The Committee to Enhance Equus

PROTECT YOUR INVESTMENT IN EQUUS

VOTE THE GOLD PROXY CARD FOR NINE NOMINEES WHO HAVE EXPERIENCE AND EXPERTISE, WILL BRING A NEW PERSPECTIVE TO THE BOARD AND WHO WILL WORK TO ENHANCE VALUE FOR ALL EQUUS STOCKHOLDERS

April 15, 2010

Dear Fellow Equus Stockholder,

The Committee to Enhance Equus currently owns approximately 11.4% of the outstanding shares of Equus Total Return, Inc. We are seeking your support for the election of our nine nominees to the Equus Board of Directors at the upcoming annual meeting scheduled for May 12, 2010. The Committee's nominees possess a wealth of experience and will provide all Equus stockholders the best opportunity to recoup the value destruction suffered by Equus over the past five years.

We urge you to vote on our GOLD proxy card to elect our highly-qualified Board nominees. Please also know that the LAST proxy card you sign and return is the one that is counted even if you have already signed and returned the white card sent to you by the company. The current five-member majority of the Board of Directors of Equus, which we sometimes refer to as the current majority, is opposing our nominees and has nominated a slate of nine directors, including five incumbents and four additional nominees.

65% DECLINE IN STOCKHOLDER VALUE

In a recent letter to stockholders, accompanied by their definitive proxy statement, the current majority admitted that, in the past year, Equus had experienced a significant downturn resulting from the poor performance of its investments. In fact, such poor performance has been occurring for almost five years. In June 2005, Equus retained Moore, Clayton Capital Advisors, Inc. (MCCA), a wholly owned subsidiary of MCC Global N.V., as its investment adviser. MCCA was specifically formed by MCC Global for the purpose of serving as Equus's investment adviser. From that time until June 2009, when MCCA was no

longer retained as Equus' s investment adviser, Equus' s stock price declined approximately 61%. In June 2009, the Board of Equus' internalized its management in an attempt to reverse the damage done by MCCA. However, from June 30, 2009 to March 26, 2010 (the last trading day before members of our Committee announced their intention to launch a proxy contest), Equus' s stock price declined approximately 12% more, representing an aggregate 65% decline since MCCA was retained. Equus' s net asset value has also deteriorated substantially, declining almost 28% while MCCA served as investment adviser and approximately 37% in 2009 alone. See Additional Information below for comparative data.

OUR NOMINEES PERSONALLY OWN MORE THAN TEN TIMES THE AMOUNT OF SHARES OWNED BY THE CURRENT MAJORITY'S NOMINEES, ONE OF WHOM SOLD EQUUS SHARES IN THE PAST WEEK.

The proxy statement filed by the current majority discloses that the aggregate personal ownership of the current majority's nine nominees consists of only 32,184 shares, or approximately **0.4%** of Equus' s outstanding shares, as of March 15, 2010. In fact, one of their nominees, Gregory Flanagan, **sold 7,500** of his shares in the past week, reducing his holdings by more than a third and reducing their nominees' total holdings to **less than 0.3%** of the outstanding shares. Our nominees' stake is **more than ten times that of the other nominees**, with their personal ownership consisting of 340,418 shares, or approximately 3.8% of Equus' s outstanding shares. Further, Sam Douglass, a member of our Committee, together with the Douglass family, beneficially owns an additional 7.6% of the outstanding shares of Equus.

The interests of our nominees are firmly aligned with your interests as meaningful owners of Equus stock.

IT IS TIME FOR A REAL CHANGE ELECT OUR NOMINEES NOW

It is time to make real changes in the Board that has failed to protect your investment. The Committee's nominees would bring a wealth of experience to help our Company attempt to salvage and maximize stockholder value.

We believe that **real changes require a core transformation of the Board, not the continuation of a majority of the existing Board** and a minority of new directors. **Six of our nine nominees have never served as directors or officers of Equus** or its former investment adviser. Only two of our nominees are incumbent Board members. Our slate represents real change.

In the current majority's letter to stockholders, their response to the difficulties faced by the Company has been to reshape the direction of the Fund by changing the composition of our Board of Directors bringing in four new individuals. Merely entrenching the current majority and electing four additional candidates (who have no personal ownership in Equus) nominated by them does not, in our view, reshape Equus or significantly change the composition of the Board.

The current majority would have you believe that their four new nominees offer the stockholders a break from the past and a chance to move on. The fact is, three of the five

members of the current majority are affiliated with MCCA or were appointed to the Board in connection with the engagement of MCCA. Kenneth I. Denos has held a number of executive offices with MCCA and affiliates of MCC Global since 2001, including serving as MCCA's CEO and President from May 2008 until June 2009, when MCCA's advisory agreement was not renewed. **During Mr. Denos's tenure as MCCA's CEO and President, Equus's stockholder value declined approximately 53%.** Mr. Denos is also the CEO of MCC Global, MCCA's parent company, and has served in that capacity since 2006. In addition, Richard F. Bergner and Henry W. Hankinson were nominated to Equus's Board by MCCA. In August 2009, Mr. Denos, MCC Global and certain of its affiliates filed a Schedule 13D with the Securities and Exchange Commission disclosing that **secured creditors foreclosed on 531,680 shares of Equus stock owned by MCC Global affiliates**, thereby divesting them of a significant ownership stake in Equus.

EQUUS HAS SUFFERED FROM A SIGNIFICANT LACK OF STABILITY AND CONTINUITY IN ITS MANAGEMENT

Since June 2005 and in less than five years, Equus has had six chairmen of the Board and three CEOs. None of these CEOs had prior executive fund management experience. When Equus internalized its management in June 2009, the Board failed to conduct a formal search process among external candidates to identify and enlist a CEO with fund management experience. Instead, the current majority appointed one of its own members to fill this role and results did not improve. Since February 2010, Equus has not had an acting CEO or President, despite the significant and persistent efforts of Mr. Douglass, a member of our Committee, to conduct an appropriate search.

Do not let Equus continue to suffer without an effective CEO. Please vote the GOLD proxy card to replace the current majority with directors who have the initiative to pursue and identify an experienced fund manager.

CHARTING A REAL NEW COURSE FOR EQUUS

We urge you to help the Committee chart a real new course for Equus and elect our nine nominees, six of whom are not incumbent directors or former officers of Equus and would constitute a substantial new majority to help guide Equus's future.
