Note 1 Significant Accounting Policies

Sykes Enterprises, Incorporated and consolidated subsidiaries (SYKES or the Company) provides outsourced customer contact management solutions and services in the business process outsourcing arena to companies, primarily within the communications, financial services, healthcare, technology/consumer and transportation and leisure industries. SYKES provides flexible, high quality outsourced customer contact management services (with an emphasis on inbound technical support and customer service), which includes customer assistance, healthcare and roadside assistance, technical support and product sales to its clients' customers. Utilizing SYKES' integrated onshore/offshore global delivery model, SYKES provides its services through multiple communication channels encompassing phone, e-mail, Web and chat. SYKES complements its outsourced customer contact management services with various enterprise support services in the United States that encompass services for a company's internal support operations, from technical staffing services to outsourced corporate help desk services. In Europe, SYKES also provides fulfillment services including multilingual sales order processing via the Internet and phone, payment processing, inventory control, product delivery and product returns handling. The Company has operations in two reportable segments entitled (1) the Americas, which includes the United States, Canada, Latin America, India and the Asia Pacific Rim, in which the client base is primarily companies in the United States that are using the Company's services to support their customer management needs; and (2) EMEA, which includes Europe, the Middle East and Africa.

Basis of Presentation The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (generally accepted accounting principles) for interim financial information and with the instructions to Form 10-Q. Accordingly, they do not include all of the information and notes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and six months ended June 30, 2010 are not necessarily indicative of the results that may be expected for any future quarters or the year ending December 31, 2010. For further information, refer to the consolidated financial statements and notes thereto, included in the Company's Annual Report on Form 10-K for the year ended December 31, 2009, as filed with the Securities and Exchange Commission (SEC). Subsequent events or transactions have been evaluated through the date and time of issuance of the condensed consolidated financial statements. There were no material subsequent events that required recognition or disclosure in the condensed consolidated financial statements.

Recognition of Revenue Revenue is recognized pursuant to Accounting Standards Codification (ASC) 605 *Revenue Recognition*. The Company primarily recognizes its revenue from services as those services are performed, which is based on either a per minute, per hour, per call or per transaction basis, under a fully executed contractual agreement and records reductions to revenue for contractual penalties and holdbacks for failure to meet specified minimum service levels and other performance based contingencies. Revenue recognition is limited to the amount that is not contingent upon delivery of any future product or service or meeting other specified performance conditions. Product sales, accounted for within fulfillment services, are recognized upon shipment to the customer and satisfaction of all obligations.

In accordance with ASC 605-25, *Revenue Recognition- Multiple-Element Arrangements*, revenue from contracts with multiple-deliverables is allocated to separate units of accounting based on their relative fair value, if the deliverables in the contract(s) meet the criteria for such treatment. Certain fulfillment services contracts contain multiple-deliverables. Separation criteria includes whether a delivered item has value to the customer on a standalone basis, whether there is objective and reliable evidence of the fair value of the undelivered items and, if the arrangement includes a general right of return related to a delivered item, whether delivery of the undelivered item is considered probable and in the Company's control. Fair value is the price of a deliverable when it is regularly sold on a standalone basis, which generally consists of vendor-specific objective evidence of fair value. If there is no evidence

of the fair value for a delivered product or service, revenue is allocated first to the fair value of the undelivered product or service and then the residual revenue is allocated to the delivered product or service. If there is no evidence of the fair value for an undelivered product or service, the contract(s) is accounted for as a single unit of accounting, resulting in delay of revenue recognition for the delivered

Table of Contents

Sykes Enterprises, Incorporated and Subsidiaries
Notes to Condensed Consolidated Financial Statements
Six months ended June 30, 2010 and 2009

(Unaudited)

Note 1 Basis of Presentation and Summary of Significant Accounting Policies (continued)**Recognition of Revenue (continued)**

product or service until the undelivered product or service portion of the contract is complete. The Company recognizes revenue for delivered elements only when the fair values of undelivered elements are known, uncertainties regarding client acceptance are resolved, and there are no client-negotiated refund or return rights affecting the revenue recognized for delivered elements. Once the Company determines the allocation of revenue between deliverable elements, there are no further changes in the revenue allocation. If the separation criteria are met, revenue from these services is recognized as the services are performed under a fully executed contractual agreement. If the separation criteria are not met because there is insufficient evidence to determine fair value of one of the deliverables, all of the services are accounted for as a single combined unit of accounting. For these deliverables with insufficient evidence to determine fair value, revenue is recognized on the proportional performance method using the straight-line basis over the contract period, or the actual number of operational seats used to serve the client, as appropriate. Currently, the Company has no contracts containing multiple-deliverables for customer contact management services and fulfillment services.

Property and Equipment The carrying value of property and equipment to be held and used is evaluated for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable in accordance with ASC 360 *Property, Plant and Equipment*. For purposes of recognition and measurement of an impairment loss, assets are grouped at the lowest levels for which there are identifiable cash flows (the reporting unit). An asset is considered to be impaired when the sum of the undiscounted future net cash flows expected to result from the use of the asset and its eventual disposition does not exceed its carrying amount. The amount of the impairment loss, if any, is measured as the amount by which the carrying value of the asset exceeds its estimated fair value, which is generally determined based on appraisals or sales prices of comparable assets. Occasionally, the Company redeploys property and equipment from under-utilized centers to other locations to improve capacity utilization if it is determined that the related undiscounted future cash flows in the under-utilized centers would not be sufficient to recover the carrying amount of these assets. The Company determined that its property and equipment was not impaired as of June 30, 2010.

Investments Held in Rabbi Trust for Former ICT Chief Executive Officer Securities held in a rabbi trust for a nonqualified plan trust agreement dated February 1, 2010 (the Trust Agreement) with respect to severance payable to John J. Brennan, the former chief executive officer of ICT Group, Inc. (ICT), include the fair market value of debt securities, primarily U.S. Treasury bills. See Note 6 for further information. The fair market value of these debt securities, classified as trading securities in accordance with ASC 320 (ASC 320) *Investment Debt and Equity Securities*, is determined by quoted market prices and is adjusted to the current market price at the end of each reporting period. The net realized and unrealized gains and losses on trading securities, which are included in Other income and expense in the accompanying Condensed Consolidated Statements of Operations, are not material for the three and six months ended June 30, 2010. For purposes of determining realized gains and losses, the cost of securities sold is based on specific identification.

The Accrued employee compensation and benefits in the accompanying Condensed Consolidated Balance Sheet as of June 30, 2010 includes a \$4.5 million obligation for severance payable to the former executive due in varying installments over the next eight months in accordance with the Trust Agreement.

Goodwill The Company accounts for goodwill and other intangible assets under ASC 350 (ASC 350) *Intangibles Goodwill and Other*. Goodwill and other intangible assets with indefinite lives are not subject to amortization, but instead must be reviewed at least annually, and more frequently in the presence of certain circumstances, for impairment by applying a fair value based test. Fair value for goodwill is based on discounted cash flows, market multiples and/or appraised values as appropriate. Under ASC 350, the carrying value of assets is calculated at the lowest levels for which there are identifiable cash flows (the reporting unit). If the fair value of the reporting unit is

less than its carrying value, an impairment loss is recorded to the extent that the fair value of the

Table of Contents

Sykes Enterprises, Incorporated and Subsidiaries
Notes to Condensed Consolidated Financial Statements
Six months ended June 30, 2010 and 2009

(Unaudited)

Note 1 Basis of Presentation and Summary of Significant Accounting Policies (continued)**Goodwill (continued)**

goodwill within the reporting unit is less than its carrying value. The Company completed its annual goodwill impairment test during the third quarter of 2009, which included the consideration of certain economic factors and determined that the carrying amount of goodwill was not impaired as of September 30, 2009. As part of the ICT acquisition, in February 2010, additional goodwill was recorded. As of June 30, 2010, there were no indications of impairment. The Company expects to receive future benefits from previously acquired goodwill over an indefinite period of time.

Intangible Assets Intangible assets, primarily customer relationships, trade name, existing technologies and covenants not to compete, are amortized using the straight-line method over their estimated useful lives which approximate the pattern in which the economic benefits of the assets are consumed. The Company periodically evaluates the recoverability of intangible assets and takes into account events or changes in circumstances that warrant revised estimates of useful lives or that indicate that impairment exists. Fair value for intangible assets is based on discounted cash flows, market multiples and/or appraised values as appropriate. The Company does not have intangible assets with indefinite lives.

Value Added Tax Receivables The Philippine operations are subject to Value Added Tax (VAT), which is usually applied to all goods and services purchased throughout the Philippines. Upon validation and certification of the VAT receivables by the Philippine government, the VAT receivables are held for sale through third-party brokers. The Company sells VAT credits to others due to its current tax holiday status in the Philippines and resulting inability to fully utilize these credits. This process through collection typically takes three to five years. The VAT receivables balance, which is recorded at net realizable value, is approximately \$6.6 million and \$6.2 million as of June 30, 2010 and December 31, 2009, respectively. As of June 30, 2010 and December 31, 2009, the VAT receivables of \$6.6 million and \$5.6 million, respectively, are included in Deferred charges and other assets and \$0.0 million and \$0.6 million, respectively, are included in Receivables in the accompanying Condensed Consolidated Balance Sheets. During the three and six months ended June 30, 2010 the Company recognized losses on the VAT receivables balance of \$0.1 million and \$0.3 million, respectively. During the comparable 2009 periods, the Company recognized losses on the VAT receivables balance of \$0.1 million and \$0.3 million, respectively.

Deferred Grants The Company receives government employment grants, primarily in the U.S., Ireland and Canada, as an incentive to create and maintain permanent employment positions for a specified time period. The grants are repayable, under certain terms and conditions, if the Company's relevant employment levels do not meet or exceed the employment levels set forth in the grant agreements. Accordingly, grant monies received are deferred and amortized using the proportionate performance model over the required employment period. As of June 30, 2010 and December 31, 2009, employment deferred grants totaled \$12.7 million, of which \$1.5 million is included in total current liabilities, and \$11.9 million, of which \$0.9 million is included in total current liabilities, respectively.

Amortization of these grants, recorded as a reduction to General and administrative costs in the accompanying Condensed Consolidated Statements of Operations, was \$0.3 million and \$0.5 million for the three and six months ended June 30, 2010, respectively, and \$0.3 million and \$0.6 million for the comparable 2009 period, respectively.

Stock-Based Compensation The Company has three stock-based compensation plans: the 2001 Equity Incentive Plan (for employees and certain non-employees), the 2004 Non-Employee Director Fee Plan (for non-employee directors), both approved by the shareholders, and the Deferred Compensation Plan (for certain eligible employees). All of these plans are discussed more fully in Note 13. Stock-based awards under these plans may consist of common stock, common stock units, stock options, cash-settled or stock-settled stock appreciation rights, restricted stock and other stock-based awards. The Company issues common stock and treasury stock to satisfy stock option exercises or vesting of stock awards.

(Unaudited)

Note 1 Basis of Presentation and Summary of Significant Accounting Policies (continued)

Stock-Based Compensation (continued)

In accordance with ASC 718 (ASC 718) *Compensation Stock Compensation* , the Company recognizes in its Condensed Consolidated Statement of Operations the grant-date fair value of stock options and other equity-based compensation issued to employees and directors. Compensation expense for equity-based awards is recognized over the requisite service period, usually the vesting period, while compensation expense for liability-based awards (those usually settled in cash rather than stock) is re-measured to fair-value at each balance sheet date until the awards are settled.

Fair Value of Financial Instruments The following methods and assumptions were used to estimate the fair value of each class of financial instruments for which it is practicable to estimate that value:

Cash, Short-term and Other Investments, Investments Held in Rabbi Trust, Short-term Debt and Accounts Payable. The carrying values for cash, short-term and other investments, investments held in rabbi trust, short-term debt and accounts payable approximate their fair values.

Forward currency forward contracts and options. Forward currency forward contracts and options are recognized at fair value based on quoted market prices of comparable instruments or, if none are available, on pricing models or formulas using current market and model assumptions, including adjustments for credit risk.

Long-Term Debt. The carrying value of long-term debt, including the current portion thereof, approximates its estimated fair value as it reprices at varying interest rates.

Fair Value Measurements The provisions of ASC 820 (ASC 820) *Fair Value Measurements and Disclosures* defines fair value, establishes a framework for measuring fair value in accordance with generally accepted accounting principles, and expands disclosures about fair value measurements. ASC 820-10-20 clarifies that fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants.

ASC 825 (ASC 825) *Financial Instruments* permits an entity to measure certain financial assets and financial liabilities at fair value with changes in fair value recognized in earnings each period. The Company has not elected to use the fair value option permitted under ASC 825 for any of its financial assets and financial liabilities that are not already recorded at fair value.

A description of the Company's policies regarding fair value measurement is summarized below.

Fair Value Hierarchy - ASC 820 requires disclosure about how fair value is determined for assets and liabilities and establishes a hierarchy for which these assets and liabilities must be grouped, based on significant levels of observable or unobservable inputs. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Company's market assumptions. This hierarchy requires the use of observable market data when available. These two types of inputs have created the following fair-value hierarchy:

Level 1 Quoted prices for identical instruments in active markets.

Level 2 Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs and significant value drivers are observable in active markets.

Level 3 Valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

Sykes Enterprises, Incorporated and Subsidiaries
Notes to Condensed Consolidated Financial Statements
Six months ended June 30, 2010 and 2009

(Unaudited)

Note 1 Basis of Presentation and Summary of Significant Accounting Policies (continued)**Fair Value Measurements (continued)**

Determination of Fair Value - The Company generally uses quoted market prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access to determine fair value, and classifies such items in Level 1. Fair values determined by Level 2 inputs utilize inputs other than quoted market prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted market prices in active markets for similar assets or liabilities, and inputs other than quoted market prices that are observable for the asset or liability. Level 3 inputs are unobservable inputs for the asset or liability, and include situations where there is little, if any, market activity for the asset or liability.

If quoted market prices are not available, fair value is based upon internally developed valuation techniques that use, where possible, current market-based or independently sourced market parameters, such as interest rates, currency rates, etc. Assets or liabilities valued using such internally generated valuation techniques are classified according to the lowest level input or value driver that is significant to the valuation. Thus, an item may be classified in Level 3 even though there may be significant inputs that are readily observable.

The following section describes the valuation methodologies used by the Company to measure fair value, including an indication of the level in the fair value hierarchy in which each asset or liability is generally classified.

Money Market Funds and Open-end Mutual Funds The Company uses quoted market prices in active markets to determine the fair value of money market funds and open-end mutual funds, which are classified in Level 1 of the fair value hierarchy.

Foreign Currency Forward Contracts and Options The Company enters into foreign currency forward contracts and options over the counter and values such contracts using quoted market prices of comparable instruments or, if none are available, on pricing models or formulas using current market and model assumptions, including adjustments for credit risk. The key inputs include forward or option foreign currency exchange rates and interest rates. These items are classified in Level 2 of the fair value hierarchy.

Investments Held in Rabbi Trusts The investment assets of the rabbi trusts are valued using quoted market prices in active markets, which are classified in Level 1 of the fair value hierarchy. For additional information, refer to Notes 6 and 13.

Guaranteed Investment Certificates Guaranteed investment certificates, with variable interest rates linked to the prime rate, approximate fair value due to the automatic ability to reprice with changes in the market; such items are classified in Level 2 of the fair value hierarchy.

Foreign Currency Translation The assets and liabilities of the Company's foreign subsidiaries, whose functional currency is other than the U.S. Dollar, are translated at the exchange rates in effect on the reporting date, and income and expenses are translated at the weighted average exchange rate during the period. The net effect of translation gains and losses is not included in determining net income, but is included in Accumulated other comprehensive income (loss) (AOCI), which is reflected as a separate component of shareholders' equity until the sale or until the complete or substantially complete liquidation of the net investment in the foreign subsidiary. Foreign currency transactional gains and losses are included in Other income (expense) in the accompanying Condensed Consolidated Statements of Operations.

Foreign Currency and Derivative Instruments The Company accounts for financial derivative instruments under ASC 815 (ASC 815) *Derivatives and Hedging*. The Company generally utilizes non-deliverable forward contracts and options expiring within one to 24 months to reduce its foreign currency exposure due to exchange rate fluctuations on forecasted cash flows denominated in non-functional foreign currencies and net investments in foreign operations. In using derivative financial instruments to hedge exposures to changes in exchange rates, the Company exposes itself to counterparty credit risk.

Note 1 Basis of Presentation and Summary of Significant Accounting Policies (continued)**Foreign Currency and Derivative Instruments (continued)**

All derivatives, including foreign currency forward contracts and options, are recognized in the balance sheet at fair value. Derivatives are recorded either as assets, within Other current assets, or Deferred charges and other assets, or as liabilities, within Other accrued expenses and current liabilities, or Other long-term liabilities in the accompanying Condensed Consolidated Balance Sheets.

The Company designates derivatives as either (1) a hedge of a forecasted transaction or of the variability of cash flows to be received or paid related to a recognized asset or liability (cash flow hedge); (2) a hedge of a net investment in a foreign operation; or (3) a derivative that does not qualify for hedge accounting. To qualify for hedge accounting treatment, a derivative must be highly effective in mitigating the designated risk of the hedged item. Effectiveness of the hedge is formally assessed at inception and throughout the life of the hedging relationship. Even if a derivative qualifies for hedge accounting treatment, there may be an element of ineffectiveness of the hedge.

Changes in the fair value of derivatives that are highly effective and designated as cash flow hedges are recorded in AOCI, until the forecasted underlying transactions occur. Any realized gains or losses resulting from the cash flow hedges are recognized together with the hedged transaction within Revenues . Changes in the fair value of derivatives that are highly effective and designated as a net investment hedge are recorded in cumulative translation adjustment in AOCI, offsetting the change in cumulative translation adjustment attributable to the hedged portion of the Company s net investment in the foreign operation. Any realized gains and losses from settlements of the net investment hedge remain in AOCI until partial or complete liquidation of the net investment. Ineffectiveness is measured based on the change in fair value of the forward contracts and options and the fair value of the hypothetical derivatives with terms that match the critical terms of the risk being hedged. Hedge ineffectiveness is recognized within Revenues for cash flow hedges and within Other income (expense) for net investment hedges. Cash flows from the derivative contracts are classified within the operating section in the accompanying Condensed Consolidated Statements of Cash Flows. The Company formally documents all relationships between hedging instruments and hedged items, as well as its risk management objective and strategy for undertaking various hedging activities. This process includes linking all derivatives that are designated as cash flow hedges to forecasted transactions. Hedges of a net investment in a foreign operation are linked to the specific foreign operation. The Company also formally assesses, both at the hedge s inception and on an ongoing basis, whether the derivatives that are used in hedging transactions are highly effective on a prospective and retrospective basis. When it is determined that a derivative is not highly effective as a hedge or that it has ceased to be a highly effective hedge or if a forecasted hedge is no longer probable of occurring, the Company discontinues hedge accounting prospectively. At June 30, 2010, all hedges were determined to be highly effective.

The Company also periodically enters into forward contracts that are not designated as hedges as defined under ASC 815. The purpose of these derivative instruments is to reduce the effects from fluctuations caused by volatility in currency exchange rates on the Company s operating results and cash flows. All changes in the fair value of the derivative instruments are included in Other income (expense) . See Note 5 Financial Derivatives for further information on financial derivative instruments.

New Accounting Standards Unless needed to clarify a point to readers, the Company will refrain from citing specific section references when discussing application of accounting principles or addressing new or pending accounting rule changes. There are no recently issued accounting standards that are expected to have a material effect on the Company s financial condition, results of operations or cash flows.

Note 2 Acquisition of ICT

On February 2, 2010, the Company acquired 100% of the outstanding common shares and voting interest of ICT through a merger of ICT with and into a subsidiary of the Company. ICT provides outsourced customer management and business process outsourcing solutions with its operations located in the United States, Canada, Europe, Latin America, India, Australia and the Philippines. The results of ICT's operations have been included in the Company's consolidated financial statements since its acquisition on February 2, 2010. The Company acquired ICT to expand and complement its global footprint, provide entry into additional vertical markets, and increase revenues to enhance its ability to leverage the Company's infrastructure to produce improved sustainable operating margins. This resulted in the Company paying a substantial premium for ICT resulting in recognition of goodwill.

The acquisition date fair value of the consideration transferred totaled \$277.8 million, which consisted of the following:

Form	Amount <i>(in thousands)</i>
Cash	\$ 141,161
Common stock	136,673
 Total consideration	 \$ 277,834

The fair value of the 5.6 million common shares issued was determined based on the Company's closing share price of \$24.40 on the acquisition date.

The cash portion of the acquisition was funded through borrowings consisting of a \$75.0 million short-term loan from Key Bank and a \$75 million Term Loan. See Note 8 for further information.

The Company accounted for the acquisition in accordance with ASC 805 (ASC 805) *Business Combinations*, whereby the purchase price paid was allocated to the tangible and identifiable intangible assets acquired and liabilities assumed from ICT based on their estimated fair values as of the closing date. Certain amounts are provisional and are subject to change, including the following items:

Amounts for property and equipment, pending completion of certain physical counts and the confirmation of the condition of certain property and equipment.

Tax entries required cannot be estimated until the Company completes its tax analysis of the assets acquired and liabilities assumed in connection with the acquisition of ICT. Additionally, as of February 2, 2010, the date of the ICT acquisition, the Company determined that it intends to distribute all of the accumulated and undistributed earnings of the ICT Philippine subsidiary and its direct parent, ICT Group Netherlands B.V., to Sykes Enterprises, Incorporated, its ultimate U.S. parent. Tax adjustments required to reflect this intent, which could be significant, cannot be estimated until the Company completes its tax analysis. The Company asserts its intention that all other ICT past and current earnings are permanently reinvested in foreign business operations in accordance with ASC 740-30 (ASC 740-30) *Income Taxes - Other Considerations or Special Areas*.

The amount and allocation of goodwill among reporting units.

The Company expects to complete its analysis of the purchase price allocation during the fourth quarter of 2010. As of June 30, 2010, there were no changes in the recognized amounts of goodwill resulting from the acquisition of ICT.

Note 2 Acquisition of ICT (continued)

The following table summarizes the estimated acquisition date fair values of the assets acquired and liabilities assumed (in thousands):

	Amount
Cash and cash equivalents	\$ 63,987
Receivables	75,890
Income tax receivable	2,844
Prepaid expenses	4,846
Other current assets	4,950
Total current assets	152,517
Property and equipment	57,910
Goodwill	90,123
Intangibles	60,310
Deferred charges and other assets	7,978
Short-term debt	(10,000)
Accounts payable	(12,412)
Accrued employee compensation and benefits	(23,873)
Income taxes payable	(2,451)
Other accrued expenses and current liabilities	(10,951)
Total current liabilities	(59,687)
Deferred grants	(706)
Long-term income tax liabilities	(5,573)
Other long-term liabilities	(25,038)
Purchase price	\$ 277,834

Total net assets acquired by operating segment as of February 2, 2010, the acquisition date, were as follows (in thousands):

	Americas	EMEA	Other	Consolidated Total
Net assets	\$ 273,748	\$ 4,086	\$	\$ 277,834

Fair values are based on management's estimates and assumptions including variations of the income approach, the cost approach and the market approach. The following table presents the Company's purchased intangibles assets as of February 2, 2010, the acquisition date (in thousands):

Purchased intangible Assets	Amount Assigned	Weighted Average Amortization Period (years)
Customer relationships	\$ 57,900	8
Trade name	1,000	3
Proprietary Software	850	2
Non-compete agreements	560	1
	\$ 60,310	8

(Unaudited)

Note 2 Acquisition of ICT (continued)

The \$90.1 million of goodwill was assigned to the Company's Americas and EMEA operating segments in the amount of \$90.0 million and \$0.1 million, respectively. The goodwill recognized is attributable primarily to synergies the Company expects to achieve as the acquisition increases the opportunity for sustained long-term operating margin expansion by leveraging general and administrative expenses over a larger revenue base. Pursuant to Federal income tax regulations, the ICT acquisition was considered to be a non-taxable transaction; therefore, no amount of intangibles or goodwill from this acquisition will be deductible for tax purposes. The fair value of receivables acquired is \$75.9 million, with the gross contractual amount being \$76.4 million, of which \$0.5 million was not expected to be collected.

After the ICT acquisition in February, 2010, the Company paid off the \$10.0 million outstanding balance plus accrued interest of the ICT short-term debt assumed upon acquisition. The related interest expense included in Interest expense in the accompanying Condensed Statement of Operations for the three and six months ended June 30, 2010 were not material.

The amount of ICT's revenues and net loss since the February 2, 2010 acquisition date, included in the Company's Condensed Consolidated Statement of Operations for the three and six months ended June 30, 2010, are \$98.5 million and \$(2.4) million and \$163.8 million and \$(15.8) million, respectively. The following table presents the unaudited pro forma combined revenues and net earnings as if ICT had been included in the consolidated results of the Company for the entire three and six month periods ended June 30, 2010 and 2009. The pro forma financial information is not indicative of the results of operations that would have been achieved if the acquisition and related borrowings had taken place on January 1, 2010 and 2009 (in thousands):

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2010	2009	2010	2009
Revenues	\$299,177	\$307,189	\$615,328	\$606,488
Net income	\$ 4,433	\$ 11,831	\$ 13,309	\$ 25,089
Net income per basic share	\$ 0.10	\$ 0.26	\$ 0.29	\$ 0.54
Net income per diluted share	\$ 0.10	\$ 0.25	\$ 0.29	\$ 0.54

These amounts have been calculated to reflect the additional depreciation, amortization, and interest expense that would have been incurred assuming the fair value adjustments and borrowings occurred on January 1, 2010 and January 1, 2009, together with the consequential tax effects. In addition, these amounts exclude costs incurred which are directly attributable to the acquisition, and which do not have a continuing impact on the combined companies operating results. Included in these costs are severance, advisory and legal costs, net of the consequential tax effects. Acquisition-related costs of \$6.0 million, comprised of \$1.7 million in severance costs (\$1.4 million in Corporate and \$0.3 million in the Americas), \$1.0 million in transaction and integration costs, and \$3.3 million in additional depreciation related to the increase in fair values of the acquired property and equipment and amortization of the fair values of the acquired intangibles, are included in General and administrative costs in the accompanying Condensed Consolidated Statement of Operations for the three months ended June 30, 2010. Acquisition-related costs of \$29.3 million, comprised of \$15.2 million in severance costs (\$14.0 million in Corporate and \$1.2 million in the Americas), \$8.7 million in transaction and integration costs, and \$5.4 million in additional depreciation related to the increase in fair values of the acquired property and equipment and amortization of the fair values of the acquired intangibles, are included in General and administrative costs in the accompanying Condensed Consolidated Statement of Operations for the six months ended June 30, 2010.

Certain assets, under certain conditions, are measured at fair value on a non-recurring basis utilizing Level 3 inputs as described in Note 1, like those associated with acquired businesses, including goodwill and other intangible assets and other long-lived assets. For these assets, measurement at fair value in periods subsequent to their initial recognition would be applicable if one or more of these assets was determined to be impaired. During the three and six months ended June 30, 2010, no impairment losses have occurred relative to any of these assets. During the three and six months ended June 30, 2009, due to the decline in value that is other than temporary, the Company recorded impairment losses of \$1.6 million on its investment of goodwill and intangible assets related to the March 2005 acquisition of Kelly, Luttmer & Associates Limited (KLA) and \$2.1 million on its investment in SHPS.

Note 4 Goodwill and Intangible Assets

The following table presents the Company's purchased intangible assets (in thousands) as of June 30, 2010 (including the ICT acquisition described in Note 2):

	Gross	Accumulated	Net	Weighted
	Intangibles	Amortization	Intangibles	Average
				Amortization
				Period
				(years)
Customer relationships	\$ 62,215	\$ (5,881)	\$ 56,334	8
Trade name	1,784	(766)	1,018	4
Non-compete agreements	717	(390)	327	1
Proprietary software	850	(214)	636	2
Other	129	(129)		3
	\$ 65,695	\$ (7,380)	\$ 58,315	8

The following table presents the Company's purchased intangible assets (in thousands) as of December 31, 2009:

	Gross	Accumulated	Net	Weighted
	Intangibles	Amortization	Intangibles	Average
				Amortization
				Period
				(years)
Customer relationships	\$ 4,437	\$ (2,588)	\$ 1,849	6
Trade name	807	(565)	242	5
Non-compete agreements	161	(161)		2
Other	133	(133)		3
	\$ 5,538	\$ (3,447)	\$ 2,091	6

Amortization expense, related to the purchased intangible assets resulting from acquisitions (other than goodwill), of \$2.4 million and \$4.1 million for the three and six months ended June 30, 2010, respectively, is included in General and administrative costs in the accompanying Condensed Consolidated Statements of Operations. In the comparable 2009 periods, the Company recognized amortization expense of \$0.3 million and \$0.6 million, respectively.

(Unaudited)

Note 4 Goodwill and Intangible Assets (continued)

The Company's estimated future amortization expense for the five succeeding years is as follows (in thousands):

Years Ending December 31,	Amount
2010 (remaining six months)	\$ 4,772
2011	\$ 8,654
2012	\$ 8,030
2013	\$ 7,303
2014	\$ 7,240
2015	\$ 7,238
2016 and thereafter	\$15,078

Changes in goodwill consist of the following (in thousands):

	Gross	Accumulated	
	Amount	Impairment	Net
		Losses	Amount
Americas:			
Balance at January 1, 2010	\$ 21,838	\$ (629)	\$ 21,209
Acquisition of ICT (See Note 2)	90,036		90,036
Foreign currency translation	(197)		(197)
Balance at June 30, 2010	111,677	(629)	111,048
EMEA:			
Balance at January 1, 2010			
Acquisition of ICT (See Note 2)	87		87
Foreign currency translation	(6)		(6)
Balance at June 30, 2010	81		81
	\$ 111,758	\$ (629)	\$ 111,129

Note 5 Financial Derivatives

Cash Flow Hedges The Company had derivative assets and liabilities relating to outstanding forward contracts and options, designated as cash flow hedges, as defined under ASC 815, consisting of Philippine peso (PHP) contracts, maturing within 15 months with a notional value of \$121.0 million and \$39.4 million as of June 30, 2010 and December 31, 2009, respectively, and Canadian dollar contracts maturing within 6 months with a notional value of \$5.1 million and \$3.8 million as of June 30, 2010 and December 31, 2009, respectively. These contracts are entered into to protect against the risk that the eventual cash flows resulting from such transactions will be adversely affected by changes in exchange rates.

The Company had a total of (\$0.8) million and \$2.0 million of deferred (losses) gains, net of taxes of (\$0.4) million and \$0.8 million, on these derivative instruments as of June 30, 2010 and December 31, 2009, respectively, recorded in AOCI in the accompanying Condensed Consolidated Balance Sheets. The deferred gains expected to be reclassified to Revenues from AOCI during the next twelve months is \$1.2 million. However, this amount and other future reclassifications from AOCI will fluctuate with movements in the underlying market price of the forward contracts.

Table of Contents

Sykes Enterprises, Incorporated and Subsidiaries
Notes to Condensed Consolidated Financial Statements
Six months ended June 30, 2010 and 2009
(Unaudited)

Note 5 Financial Derivatives (continued)

Net Investment Hedge During the three months ended June 30, 2010, the Company entered into a foreign exchange forward contract to hedge its net investment in a foreign operation, as defined under ASC 815. The aggregate notional value of this hedge was \$49.2 million as of June 30, 2010. The Company recorded deferred gains of \$0.9 million, net of taxes, for the three and six month periods ended June 30, 2010 as a currency translation adjustment, a component of AOCI, offsetting foreign exchange losses attributable to the translation of the net investment. The Company did not hedge net investments in foreign operations during the comparable 2009 period.

Other Hedges The Company also periodically enters into foreign currency hedge contracts that are not designated as hedges as defined under ASC 815. The purpose of these derivative instruments is to reduce the effects on the Company's operating results and cash flows from fluctuations caused by volatility in currency exchange rates, primarily related to intercompany loan payments and cash held in non-functional currencies. As of June 30, 2010, these contracts include a forward contract to sell 12.5 million Canadian dollars at fixed prices of 8.1 million Euro to settle in August 2010, a forward contract to sell 9.8 million Euros at fixed prices of 12.5 million Canadian dollars to settle in August 2010, a forward contract to sell 9.5 million Euro at fixed prices of U.S. \$11.7 million to settle in July 2010, forward contracts to sell 5.5 million Canadian dollars at fixed prices of U.S. \$5.3 million to settle in July 2010, and forward contracts to sell 702.0 million PHP at fixed prices of U.S. \$15.2 million to settle in July 2010. As of December 31, 2009, the Company had forward contracts to sell 12.5 million Canadian dollars at fixed prices of Euro 8.1 million, which will settle in August 2010.

The Company had the following outstanding foreign currency forward contracts and options (in thousands):

As of June 30, 2010		As of December 31, 2009	
Foreign Currency	Currency Denomination	Foreign Currency	Currency Denomination
U.S. Dollars 23,600	Philippine Pesos 1,172,023	U.S. Dollars 39,400	Philippine Pesos 1,970,189
U.S. Dollars 97,400	Philippine Pesos 4,505,090		
U.S. Dollars 5,060	Canadian Dollars 5,350	U.S. Dollars 3,800	Canadian Dollars 4,050
Euros 39,000	U.S. Dollars 49,166		
U.S. Dollars 11,676	Euros 9,500

Note 5 Financial Derivatives (continued)

In July 2010 to hedge intercompany forecasted cash outflows, the Company entered into forward contracts to sell 5.5 million Canadian dollars at fixed prices of U.S. \$5.3 million to settle in August 2010, to sell 9.5 million Euro at fixed prices of U.S. \$12.1 million to settle in August 2010 and to sell 702.0 million PHP at fixed prices of U.S. \$15.2 million to settle in August 2010.

As of June 30, 2010, the maximum amount of loss due to credit risk that, based on the gross fair value of the financial instruments, the Company would incur if parties to the financial instruments that make up the concentration failed to perform according to the terms of the contracts is \$4.7 million.

The following tables present the fair value of the Company's derivative instruments as of June 30, 2010 and December 31, 2009 included in the accompanying Condensed Consolidated Balance Sheets (in thousands):

	Derivative Assets

Note 6 Investments Held in Rabbi Trusts

The Company's Investments Held in Rabbi Trusts, classified as trading securities and included in Other current assets in the accompanying Condensed Consolidated Balance Sheets, at fair value, consist of the following (in thousands):

	June 30, 2010		December 31, 2009	
	Cost	Fair Value	Cost	Fair Value
Mutual Funds	\$ 2,849	\$ 2,710	\$ 2,454	\$ 2,437
U.S. Treasury Bills	4,450	4,452	\$	
	\$ 7,299	\$ 7,162	\$ 2,454	\$ 2,437

The mutual funds held in the rabbi trust were 79% equity-based and 21% debt-based at June 30, 2010. Investment income, included in Other income (expense) in the accompanying Condensed Consolidated Statements of Operations for the three and six months ended June 30, 2010 and 2009 consists of the following (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,

Note 7 Deferred Revenue

The components of deferred revenue consist of the following (in thousands):

	June 30, 2010	December 31, 2009
Future service	\$ 23,615	\$ 25,027
Estimated potential penalties and holdbacks	6,278	5,056
	\$ 29,893	\$ 30,083

Note 8 Borrowings

Borrowings consist of the following (in thousands):

	June 30, 2010	December 31, 2009
Short-term loan due March 31, 2010	\$	\$ 75,000
Term loan due in varying installments through February 1, 2013	52,500	
Revolving credit facility matures on February 1, 2013		
Total	52,500	75,000
Less current portion	(12,500)	(75,000)
Total long-term debt	\$ 40,000	\$

As of June 30, 2010, future minimum payments of the Company's borrowings under the terms of the agreement are as follows (in thousands):

Years Ending December 31,	Amount
2010 (remaining six months)	\$ 5,000
2011	15,000
2012	20,000
2013	12,500
Total	\$ 52,500

While the Term Loan is due in varying installments through February 2013, the Company paid \$50.0 million of the outstanding balance of the Term Loan in July 2010, earlier than the scheduled maturity, and anticipates paying the remaining outstanding balance of \$2.5 million plus accrued interest on or before September 30, 2010.

On February 2, 2010, the Company entered into a new Credit Agreement (the "New Credit Agreement") with a group of lenders. The New Credit Agreement provides for a \$75 million term loan (the "Term Loan") and a \$75 million revolving credit facility, the amount which is subject to certain borrowing limitations, and includes certain customary financial and restrictive covenants. The Company drew down the full \$75 million Term Loan on February 2, 2010 in connection with the acquisition of ICT on such date. See Note 2 "Acquisition of ICT" for further information.

Table of Contents

Sykes Enterprises, Incorporated and Subsidiaries
Notes to Condensed Consolidated Financial Statements
Six months ended June 30, 2010 and 2009
(Unaudited)

Note 8 Borrowings (continued)

The \$75 million revolving credit facility provided under the New Credit Agreement replaces the previous senior revolving credit facility under a credit agreement, dated March 30, 2009, which agreement was terminated simultaneous with entering into the New Credit Agreement. The \$75 million revolving credit facility, which includes a \$40 million multi-currency sub-facility, a \$10 million swingline sub-facility and a \$5 million letter of credit sub-facility, may be used for general corporate purposes including strategic acquisitions, share repurchases, working capital support, and letters of credit, subject to certain limitations. The Company is not currently aware of any inability of its lenders to provide access to the full commitment of funds that exist under the revolving credit facility, if necessary. However, due to recent economic conditions and the volatile business climate facing financial institutions, there can be no assurance that such facility will be available to the Company, even though it is a binding commitment of the financial institutions.

Borrowings under the New Credit Agreement bear interest at either LIBOR or the base rate plus, in each case, an applicable margin based on the Company's leverage ratio. The applicable interest rate is determined quarterly based on the Company's leverage ratio at such time. The base rate is a rate per annum equal to the greatest of (i) the rate of interest established by the lender, from time to time, as its prime rate; (ii) the Federal Funds effective rate in effect from time to time, plus 1/2 of 1% per annum; and (iii) the then-applicable LIBOR rate for one month interest periods, plus 1.00%. Swing Line Loans bear interest only at the base rate plus the base rate margin. In addition, the Company is required to pay certain customary fees, including a commitment fee of up to 0.75%, which is due quarterly in arrears and calculated on the average unused amount of the revolving credit facility.

The Company paid an underwriting fee of \$3.0 million for the New Credit Agreement, which is deferred and amortized over the term of the loan. The related interest expense and amortization of deferred loan fees on the New Credit Agreement of \$1.0 million and \$1.8 million are included in Interest expense in the accompanying Condensed Consolidated Statement of Operations for the three and six months ended June 30, 2010, respectively (none in the comparable period in 2009). The \$75.0 million Term Loan had weighted average interest rate of 3.88% and 3.94% for the three and six months ended June 30, 2010, respectively.

The New Credit Agreement is guaranteed by all of the Company's existing and future direct and indirect material U.S. subsidiaries and secured by a pledge of 100% of the non-voting and 65% of the voting capital stock of all the direct foreign subsidiaries of the Company and those of the guarantors.

In December, 2009, Sykes (Bermuda) Holdings Limited, a Bermuda exempted company (Sykes Bermuda) which is an indirect wholly-owned subsidiary of the Company, entered into a credit agreement with KeyBank (the Bermuda Credit Agreement). The Bermuda Credit Agreement provided for a \$75 million short-term loan to Sykes Bermuda with a maturity date of March 31, 2010. Sykes Bermuda drew down the full \$75 million on December 11, 2009, which is included in Short-term debt in the accompanying Condensed Consolidated Balance Sheet as of December 31, 2009. The Bermuda Credit Agreement required that Sykes Bermuda and its direct subsidiaries maintain cash and cash equivalents of at least \$80 million at all times, which amount is included in Restricted Cash in the accompanying Condensed Consolidated Balance Sheet as of December 31, 2009. Interest is charged on outstanding amounts, at the option of Sykes Bermuda, at either a Eurodollar Rate (as defined in the Bermuda Credit Agreement) or a Base Rate (as defined in the Bermuda Credit Agreement) plus, in each case, an applicable margin specified in the Bermuda Credit Agreement. The underwriting fee paid of \$0.8 million was deferred and amortized over the term of the loan. Sykes Bermuda repaid the entire outstanding amount plus accrued interest on March 31, 2010. The related interest expense and amortization of deferred loan fees of \$1.4 million are included in Interest expense in the accompanying Condensed Consolidated Statement of Operations for the six months ended June 30, 2010 (none in the three months ended June 30, 2010 or in the comparable periods in 2009).

Simultaneous with the execution and delivery of the Bermuda Credit Agreement, the Company entered into a Guaranty of Payment agreement with KeyBank, pursuant to which the obligations of Sykes Bermuda under the

Bermuda Credit Agreement were guaranteed by the Company.

(Unaudited)

Note 8 Borrowings (continued)

Also, simultaneous with the execution and delivery of the Bermuda Credit Agreement, the Company, KeyBank and the other lenders that are a party thereto entered into a First Amendment Agreement, amending the credit agreement, dated March 30, 2009, between the Company, KeyBank and the other lenders that are a party thereto. The First Amendment Agreement amended the terms of the credit agreement to permit the loan to Sykes Bermuda and the Company's guaranty of that loan. As of December 31, 2009, there were no outstanding balances and no borrowings in 2009 under the credit agreement dated March 30, 2009. As previously mentioned, this credit agreement, dated March 30, 2009, was terminated on February 2, 2010 simultaneous with entering into the New Credit Agreement and unamortized deferred loan fees of \$0.2 million were written off during the three months ended March 31, 2010. Interest expense for the three and six month ended June 30, 2009 include \$0.1 million and \$0.1 million related to this terminated credit agreement, respectively.

Note 9 Accumulated Other Comprehensive Income (Loss)

The Company presents data in the Condensed Consolidated Statements of Changes in Shareholders' Equity in accordance with ASC 220 (ASC 220) *Comprehensive Income*. ASC 220 establishes rules for the reporting of comprehensive income (loss) and its components. The components of accumulated other comprehensive income (loss) consist of the following (in thousands):

	Foreign	Unrealized Gain (Loss) on	Unrealized Actuarial Gain (Loss) Related to Pension Liability	Unrealized Gain (Loss) on	Unrealized Gain (Loss) on	Total
	Currency Translation Adjustment	Net Investment Hedge		Cash Flow Hedging Instruments	Post Retirement Obligation	
Balance at January 1, 2009	\$ (4,236)	\$	\$ 1,387	\$ (7,834)	\$	\$(10,683)
Pre tax amount	8,360		(279)	5,082	307	13,470
Tax (provision) benefit			121	(4,255)		(4,134)
Reclassification to net income	3		(63)	9,257	(31)	9,166
Foreign currency translation	190		41	(231)		
Balance at December 31, 2009	4,317		1,207	2,019	276	7,819
Pre tax amount	(13,858)	1,432		(1,418)	132	(13,712)
Tax (provision) benefit		(501)		475		(26)
Reclassification to net loss	(12)		(25)	(1,946)	(13)	(1,996)
Foreign currency translation	(38)		(5)	43		
Balance at June 30, 2010	\$ (9,591)	\$ 931	\$ 1,177	\$ (827)	\$ 395	\$ (7,915)

Except as discussed in Note 10, earnings associated with the Company's investments in its subsidiaries are considered to be permanently invested and no provision for income taxes on those earnings or translation adjustments has been provided.

Note 10 Income Taxes

The Company's effective tax rate was 7.7% and 16.0% for the six months ended June 30, 2010, and 2009, respectively. The decrease in the effective tax rate was primarily due to tax benefits recognized on current period losses related to ICT acquisition-related costs, the tax impacts of exchange rate fluctuations, and the effects of valuation allowances for foreign tax credits partially offset by a favorable settlement of a tax audit.

Table of Contents

Sykes Enterprises, Incorporated and Subsidiaries
Notes to Condensed Consolidated Financial Statements
Six months ended June 30, 2010 and 2009
(Unaudited)

Note 10 Income Taxes (continued)

The differences in the Company's effective tax rate of 7.7% as compared to the U.S. statutory federal income tax rate of 35.0% was primarily due to the tax impact related to the Company's 2009 decision to repatriate \$85 million in foreign earnings, the recording of a valuation allowance on foreign tax credits, losses in jurisdictions for which tax benefits either can or cannot be recognized, foreign withholding and other taxes, and permanent differences. These items were partially offset by the favorable settlement of a tax audit along with the recognition of tax benefits resulting from income earned in certain tax holiday jurisdictions.

The liability for unrecognized tax benefits is recorded as Long-term income tax liabilities in the accompanying Condensed Consolidated Balance Sheets. The Company has accrued \$6.5 million at June 30, 2010, and \$3.8 million at December 31, 2009, excluding penalties and interest. The \$2.7 million increase relates primarily to the balances assumed in the ICT acquisition, which amount is provisional as discussed in Note 2, partially offset by the favorable settlement of a tax audit and the expiration of certain statutes of limitations. If the Company recognized its remaining unrecognized tax benefits at June 30, 2010, approximately \$6.5 million, excluding related interest and penalties, would favorably impact the effective tax rate. The Company believes it is reasonably possible that its unrecognized tax benefits will decrease or be recognized in the next twelve months by up to \$2.2 million due to expiration of statutes of limitations, and audit or appeal resolution in various tax jurisdictions.

Generally, earnings associated with the Company's investments in its subsidiaries are considered to be permanently invested and provisions for income taxes on those earnings or translation adjustments are not recorded. The U.S. Department of the Treasury released the General Explanations of the Administration's Fiscal Year 2011 Revenue Proposals in February 2010. These proposals represent a significant shift in international tax policy, which may materially impact U.S. taxation of international earnings. The Company continues to monitor these proposals and is currently evaluating their potential impact on its financial condition, results of operations, and cash flows.

As of February 2, 2010, the date of the ICT acquisition, the Company determined that it intends to distribute all of the accumulated and undistributed earnings of the ICT Philippine subsidiary and its direct parent, ICT Group Netherlands B.V., to Sykes Enterprises, Incorporated, its ultimate U.S. parent. Tax adjustments required to reflect this intent, which could be significant, cannot be estimated until the Company completes its tax analysis of the assets acquired and liabilities assumed in connection with the acquisition of ICT. The Company asserts its intention that all other ICT past and current earnings are permanently reinvested in foreign business operations in accordance with ASC 740-30. See Note 2 for further information.

The German tax authority is currently auditing tax periods 2005 through 2007. A Philippine subsidiary is being audited by the Philippine tax authorities for tax year 2007. During the quarter, the Company concluded the 2006 Philippine audit without a material adjustment. The Company's India subsidiary is currently under examination in India for fiscal tax years 2004 through 2008. As of June 30, 2010, the Company believes it has adequately accrued for these audits. In addition, the following audits are underway for several ICT acquired subsidiaries: the Canadian tax authority is currently auditing the Canadian subsidiary's tax years 2003 through 2006 and the U.S. Internal Revenue Service is auditing the U.S. entities' tax year 2007. During the three months ended June 30, 2010, the Company and the Mexican tax authorities reached a favorable settlement of the Mexican subsidiary's 2003 through 2006 tax audit. The tax accruals for the ongoing audits as of June 30, 2010, reflect the balances as previously recorded by the ICT acquired subsidiaries and may be adjusted to reflect their fair value as of February 2, 2010. See Note 2 for further information.

(Unaudited)

Note 11 Earnings Per Share

Basic earnings per share are based on the weighted average number of common shares outstanding during the periods. Diluted earnings per share includes the weighted average number of common shares outstanding during the respective periods and the further dilutive effect, if any, from stock options, stock appreciation rights, restricted stock, common stock units and shares held in a rabbi trust using the treasury stock method. For the three and six months ended June 30, 2010, the impact of outstanding options to purchase shares of common stock and stock appreciation rights of 0.3 million shares and 0.1 million shares, respectively, and 0.2 million and 0.2 million for the comparable 2009 periods were antidilutive and were excluded from the calculation of diluted earnings per share.

The numbers of shares used in the earnings per share computations are as follows (in thousands):

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2010	2009	2010	2009
Basic:				
Weighted average common shares outstanding	46,601	40,654	45,604	40,632
Diluted:				
Dilutive effect of stock options, stock appreciation rights, restricted stock, common stock units and shares held in a rabbi trust	47	299	108	367
Total weighted average diluted shares outstanding	46,648	40,953	45,712	40,999

On August 5, 2002, the Company's Board of Directors authorized the Company to repurchase up to three million shares of its outstanding common stock. A total of 2.2 million shares have been repurchased under this program since inception. The shares are repurchased, from time to time, through open market purchases or in negotiated private transactions, and the purchases are based on factors, including but not limited to, the stock price and general market conditions. During the six months ended June 30, 2010, the Company repurchased 300 thousand common shares under the 2002 repurchase program at prices ranging from \$16.92 to \$17.60 per share for a total cost of \$5.2 million. During the six months ended June 30, 2009, the Company repurchased 224 thousand common shares under the 2002 repurchase program at prices ranging from \$13.72 to \$14.75 per share for a total cost of \$3.2 million.

Note 12 Segments and Geographic Information

The Company has two reportable segments, the Americas and EMEA which represented 82.2% and 17.8%, respectively, of the Company's consolidated revenues for the three months ended June 30, 2010 and 80.3% and 19.7%, respectively, of the Company's consolidated revenues for the six months ended June 30, 2010. In the comparable 2009 periods, the Americas and the EMEA region represented 71.3% and 28.7%, respectively, of the Company's consolidated revenues for the three months ended June 30, 2009, and 70.8% and 29.2%, respectively, of the Company's consolidated revenues for the six months ended June 30, 2009. Each segment is comprised of aggregated regional operating segments. The Company aligns its business into two segments to effectively manage the business and support the customer care needs of every client and to respond to the demands of the Company's global customers. The reportable segments consist of (1) the Americas, which includes the United States, Canada, Latin America, India and the Asia Pacific Rim, and provides outsourced customer contact management solutions (with an emphasis on technical support and customer service) and technical staffing and (2) EMEA, which includes Europe, the Middle East and Africa, and provides outsourced customer contact management solutions (with an emphasis on technical support and customer service) and fulfillment services. The sites within Latin America, India and the Asia Pacific Rim are included in the Americas segment given the nature of the business and client profile, which is primarily made up of

U.S. based companies that are using the Company's services in these locations to support their customer contact management needs.

(1) Other items (including intercompany eliminations, corporate costs, other income and expense, and income taxes) are shown for purposes of reconciling to the Company's consolidated totals as shown in the table above for the three and six months ended June 30, 2010 and 2009. The accounting policies of the reportable segments are the same as those described in Note 1 to the consolidated

financial statements in the Annual Report on Form 10-K for the year ended December 31, 2009.

Inter-segment revenues are not material to the Americas and EMEA segment results. The Company evaluates the performance of its geographic segments based on revenue and income (loss) from operations, and does not include segment assets or other income and expense items for management reporting purposes.

Note 13 Stock-Based Compensation

A detailed description of each of the Company’s stock-based compensation plans is provided below, including the 2001 Equity Incentive Plan, the 2004 Non-Employee Director Fee Plan and the Deferred Compensation Plan. Stock-based compensation expense related to these plans, which is included in General and administrative costs in the accompanying Condensed Consolidated Statements of Operations, was \$1.1 million and \$2.9 million for the three and six months ended June 30, 2010, respectively, and \$1.2 million and \$2.8 million for the comparable 2009 periods, respectively. The Company recognized income tax benefits related to the stock-based compensation of \$0.4 million and \$1.1 million during the three and six months ended June 30, 2010 respectively, and \$0.5 million and \$1.1 million for the comparable 2009 periods, respectively. The Company recognized a \$0.4 million benefit of tax deductions in excess of recognized tax benefits from the exercise of stock options for the six months ended June 30, 2010 and \$0.1 million for the six months ended June 30, 2009 (not material in the three months ended June 30, 2010 and 2009). There were no capitalized stock-based compensation costs at June 30, 2010 or December 31, 2009.

2001 Equity Incentive Plan The Company’s 2001 Equity Incentive Plan (the Plan), which is shareholder-approved, permits the grant of stock options, stock appreciation rights, restricted stock and other stock-based awards to certain employees of the Company, and certain non-employees who provide services to the Company, for up to 7.0 million shares of common stock, in order to encourage them to remain in the employment of or to diligently provide services to the Company and to increase their interest in the Company’s success.

Stock Options Options are granted at fair market value on the date of the grant and generally vest over one to four years. All options granted under the Plan expire if not exercised by the tenth anniversary of their grant date. The fair value of each stock option award is estimated on the date of grant using the Black-Scholes valuation model that uses

various assumptions. The fair value of the stock option awards is expensed on a straight-line basis over the vesting period of the award. Expected volatility is based on historical volatility of the Company's stock. The risk-free rate for periods within the contractual life of the award is based on the yield curve of a zero-coupon U.S. Treasury bond on the date the award is granted with a maturity equal to the expected term of the award. Exercises and forfeitures are estimated within the valuation model using employee termination and other historical data. The expected term of the stock option awards granted is derived from historical exercise experience under the Plan and represents the period of time that stock option awards granted are expected to be outstanding. No stock options were granted during the six months ended June 30, 2010 and 2009.

Sykes Enterprises, Incorporated and Subsidiaries
Notes to Condensed Consolidated Financial Statements
Six months ended June 30, 2010 and 2009

(Unaudited)

Note 13 Stock-Based Compensation (continued)**Stock Options (continued)**

The following table summarizes stock option activity under the Plan as of June 30, 2010, and changes during the six months then ended:

Stock Options	Shares (000s)	Weighted - Average Exercise Price	Weighted- Average Remaining Contractual Term (in years)	Aggregate Intrinsic Value (000s)
Outstanding at January 1, 2010	49	\$ 8.05		
Granted				
Exercised	(1)	19.01		
Forfeited or expired				
Outstanding at June 30, 2010	48	\$ 8.14	1.6	\$ 579
Vested or expected to vest at June 30, 2010	48	\$ 8.14	1.6	\$ 579
Exercisable at June 30, 2010	48	\$ 8.14	1.6	\$ 579

The intrinsic value of options exercised during the three and six months ended June 30, 2010 was not material. Options exercised in the comparable periods of 2009 had an intrinsic value of \$0.2 million and \$0.2 million, respectively. All options were fully vested as of December 31, 2006 and there is no unrecognized compensation cost as of June 30, 2010 related to these options granted under the Plan (the effect of estimated forfeitures is not material). Cash received from stock options exercised under this Plan for the six months ended June 30, 2009, was \$0.1 million (not material in the comparable 2010 period).

Stock Appreciation Rights The Company's Board of Directors, at the recommendation of the Compensation and Human Resource Development Committee (the Committee), approves awards of stock-settled stock appreciation rights (SARs) for eligible participants. SARs represent the right to receive, without payment to the Company, a certain number of shares of common stock, as determined by the Committee, equal to the amount by which the fair market value of a share of common stock at the time of exercise exceeds the grant price.

The SARs are granted at fair market value of the Company's common stock on the date of the grant and vest one-third on each of the first three anniversaries of the date of grant, provided the participant is employed by the Company on such date. The SARs have a term of 10 years from the date of grant. In the event of a change in control, the SARs will vest on the date of the change in control, provided that the participant is employed by the Company on the date of the change in control.

The SARs are exercisable within three months after the death, disability, retirement or termination of the participant's employment with the Company, if and to the extent the SARs were exercisable immediately prior to such termination. If the participant's employment is terminated for cause, or the participant terminates his or her own employment with the Company, any portion of the SARs not yet exercised (whether or not vested) terminates immediately on the date

of termination of employment.

Sykes Enterprises, Incorporated and Subsidiaries
Notes to Condensed Consolidated Financial Statements
Six months ended June 30, 2010 and 2009
(Unaudited)

Note 13 Stock-Based Compensation (continued)**Stock Appreciation Rights (continued)**

The fair value of each SAR is estimated on the date of grant using the Black-Scholes valuation model that uses various assumptions. The fair value of the SARs is expensed on a straight-line basis over the requisite service period. Expected volatility is based on historical volatility of the Company's stock. The risk-free rate for periods within the contractual life of the award is based on the yield curve of a zero-coupon U.S. Treasury bond on the date the award is granted with a maturity equal to the expected term of the award. Exercises and forfeitures are estimated within the valuation model using employee termination and other historical data. The expected term of the SARs granted represents the period of time the SARs are expected to be outstanding.

The following table summarizes the assumptions used to estimate the fair value of SARs granted during the six months ended June 30, 2010 and 2009:

	Six Months Ended	
	June 30,	
	2010	2009
Expected volatility	45%	47%
Weighted-average volatility	45%	47%
Expected dividends		
Expected term (in years)	4.4	4.0
Risk-free rate	2.4%	1.3%

The following table summarizes SARs activity under the Plan as of June 30, 2010, and changes during the six months then ended:

Stock Appreciation Rights	Shares	Weighted-	Weighted-	Aggregate
	(000s)	Average	Average	Intrinsic
		Exercise	Remaining	Value
		Price	Contractual	(000s)
			Term	
			(in years)	
Outstanding at January 1, 2010	421	\$		
Granted	130			
Exercised	(109)			
Forfeited or expired				
Outstanding at June 30, 2010	442	\$	8.5	\$
Vested or expected to vest at June 30, 2010	442	\$	8.5	\$
Exercisable at June 30, 2010	150	\$	7.5	\$

The weighted-average grant-date fair value of the SARs granted during the six months ended June 30, 2010 and 2009 was \$10.21 and \$7.42, respectively. Total intrinsic value of SARs exercised during the six months ended June 30, 2010 was \$0.6 million (none in the comparable 2009 period).

Table of Contents

Sykes Enterprises, Incorporated and Subsidiaries
Notes to Condensed Consolidated Financial Statements
Six months ended June 30, 2010 and 2009
(Unaudited)

Note 13 Stock-Based Compensation (continued)**Stock Appreciation Rights (continued)**

The following table summarizes the status of nonvested SARs under the Plan as of June 30, 2010, and changes during the six months then ended:

	Shares (In thousands)	Weighted- Average Grant-Date Fair Value
Nonvested Stock Appreciation Rights		
Nonvested at January 1, 2010	306	\$ 7.40
Granted	130	\$ 10.21
Vested	(143)	\$ 7.44
Forfeited or expired		\$
Nonvested at June 30, 2010	293	\$ 8.63

As of June 30, 2010, there was \$2.0 million of total unrecognized compensation cost, net of estimated forfeitures, related to nonvested stock appreciation rights granted under the Plan. This cost is expected to be recognized over a weighted-average period of 2.2 years. SARs that vested during the six months ended June 30, 2010 had a fair value of \$0.6 million (none in the comparable 2009 period).

Restricted Shares The Company's Board of Directors, at the recommendation of the Committee, approves awards of performance and employment-based restricted shares (Restricted Shares) for eligible participants. In some instances, where the issuance of Restricted Shares has adverse tax consequences to the recipient, the Board will instead issue restricted stock units (RSUs). The Restricted Shares are shares of the Company's common stock (or in the case of RSUs, represent an equivalent number of shares of the Company's common stock) which are issued to the participant subject to (a) restrictions on transfer for a period of time and (b) forfeiture under certain conditions. The performance goals, including revenue growth and income from operations targets, provide a range of vesting possibilities from 0% to 100% and will be measured at the end of the performance period. If the performance conditions are met for the performance period, the shares will vest and all restrictions on the transfer of the Restricted Shares will lapse (or in the case of RSUs, an equivalent number of shares of the Company's common stock will be issued to the recipient). The Company recognizes compensation cost, net of estimated forfeitures based on the fair value (which approximates the current market price) of the Restricted Shares (and RSUs) on the date of grant ratably over the requisite service period based on the probability of achieving the performance goals.

Changes in the probability of achieving the performance goals from period to period will result in corresponding changes in compensation expense. The employment-based restricted shares vest one-third on each of the first three anniversaries of the date of grant, provided the participant is employed by the Company on such date. In the event of a change in control (as defined in the Plan) prior to the date the Restricted Shares vest, all of the Restricted Shares will vest and the restrictions on transfer will lapse with respect to such vested shares on the date of the change in control, provided that participant is employed by the Company on the date of the change in control.

If the participant's employment with the Company is terminated for any reason, either by the Company or participant, prior to the date on which the Restricted Shares have vested and the restrictions have lapsed with respect to such vested shares, any Restricted Shares remaining subject to the restrictions (together with any dividends paid thereon) will be forfeited, unless there has been a change in control prior to such date.

The weighted-average grant-date fair value of the Restricted Shares/Units granted during the six months ended June 30, 2010 and 2009 was \$23.88 and \$19.69, respectively.

35

Table of Contents

Sykes Enterprises, Incorporated and Subsidiaries
Notes to Condensed Consolidated Financial Statements
Six months ended June 30, 2010 and 2009
(Unaudited)

Note 13 Stock-Based Compensation (continued)**Restricted Shares (continued)**

The following table summarizes the status of nonvested Restricted Shares/Units under the Plan as of June 30, 2010, and changes during the six months then ended:

Nonvested Restricted Shares / Units	Shares (In thousands)	Weighted- Average Grant-Date Fair Value
Nonvested at January 1, 2010	581	\$ 18.36
Granted	184	\$ 23.88
Vested	(183)	\$ 17.69
Forfeited or expired		\$
Nonvested at June 30, 2010	582	\$ 20.32

As of June 30, 2010, based on the probability of achieving the performance goals, there was \$8.5 million of total unrecognized compensation cost, net of estimated forfeitures, related to nonvested Restricted Shares/Units granted under the Plan. This cost is expected to be recognized over a weighted-average period of 2.2 years. The Restricted Shares / Units that vested during the six months ended June 30, 2010 and 2009 had a fair value of \$4.3 million and \$3.2 million, respectively, as of the vesting date.

Other Awards The Company's Board of Directors, at the recommendation of the Committee, approves awards of Common Stock Units (CSUs) for eligible participants. A CSU is a bookkeeping entry on the Company's books that records the equivalent of one share of common stock. If the performance goals described under Restricted Shares in this Note 13 are met, performance-based CSUs will vest on the third anniversary of the grant date. The Company recognizes compensation cost, net of estimated forfeitures, based on the fair value (which approximates the current market price) of the CSUs on the date of grant ratably over the requisite service period based on the probability of achieving the performance goals. Changes in the probability of achieving the performance goals from period to period will result in corresponding changes in compensation expense. The employment-based CSUs vest one-third on each of the first three anniversaries of the date of grant, provided the participant is employed by the Company on such date. On the date each CSU vests, the participant will become entitled to receive a share of the Company's common stock and the CSU will be canceled.

The following table summarizes CSUs activity under the Plan as of June 30, 2010, and changes during the six months then ended:

Nonvested Common Stock Units	Shares (In thousands)	Weighted- Average Grant-Date Fair Value
Nonvested at January 1, 2010	68	\$ 18.37
Granted	22	\$ 23.88

Vested	(24)	\$	17.70
Forfeited or expired		\$	
Nonvested at June 30, 2010	66	\$	20.46

Sykes Enterprises, Incorporated and Subsidiaries
Notes to Condensed Consolidated Financial Statements
Six months ended June 30, 2010 and 2009

(Unaudited)

Note 13 Stock-Based Compensation (continued)**Other Awards (continued)**

As of June 30, 2010, there was \$0.6 million of total unrecognized compensation costs, net of estimated forfeitures, related to nonvested CSUs granted under the Plan. This cost is expected to be recognized over a weighted-average period of 2.1 years. The fair value of the CSUs that vested during the six months ended June 30, 2010 and 2009 was \$0.6 million and \$0.4 million, respectively, as of the vesting date. Until a CSU vests, the participant has none of the rights of a shareholder with respect to the CSU or the common stock underlying the CSU. CSUs are not transferable.

2004 Non-Employee Director Fee Plan The Company's 2004 Non-Employee Director Fee Plan (the "2004 Fee Plan"), which is shareholder-approved, replaced and superseded the 1996 Non-Employee Director Fee Plan (the "1996 Fee Plan") and was used in lieu of the 2004 Nonemployee Director Stock Option Plan (the "2004 Stock Option Plan"). Prior to amendments adopted by the Board of Directors in August 2008 which are described below, the 2004 Fee Plan provided that all new non-employee directors joining the Board would receive an initial grant of common stock units (CSUs) on the date the new director is appointed or elected, the number of which will be determined by dividing a dollar amount to be determined from time to time by the Board (\$30,000 in 2008) by an amount equal to 110% of the average closing prices of the Company's common stock for the five trading days prior to the date the director is elected. A CSU is a bookkeeping entry on the Company's books that records the equivalent of one share of common stock. Prior to amendments to the 2004 Fee Plan adopted by the Board of Directors in March 2008 which are described below, the initial grant of CSUs vested in three equal installments, one-third on the date of each of the following three annual shareholders' meetings, and all unvested and unearned CSUs automatically vested upon the termination of a director's service as a director, whether by reason of death, retirement, resignation, removal or failure to be reelected at the end of his or her term.

In March 2008, the 2004 Fee Plan was amended by the Board, upon the recommendation of the Compensation and Human Resource Development Committee, to provide that, beginning with grants in 2008, instead of an award of CSUs, a new non-employee director would receive an award of shares of common stock. The initial grant of stock to directors joining the Board would vest and be earned in twelve equal quarterly installments over the following three years, and all unvested and unearned stock will lapse in the event the person ceases to serve as a director of the Company. Until a quarterly installment of stock vests and becomes payable, the director has none of the rights of a shareholder with respect to the unearned stock grants. In August 2008, upon the recommendation of the Compensation and Human Resource Development Committee, the Board of Directors amended the 2004 Fee Plan to provide that the initial grant of shares to directors joining the Board will be the number determined by dividing \$60,000 by an amount equal to the closing price of the Company's common stock on the day preceding the new director's election. The increase in the amount of the share award was approved by the shareholders at the 2009 Annual Shareholders Meeting.

The 2004 Fee Plan also provides that each non-employee director will receive, on the day after the annual shareholders meeting, an annual retainer for service as a non-employee director, the amount of which shall be determined from time to time by the Board. Prior to the August 2008 amendments to the 2004 Fee Plan, the annual retainer was \$50,000, which was paid 75% in CSUs (\$37,500) and 25% in cash (\$12,500). The number of CSUs to be granted was determined by dividing the amount of the annual retainer by an amount equal to 105% of the average of the closing prices for the Company's common stock on the five trading days preceding the award date (the day after the annual meeting). Prior to the March 2008 amendments to the 2004 Fee Plan, the annual retainer grant of CSUs vested in two equal installments, one-half on the date of each of the following two annual shareholders' meetings, and all CSUs automatically vested upon the termination of a director's service as a director, whether by reason of death, retirement, resignation, removal or failure to be reelected at the end of his or her term.

Sykes Enterprises, Incorporated and Subsidiaries
Notes to Condensed Consolidated Financial Statements
Six months ended June 30, 2010 and 2009

(Unaudited)

Note 13 Stock-Based Compensation (continued)**2004 Non-Employee Director Fee Plan (continued)**

As part of the amendments to the 2004 Fee Plan in March 2008, the 2004 Fee Plan was amended to provide that, beginning with grants in 2008, the annual retainer grants of stock to directors would vest and be earned in eight equal quarterly installments, with the first installment being made on the day following the annual meeting of shareholders, and the remaining seven installments to be made on each third monthly anniversary of such date thereafter. In the event a person ceases to serve as a director of the Company, the award lapses with respect to all unvested stock, and such unvested stock is forfeited.

In August 2008, as part of the amendments to the 2004 Fee Plan, the 2004 Fee Plan was amended to increase the amount and alter the form of the annual retainer award. The equity portion of the award is now payable in shares of common stock, rather than CSUs, and the number of shares to be issued is now determined by dividing the dollar amount of the annual retainer to be paid in shares by an amount equal to the closing price of a share of the Company's common stock on the date of the Company's annual meeting of shareholders. Effective retroactively to May 2008, the cash portion of the annual retainer was increased from \$12,500 to \$32,500, and as approved by the shareholders at the 2009 Annual Shareholders Meeting, the equity portion of the annual retainer award was increased from \$37,500 to \$45,000. This resulted in the annual retainer award being set at \$77,500, effective as of May 22, 2008. In addition to the annual retainer award, the 2004 Fee Plan also provides for additional annual cash awards to non-employee directors who serve on board committees. These annual cash awards for committee members also were increased in August 2008, effective retroactively to May 2008. The additional annual cash award for the Chairperson of the Audit Committee was increased from \$10,000 to \$20,000, and Audit Committee members' awards were increased from a per meeting fee of \$1,250 to an annual fee award of \$10,000. The annual cash awards for the Chairpersons of the Compensation and Human Resource Development Committee, Finance Committee and Nominating and Corporate Governance Committee were each increased from \$5,000 to \$12,500, and the awards for members of such committees were increased from a per meeting fee of \$1,250 to an annual award of \$7,500. The additional annual cash award in the amount of \$100,000 for a non-employee Chairman of the Board was not changed. These additional cash awards also vest in eight equal quarterly installments, one-eighth on the day following the annual meeting of shareholders, and one eighth on each third monthly anniversary of such date thereafter, and the award lapses with respect to all unpaid cash in the event the non-employee director ceases to be a director of the Company, and such unvested cash is forfeited.

The following table summarizes the status of the nonvested CSUs and share awards under the 2004 Fee Plan as of June 30, 2010, and changes during the six months then ended:

Nonvested Common Stock Units / Share Awards	Shares (In thousands)	Weighted- Average Grant-Date Fair Value
Nonvested at January 1, 2010	33	\$ 16.98
Granted	23	\$ 19.11

Forfeited or expired		\$
Nonvested at June 30, 2010	31	\$ 18.34

Table of Contents

Sykes Enterprises, Incorporated and Subsidiaries
Notes to Condensed Consolidated Financial Statements
Six months ended June 30, 2010 and 2009

(Unaudited)

Note 13 Stock-Based Compensation (continued)**2004 Non-Employee Director Fee Plan (continued)**

CSUs and share awards that vested during the six months ended June 30, 2010 and 2009 had a fair value of \$0.3 million and \$0.2 million as of the vesting date, respectively.

Compensation expense for CSUs granted after the adoption of ASC 718 on January 1, 2006 and before the 2004 Fee Plan amendment in March 2008 (as previously discussed), was recognized immediately on the date of grant since these grants automatically vested upon termination of a Director's service, whether by death, retirement, resignation, removal or failure to be reelected at the end of his or her term. However, compensation expense for CSUs granted before adoption of ASC 718 was recognized over the requisite service period, or nominal vesting period of two to three years using the intrinsic value method. As of June 30, 2010, there was no unrecognized compensation cost, net of estimated forfeitures, which relates to nonvested CSUs granted under the 2004 Fee Plan before adoption of ASC 718. As of June 30, 2010, there was \$0.5 million of total unrecognized compensation cost, net of estimated forfeitures, related to nonvested CSUs and share awards granted since March 2008 under the Plan. This cost is expected to be recognized over a weighted-average period of 1.4 years.

Deferred Compensation Plan The Company's non-qualified Deferred Compensation Plan (the Deferred Compensation Plan), which is not shareholder-approved, was adopted by the Board of Directors effective December 17, 1998 and amended on March 29, 2006 and May 23, 2006. It provides certain eligible employees the ability to defer any portion of their compensation until the participant's retirement, termination, disability or death, or a change in control of the Company. Using the Company's common stock, the Company matches 50% of the amounts deferred by certain senior management participants on a quarterly basis up to a total of \$12,000 per year for the president and senior vice presidents and \$7,500 per year for vice presidents (participants below the level of vice president are not eligible to receive matching contributions from the Company). Matching contributions and the associated earnings vest over a seven year service period. Deferred compensation amounts used to pay benefits, which are held in a rabbi trust, include investments in various mutual funds and shares of the Company's common stock (See Note 6, Investments Held in Rabbi Trusts). As of June 30, 2010 and December 31, 2009, liabilities of \$2.7 million and \$2.4 million, respectively, of the Deferred Compensation Plan were recorded in Accrued employee compensation and benefits in the accompanying Condensed Consolidated Balance Sheets.

Additionally, the Company's common stock match associated with the Deferred Compensation Plan, with a carrying value of approximately \$0.9 million and \$0.8 million as of June 30, 2010 and December 31, 2009, respectively, is included in Treasury stock in the accompanying Condensed Consolidated Balance Sheets.

The weighted-average grant-date fair value of common stock awarded during the six months ended June 30, 2010 and 2009 was \$20.28 and \$16.91, respectively.

The following table summarizes the status of the nonvested common stock issued under the Deferred Compensation Plan as of June 30, 2010, and changes during the six months then ended:

	Shares (In thousands)	Weighted- Average Grant-Date Fair Value
Nonvested Common Stock		
Nonvested at January 1, 2010	6	\$ 17.76
Granted	7	\$ 20.28
Vested	(6)	\$ 19.15

Six months ended June 30, 2010 and 2009
(Unaudited)

Note 13 Stock-Based Compensation (continued)**Deferred Compensation Plan (continued)**

As of June 30, 2010, there was \$0.1 million of total unrecognized compensation cost, net of estimated forfeitures, related to nonvested common stock granted under the Deferred Compensation Plan. This cost is expected to be recognized over a weighted-average period of 4.0 years. The total fair value of the common stock vested during the six months ended June 30, 2010 and 2009 was \$0.1 million and \$0.1 million, respectively.

There were no cash settlements related to the Company's obligation under the Deferred Compensation Plan for the six months ended June 30, 2010 and 2009.

Note 14 Defined Benefit Pension Plan and Post-Retirement Benefits**Defined Benefit Pension Plan**

The Company sponsors a non-contributory defined benefit pension plan (the Pension Plan) for its covered employees in the Philippines. The Pension Plan provides defined benefits based on years of service and final salary. All permanent employees meeting the minimum service requirement are eligible to participate in the Pension Plan. As of June 30, 2010, the Pension Plan is unfunded. The Company does not expect to make cash contributions to its Pension Plan during 2010.

The following table provides information about net periodic benefit cost for the Pension Plan for the three and six months ended June 30, 2010 and 2009 (in thousands):

	Three Months Ended		Six Months Ended	
	June 30,		June 30,

Post-Retirement Benefits

In 1996, the Company entered into a split dollar life insurance arrangement to benefit the former Chairman and Chief Executive Officer of the Company. Under the terms of the arrangement, the Company retained a collateral interest in the policy to the extent of the premiums paid by the Company. Effective January 1, 2008, the Company recorded a \$0.5 million liability for a post-retirement benefit obligation related to this arrangement, which was accounted for as a reduction to the January 1, 2008 balance of retained earnings in accordance with ASC 715-60. The post-retirement benefit obligation of \$0.2 million and \$0.3 million was included in Other long-term liabilities as of June 30, 2010 and December 31, 2009, respectively, in the accompanying Condensed Consolidated Balance Sheets. The Company has an unrealized gain of \$0.4 million and \$0.3 million as of June 30, 2010 and December 31, 2009, respectively, due to the change in discount rates related to the post retirement obligation, which was recorded in AOCI in the accompanying Condensed Consolidated Balance Sheets.

In connection with the acquisition of ICT in February 2010, the Company assumed ICT's defined benefit obligations and related plan assets for the qualified pension plan. Under the ICT trustee profit sharing plan (Section 401(k)) for all qualified employees, as defined, the Company matches 50% of employee contributions, up to a maximum of 6% of the employee's compensation; however, it may also make additional contributions to the plan based upon profit levels and other factors. No such additional contributions were made during the six months ended June 30, 2010. Employees are fully vested in their contributions, while full vesting in the Company's contributions occurs upon death, disability, retirement or completion of five years of service.

(Unaudited)

Note 15 Commitments and Loss Contingency

During the three months ended June 30, 2010, the Company entered into an amended lease agreement for the Sykes corporate headquarters located in Tampa, Florida. The lease is for an additional non-cancelable six-year period with one five-year renewal option. The following is a schedule of the future minimum lease payments under this lease agreement (in thousands):

	Total Amount
2010 (remaining six months)	\$ 139
2011	1,017
2012	1,193
2013	1,229
2014	1,266
2015	1,304
2016 and thereafter	667
Total minimum payments required	\$ 6,815

In connection with the acquisition of ICT in February 2010, the Company assumed leases of equipment and buildings under operating leases having original terms ranging from one to fifteen years, some with options to cancel at varying points during the lease. The building leases contain up to two five-year renewal options. Rental expense under these operating leases for the three and six months ended June 30, 2010 (since February 2, 2010, the acquisition date of ICT) were \$5.9 million and \$9.7 million, respectively. The following is a schedule of future minimum rental payments under ICT's operating leases having a remaining non-cancelable term in excess of one year subsequent to June 30, 2010 (in thousands):

	Total Amount
2010 (remaining six months)	\$ 10,500
2011	18,400
2012	11,600
2013	6,700
2014	4,500
2015	3,100
2016 and thereafter	3,300
Total minimum payments required	\$ 58,100

The Company also assumed agreements that ICT had with third-party vendors in the ordinary course of business to purchase goods and services used in its normal operations. These agreements, which are not cancelable without penalty, generally range from one to three year periods and contain fixed or minimum annual commitments. Certain of these agreements allow for renegotiation of the minimum annual commitments based on certain conditions. The following is a schedule of future minimum purchases remaining under the ICT agreements as of June 30, 2010 (in

thousands):

	Total Amount
2010 (remaining six months)	\$ 2,600
2011	5,000
2012	2,900
Total minimum payments required	\$ 10,500

Six months ended June 30, 2010 and 2009

(Unaudited)

Note 15 Commitments and Loss Contingency (continued)

Except for the contractual obligations mentioned above and the borrowings discussed in Note 8, there has not been any material change to the Company's outstanding contractual obligations from the disclosure in the Company's Annual Report on Form 10-K for the year ended December 31, 2009.

The Company has previously disclosed regulatory sanctions assessed against our Spanish subsidiary relating to the alleged inappropriate acquisition of personal information in connection with two outbound client contracts. In order to appeal these claims, the Company issued a bank guarantee of \$0.9 million. During 2008, \$0.4 million of the bank guarantee was returned to the Company. The remaining balance of the bank guarantee of \$0.5 million is included as restricted cash in "Deferred charges and other assets" in the accompanying Condensed Consolidated Balance Sheets as of June 30, 2010 and December 31, 2009. The Company will continue to vigorously defend these matters. However, due to further progression of several of these claims within the Spanish court system, and based upon opinion of legal counsel regarding the likely outcome of several of the matters before the courts, the Company accrued a liability in the amount of \$1.3 million as of June 30, 2010 and December 31, 2009 under ASC 450 *Contingencies*, because management now believes that a loss is probable and the amount of the loss can be reasonably estimated as to three of the subject claims. There is currently one other related claim which is under appeal, but the Company has not accrued any amounts related to that claim because management does not currently believe a loss is probable, and it is not currently possible to reasonably estimate the amount of any loss related to that claim.

Note 16 Related Party Transactions

The Company paid John H. Sykes, the Company's founder, former Chairman and Chief Executive Officer and current major shareholder of the Company and the father of Charles Sykes, President and Chief Executive Officer of the Company, less than \$0.1 million for the use of his private jet during the three and six months ended June 30, 2010, which is based on two times fuel costs and other actual costs incurred for each trip (none in the comparable 2009 period).

The Company paid John H. Sykes \$0.1 million, which represents the cost for the purchase of his share of the refundable deposit on a sports stadium suite, during the three and six months ended June 30, 2010 (none in the comparable 2009 period).

In January 2008, the Company entered into a lease for a customer contact management center located in Kingstree, South Carolina. The Landlord, Kingstree Office One, LLC, is an entity controlled by John H. Sykes. The lease payments on the 20 year lease were negotiated at or below market rates, and the lease is cancellable at the option of the Company. There are significant penalties for early cancellation which decrease over time. The Company paid \$0.1 million and \$0.2 million during the three and six months ended June 30, 2010 and \$0.1 million and \$0.2 million during the three and six months ended June 30, 2009, respectively, under the terms of the lease.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of
Sykes Enterprises, Incorporated
400 North Ashley Drive
Tampa, FL 33602

We have reviewed the accompanying condensed consolidated balance sheet of Sykes Enterprises, Incorporated and subsidiaries (the Company) as of June 30, 2010, and the related condensed consolidated statements of operations for the three-month and six-month periods ended June 30, 2010 and 2009, of changes in shareholders' equity for the six-month periods ended June 30, 2010 and 2009 and the six-month period ended December 31, 2009, and of cash flows for the six-month periods ended June 30, 2010 and 2009. These interim financial statements are the responsibility of the Company's management.

We conducted our reviews in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to such condensed consolidated interim financial statements for them to be in conformity with accounting principles generally accepted in the United States of America.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet of the Company as of December 31, 2009, and the related consolidated statements of operations, changes in shareholders' equity, and cash flows for the year then ended (not presented herein); and in our report dated March 1, 2010, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of December 31, 2009 is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

Item 2 Management's Discussion and Analysis of Financial Condition and Results of Operations

This discussion should be read in conjunction with the condensed consolidated financial statements and notes included elsewhere in this report and the consolidated financial statements and notes in the Sykes Enterprises, Incorporated (Sykes, our, we or us) Annual Report on Form 10-K for the year ended December 31, 2009, as filed with the Securities and Exchange Commission (SEC).

Our discussion and analysis may contain forward-looking statements (within the meaning of the Private Securities Litigation Reform Act of 1995) that are based on current expectations, estimates, forecasts, and projections about Sykes, our beliefs, and assumptions made by us. In addition, we may make other written or oral statements, which constitute forward-looking statements, from time to time. Words such as believe, estimate, project, expect, intend, may, anticipate, plan, seek, variations of such words, and similar expressions are intended to identify such forward-looking statements. Similarly, statements that describe our future plans, objectives, or goals also are forward-looking statements. These statements are not guarantees of future performance and are subject to a number of risks and uncertainties, including those discussed below and elsewhere in this report. Our actual results may differ materially from what is expressed or forecasted in such forward-looking statements, and undue reliance should not be placed on such statements. All forward-looking statements are made as of the date hereof, and we undertake no obligation to update any such forward-looking statements, whether as a result of new information, future events or otherwise.

Factors that could cause actual results to differ materially from what is expressed or forecasted in such forward-looking statements include, but are not limited to: (i) the impact of economic recessions in the U.S. and other parts of the world, (ii) fluctuations in global business conditions and the global economy, (iii) currency fluctuations, (iv) the timing of significant orders for our products and services, (v) variations in the terms and the elements of services offered under our standardized contract including those for future bundled service offerings, (vi) changes in applicable accounting principles or interpretations of such principles, (vii) difficulties or delays in implementing our bundled service offerings, (viii) failure to achieve sales, marketing and other objectives, (ix) construction delays of new or expansion of existing customer contact management centers, (x) delays in our ability to develop new products and services and market acceptance of new products and services, (xi) rapid technological change, (xii) loss or addition of significant clients, (xiii) political and country-specific risks inherent in conducting business abroad, (xiv) our ability to attract and retain key management personnel, (xv) our ability to continue the growth of our support service revenues through additional technical and customer contact management centers, (xvi) our ability to further penetrate into vertically integrated markets, (xvii) our ability to expand our global presence through strategic alliances and selective acquisitions, (xviii) our ability to continue to establish a competitive advantage through sophisticated technological capabilities, (xix) the ultimate outcome of any lawsuits, (xx) our ability to recognize deferred revenue through delivery of products or satisfactory performance of services, (xxi) our dependence on trend toward outsourcing, (xxii) risk of interruption of technical and customer contact management center operations due to such factors as fire, earthquakes, inclement weather and other disasters, power failures, telecommunication failures, unauthorized intrusions, computer viruses and other emergencies, (xxiii) the existence of substantial competition, (xxiv) the early termination of contracts by clients, (xxv) the ability to obtain and maintain grants and other incentives (tax or otherwise), (xxvi) the potential of cost savings/synergies associated with the ICT acquisition not being realized, or not being realized within the anticipated time period, (xxvii) the potential loss of key clients related to the ICT acquisition, (xxviii) risks related to the integration of the businesses of SYKES and ICT and (xxix) other risk factors which are identified in our most recent Annual Report on Form 10-K, including factors identified under the headings Business, Risk Factors and Management's Discussion and Analysis of Financial Condition and Results of Operations.

Three Months Ended June 30, 2010 Compared to Three Months Ended June 30, 2009

Revenues

For the three months ended June 30, 2010, we recognized consolidated revenues of \$299.2 million, an increase of \$90.3 million, or 43.3%, from \$208.9 million of consolidated revenues for the comparable 2009 period. Excluding ICT revenues of \$98.5 million in the second quarter of 2010, revenues decreased \$8.2 million for the three months ended June 30, 2010 compared to the same period in 2009.

Revenues from the Americas segment, which includes the United States, Canada, Latin America, India and the Asia Pacific Rim, represented 82.2%, or \$246.0 million, for the three months ended June 30, 2010, compared to 71.3%, or \$149.0 million, for the comparable 2009 period. Revenues from the EMEA segment, including Europe, the Middle East and Africa, represented 17.8%, or \$53.2 million, for the three months ended June 30, 2010, compared to 28.7%, or \$59.9 million, for the comparable 2009 period.

The increase in the Americas revenue was \$97.0 million, or 65.1%, for the three months ended June 30, 2010, compared to the same period in 2009. Excluding the ICT revenues of \$98.1 million, the Americas revenue for the three months ended June 30, 2010, compared to the same period in 2009 decreased \$1.1 million. The \$1.1 million decrease reflects a \$10.9 million decrease in revenues principally due to expiration of certain client programs and lower than forecasted demand within certain clients, partially offset by a positive foreign currency translation impact of \$6.3 million and favorable foreign currency hedging fluctuations of \$3.5 million. Revenues from our offshore

operations represented 49.1%, or 56.9% excluding ICT revenues, of Americas revenues for the three months ended June 30, 2010, compared to 60.2% for the comparable 2009 period.

The decrease in EMEA revenues of \$6.7 million, or 11.2%, for the three months ended June 30, 2010, compared to the same period in 2009, reflects a decrease of \$4.8 million due largely to client program expirations, near-shore migration to lower cost geographies in Egypt, Romania and Germany and sustained weakness within the technology and communication verticals and a \$2.3 million negative foreign currency translation impact, partially offset by a \$0.4 million contribution in revenues from ICT. Excluding the \$2.3 million negative foreign currency translation

Table of Contents

Sykes Enterprises, Incorporated and Subsidiaries
Form 10-Q

For the Quarter Ended June 30, 2010

impact, EMEA's revenue decreased 7.4% for the three months ended June 30, 2010 compared with the same period in 2009.

Direct Salaries and Related Costs

Direct salaries and related costs increased \$63.5 million, or 47.5%, to \$197.2 million for the three months ended June 30, 2010, from \$133.7 million in the comparable 2009 period. This increase includes ICT direct salaries and related costs of \$63.1 million in the second quarter of 2010.

On a reporting segment basis, direct salaries and related costs from the Americas segment increased \$65.2 million, or 72.2%, to \$155.4 million for the three months ended June 30, 2010 from \$90.2 million for the comparable 2009 period. Direct salaries and related costs from the EMEA segment decreased \$1.7 million, or 3.8%, to \$41.8 million for the three months ended June 30, 2010 from \$43.5 million for the comparable 2009 period. While changes in foreign currency exchange rates positively impacted revenues in the Americas, they negatively impacted direct salaries and related costs in 2010 compared to the same period in 2009 by \$3.7 million. While changes in foreign currency exchange rates negatively impacted revenues in the EMEA, they positively impacted direct salaries and related costs in 2010 compared to the same period in 2009 by \$2.0 million.

In the Americas segment, as a percentage of revenues, direct salaries and related costs increased to 63.2% for the three months ended June 30, 2010 from 60.6% in the comparable 2009 period. This increase of 2.6%, as a percentage of revenues, was primarily attributable to higher compensation costs of 3.3% (primarily related to lower than forecasted demand within certain clients without a commensurate reduction in labor costs and wage increases in certain geographies) and higher communication costs of 0.8%, partially offset by lower auto tow claim costs of 1.1%, lower travel costs of 0.2% and lower other costs of 0.2%.

In the EMEA segment, as a percentage of revenues, direct salaries and related costs increased to 78.6% for the three months ended June 30, 2010 from 72.6% in the comparable 2009 period. This increase of 6.0%, as a percentage of revenues, was primarily attributable to higher compensation costs of 4.8% (primarily related to near-shore migration to new facilities in Egypt, Romania and Germany and the corresponding termination and duplicative costs), higher billable supply costs of 0.4%, higher recruiting costs of 0.3%, higher fulfillment material costs of 0.2% and higher other costs of 0.3%.

General and Administrative

General and administrative expenses increased \$36.8 million, or 65.2%, to \$93.3 million for the three months ended June 30, 2010, from \$56.5 million in the comparable 2009 period. This increase includes ICT general and administrative expenses of \$35.5 million in the second quarter of 2010.

On a reporting segment basis, general and administrative expenses from the Americas segment increased \$33.9 million, or 105.4%, to \$66.0 million for the three months ended June 30, 2010 from \$32.1 million for the comparable 2009 period. General and administrative expenses from the EMEA segment increased \$0.6 million, or 4.2%, to \$15.3 million for the three months ended June 30, 2010 from \$14.7 million for the comparable 2009 period. While changes in foreign currency exchange rates positively impacted revenues in the Americas, they negatively impacted general and administrative expenses in 2010 compared to the same period in 2009 by approximately \$1.1 million. While changes in foreign currency exchange rates negatively impacted revenues in EMEA, they positively impacted general and administrative expenses in 2010 compared to the same period in 2009 by approximately \$0.6 million. Corporate general and administrative expenses increased \$2.3 million, or 23.7%, to \$12.0 million for the three months ended June 30, 2010 from \$9.7 million in the comparable 2009 period. This increase was primarily attributable to ICT acquisition-related costs, comprised of \$1.4 million in severance costs and \$1.0 million in transaction and integration costs, higher seminar costs of \$0.4 million, and higher facility related costs of \$0.3 million, partially offset by lower accounting fees costs of \$0.4 million, lower legal and professional fees of \$0.2 million and lower other costs of \$0.2 million.

In the Americas segment, as a percentage of revenues, general and administrative expenses increased to 26.8% for the three months ended June 30, 2010 from 21.6% in the comparable 2009 period. This increase of 5.2%, as a

Table of Contents

Sykes Enterprises, Incorporated and Subsidiaries
Form 10-Q

For the Quarter Ended June 30, 2010

percentage of revenues, was primarily attributable to higher facility related costs of 2.0%, higher depreciation and amortization costs of 1.8% higher compensation costs of 0.8%, higher equipment and maintenance costs of 0.8% and higher consulting costs of 0.2%, partially offset by lower other costs of 0.4%.

In the EMEA segment, as a percentage of revenues, general and administrative expenses increased to 28.8% for the three months ended June 30, 2010 from 24.5% in the comparable 2009 period. This increase of 4.3%, as a percentage of revenues, was primarily attributable to the new facilities in Egypt, Romania and Germany, including higher facility related costs of 1.2%, higher compensation costs of 1.0%, higher travel costs of 0.4%, higher depreciation and amortization costs of 0.3%, higher taxes (other than income taxes) of 0.3%, higher software maintenance costs of 0.2%, higher communications costs of 0.2%, and higher other costs of 0.7%.

Impairment Loss on Goodwill and Intangibles

In the Americas segment, we recorded an impairment loss of \$1.6 million on the goodwill and intangibles during the three months ended June 30, 2009 (none in the comparable 2010 period) related to the March 2005 acquisition of Kelly, Luttmer & Associates Limited (KLA).

Interest Income

Interest income was \$0.3 million for the three months ended June 30, 2010, compared to \$0.6 million for the comparable 2009 period, reflecting lower average rates earned on lower average balances of interest-bearing investments in cash and cash equivalents.

Interest Expense

Interest expense was \$1.6 million for the three months ended June 30, 2010 compared to \$0.2 million for the comparable 2009 period, an increase of \$1.4 million reflecting interest and fees on higher average levels of borrowings related to the acquisition of ICT.

Other Income (Expense)

Other expense, net, was \$3.8 million for the three months ended June 30, 2010 compared to other income, net of \$0.3 million for the comparable 2009 period. The net increase in other expense, net, of \$4.1 million was primarily attributable to an increase of \$3.6 million in realized and unrealized foreign currency transaction losses, net of gains. Other income (expense) excludes the cumulative translation effects and unrealized gains (losses) on financial derivatives that are included in Accumulated other comprehensive income (loss) (AOCI) in shareholders' equity in the accompanying Condensed Consolidated Balance Sheets.

Provision for Income Taxes

The recognition of income tax expense of \$1.0 million for the three months ended June 30, 2010 was based upon pre-tax book income of \$3.5 million, compared to a provision for income taxes of \$1.3 million for the three months ended June 30, 2009, based upon pre-tax book income of \$15.6 million. The effective tax rate for the three months ended June 30, 2010 was 27.5% compared to an effective tax rate of 8.1% for the comparable 2009 period. This increase in the effective tax rate was primarily due to the tax impact related to our 2009 decision to repatriate \$85 million in foreign earnings and the recording of a valuation allowance on foreign tax credits. These were partially offset by the recognition of a tax benefit related to a favorable audit settlement in Mexico. The effective tax rate is also affected by permanent differences and losses in jurisdiction for which tax benefits can be recognized, foreign withholding and other taxes, accrued interest and penalties and foreign income tax rate differentials.

Net Income

As a result of the foregoing, we reported income from operations for the three months ended June 30, 2010 of \$8.7 million, compared to \$17.1 million in the comparable 2009 period. This decrease of \$8.4 million was principally attributable to a \$63.5 million increase in direct salaries and related costs and a \$36.8 million increase in general and

Table of Contents

Sykes Enterprises, Incorporated and Subsidiaries
Form 10-Q

For the Quarter Ended June 30, 2010

administrative expenses, partially offset by a \$90.3 million increase in revenues and a \$1.6 million decrease in impairment loss. This \$8.4 million decrease, \$4.1 million increase in other expense, net, \$0.3 million decrease in interest income, \$1.4 million increase in interest expense, partially offset by a favorable \$0.3 million net change in tax provision and a \$2.1 million impairment loss on investment in SHPS in 2009 resulted in net income of \$2.5 million for the three months ended June 30, 2010, a decrease of \$11.8 million compared to the same period in 2009.

Six Months Ended June 30, 2010 Compared to Six Months Ended June 30, 2009

Revenues

For the six months ended June 30, 2010, we recognized consolidated revenues of \$574.4 million, an increase of \$162.3 million, or 39.4%, from \$412.1 million of consolidated revenues for the comparable 2009 period. Excluding ICT revenues of \$163.8 million, revenues decreased \$1.5 million for the six months ended June 30, 2010 compared to the same period in 2009.

On a geographic segmentation basis, revenues from the Americas region, including the United States, Canada, Latin America, India and the Asia Pacific Rim, represented 80.3%, or \$461.5 million, for the six months ended June 30, 2010, compared to 70.8%, or \$291.7 million, for the comparable 2009 period. Revenues from the EMEA region, including Europe, the Middle East and Africa, represented 19.7%, or \$112.9 million, for the six months ended June 30, 2010, compared to 29.2%, or \$120.4 million, for the comparable 2009 period.

The increase in the Americas revenue was \$169.8 million, or 58.2%, for the six months ended June 30, 2010, compared to the same period in 2009. Excluding the ICT revenues of \$163.2 million, the Americas revenue for the six months ended June 30, 2010, compared to the same period in 2009 increased \$6.6 million. The \$6.6 million increase reflects a positive foreign currency translation impact of \$14.6 million and a favorable foreign currency hedging fluctuation of \$7.5 million, partially offset by a \$15.5 million decrease in revenues principally due to expiration of certain client programs and lower than forecasted demand within certain clients. Revenues from our offshore operations represented 50.2%, or 57.0% excluding ICT revenues, of Americas revenues for the six months ended June 30, 2010, compared to 61.0% for the comparable 2009 period.

The decrease in EMEA revenues of \$7.5 million, or 6.2%, for the six months ended June 30, 2010, compared to the same period in 2009, reflects a decrease of \$10.6 million due largely to client program expirations, near-shore migration to lower cost geographies in Egypt, Romania and Germany and sustained weakness within the technology and communication verticals, partially offset by a \$2.5 million positive foreign currency translation impact and a \$0.6 million contribution in revenues from ICT. Excluding the \$2.5 million positive foreign currency translation impact, EMEA's revenue decreased 8.3% for the six months ended June 30, 2010 compared with the same period in 2009.

Direct Salaries and Related Costs

Direct salaries and related costs increased \$111.8 million, or 42.3%, to \$375.8 million for the six months ended June 30, 2010, from \$264.0 million in the comparable 2009 period. This increase includes ICT direct salaries and related costs of \$105.2 million in the second quarter of 2010.

On a reporting segment basis, direct salaries and related costs from the Americas segment increased \$110.3 million, or 61.7%, to \$289.1 million for the six months ended June 30, 2010 from \$178.8 million for the comparable 2009 period. Direct salaries and related costs from the EMEA segment increased \$1.5 million, or 1.7%, to \$86.7 million for the three months ended June 30, 2010 from \$85.2 million for the comparable 2009 period. While changes in foreign currency exchange rates positively impacted revenues in the Americas and EMEA, they negatively impacted direct salaries and related costs in 2010 compared to the same period in 2009 by \$7.1 million and \$1.6 million, respectively. In the Americas segment, as a percentage of revenues, direct salaries and related costs increased to 62.6% for the six months ended June 30, 2010 from 61.3% in the comparable 2009 period. This increase of 1.3%, as a percentage of revenues, was primarily attributable to higher compensation costs of 2.3%, (primarily related to lower than

Table of Contents

Sykes Enterprises, Incorporated and Subsidiaries
Form 10-Q
For the Quarter Ended June 30, 2010

forecasted demand within certain clients without a commensurate reduction in labor costs and wage increases in certain geographies) higher communication costs of 0.7% and higher billable supply costs of 0.2%, partially offset by lower auto tow claim costs of 1.2%, lower travel costs of 0.2%, and lower other costs of 0.5%.

In the EMEA segment, as a percentage of revenues, direct salaries and related costs increase to 76.8% for the six months ended June 30, 2010 from 70.8% in the comparable 2009 period. This increase of 6.0%, as a percentage of revenues, was primarily attributable to higher compensation costs of 5.0% (primarily related to near-shore migration to new facilities in Egypt, Romania and Germany and the corresponding termination and duplicative costs), higher billable supply costs of 0.6%, higher recruiting costs of 0.2% and other costs of 0.2%.

General and Administrative

General and administrative expenses increased \$84.1 million, or 75.2%, to \$196.1 million for the six months ended June 30, 2010, from \$112.0 million in the comparable 2009 period. This increase includes ICT general and administrative expenses of \$72.0 million for the six months ended June 30, 2010.

On a reporting segment basis, general and administrative expenses from the Americas segment increased \$58.5 million, or 92.9%, to \$121.5 million for the six months ended June 30, 2010 from \$63.0 million for the comparable 2009 period. General and administrative expenses from the EMEA segment increased \$2.2 million, or 7.7%, to \$30.9 million for the six months ended June 30, 2010 from \$28.7 million for the comparable 2009 period. While changes in foreign currency exchange rates positively impacted revenues in the Americas and EMEA, they negatively impacted general and administrative expenses in 2010 compared to the same period in 2009 by approximately \$1.9 million and \$0.6 million, respectively. Corporate general and administrative expenses increased \$23.4 million, or 115.3%, to \$43.7 million for the six months ended June 30, 2010 from \$20.3 million in the comparable 2009 period. This increase was primarily attributable to ICT acquisition-related costs, comprised of \$14.0 million in severance costs and \$8.7 million in transaction and integration costs, higher compensation costs of \$1.0 million, higher facility related costs of \$0.3 million, higher consulting costs of \$0.3 million, higher seminar costs of \$0.3 million and higher insurance costs of \$0.2 million, partially offset by lower accounting fees costs of \$0.4 million, lower business development costs of \$0.4 million, lower legal and professional fees of \$0.2 million and lower other costs of \$0.4 million.

In the Americas segment, as a percentage of revenues, general and administrative expenses increased to 26.3% for the six months ended June 30, 2010 from 21.6% in the comparable 2009 period. This increase of 4.7%, as a percentage of revenues, was primarily attributable to higher facility related costs of 1.6%, higher depreciation and amortization costs of 1.6%, higher compensation costs of 1.0%, higher equipment and maintenance costs of 0.7%, and higher severance costs of 0.3%, partially offset by lower bad debt expense of 0.3% and lower other costs of 0.2%.

In the EMEA segment, as a percentage of revenues, general and administrative expenses increased to 27.3% for the six months ended June 30, 2010 from 23.9% in the comparable 2009 period. This increase of 3.4%, as a percentage of revenues, was primarily attributable to the new facilities in Egypt, Romania and Germany, including higher facility related costs of 1.2%, higher compensation costs of 1.0%, higher depreciation and amortization costs of 0.3%, higher travel costs of 0.2%, higher communications costs of 0.2%, higher accounting fees costs of 0.2% and higher other costs of 0.3%.

Impairment Loss on Goodwill and Intangibles

In the Americas segment, we recorded an impairment loss of \$1.6 million on the goodwill and intangibles during the six months ended June 30, 2009 (none in the comparable 2010 period) related to the March 2005 acquisition of Kelly, Luttmmer & Associates Limited (KLA).

Table of Contents

Sykes Enterprises, Incorporated and Subsidiaries
Form 10-Q
For the Quarter Ended June 30, 2010

Interest Income

Interest income was \$0.5 million for the six months ended June 30, 2010, compared to \$1.5 million for the comparable 2009 period, reflecting lower average rates earned on lower average balances of interest bearing investments in cash and cash equivalents.

Interest Expense

Interest expense was \$4.0 million for the six months ended June 30, 2010 compared to \$0.4 million for the comparable 2009 period, an increase of \$3.6 million reflecting interest and fees on higher average levels of borrowings related to the acquisition of ICT.

Impairment Loss on Investment in SHPS

In the Americas segment, we recorded an impairment loss of \$2.1 million on our entire investment in SHPS during the six months ended June 30, 2009 (none in the comparable 2010 period).

Other Income (Expense)

Other expense, net, was \$5.5 million for the six months ended June 30, 2010 compared to other income, net, of \$1.1 million for the comparable 2009 period. The net increase of \$6.6 million was primarily attributable to an increase of \$5.4 million in realized and unrealized foreign currency transaction losses, net of gains. Other income (expense) excludes the cumulative translation effects and unrealized gains (losses) on financial derivatives that are included in Accumulated Other Comprehensive Income in shareholders' equity in the accompanying Condensed Consolidated Balance Sheets.

Provision for Income Taxes

The provision for income taxes of \$0.5 million for the six months ended June 30, 2010 was based upon pre-tax book loss of \$6.5 million, compared to \$5.5 million for the six months ended June 30, 2009, based upon pre-tax book income of \$34.7 million. The effective tax rate for the six months ended June 30, 2010 was 7.7% compared to an effective tax rate of 16.0% for the comparable 2009 period. The decrease in the effective tax rate of 23.7% was primarily due to tax benefits recognized on current period losses related to ICT acquisition-related costs and by the recognition of a tax benefit related to a favorable audit settlement in Mexico. These benefits were partially offset by the tax impact related to our 2009 decision to repatriate \$85 million in foreign earnings and the recording of a valuation allowance on foreign tax credits. The effective tax rate is also affected by permanent differences and losses in jurisdiction for which tax benefits can be recognized, foreign withholding and other taxes, accrued interest and penalties and foreign income tax rate differentials.

Net Loss

As a result of the foregoing, we reported income from operations for the six months ended June 30, 2010 of \$2.5 million, compared to income from operations of \$34.5 million in the comparable 2009 period. This decrease of \$32.0 million was principally attributable to a \$111.8 million increase in direct salaries and related costs and a \$84.1 million increase in general and administrative expenses, partially offset by a \$162.3 million increase in revenues and a \$1.6 million decrease in impairment loss. This \$32.0 million decrease, \$6.6 million increase in other expense, net, \$1.0 million decrease in interest income, \$3.6 million increase in interest expense, partially offset by a favorable \$5.0 million net change in tax provision and a \$2.1 million impairment loss on investment in SHPS in 2009 resulted in net loss of \$7.0 million for the six months ended June 30, 2010, a decrease of \$36.1 million compared to the same period in 2009.

Client Concentration

Total consolidated revenues included \$37.9 million, or 12.7%, and \$77.5 million, or 13.5%, of consolidated revenues, for the three and six months ended June 30, 2010, respectively, from AT&T Corporation, a major provider

Table of Contents

Sykes Enterprises, Incorporated and Subsidiaries
Form 10-Q
For the Quarter Ended June 30, 2010

of communication services for which we provide various customer support services over numerous lines of AT&T business. This included \$36.1 million and \$73.4 million in revenue from the Americas for the three and six months ended June 30, 2010, respectively, and \$1.8 million and \$4.1 million in revenue from EMEA for the three and six months ended June 30, 2010, respectively.

The consolidated revenues for the comparable periods as it relates to this relationship were \$25.4 million, or 12.1%, and \$47.3 million, or 11.5%, of consolidated revenues, for the three and six months ended June 30, 2009, respectively. This included \$23.0 million and \$42.8 million in revenue from the Americas and \$2.4 million and \$4.5 million in revenue from EMEA for the three and six months ended June 30, 2009, respectively.

Liquidity and Capital Resources

Our primary sources of liquidity are generally cash flows generated by operating activities and from available borrowings under our revolving credit facilities. We utilize these capital resources to make capital expenditures associated primarily with our customer contact management services, invest in technology applications and tools to further develop our service offerings and for working capital and other general corporate purposes, including repurchase of our common stock in the open market and to fund possible acquisitions. In future periods, we intend similar uses of these funds.

On August 5, 2002, the Board of Directors authorized the Company to purchase up to three million shares of our outstanding common stock. A total of 2.2 million shares have been repurchased under this program since inception. The shares are purchased, from time to time, through open market purchases or in negotiated private transactions, and the purchases are based on factors, including but not limited to, the stock price and general market conditions. During the six months ended June 30, 2010, we repurchased 300 thousand common shares under the 2002 repurchase program at prices ranging from \$16.92 to \$17.60 per share for a total cost of \$5.2 million. During the six months ended June 30, 2009, we repurchased 224 thousand common shares under the 2002 repurchase program at prices ranging from \$13.72 to \$14.75 per share for a total cost of \$3.2 million. We expect to make additional stock repurchases under this program in 2010 if market conditions are favorable.

During the six months ended June 30, 2010, we received \$80.0 million in cash from the release of restricted cash as a result of our repayment of short-term debt, \$75.0 million in proceeds from the issuance of long term debt, \$10.3 million in operating activities and \$0.4 million in excess tax benefits from stock-based compensation. Further, we used \$85.0 million to repay short-term debt, \$77.2 million for the ICT acquisition (net of ICT cash acquired), \$22.5 million to repay long-term debt, \$13.5 million for capital expenditures, \$5.2 million on the repurchase of the Company's stock, \$1.3 million to repurchase stock for minimum tax withholding on equity awards and paid \$3.0 million for loan fees related to the debt financing resulting in a \$55.1 million decrease in available cash (including the unfavorable effects of international currency exchange rates on cash of \$13.1 million).

Net cash flows provided by operating activities for the six months ended June 30, 2010 were \$10.3 million, compared to \$33.5 million provided by operating activities for the comparable 2009 period. The \$23.2 million decrease in net cash flows from operating activities was due to a \$36.1 million decrease in net income, partially offset by a \$8.8 million increase in non-cash reconciling items such as depreciation and amortization and unrealized losses on financial instruments and a net increase of \$4.1 million in cash flows from assets and liabilities. The \$4.1 million increase in cash flows from assets and liabilities was principally a result of a \$15.3 million decrease in receivables, partially offset by a \$5.0 million increase in other assets, a \$3.2 million decrease in income taxes payable, a \$1.6 million decrease in deferred revenue and a \$1.4 million decrease in other liabilities.

Capital expenditures, which are generally funded by cash generated from operating activities, available cash balances and borrowings available under our credit facilities, were \$13.5 million for the six months ended June 30, 2010, compared to \$18.3 million for the comparable 2009 period, a decrease of \$4.8 million. During the six months ended June 30, 2010, approximately 15% of the capital expenditures were the result of investing in new and existing customer contact management centers, primarily in EMEA, and 85% was expended primarily for maintenance and systems infrastructure. In 2010, we anticipate capital expenditures in the range of \$27.0 million to \$31.0 million.

Table of Contents**Sykes Enterprises, Incorporated and Subsidiaries
Form 10-Q****For the Quarter Ended June 30, 2010**

On February 2, 2010, we entered into a new Credit Agreement (the **New Credit Agreement**) with a group of lenders. The New Credit Agreement provides for a \$75 million term loan (the **Term Loan**) and a \$75 million revolving credit facility, which is subject to certain borrowing limitations and includes certain customary financial and restrictive covenants. We drew down the full \$75 million Term Loan on February 2, 2010 in connection with the acquisition of ICT on such date. See Note 2 **Acquisition of ICT** for further information. At June 30, 2010, we were in compliance with all loan requirements of the New Credit Agreement dated February 2, 2010.

The \$75 million revolving credit facility provided under the New Credit Agreement replaces the previous senior revolving credit facility under a credit agreement, dated March 30, 2009, which agreement was terminated simultaneous with entering into the New Credit Agreement. The \$75 million revolving credit facility, which includes a \$40 million multi-currency sub-facility, a \$10 million swingline sub-facility and a \$5 million letter of credit sub-facility, may be used for general corporate purposes including strategic acquisitions, share repurchases, working capital support, and letters of credit, subject to certain limitations. We are not currently aware of any inability of our lenders to provide access to the full commitment of funds that exist under the revolving credit facility, if necessary. However, due to recent economic conditions and the volatile business climate facing financial institutions, there can be no assurance that such facility will be available to us, even though it is a binding commitment. The Term Loan and the revolving credit facility will mature on February 1, 2013. The Term Loan is required to be repaid in quarterly amounts commencing on June 30, 2010 and continuing at the end of each quarter thereafter as follows: \$2.5 million per quarter in 2010, \$3.75 million per quarter in 2011, and \$5 million per quarter in 2012, with a final payment due at maturity in 2013. While the Term Loan is due in varying installments through February 2013, we paid \$50.0 million of the outstanding balance of the Term Loan in July 2010, earlier than the scheduled maturity, and anticipate paying the remaining outstanding balance of \$2.5 million plus accrued interest on or before September 30, 2010.

Borrowings under the New Credit Agreement bear interest at either LIBOR or the base rate plus, in each case, an applicable margin based on our leverage ratio. The applicable interest rate is determined quarterly based on the leverage ratio at such time. The base rate is a rate per annum equal to the greatest of (i) the rate of interest established by the lender, from time to time, as its **prime rate**; (ii) the Federal Funds effective rate in effect from time to time, plus 1/2 of 1% per annum; and (iii) the then-applicable LIBOR rate for one month interest periods, plus 1.00%. Swing Line Loans bear interest only at the base rate plus the base rate margin. In addition, we are required to pay certain customary fees, including a commitment fee of up to 0.75%, which is due quarterly in arrears and calculated on the average unused amount of the revolving credit facility.

We paid an underwriting fee of \$3.0 million for the New Credit Agreement, which is deferred and amortized over the term of the loan. The related interest expense and amortization of deferred loan fees on the New Credit Agreement of \$1.0 million and \$1.8 million are included in **Interest expense** in the accompanying Condensed Consolidated Statement of Operations for the three and six months ended June 30, 2010, respectively (none in the comparable period in 2009). The \$75.0 million Term Loan had a weighted average interest rate of 3.88% and 3.94% for the three and six months ended June 30, 2010, respectively.

The New Credit Agreement is guaranteed by all of our existing and future direct and indirect material U.S. subsidiaries and secured by a pledge of 100% of the non-voting and 65% of the voting capital stock of all of our direct foreign subsidiaries and those of the guarantors.

In December, 2009, Sykes (Bermuda) Holdings Limited, a Bermuda exempted company (**Sykes Bermuda**) which is an indirect wholly-owned subsidiary of SYKES, entered into a credit agreement with KeyBank (the **Bermuda Credit Agreement**). The Bermuda Credit Agreement provided for a \$75 million short-term loan to Sykes Bermuda with a maturity date of March 31, 2010. Sykes Bermuda drew down the full \$75 million on December 11, 2009, which is included in **Short-term debt** in the accompanying Condensed Consolidated Balance Sheet as of December 31, 2009. The Bermuda Credit Agreement required that Sykes Bermuda and its direct subsidiaries maintain cash and cash equivalents of at least \$80 million at all times, which amount is included in **Restricted Cash** in the accompanying Condensed Consolidated Balance Sheet as of December 31, 2009. Interest was charged on outstanding amounts, at the

option of Sykes Bermuda, at either a Eurodollar Rate (as defined in the Bermuda Credit Agreement) or a Base Rate (as defined in the Bermuda Credit Agreement) plus, in each case, an applicable margin specified in the Bermuda Credit Agreement. The underwriting fee paid of \$0.8 million was deferred and amortized

Table of Contents

Sykes Enterprises, Incorporated and Subsidiaries
Form 10-Q
For the Quarter Ended June 30, 2010

over the term of the loan. Sykes Bermuda repaid the entire outstanding amount plus accrued interest on March 31, 2010. The related interest expense and amortization of deferred loan fees of \$1.4 million and \$1.4 million are included in Interest expense in the accompanying Condensed Consolidated Statement of Operations for the three and six months ended June 30, 2010, respectively (none in the comparable period in 2009).

Simultaneous with the execution and delivery of the Bermuda Credit Agreement, we entered into a Guaranty of Payment agreement with KeyBank, pursuant to which the obligations of Sykes Bermuda under the Bermuda Credit Agreement were guaranteed by SYKES.

Also, simultaneous with the execution and delivery of the Bermuda Credit Agreement, SYKES, KeyBank and the other lenders that are a party thereto entered into a First Amendment Agreement, amending the credit agreement, dated March 30, 2009, between SYKES, KeyBank and the other lenders that are a party thereto. The First Amendment Agreement amended the terms of the credit agreement to permit the loan to Sykes Bermuda and SYKES guaranty of that loan. As of December 31, 2009, there were no outstanding balances and no borrowings in 2009 under the credit agreement dated March 30, 2009. As previously mentioned, this credit agreement was terminated on February 2, 2010 simultaneous with entering into the New Credit Agreement and unamortized deferred loan fees of \$0.2 million were written off during the quarter ended March 31, 2010. Interest expense for the comparable 2009 period includes \$0.1 million related to this terminated credit agreement.

At June 30, 2010, we had \$224.8 million in cash and cash equivalents, of which approximately 95.3% or \$214.1 million, was held in international operations and may be subject to additional taxes if repatriated to the United States.

We believe that our current cash levels, accessible funds under our credit facilities and cash flows from future operations will be adequate to meet anticipated working capital needs, future debt repayment requirements, continued expansion objectives, funding of potential acquisitions, anticipated levels of capital expenditures and contractual obligations for the foreseeable future and any stock repurchases.

The following table summarizes the material changes to our contractual obligations at June 30, 2010, including those that were assumed upon acquisition of ICT in February 2010 and the related debt incurred in connection with the acquisition, and the effect these obligations are expected to have on liquidity and cash flow in future periods (in thousands):

Table of Contents

Sykes Enterprises, Incorporated and Subsidiaries
Form 10-Q
For the Quarter Ended June 30, 2010

	Total	Payments Due By Period				Other
		Less Than 1 Year	1 - 3 Years	3 - 5 Years	After 5 Years

Total contractual cash obligations	\$ 140,451	\$ 23,713	\$ 77,777	\$ 26,278	\$ 8,371	\$ 4,312

(1) Amounts represent the expected cash payments of ICT's operating leases as discussed in Note 15 to the accompanying Condensed Consolidated Financial Statements.

(2) Amounts represent the expected cash payments of the corporate headquarters operating lease as discussed in Note 15 to the accompanying Condensed Consolidated Financial Statements.

- (3) Purchase obligations include ICT's agreements to purchase goods or services that are enforceable and legally binding on us and that specify all significant terms, including fixed or minimum quantities to be purchased; fixed, minimum or variable price provisions; and the approximate timing of the transactions. Purchase obligations exclude agreements that are cancelable without penalty.
- (4) Long-term tax liabilities include ICT's uncertain tax positions and related interest and penalties as discussed in Note 10 to the accompanying Condensed Consolidated Financial Statements. We cannot make reasonably reliable estimates of the cash settlement of these long-term liabilities with

the tax authority; therefore, amounts have been excluded from payments due by period.

- (5) Amounts include the term loan due plus estimated accrued interest due in varying installments through February 1, 2013 as discussed in Note 8 to the accompanying Condensed Consolidated Financial Statements. While the Term Loan is due in varying installments through February 2013, we paid \$50.0 million of the outstanding balance of the Term Loan in July 2010, earlier than the scheduled maturity, and anticipate paying the remaining outstanding balance of \$2.5 million plus accrued interest on or before September 30, 2010.

- (6) Amounts include the severance obligation for ICT's former chief executive officer due in varying installments through January 2011 as discussed in Note 1 to the accompanying Condensed Consolidated Financial Statements.

Except for the contractual obligations mentioned above and the borrowings discussed in Note 8 to the accompanying Condensed Consolidated Financial Statements, there has not been any material change to the outstanding contractual obligations from the disclosure in our Annual Report on Form 10-K for the year ended December 31, 2009.

Critical Accounting Policies and Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States requires estimations and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. These estimates and assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances. Actual results could differ from these estimates under different assumptions or conditions.

We believe the following accounting policies are the most critical since these policies require significant judgment or involve complex estimations that are important to the portrayal of our financial condition and operating results:

Recognition of Revenue

We recognize revenue pursuant to Accounting Standards Codification (ASC) 605 *Revenue Recognition*.

We primarily recognize revenue from services as the services are performed, which is based on either on a per minute, per hour, per call or per transaction basis, under a fully executed contractual agreement and record reductions to revenue for contractual penalties and holdbacks for failure to meet specified minimum service levels and other performance based contingencies. Revenue recognition is limited to the amount that is not contingent upon delivery of any future product or service or meeting other specified performance conditions.

Table of Contents

Sykes Enterprises, Incorporated and Subsidiaries
Form 10-Q
For the Quarter Ended June 30, 2010

Product sales, accounted for within our fulfillment services, are recognized upon shipment to the customer and satisfaction of all obligations.

Revenue from contracts with multiple-deliverables is allocated to separate units of accounting based on their relative fair value, if the deliverables in the contract(s) meet the criteria for such treatment. Certain fulfillment services contracts contain multiple-deliverables. Separation criteria included whether a delivered item has value to the customer on a stand-alone basis, whether there is objective and reliable evidence of the fair value of the undelivered items and, if the arrangement includes a general right of return related to a delivered item, whether delivery of the undelivered item is considered probable and in our control. Fair value is the price of a deliverable when it is regularly sold on a stand-alone basis, which generally consists of vendor-specific objective evidence of fair value. If there is no evidence of the fair value for a delivered product or service, revenue is allocated first to the fair value of the undelivered product or service and then the residual revenue is allocated to the delivered product or service. If there is no evidence of the fair value for an undelivered product or service, the contract(s) is accounted for as a single unit of accounting, resulting in delay of revenue recognition for the delivered product or service until the undelivered product or service portion of the contract is complete. We recognize revenue for delivered elements only when the fair values of undelivered elements are known, uncertainties regarding client acceptance are resolved, and there are no client-negotiated refund or return rights affecting the revenue recognized for delivered elements. Once we determine the allocation of revenue between deliverable elements, there are no further changes in the revenue allocation. If the separation criteria are met, revenue from these services is recognized as the services are performed under a fully executed contractual agreement. If the separation criteria are not met because there is insufficient evidence to determine fair value of one of the deliverables, all of the services are accounted for as a single combined unit of accounting. For these deliverables with insufficient evidence to determine fair value, revenue is recognized on the proportional performance method using the straight-line basis over the contract period, or the actual number of operational seats used to serve the client, as appropriate. Currently, we have no contracts containing multiple-deliverables for customer contact management services and fulfillment services.

Allowance for Doubtful Accounts

We maintain allowances for doubtful accounts of \$3.7 million as of June 30, 2010, or 1.6% of trade receivables, for estimated losses arising from the inability of our customers to make required payments. Our estimate is based on factors surrounding the credit risk of certain clients, historical collection experience and a review of the current status of trade accounts receivable. It is reasonably possible that our estimate of the allowance for doubtful accounts will change if the financial condition of our customers were to deteriorate, resulting in a reduced ability to make payments.

Income Taxes

We reduce deferred tax assets by a valuation allowance if, based on the weight of available evidence, both positive and negative, for each respective tax jurisdiction, it is more likely than not that some portion or all of such deferred tax assets will not be realized. The valuation allowance for a particular tax jurisdiction is allocated between current and noncurrent deferred tax assets for that jurisdiction on a pro rata basis. Available evidence which is considered in determining the amount of valuation allowance required includes, but is not limited to, our estimate of future taxable income and any applicable tax-planning strategies.

At December 31, 2009, we determined that a valuation allowance of \$32.1 million was necessary to reduce U.S. deferred tax assets by \$9.3 million and foreign deferred tax assets by \$22.8 million, where it was more likely than not that some portion or all of such deferred tax assets will not be realized. The recoverability of the remaining net deferred tax assets of \$5.4 million at December 31, 2009, is dependent upon future profitability within each tax jurisdiction. During the three months ended June 30, 2010, a \$1.6 million valuation allowance was recorded on foreign tax credits. As of June 30, 2010, based on our estimates of future taxable income and any applicable tax-planning strategies within various tax jurisdictions, we believe that it is more likely than not that the remaining net deferred tax assets will be realized. The ICT tax accruals as of June 30, 2010 reflect the historical balances as recorded by the acquired subsidiaries and may be adjusted to reflect tax opening balance sheet entries as discussed more fully in

Note 2 to the accompanying condensed consolidated financial statements. Accordingly, the valuation allowances above are exclusive of ICT acquired balances.

Form 10-Q
For the Quarter Ended June 30, 2010

Generally, earnings associated with our investments in our subsidiaries are considered to be permanently invested and normally provisions for income taxes on those earnings or translation adjustments are not recorded. The U.S. Department of the Treasury released the General Explanations of the Administration's Fiscal Year 2011 Revenue Proposals in February 2010. These proposals represent a significant shift in international tax policy, which may materially impact U.S. taxation of international earnings. We continue to monitor these proposals and are currently evaluating their potential impact on our financial condition, results of operations, and cash flows.

We evaluate tax positions that have been taken or are expected to be taken in our tax returns, and record a liability for uncertain tax positions in accordance with ASC 740 Income Taxes (ASC 740). The calculation of our tax liabilities involves dealing with uncertainties in the application of complex tax regulations. ASC 740 contains a two-step approach to recognizing and measuring uncertain tax positions. First, tax positions are recognized if the weight of available evidence indicates that it is more likely than not that the position will be sustained upon examination, including resolution of related appeals or litigation processes, if any. Second, the tax position is measured as the largest amount of tax benefit that has a greater than 50% likelihood of being realized upon settlement. We reevaluate these uncertain tax positions on a quarterly basis. This evaluation is based on factors including, but not limited to, changes in facts or circumstances, changes in tax law, effectively settled issues under audit, and new audit activity. Such a change in recognition or measurement would result in the recognition of a tax benefit or an additional charge to the tax provision.

As of June 30, 2010, we had \$6.5 million of unrecognized tax benefits, a net increase of \$2.7 million from the \$3.8 million recorded as of December 31, 2009. The \$2.7 million increase relates primarily to the balances assumed in the ICT acquisition, which amount is provisional as discussed in Note 2, partially offset by the favorable settlement of a tax audit and the expiration of certain statutes of limitations. Had we recognized the remaining unrecognized tax benefits at June 30, 2010, approximately \$6.5 million, excluding related interest and penalties, would favorably impact the effective tax rate. We believe it is reasonably possible that the unrecognized tax benefits will decrease or be recognized in the next twelve months by up to \$2.2 million due to expiration of statutes of limitations, audit or appeal resolution in various tax jurisdictions.

Impairment of Long-lived Assets

We review long-lived assets, which had a carrying value of \$295.5 million as of June 30, 2010, including goodwill, intangibles and property and equipment for impairment whenever events or changes in circumstances indicate that the carrying value of an asset may not be recoverable and at least annually for impairment testing of goodwill. An asset is considered to be impaired when the carrying amount exceeds the fair value. Upon determination that the carrying value of the asset is impaired, we would record an impairment charge or loss to reduce the asset to its fair value. Future adverse changes in market conditions or poor operating results of the underlying investment could result in losses or an inability to recover the carrying value of the investment and, therefore, might require an impairment charge in the future.

New Accounting Standards

Unless needed to clarify a point to readers, we will refrain from citing specific section references when discussing application of accounting principles or addressing new or pending accounting rule changes. There are no recently issued accounting standards that are expected to have a material effect on our financial condition, results of operations or cash flows.

U.S. Healthcare Reform Acts

In March 2010, the President of the United States signed into law comprehensive health care reform legislation under the Patient Protection and Affordable Care Act and the Health Care and Education Reconciliation Act (the Acts). The Acts contain provisions that could materially impact the Company's healthcare costs in the future, thus adversely affecting the Company's profitability. We are currently evaluating the potential impact of the Acts, if any, on our financial condition, results of operations and cash flows.

Item 3 Quantitative and Qualitative Disclosures About Market Risk

Foreign Currency Risk

Our earnings and cash flows are subject to fluctuations due to changes in currency exchange rates. We are exposed to foreign currency exchange rate fluctuations when subsidiaries with functional currencies other than the U.S. dollar (USD) are translated into the Company's USD consolidated financial statements. As exchange rates vary, those results, when translated, may vary from expectations and adversely impact overall expected profitability. The cumulative translation effects for subsidiaries with functional currencies other than the U.S. dollar are included in AOCI in shareholders' equity. Movements in non-U.S. dollar currency exchange rates may negatively or positively affect our competitive position, as exchange rate changes may affect business practices and/or pricing strategies of non-U.S. based competitors.

We employ a foreign currency risk management program that periodically utilizes derivative instruments to protect its interests from unanticipated fluctuations in earnings and cash flows caused by volatility in currency exchange rates. Option and forward hedge contracts are used to hedge intercompany receivables and payables, and transactions initiated in the United States that are denominated in foreign currency. The Company also periodically employs foreign exchange forward contracts to hedge net investments in foreign operations.

We serve a number of U.S.-based clients using customer contact management center capacity in the Philippines and Canada, which are within our Americas segment. Although the contracts with these clients are priced in U.S. dollars, a substantial portion of the costs incurred to render services under these contracts are denominated in Philippine pesos (PHP) and the Canadian dollar (CAD), which represent a foreign exchange exposure. As of June 30, 2010, we have hedged a portion of our exposure related to the anticipated cash flow requirements denominated in PHP and CAD by entering into foreign currency hedge contracts with counterparties to acquire a total of PHP 4.5 billion through September, 2011 and a total of CAD 7.9 million through December 2010, which approximates 55% and 75% of our exposure related to these anticipated cash flow requirements denominated in PHP and CAD, respectively. The fair value of these hedge contracts as of June 30, 2010 is presented in Note 5 of the accompanying Condensed Consolidated Financial Statements. The potential loss in fair value at June 30, 2010, for these contracts resulting from a hypothetical 10% adverse change in the foreign currency exchange rates is approximately \$3.6 million. However, this loss would be mitigated by corresponding gains on the underlying exposures.

Periodically, we hedge the net assets of certain international subsidiaries (net investment hedges) using foreign currency forward contracts to offset the translation and economic exposures related to our investments in these subsidiaries. As of June 30, 2010, we hedged a portion of our net investment in foreign operations denominated in Euro Dollar (EUR) with forward contracts totaling EUR 39 million through August 10, 2010. The potential loss in fair value at June 30, 2010, for these contracts resulting from a hypothetical 10% adverse change in the foreign currency exchange rates is approximately \$4.9 million. However, this loss would be mitigated by corresponding gains on the underlying exposures.

Additionally, we periodically enter into forward exchange contracts that are not designated as hedges. The purpose of these derivative instruments is to protect our interests against adverse foreign currency moves pertaining to intercompany receivables and payables, and other assets and liabilities that are denominated in currencies other than our subsidiaries functional currencies. As of June 30, 2010, the fair value of these derivatives was a net payable of \$1.8 million.

See Note 5 of the accompanying Condensed Consolidated Financial Statements for further information on these derivative instruments.

In July 2010 to hedge intercompany forecasted cash outflows, we entered into forward contracts to sell 5.5 million Canadian dollars at fixed prices of U.S. \$5.3 million to settle in August 2010, to sell 9.5 million Euro at fixed prices of U.S. \$12.1 million to settle in August 2010 and to sell 702.0 million PHP at fixed prices of U.S. \$15.2 million to settle in August 2010.

We evaluate the credit quality of potential counterparties to derivative transactions and only enter into contracts with those considered to have minimal credit risk. We periodically monitor changes to counterparty credit quality as well as our concentration of credit exposure to individual counterparties. We do not use derivative instruments for trading or speculative purposes.

Interest Rate Risk

Our exposure to interest rate risk results from variable debt outstanding under our New Credit Agreement, including the \$75.0 million term loan and the \$75.0 million revolving credit facility. We pay interest on outstanding borrowings at interest rates that fluctuate based upon changes in various base rates. During the quarter ended June 30, 2010, we had no debt outstanding under the revolving credit facility and \$52.5 million in borrowings outstanding under our term loan at June 30, 2010. Based on our level of variable rate debt outstanding during 2010, a one-point increase in the weighted average interest rate, which generally equals the Eurodollar rate plus an applicable margin, would have increased interest expense by \$0.3 million for the six months ended June 30, 2010. We have not historically used derivative instruments to manage exposure to changes in interest rates.

Fluctuations in Quarterly Results

For the year ended December 31, 2009, quarterly revenues as a percentage of total consolidated annual revenues were approximately 24%, 25%, 25% and 26%, respectively, for each of the respective quarters of the year. We have experienced and anticipate that in the future we will experience variations in quarterly revenues. The variations are due to the timing of new contracts and renewal of existing contracts, the timing and frequency of client spending for customer contact management services, non-U.S. currency fluctuations, and the seasonal pattern of customer contact management support and fulfillment services.

Item 4 Controls and Procedures

As of June 30, 2010, under the direction of our Chief Executive Officer and Chief Financial Officer, we evaluated the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended. Our disclosure controls and procedures are designed to provide reasonable assurance that the information required to be disclosed in our SEC reports is recorded, processed, summarized and reported within the time period specified by the SEC's rules and forms, and is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure. We concluded that, as of June 30, 2010, our disclosure controls and procedures were effective at the reasonable assurance level.

There were no changes in our internal controls over financial reporting during the quarter ended June 30, 2010 that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting, except for the change discussed under "Change in Internal Control over Financial Reporting" below.

Change in Internal Control over Financial Reporting

On February 2, 2010, we acquired ICT. We are currently integrating policies, processes, people, technology and operations for the combined companies. Management will continue to evaluate our internal control over financial reporting as we execute our integration activities.

Part II OTHER INFORMATION**Item 1 Legal Proceedings**

We have previously disclosed regulatory sanctions assessed against our Spanish subsidiary relating to the alleged inappropriate acquisition of personal information in connection with two outbound client contracts. In order to appeal these claims, we issued a bank guarantee of \$0.9 million. During the year ended December 31, 2008, \$0.4 million of the bank guarantee was returned to the Company. The remaining balance of the bank guarantee of \$0.5 million is included as restricted cash in *Deferred charges and other assets* in the accompanying Condensed Consolidated Balance Sheets as of June 30, 2010 (\$0.9 million as of June 30, 2009). We will continue to vigorously defend these matters. However, due to further progression of several of these claims within the Spanish court system, and based upon opinion of legal counsel regarding the likely outcome of several of the matters before the courts, we accrued a provision in the amount of \$1.3 million as of June 30, 2010 and December 31, 2009 under ASC 450 *Contingencies* because we now believe that a loss is probable and the amount of the loss can be reasonably estimated as to three of the subject claims. There is currently one other related claim which is under appeal, but we have not accrued any amounts related to that claim because we do not currently believe a loss is probable, and it is not currently possible to reasonably estimate the amount of any loss related to that claim.

From time to time, we are involved in legal actions arising in the ordinary course of business. With respect to these matters, we believe that we have adequate legal defenses and/or provided adequate accruals for related costs such that the ultimate outcome will not have a material adverse effect on our future financial position or results of operations.

Item 2 Unregistered Sales of Equity Securities and Use of Proceeds

Below is a summary of stock repurchases for the quarter ended June 30, 2010 (in thousands, except average price per share). See Note 11, Earnings Per Share, to the Condensed Consolidated Financial Statements for information regarding our stock repurchase program.

Period	Total Number of Shares Purchased ⁽¹⁾	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares That May Yet Be Purchased Under Plans or Programs
April 1, 2010 - April 30, 2010				1,098
May 1, 2010 - May 31, 2010	150	17.42	150	948
June 1, 2010 - June 30, 2010	150	17.33	150	798
Total	300		300	798

(1) All shares purchased as part of a repurchase plan publicly announced on

August 5, 2002.
Total number of
shares approved
for repurchase
under the plan
was 3.0 million
