important to the achievement of Lawson's long-term operating goals and creation of shareholder value.

2008 was the first year participants were granted an opportunity under this plan. Accordingly, the first cycle under the LTIP was set based on two-year operating performance goals, starting at the beginning of 2008 and concluding at the end of 2009. The rationale behind this two-year cycle was to focus executives on achieving mid-term goals while keeping them motivated to meet the longer-term restructuring goals of the Company. It is anticipated that all future performance periods will be three-year cycles.

The Company did not meet the established performance thresholds related to the 2008-2009 cycle, therefore, no LTIP award was earned by or paid to the plan participants.

Given the considerable turbulence in the markets impacting Lawson's business and the ongoing restructuring of the Company, the Compensation Committee decided not to implement a LTIP for the 2009-2011 plan cycle. Rather, the Committee reevaluated the design of the long-term incentives to be granted to the executive officers for 2009 in order to more effectively motivate the executives towards achievement of longer-term shareholder value and retain the leadership talent necessary as the Company implements its strategic and restructuring initiatives over the next few years. Therefore, Lawson granted SPRs and RSAs to its executives to link a meaningful portion of their compensation to the creation of shareholder value in lieu of a 2009-2011 LTIP opportunity.

In 2010 Lawson concluded the reevaluation of the LTIP and established the structure and performance goals for the 2010-2012 plan cycle. The Compensation Committee has determined that the 2010-2012 LTIP will be aligned with three-year performance goals based on improvement in the Company's EBITDA return on capital and growth in gross profit. The LTIP awards will vest upon achievement of the performance objectives at the end of the three-year performance period. It is anticipated that all future performance periods will continue to be three-year cycles, with performance metrics and goals established for each plan cycle.

Benefits

The named executive officers are eligible for both qualified and non-qualified benefits. Qualified benefits are generally available to all Lawson employees and are subject to favorable tax treatment by the IRS under the current tax code. Qualified benefit plans cover such items as health insurance, life insurance, vacation, profit sharing, and 401(k) retirement savings. Named executive officers and employees are required to contribute to offset a portion of the cost of certain plans. In contrast to qualified benefits plans, non-qualified plans are not generally available to all employees and are not subject to favorable tax treatment under the Internal Revenue Code. Non-qualified benefit plans are designed to fill a gap in executive compensation that is not covered by qualified plans.

One non-qualified benefit for executives is the opportunity to defer compensation in a deferred compensation plan. The plan allows participants to defer the receipt of earnings until a later year and therefore, defer payment of income taxes. A feature of the deferred compensation plan allows participants to select a set of mutual funds, which are then tracked for growth. Based on the increase or decrease in the tracked mutual funds total value, the Company uses its own funds to adjust the deferred compensation by that gain (or loss) when distributed. This type of plan allows the participant to defer the receipt of compensation into retirement years when income and tax levels are generally lower. We believe the deferred compensation program provides executives a valuable benefit at a relatively small cost to the Company. Executives in the plan are unsecured creditors and are at risk of losing part or all of their deferrals if the Company were to file for bankruptcy.

The Company has broad-based, qualified, profit-sharing and 401(k) plans available to the named executive officers, along with other employees, to facilitate retirement savings. For 2009, the Company made a profit sharing contribution of 5% of the executive's base salary up to the IRS annual compensation limit of \$245,000. The Company contributed 5% on any amounts of the executive's base salary in excess of the \$245,000 limit into the Executive Deferred Compensation Plan.

Perquisites

Our Company operates in a spirit of thrift and directs its resources at building shareholder value. We believe that perquisites are generally not a good investment. We do not offer perquisites for our executives, such as country club memberships, executive life insurance or car allowances. Nor do we provide executives with the use of a company aircraft, the services of an executive dining room or vehicles. We do offer a financial advisor's services to a small group of senior executives for retirement planning purposes and annual physicals to key members of the management team.

Separation, Change-in-Control and Compensation Recovery

Employment and Change-in-Control Contracts

Certain executive officers have employment contracts with the Company. Employment and change-in-control contracts help attract executives to work for the Company by protecting them from certain risks, such as business reorganization with position elimination, or position elimination in the event of a change in control or sale of the Company. The executives or their heirs may also be protected in case of disability or death.

Separation of a Named Executive Officer in 2009

Effective December 31, 2009, F. Terrence Blanchard resigned as interim Chief Financial Officer of the Company. A \$30,000 one time cash bonus was awarded to Mr. Blanchard for his contributions to the Company to achieve its working capital reduction and to support the search for an Enterprise Resource Planning system which were considered beyond the scope of the employment contract with Tatum, LLC., with whom the Company contracted Mr. Blanchard's services.

Compensation Recovery Policy

The Company does not have a formalized compensation recovery policy. However, under the terms of the Company's compensation plans, the Compensation Committee has full discretion to reduce the size of an award if relevant performance measures are restated or adjusted.

Role of Executives in Setting Compensation

The Company's CEO makes recommendations on compensation to the Compensation Committee for all executive officers except himself. Executive officers will generally make compensation recommendations to the CEO regarding employees who report to them. Executives are not involved in decisions regarding their own compensation. The Compensation Committee has overall responsibility for the compensation programs for the CEO and other named executive officers as described above under the caption "The Compensation Committee".

Compensation Committee Interlocks and Insider Participation

In 2009, no executive officer of the Company served on the Board of Directors or Compensation Committee of any other company with respect to which any member of the Compensation Committee was engaged as an executive officer. No member of the Compensation Committee was an officer or employee of the Company during 2009, and no member of the Compensation Committee was formerly an officer of the Company.

Role of the Compensation Consultant

In 2009, management engaged Grant Thornton LLP to perform benchmarking analysis and make recommendations on performance metrics and potential incentive opportunity levels for its executives. Grant Thornton was also asked to make recommendations for the 2010-2012 LTIP, including plan design, performance metrics and goals, and related incentive opportunities and estimated plan costs. Grant Thornton also assisted the Company in complying with the SEC proxy disclosure requirements as it relates to the preparation of the Compensation Discussion & Analysis and related tabular calculations. Grant Thornton is independent and all work performed by Grant Thornton is subject to review and approval of the Compensation Committee.

Tax & Accounting Considerations

409A

Section 409A of the Internal Revenue Codes relates to the tax treatment of earnings when a payment the Company is obligated to make to an executive is deferred to a future tax year. The Company has reviewed its executive employment contracts and agreements and believes they are in compliance with Section 409A.

162(m)

Section 162(m) of the Internal Revenue Code limits the Company's ability to deduct compensation paid in any given year to a named executive officer in excess of \$1.0 million. Performance-based compensation plans are not subject to this restriction. As much as practicable, Lawson attempts to comply with the provisions of 162(m), as clarified under Rev. Rul. 2008-13, in order to be able to deduct compensation paid to its executive officers. This will allow payments made to any named executive officer in a performance-based compensation plan to be deductible by the Company if that officer's compensation exceeds \$1.0 million in a given year. In the event the proposed compensation for any of the Company's named executive officers is expected to exceed the \$1.0 million limitation, the Compensation Committee will, in making a decision, balance the benefits of tax deductibility with its responsibility to hire, retain and motivate executive officers with competitive compensation programs.

Stock-based compensation

The fair value of stock-based compensation, which includes equity incentives such as stock options, restricted stock, and stock appreciation rights is measured in accordance with Generally Accepted Accounting Principles and is expensed over the applicable vesting period.

280G and 4999

Sections 280G and 4999 of the Internal Revenue Codes relate to a 20% excise tax that may be levied on a payment made to an executive as a result of a change-in-control if the payment exceeds three times the executive's base earnings (as defined by the code section). The Company seeks to minimize the tax consequences that might arise under a potential change-in-control of Lawson by limiting the amount of compensation that may be paid to an executive in such a circumstance. In the event the excise tax is triggered, the existing change of control agreements provide that the Company will reduce the change-in-control payment by the amount necessary so that the payment will not be subject to the excise tax, if this would result in the most beneficial outcome for the executive, net of all federal state and excise taxes. Should the Company not reduce the payment as noted, the existing agreements do not provide for any gross-up payment related to potential 280G excise taxes, which are the sole responsibility of the executive.

Report of the Compensation Committee

The Compensation Committee reviewed and discussed with management the foregoing Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K for the year ended December 31, 2009. Based on such review and discussion, the Compensation Committee recommended to the Board, and the Board approved, that the Compensation Discussion and Analysis be included in this Proxy Statement.

Respectfully Submitted by the Compensation Committee:

Lee S. Hillman (Chairman)

Andrew B. Albert

I. Steven Edelson

Mr. Ronald J. Knutson

Mr. Knutson became employed under an October 12, 2009 agreement. During 2009, Mr. Knutson's initial annual salary was set at \$280,000. The agreement provides that he is eligible for performance based annual incentive bonuses with a target bonus for 2010 of 50% of his base salary. He is eligible to participate in the LTIP and Mr. Knutson received a sign-on bonus of \$50,000. In the event that Mr. Knutson is terminated without cause, the Company will continue to pay his base salary and certain benefits for a period of one year plus two months for every year of service up to a maximum of 18 months.

On January 29, 2010, Mr. Knutson and the Company entered into a change-in-control agreement such that, if within six months following a change in control, the Company terminates Mr. Knutson's employment without cause or Mr. Knutson terminates his employment for good reason, he will be entitled to a lump sum payment equal to one and one-half times his then current annual base salary and one times his most recent annual bonus or, if he was not a participant in the prior year AIP, an amount equal to his current AIP target bonus. In addition, all previously unvested options and rights will immediately vest and become fully exercisable as of the date of termination for a period of 90 days, and Mr. Knutson and his family will be covered under the Company's health benefit plans for two years following termination. Mr. Knutson has agreed not to compete with the Company during his period of employment and for a period of eighteen months thereafter.

Mr. Harry A. Dochelli

Mr. Dochelli received a sign-on bonus of \$100,000 in 2008. He is also eligible for a one-time \$100,000 performance bonus after two years of employment. In the event Mr. Dochelli is terminated without cause, the Company will continue to pay his base salary and certain benefits for a period of one year plus two months for every year of service.

On February 12, 2009, Mr. Dochelli entered into a change in control agreement. If within one year following a change in control, the Company terminates Mr. Dochelli's employment without cause or Mr. Dochelli terminates his employment for good reason, he will be entitled to a lump sum payment equal to one and one-half times his then current annual base salary and one times his most recent annual bonus. Mr. Dochelli has agreed not to compete with the Company during his period of employment and for a period of eighteen months thereafter.

Mr. Neil E. Jenkins

Mr. Jenkins is employed under an amended and restated employment agreement as of February 19, 2009. The agreement provides for a term of employment of three years that automatically renews from year to year, unless either he or the Company provides six months' written notice of non-renewal prior to the expiration of the initial or extended term. The agreement provides that he would receive an initial annual base salary of \$365,000. The annual base salary may be increased or decreased at any time, except that his base salary may not be decreased to less than \$325,000. During 2009 Mr. Jenkins' salary was \$365,000.

The agreement provides that he will be eligible for performance based annual incentive bonuses, he is eligible to participate in the LTIP and he is eligible for various equity-based compensation awards, including stock options, restricted stock and stock award grants.

If the Company terminates Mr. Jenkins without cause, or he terminates his employment for good reason, Mr. Jenkins will receive his then current base salary for two years or the remainder of his term of employment, whichever is greater; a pro rata bonus; and coverage under the Company's health benefit plans for an additional two years following termination.

If within 12 months following a change-in-control, the Company terminates Mr. Jenkins' employment without cause or if he terminates his employment for good reason, he will be entitled to receive a lump sum payment equal to two times his then current annual base salary and two times the most recent annual bonus. In addition, all previously unvested options and rights granted to him will immediately vest and become fully exercisable as of the date of termination for a period of 90 days, and Mr. Jenkins and his family will be covered under the Company's health benefit plans for two years following termination.

In the event that Mr. Jenkins dies while employed by the Company, his spouse and dependants will receive an amount equal to two times Mr. Jenkins then current annual base salary and they will be entitled to coverage under the Company's health benefit plans for an additional two years.

If Mr. Jenkins becomes disabled, the Company will pay his compensation at a rate equal to 100% of his then current salary for six months at a rate equal to 60% of his then current salary for thirty months thereafter. Coverage under the Company's health benefit plan will be continued for five and one-half years.

If the Company terminates his employment by providing notice that it will not renew the employment agreement on or after the second anniversary of the agreement's effective date, the Company will pay him his base salary for one year after termination and he will be entitled to coverage under the Company's health benefit plans for an additional year. Mr. Jenkins has agreed not to compete with the Company during the period of employment and for a period of two years thereafter.

Mr. Stewart A. Howley

Mr. Howley is employed under a contract effective December 5, 2005. During 2009 Mr. Howley's salary was \$295,610. The contract provides for salary increases from time to time and eligibility for performance based annual incentive bonus. The Company or Mr. Howley may cancel the contract at any time, upon written notice. In the event that Mr. Howley is terminated without cause or if Mr. Howley leaves for good reason, the Company will continue to pay his base salary and certain benefits for a period of one year, plus two months salary for every additional year of service up to a maximum of 12 additional months salary. During the salary continuation period, Mr. Howley is obligated to provide certain limited consulting services to the Company. In the event that Mr. Howley dies while employed by the Company, Mr. Howley's estate will receive an amount equal to two times his then current annual base salary.

If within one year following a change in control, the Company terminates Mr. Howley's employment without cause or Mr. Howley terminates his employment for good reason, he will be entitled to a lump sum payment equal to one and one-half times his then current annual base salary and one times his most recent annual bonus. In addition, all previously unvested options and rights will immediately vest and become fully exercisable as of the date of termination for a period of 90 days, and Mr. Howley and his family will be covered under the Company's health benefit plans for 12 months following termination. There were no exercises of SPRs or vesting of stock for any of the named executive officers during the year ended December 31, 2009.

NONQUALIFIED DEFERRED COMPENSATION

With respect to the Company's 2004 Executive Deferral Plan, certain executives, including named executive officers may defer portions of their base salary, bonus, LTIP awards, and the excess contribution to the profit-sharing plan. Deferral elections are made by eligible executives by the end of the year preceding the plan year for which the election is made. An executive may defer a minimum of \$2,000 aggregate of Base Salary, Bonus and/or LTIP. The maximum deferral amount for each plan year is 80% of base salary, 100% of bonus and 100% of LTIP amounts.

The investment options available to an executive include some funds generally similar to or as available through the Company's qualified retirement plan. The Company does not provide for any above market return for participants in the Executive Deferral Plan.

Distributions from the Plan

Upon showing an unforeseeable financial emergency and receipt of approval from the Compensation Committee, an executive may interrupt deferral or be allowed to access funds in his deferred compensation account. An executive may elect to receive distributions under four scenarios, receiving benefits in either a lump sum or in annual installment of between 2 and 15 years. The four scenarios include retirement, termination of employment, disability, or death. In the event of a change in control of the Company, an independent third party administrator would be appointed to oversee the plan.

SUMMARY TABLE OF POTENTIAL PAYMENTS UPON TERMINATION OR CHANGE-IN-CONTROL

The following table outlines potential payments to our named executive officers under existing contracts, agreements, plans or arrangements for various scenarios under termination or a change-in-control, assuming a December 31, 2009 termination date and the closing price of our common stock of \$17.65 on that date. The termination benefits are further described in the foregoing Compensation Agreements section. Payments may be reduced if it would result in the imposition of an excise tax under IRS code section 280G and the reduction would result in the executive officer receiving a greater net of tax payment. The actual amounts payable can only be calculated at the time of the event. This table only reflects amounts with respect to contracts and agreements that are beyond those benefits generally available to all salaried employees. In addition, upon termination, payments due to executives include distribution of any balance in the deferred compensation plan, any accrued and unpaid vacation and all other benefits that have been accrued but not yet paid.

(1) The value of the exercise of SPRs and the stock awards is calculated using 135% of year-end share price to simulate a potential sale price premium for the Company and includes any accelerated vesting upon a change of control.

(2) Termination payment does not include the payouts of deferred compensation of \$1,375,990, \$77,767, \$923,160 and \$18,799 due to Mr. Neri, Mr. Dochelli, Mr. Jenkins and Mr. Howley, respectively, discussed above under the caption Nonqualified Deferred Compensation .

(3)

Additional severance amounts are triggered for non-renewal of employment contract at the two year anniversary of the effective date of Mr. Neri s and Mr. Jenkin s employment contracts which will be February 12, 2011.

- (4) Accelerated vesting of the unvested shares of restricted stock is valued at the closing price of our Common Stock on December 31, 2009 of \$17.65. The change of control payment assumes a 35% sale premium over the closing price.
- (5) Calculation of December 31, 2009 benefits based on the terms of the January 29, 2010 change of control agreement.
- (6) The change-in-control payment amount would have triggered a 20% excise tax. The cutback deduction reduces the change-in-control payment by the amount necessary so that the payment would result in the most beneficial outcome for the executive, net of all federal state and excise taxes. See further discussion under the caption Tax and Accounting

Considerations .

- (7) Includes consulting fees equal to 18 months of salary.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

The Company's policy regarding related party transactions is outlined in the Code of Business Conduct which is applicable to all employees and sales agents and is available on our website at www.lawsonproducts.com in the investor relations corporate governance section. Additionally, all directors and senior officers of the Company must complete an annual questionnaire in which they are required to disclose in writing any related party transactions.

Audit Fees

Audit services include fees for the annual audit, review of the Company's reports on Form 10-Q each year, consulting on accounting and auditing matters and fees related to Ernst & Young LLP's audit of the Company's effectiveness of internal control over financial reporting as required by the Rule 404 Sarbanes-Oxley Act of 2002.

Audit-Related Fees

Aggregate fees of \$46,100 in 2008 were billed by Ernst & Young LLP for consultations and procedures related to certain accounting issues.

Tax Fees

Aggregate fees of \$507,230 in 2009 and \$175,862 in 2008 were billed by Ernst & Young LLP for domestic and international income tax compliance and tax consulting services.

All Other Fees

Aggregate fees of \$25,000 in 2008 were billed by Ernst & Young LLP for the benefit plan audit. The benefit plan audit in 2009 was conducted by a firm other than Ernst & Young LLP.

The Audit Committee has considered the compatibility of the non-audit services provided by Ernst & Young LLP to Ernst & Young LLP's continued independence and has concluded that the independence of Ernst & Young LLP is not compromised by the performance of such services.

Pre-Approval of Services by External Auditor

The Audit Committee has adopted policies and procedures for the pre-approval of the audit and non-audit services performed by the independent auditor in order to assure that the provision of such services does not impair the auditor's independence. The Audit Committee approves all audit fees and terms for all services provided by the independent auditor and consider whether these services are compatible with the auditor's independence. The Chairman of the Audit Committee may approve additional proposed services that arise between Committee meetings provided that the decision to approve the service is presented at the next scheduled Committee meeting. All non-audit services provided by the external auditor must be pre-approved by the Audit Committee Chairman prior to the engagement. The Audit Committee pre-approved all audit and permitted non-audit services by the Company's external auditors in 2009.

Any proposed engagement that does not fit within the definition of a pre-approved service may be presented to the Audit Committee for consideration at its next regular meeting or, if earlier consideration is required, to the Audit Committee or one or more of its members. The member or members to whom such authority is delegated shall report any specific approval of services at the Audit Committee's next regular meeting. The Audit Committee will regularly review summary reports detailing all services being provided to the Company by its external auditor.

Report of the Audit Committee of the Board of Directors

The responsibilities of the Audit Committee, which are set forth in the Audit Committee Charter adopted by the Board of Directors in 2010 include providing oversight to the Company's financial reporting process through periodic meetings with the Company's independent auditors and management to review accounting, auditing, internal controls, and financial reporting matters. The management of the Company is responsible for the preparation and integrity of the financial reporting information and related systems of internal controls. The Audit Committee, in carrying out its role, relies on the Company's senior management, including senior financial management, and its independent auditors.

With regard to the 2009 audit, the Audit Committee discussed with the Company's independent auditors the scope, extent and procedures for their audits. Following the completion of the audit, the Audit Committee met with the independent auditors, with and without management present, to discuss the results of their examinations, the cooperation received by the auditors during the audit examination, their evaluation of the Company's internal control over financial reporting and the overall quality of the Company's financial reporting.

The Audit Committee reviewed and discussed the audited financial statements included in the 2009 Annual Report on Form 10-K with management. Management has confirmed to us that such financial statements (i) have been prepared with integrity and objectivity and are the responsibility of management and (ii) have been prepared in conformity with accounting principles generally accepted in the United States.

We have discussed with Ernst & Young LLP, our independent auditors, the matters required to be discussed by SAS 61, as amended (AICPA, Professional Standards, Volume 1 AU Section 380), as adopted by the Public Company Accounting Oversight Board in Rule 3200T. SAS 61, as amended, requires our independent auditors to provide us with additional information regarding the scope and results of their audit of the Company's financial statements with respect to (i) their responsibility under auditing standards generally accepted in the United States, (ii) significant accounting policies, (iii) management judgments and estimates, (iv) any significant audit adjustments, (v) any disagreements with management, and (vi) any difficulties encountered in performing the audit.

We have received from Ernst & Young LLP a letter providing the disclosures required by the Public Company Accounting Oversight Board Rule 3526 (Independence Discussions with Audit Committees), as adopted by the Public Company Oversight Board in Rule 3600T, with respect to any relationships between Ernst & Young LLP and the Company that in its professional judgment may reasonably be thought to bear on independence. Ernst & Young LLP has discussed its independence with us. Ernst & Young LLP confirmed in its letter, that in its professional judgment, it is independent of the Company.

Based on the review and discussions described above with respect to the Company's audited financial statements included in the Company's 2009 Annual Report on Form 10-K, we have recommended to the Board of Directors that such financial statements be included in the Company's Annual Report on Form 10-K.

The Audit Committee has selected Ernst & Young LLP as the Company's independent auditors for the fiscal year ending December 31, 2010, and the Board of Directors has concurred with such selection.

The Audit Committee also reviewed management's process designed to achieve compliance with Section 404 of the Sarbanes-Oxley Act of 2002 and received periodic updates regarding management's progress.

As specified in the Audit Committee Charter, it is not the duty of the Audit Committee to plan or conduct audits or to determine that the Company's financial statements are complete and accurate and in accordance with accounting principles generally accepted in the United States. That is the responsibility of management and the Company's independent auditors. In giving our recommendation to the Board of Directors, we have relied on (i) management's representation that such financial statements have been prepared with integrity and objectivity and in conformity with accounting principles generally accepted in the United States and (ii) the report of the Company's independent auditors with respect to such financial statements.

Respectfully submitted by the Audit Committee:

Thomas S. Postek (Chairman)

Robert G. Rettig

Lee S. Hillman

Wilma J. Smelcer
