**Item 1.01. Entry into a Material Definitive Agreement.**

Effective July 13, 2011, The MAC Services Group Pty Limited (the Australian Borrower), a wholly owned subsidiary of Oil States International, Inc. (Oil States), entered into A\$150 million revolving loan facility governed by a Facility Agreement (the Facility Agreement), between the Australian Borrower and National Australia Bank Limited. The Facility Agreement replaces the Australian Borrower's existing A\$75 million revolving loan facility on substantially the same terms, including the maturity date of the Facility Agreement of November 30, 2013.

Under the terms of the Facility Agreement, loans bear interest for a particular interest period at a rate per annum equal to the sum of the average interest rate paid by banks for loans of the equivalent period and an applicable margin ranging from 2.10% to 2.60% based upon the Australian Borrower's leverage ratio.

The Facility Agreement contains representations, warranties and covenants that are customary for similar credit arrangements, including, among other things, covenants relating to: (i) financial reporting and notification, (ii) payment of obligations, and (iii) notification of certain events.

Financial covenants in the Facility Agreement also require the Australian Borrower not to permit: the Interest Cover Ratio (the ratio of EBITDA to Gross Interest) to be less than 4.0 to 1.0; and the Leverage Ratio (the ratio of Gross Debt to EBITDA) to be greater than 3.0 to 1.0.

The Facility Agreement contains various customary restrictive covenants, subject to certain exceptions, that prohibit the Australian Borrower and its subsidiaries from, among other things, incurring additional indebtedness or guarantees, creating liens or other encumbrances on property, entering into a merger or similar transaction, selling or transferring certain property, making certain restricted payments and entering into transactions with affiliates.

The failure to comply with the foregoing covenants will constitute an event of default (subject, in the case of certain covenants, to applicable notice and/or cure periods) under the Facility Agreement. Other events of default under the Facility Agreement include, among other things, (i) the failure to timely pay principal or interest, (ii) the inaccuracy of representations or warranties in any material respect and (iii) the occurrence of certain bankruptcy or insolvency events. The occurrence and continuance of an event of default could result in, among other things, termination of the lender's commitment and acceleration of all amounts outstanding. The Australian Borrower's obligations under the Facility Agreement are guaranteed by certain of the Australian Borrower's subsidiaries as well as Oil States. In addition, the Australian Borrower's obligations under the Facility Agreement, subject to certain exceptions, are secured on a first-priority basis by liens on substantially all of the material personal property of the Australian Borrower and the Australian Borrower's subsidiaries.

The foregoing description of the Facility Agreement is qualified in its entirety by reference to the full text of the Facility Agreement, a copy of which is attached hereto as Exhibit 10.1 and is incorporated herein by reference.
