Item 4.02(a). Non-Reliance on Previously Issued Financial Statements or a Related Audit Report or Completed Interim Review.

On July 29, 2010, management and the Audit Committee of the Board of Directors of Insulet Corporation (the Company) concluded that it is necessary to restate the Company s audited consolidated financial statements for the year ended December 31, 2009 and for the unaudited quarterly financial reporting periods ended September 30, 2009 and March 31, 2010 and that the Company s consolidated financial statements for these periods should no longer be relied upon. In addition, the report of Ernst & Young LLP, the Company s independent registered public accounting firm, for the year ended December 31, 2009 should no longer be relied upon. The Audit Committee made this determination following consultation with and upon the recommendation of management and following consultation with Ernst & Young LLP. Therefore, the Company plans to present the restated results for fiscal year ended December 31, 2009, and the quarterly period ended September 30, 2009 in an amended Annual Report on Form 10-K/A. The Company plans to present the restated results for the quarterly period ended March 31, 2010 in an amended Quarterly Report on Form 10-Q/A. The Company expects to file these amended reports on or before August 9, 2010.

In September 2009, the Company entered into an amendment to its existing Facility Agreement which was determined at the time to be an early extinguishment of the debt borrowed thereunder. As a result, the Company expensed \$7.6 million of non-cash interest related to the write-off of remaining debt discount and related fees such as deferred financing costs on the original loan. Upon subsequent review, the Company determined on July 29, 2010, that the amendment should have been treated as a modification of the original loan as compared to an early extinguishment in its previously issued financial statements. A debt modification recognizes debt discount and related fees relating to the original borrowings over the term of the new borrowing, as well as additional discount on the new borrowing as a non-cash adjustment to interest expense rather than as a non-cash loss on debt extinguishment at the time the original borrowing is amended. Accordingly, the Company has concluded that a correction is required to recognize the amendment as a modification and recognize as non-cash interest expense the debt discount and related fees on the original debt from the date of the amendment in September 2009 through the maturity of the Facility Agreement in September 2012.

The following tables summarize the effect of the restatement by major financial statement line item in the three and nine months ended September 30, 2009 and the year ended December 31, 2009. The restatement resulted in an increase in other assets of \$1.3 million and \$1.2 million at September 30, 2009 and December 31, 2009, respectively, related to the capitalization of issuance costs incurred net of interest expense recognized over the term of the loan and a decrease of long-term debt of \$8.4 million and \$7.8 million at September 30, 2009 and December 31, 2009, respectively, related to the debt discount on the warrants and shares issued in connection with the Facility Agreement, net of interest expense recognized. The restatement resulted in a reduction in interest expense of \$7.8 million in the three and nine months ended September 30, 2009 and \$7.2 million in the year ended December 31, 2009, with an equivalent reduction in net interest expense and net loss for these same periods. The restatement had no effect on any amounts reported in periods prior to the quarter ended September 30, 2009.

Financial statement lines on the consolidated balance sheets, consolidated statements of operations and consolidated statements of cash flows impacted as a result of the restatement are summarized below (in thousands):
