On April 30, 2007, Pac-West Telecomm, Inc., a California corporation (the Company ), and its domestic subsidiaries (collectively, the Debtors ), filed voluntary petitions in the United States Bankruptcy Court for the District of Delaware (the Bankruptcy Court ) seeking reorganization relief under the provisions of Chapter 11 of Title 11 of the United States Code (the Bankruptcy Code ) (Proposed Lead Case No. 07-10562 (collectively, the Cases ). A copy of the press release, dated April 30, 2007, announcing the bankruptcy filing is attached to this report as Exhibit 99.1 and incorporated by reference herein.

The Debtors continue to operate their business as debtors-in-possession under the jurisdiction of the Bankruptcy Court and in accordance with the applicable provisions of the Bankruptcy Code and the orders of the Bankruptcy Court.

In connection with the filing of the Cases, the Debtors have reached agreement, subject to approval of the Bankruptcy Court, to enter into a debtor-in-possession financing (the DIP Financing Agreement ) with Pac-West Funding Company LLC (the Lender ). The DIP Financing Agreement provides for up to \$18.5 million in revolving loans (the DIP Financing ).

All loans under the DIP Financing Agreement are to be repaid in full at the earliest to occur of (i) the date which is six months following the closing date (which six (6) month term may be extended with the consent of the Lender), (ii) the effective date of a plan of reorganization in the Cases which is confirmed by an order of the Bankruptcy Court, and (iii) upon the occurrence of an event of default under the DIP Financing Agreement or any of the documents, instruments and agreements entered into in connection with the DIP Financing Agreement. Any amounts borrowed under the DIP Financing Agreement will accrue interest at rate of 13% per annum in arrears and be paid in kind.

Borrowings under the DIP Financing Agreement will be used for payment of certain adequate assurance payments, as well as administrative costs of the Cases including professionals' fees, transaction costs, fees and expenses incurred in connection with the DIP Financing Agreement, certain prepetition expenses as approved by the Bankruptcy Court, and to provide working capital and for other general corporate purposes. Obligations under the DIP Financing Agreement are secured by a lien on substantially all assets of the Debtors (which lien, subject to certain permitted exceptions, will have first priority with respect to the Debtors' assets) and by a superpriority administrative expense claim in each of the Cases.

The DIP Financing Agreement contains various representations, warranties, and covenants by the Debtors that are customary for transactions of this nature, including (without limitation) reporting requirements and maintenance of financial covenants.

The Debtors' obligations under the DIP Financing Agreement may be accelerated following the occurrence of an event of default, including (without limitation) any breach by the Debtors of any of the representations, warranties, or covenants made in the DIP Financing Agreement or the conversion of any of the Cases to a case under Chapter 7 of the Bankruptcy Code or the appointment of a trustee pursuant to Chapter 11 of the Bankruptcy Code.
