ITEM 5. OTHER EVENTS

SECURITIZATION

On March 4, 2003, Consumers Energy Company, the principal subsidiary of CMS Energy Corporation, filed an application with the Michigan Public Service Commission (MPSC) to begin the securitization process for approximately \$1.084 billion in qualified costs, in compliance with the State of Michigan's electric restructuring and securitization laws.

The qualified costs Consumers Energy proposes to securitize are:

- Expenditures for Clean Air Act compliance totaling \$587 million;
- Required contributions to electric utility pension costs totaling \$227 million;
- New capital investments in the Palisades Nuclear Plant totaling \$113 million;

Edgar Filing: CONSUMERS ENERGY CO - Form 8-K

- Costs of implementing Public Act 141, the state's restructuring law, totaling \$97 million; and
- Costs of preparing and issuing securitization bonds, retiring existing debt, and establishing a cash flow account to make payment on the bonds, totaling \$60 million.

Consumers Energy has filed the application at this time since Consumers Energy plans to refinance \$777 million and \$780 million of debt in 2003 and 2004, respectively. In addition, Consumers Energy expects to issue \$295 million of new debt in 2003 and \$365 million of new debt in 2004. This additional debt is required for Consumers Energy's ongoing operations and construction program including construction expenditures for Clean Air Act compliance. Consumers Energy also plans to contribute over \$150 million in 2003 and over \$200 million in 2004 to its pension funds. Consumers Energy will use proceeds from the sale of securitization bonds for refinancing or retirement of debt. Approval of the application will not increase current electric rates for any of Consumers Energy's customers.

State law requires the MPSC to act on the request within 90 days, meaning that securitization bonds could be issued as early as August 2003.

STRANDED COSTS

Also on March 4, 2003, Consumers Energy submitted to the MPSC its stranded cost recovery filing for 2002. Consumers Energy asked to recover \$35 million to \$103 million in stranded costs or 0.9 cents to 2.6 cents per kilowatt-hour from customers getting power from alternative suppliers pursuant to Public Act 141, the State of Michigan's electric restructuring law. The final amount requested will depend on the MPSC's decision on Consumers Energy's securitization application. Several of the items that Consumers Energy is requesting to be

considered stranded costs, it has also requested to be considered as qualified costs under its securitization application. If Consumers Energy's securitization application is approved in full, then its stranded cost filing will only request \$35 million of stranded cost recovery.

Copies of the securitization application (exclusive of accompanying testimony and exhibits) of Consumers Energy to the MPSC (Case No. U-13715) and the stranded cost application (exclusive of accompanying testimony and exhibits) of Consumers Energy to the MPSC (Case No. U-13720), are filed as exhibits to this report and are incorporated by reference. Both applications, with accompanying testimony and exhibits, can be accessed on the MPSC's website <http://www.michigan.gov/mpsc>

ITEM 7. FINANCIAL STATEMENTS AND EXHIBITS

(c) Exhibits:

- 99(a) Application for Financing Order, Case No. U-13715, filed March 4, 2003 by Consumers Energy Company with the Michigan Public Service Commission.
- 99(b) Application of Consumers Energy Company, Case No. U-13720 filed March 4, 2003 by Consumers Energy Company with the Michigan Public Service Commission

This Form 8-K contains "forward-looking statements", within the meaning of the
