Table of Contents**HARRIS PREFERRED CAPITAL CORPORATION****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****1. Basis of Presentation**

Harris Preferred Capital Corporation (the Company) is a Maryland corporation whose principal business objective is to acquire, hold, finance and manage qualifying real estate investment trust (REIT) assets (the Mortgage Assets), consisting of a limited recourse note or notes (the Notes) issued by Harris N.A. (the Bank) secured by real estate mortgage assets (the Securing Mortgage Loans) and other obligations secured by real property, as well as certain other qualifying REIT assets, primarily U.S. treasury securities and securities collateralized with real estate mortgages. The Company holds its assets through a Maryland real estate investment trust subsidiary, Harris Preferred Capital Trust. Harris Capital Holdings, Inc., owns 100% of the Company's common stock. The Bank owns all common stock outstanding issued by Harris Capital Holdings, Inc.

The accompanying consolidated financial statements have been prepared by management from the books and records of the Company. These statements reflect all adjustments and disclosures which are, in the opinion of management, necessary for a fair statement of the results for the interim periods presented and should be read in conjunction with the notes to financial statements included in the Company's 2007 Form 10-K. Certain reclassifications were made to conform prior years' financial statements to the current year's presentation. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America, have been condensed or omitted pursuant to the rules and regulations of the Securities and Exchange Commission.

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

2. Commitments and Contingencies

Legal proceedings in which the Company is a defendant may arise in the normal course of business. There is no pending litigation against the Company at September 30, 2008.

3. Securities

The amortized cost and estimated fair value of securities available-for-sale were as follows:

	September 30, 2008			September 30, 2007				
	Amortized Cost	Unrealized Gains	Unrealized Losses	Fair Value	Amortized Cost	Unrealized Gains	Unrealized Losses	Fair Value
	(in thousands)							
Available-for-Sale Securities								
Mortgage-backed	\$ 448,654	\$ 1,489	\$ 3,181	\$ 446,962	\$ 386,058	\$ 452	\$ 6,955	\$ 379,555

Edgar Filing: HARRIS PREFERRED CAPITAL CORP - Form 10-Q

U.S. Treasury	19,997		1	19,996	89,934	2		\$ 89,936
Total Securities	\$ 468,651	\$ 1,489	\$ 3,182	\$ 466,958	\$ 475,992	\$ 454	\$ 6,955	\$ 469,491

The Company classifies all securities as available-for-sale. Available-for-sale securities are reported at fair value with unrealized gains and losses included as a separate component of stockholders' equity. At September 30, 2008, net unrealized losses on available-for-sale securities were \$1.7 million compared to \$6.5 million of unrealized losses on September 30, 2007 and \$1 million of unrealized losses at December 31, 2007. The unrealized loss positions for individual securities at September 30, 2008, September 30, 2007 and December 31, 2007 were attributable to changes in interest rates and not to lowered credit quality of those securities; therefore, management believes these losses are temporary.

Table of Contents**HARRIS PREFERRED CAPITAL CORPORATION****4. Fair Value Measurements**

The Company adopted Statement of Financial Accounting Standards (FAS) No. 157, Fair Value Measurements, as of January 1, 2008. The Statement clarifies the methods for measuring fair value, establishes a fair value hierarchy and requires expanded disclosure. It applies when other standards require or permit assets or liabilities to be measured at fair value. The adoption of the Statement did not have a material effect on the Company's financial position or results of operation. The FASB issued FASB Staff Position (FSP) No. FAS 157-2, Effective Date of FASB Statement No. 157, in February 2008. The FSP delayed the effective date of FAS 157 for nonfinancial assets and liabilities that are measured at fair value on a nonrecurring basis to fiscal years beginning after November 15, 2008. The Company adopted FSP 157-2 upon issuance. As of September 30, 2008, no nonrecurring, nonfinancial assets and liabilities were measured at fair value for which the Company has not applied the provisions of FAS 157.

The Company uses a fair value hierarchy to categorize the inputs used in valuation techniques to measure fair value. Level 1 relies on the use of quoted market prices. Level 2 relies on internal models using observable market information as inputs, and Level 3 relies on internal models without observable market information. The Company has investments in U.S. Treasury securities and mortgage-backed securities that are classified in Level 1 and Level 2, respectively, of the fair value hierarchy. The valuation of assets that are measured at fair value on a recurring basis at September 30, 2008 are presented in the following table.

	Fair Value	Fair Value Measurements Using		
	9/30/08	Level 1	Level 2 (in thousands)	Level 3
Available-for-sale securities	\$ 466,958	\$ 19,996	\$ 446,962	\$

5. Fair Value Option

The Company adopted FAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities Including an Amendment of FASB Statement No. 115, as of January 1, 2008. The Statement permits entities to choose to measure certain eligible items at fair value at specified election dates. The Company did not elect the fair value option for any financial assets or financial liabilities for the quarter ended September 30, 2008.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**Forward-Looking Information**

The statements contained in this Report on Form 10-Q that are not purely historical are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, as amended, including statements regarding the Company's expectation, intentions, beliefs or strategies regarding the future. Forward-looking statements include the Company's statements regarding tax treatment as a real estate investment trust, liquidity, provision for loan losses, capital resources and investment activities. In addition, in those and other portions of this document, the words anticipate, believe, estimate, expect, intend and other similar

expressions, as they relate to the Company or the Company's management, are intended to identify forward-looking statements. Such statements reflect the current views of the Company with respect to future events and are subject to certain risks, uncertainties and assumptions. It is important to note that the Company's actual results could differ materially from those described herein as anticipated, believed, estimated or expected. Among the factors that could cause the results to differ materially are the risks discussed in Item 1A. Risk Factors in the Company's 2007 Form 10-K and in the Risk Factors section included in the Company's Registration Statement on Form S-11 (File No. 333-40257), with respect to the Preferred Shares declared effective by the Securities and Exchange Commission on February 5, 1998. The Company assumes no obligation to update any such forward-looking statement.

Table of Contents

HARRIS PREFERRED CAPITAL CORPORATION

Results of Operations

Third Quarter 2008 Compared with Third Quarter 2007

The Company's net income for the third quarter of 2008 was \$5.1 million, compared to \$5.6 million from the third quarter 2007. Earnings decreased primarily because of the lower interest yields on earning assets in the third quarter 2008 compared to the same period in 2007.

Interest income on securities purchased under agreement to resell for the third quarter of 2008 was \$101 thousand, on an average balance of \$24 million, with an annualized yield of 1.7%. During the same period in 2007, the interest income on securities purchased under agreement to resell was \$1.0 million, on an average balance of \$80.8 million, with an annualized yield of 4.96%. The decrease in income was attributable to lower yields due to targeted Fed Funds rate reductions by the Federal Reserve and lower average balances as available funds were used to purchase mortgage-backed securities. The weighted average Fed Funds rate at September 30, 2008 was 1.8% compared to the weighted average Fed Funds rate at September 30, 2007 of 4.94%. Third quarter 2008 interest income on the Notes totaled \$73 thousand and yielded 6.4% on \$4.5 million of average principal outstanding for the quarter compared to \$89 thousand and a 6.4% yield on \$5.6 million average principal outstanding for third quarter 2007. The decrease in income was attributable to a reduction in the Notes balance because of customer payoffs in the Securing Mortgage Loans. At September 30, 2008 and 2007, there were no Securing Mortgage Loans on nonaccrual status. Interest income on securities available-for-sale for the current quarter was \$5.1 million resulting in a yield of 4.45% on an average balance of \$458 million, compared to \$4.6 million with a yield of 4.7% on an average balance of \$393 million for the same period a year ago.

There were no Company borrowings during the third quarter of 2008 or 2007.

Third quarter 2008 operating expenses totaled \$134 thousand, an increase of \$39 thousand or 41% from the third quarter of 2007. General and administrative expenses totaled \$77 thousand, an increase of \$23 thousand over the same period in 2007, primarily due to increases in costs for regulatory compliance. Advisory fees for the third quarter 2008 were \$53 thousand compared to \$36 thousand a year earlier, increased primarily due to an increase in administrative and management operating costs. Loan servicing expenses totaled \$4 thousand, a decrease of \$1 thousand from a year ago based on the corresponding decrease in the Notes balance.

The Company classifies all securities as available-for-sale. The Company has no intent to sell specific securities, and the Company has the ability to hold all securities to maturity. Available-for-sale securities are reported at fair value with unrealized gains and losses included as a separate component of stockholders' equity. At September 30, 2008, net unrealized losses on available-for-sale securities were \$1.7 million compared to \$6.5 million of unrealized losses on September 30, 2007 and \$1 million of unrealized losses at December 31, 2007. The unrealized loss positions for individual securities at September 30, 2008, September 30, 2007 and December 31, 2007 were attributable to changes in interest rates and not to lowered credit quality of those securities; therefore, management believes these losses are temporary.

In making a determination of temporary vs. other-than-temporary impairment of an investment, a major consideration of management is whether the Company will be able to collect all amounts due according to the contractual terms of the investment. Such a determination involves estimation of the outcome of future events as well as knowledge and experience about past and current events. Factors considered include the following: whether the fair value is significantly below cost and the decline is attributable to specific adverse conditions in an industry or geographic area;

the period of time the decline in fair value has existed; if an outside rating agency has downgraded the investment; if dividends have been reduced or eliminated; if scheduled interest payments have not been made and finally, whether the financial condition of the issuer has deteriorated. In addition, it may be

Table of Contents

HARRIS PREFERRED CAPITAL CORPORATION

necessary for the Company to demonstrate its ability and intent to hold a debt security to maturity or until market value exceeds cost.

Nine Months Ended September 30, 2008 compared with September 30, 2007

The Company's net income for the nine months ended September 30, 2008 was \$15.6 million. This represented a \$1.1 million or 6.5% decrease from earnings for the first nine months ended September 30, 2007. Earnings decreased primarily because of lower interest yields on earning assets in 2008 compared to 2007.

Interest income on securities purchased under agreement to resell for the nine months ended September 30, 2008 was \$909 thousand, on an average balance of \$43 million, with a yield of 2.8%. During the same period in 2007, the interest income on securities purchased under agreement to resell was \$2.9 million on an average balance of \$78 million, with a yield of 4.9%. Interest income on the Notes for the nine months ended September 30, 2008 totaled \$233 thousand, yielding 6.4% on \$4.8 million of average principal outstanding compared to \$278 thousand, yielding 6.4% on \$5.8 million of average principal outstanding for the same period in 2007. The decrease in income was attributable to a reduction in the Notes balance because of customer payoffs on the Securing Mortgage Loans. Interest income on securities available-for-sale for the nine months ended September 30, 2008 was \$14.9 million resulting in a yield of 4.49% on an average balance of \$443 million, compared to \$13.9 million resulting in a yield of 4.6% on an average balance of \$399 million for the same period a year ago. The increase in interest income from available-for-sale securities is primarily attributable to growth in the portfolio of mortgage-backed securities. There were no Company borrowings during either period.

Operating expense for the nine months ended September 30, 2008 totaled \$403 thousand, an increase of \$105 thousand from the same period a year ago. Advisory fees for the nine months ended September 30, 2008 were \$155 thousand compared to \$103 thousand for the same period a year ago primarily due to increased internal processing costs. General and administrative expenses totaled \$237 thousand, an increase of \$56 thousand or 31% from the same period in 2007 as a result of increased costs for printing, regulatory compliance and legal fees. Loan servicing expenses for the nine months ended September 30, 2008 totaled \$11 thousand, a decrease of \$3 thousand or 21% from 2007. This decrease is attributable to the reduction in the principal balance of the Notes because servicing costs vary directly with these balances.

On September 30, 2008, the Company paid a cash dividend of \$0.46094 per share on outstanding Preferred Shares to the stockholders of record on September 15, 2008 as declared on September 3, 2008. On September 12, 2008 the Company paid a common stock dividend in the amount of \$650 thousand payable on the outstanding common shares to the stockholder of record on September 1, 2008. The Company elected under Internal Revenue Code Section 858(a) to treat this dividend as paid in 2007. On October 1, 2007, the Company paid a cash dividend of \$0.46094 per share on outstanding Preferred Shares to the stockholders of record on September 15, 2007 as declared on August 29, 2007. On September 17, 2007, the Company paid a cash dividend of \$512 thousand declared on August 29, 2007 on the outstanding common shares to the stockholder of record on September 1, 2007. The Company made the election under Internal Revenue Code Section 858(a) to treat this distribution as having been made during 2006.

Liquidity Risk Management

The objective of liquidity management is to ensure the availability of sufficient cash flows to meet all of the Company's financial commitments. In managing liquidity, the Company takes into account various legal limitations placed on a REIT.

Table of Contents

HARRIS PREFERRED CAPITAL CORPORATION

The Company's principal asset management requirements are to maintain the current earning asset portfolio size through the acquisition of additional Notes or other qualifying assets in order to pay dividends to its stockholders after satisfying obligations to creditors. The acquisition of additional Notes or other qualifying assets is funded with the proceeds obtained as a result of repayment of principal balances of individual Securing Mortgage Loans or maturities or sales of securities. The payment of dividends on the Preferred Shares is made from legally available funds, arising from operating activities of the Company. The Company's cash flows from operating activities principally consist of the collection of interest on the Notes, mortgage-backed securities and other earning assets. The Company does not have and does not anticipate having any material capital expenditures.

In order to remain qualified as a REIT, the Company must distribute annually at least 90% of its adjusted REIT ordinary taxable income, as provided for under the Internal Revenue Code, to its common and preferred stockholders. The Company currently expects to distribute dividends annually equal to 90% or more of its adjusted REIT ordinary taxable income.

The Company anticipates that cash and cash equivalents on hand and the cash flow from the Notes and mortgage-backed treasury securities will provide adequate liquidity for its operating, investing and financing needs including the capacity to continue preferred dividend payments on an uninterrupted basis.

As presented in the accompanying Consolidated Statements of Cash Flows, the primary sources of funds in addition to \$15.3 million provided from operations during the nine months ended September 30, 2008, were \$213 million from the maturities of securities available-for-sale. In the comparable prior period ended September 30, 2007, the primary sources of funds other than \$16.8 million from operations were \$255 million from the maturities of securities available-for-sale. The primary uses of funds for the nine months ended September 30, 2008 were \$212 million for purchases of securities available-for-sale, \$13.8 million in preferred stock dividends and \$3.6 million in common stock dividends paid. In the prior period ended September 30, 2007, the primary uses of funds were \$259 million for purchases of securities available-for-sale and \$13.8 million in preferred stock dividends paid and \$512 thousand in common stock dividends paid.

Market Risk Management

The Company's market risk is composed primarily of interest rate risk. There have been no material changes in market risk or the manner in which the Company manages market risk since December 31, 2007.

Accounting Pronouncements

The Company adopted Statement of Financial Accounting Standards (FAS) No. 157, Fair Value Measurements, as of January 1, 2008. The Statement clarifies the methods for measuring fair value, establishes a fair value hierarchy and requires expanded disclosure. It applies when other standards require or permit assets or liabilities to be measured at fair value. The adoption of the Statement did not have a material effect on the Company's financial position or results of operation. The FASB issued FASB Staff Position (FSP) No. FAS 157-2, Effective Date of FASB Statement No. 157, in February 2008. The FSP delayed the effective date of FAS 157 for nonfinancial assets and liabilities that are measured at fair value on a nonrecurring basis to fiscal years beginning after November 15, 2008. The Company adopted FSP 157-2 upon issuance. As of September 30, 2008, no nonrecurring, nonfinancial assets and liabilities were measured at fair value for which the Company has not applied the provisions of FAS 157.

The Company uses a fair value hierarchy to categorize the inputs used in valuation techniques to measure fair value. Level 1 relies on the use of quoted market prices, Level 2 relies on internal models using observable market information as inputs, and Level 3 relies on internal models without observable market information. The Company has investments in U.S. Treasury securities and mortgage-backed securities that are classified in Level 1 and Level 2, respectively, of the fair value hierarchy.

The Company adopted FAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities Including an Amendment of FASB Statement No. 115, as of January 1, 2008. The Statement permits entities to

Table of Contents

HARRIS PREFERRED CAPITAL CORPORATION

choose to measure certain eligible items at fair value at specified election dates. The Company did not elect the fair value option for any financial assets or financial liabilities for the quarter ended September 30, 2008.

Other Matters

As of September 30, 2008, the Company believes that it is in full compliance with the REIT tax rules, and expects to qualify as a non-taxable REIT under the provisions of the Internal Revenue Code. The Company expects to meet all REIT requirements regarding the ownership of its stock and anticipates meeting the annual distribution requirements.

Table of Contents

HARRIS N.A. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Basis of Presentation

Harris N.A. (the Bank) is a wholly-owned subsidiary of Harris Bankcorp, Inc. (Bankcorp), a wholly-owned subsidiary of Harris Financial Corp., a wholly-owned U.S. subsidiary of Bank of Montreal. The consolidated financial statements of the Bank include the accounts of the Bank and its wholly-owned subsidiaries. Significant inter-company accounts and transactions have been eliminated. Certain reclassifications were made to conform prior year's financial statements to the current year's presentation.

On May 12, 2007, Bankcorp consolidated one of its bank subsidiaries, First National Bank and Trust (FNBT), with and into the Bank. This transaction was recorded at its carrying value and prior year financial statements have been restated to include operations from the time FNBT was initially acquired by Bankcorp on January 4, 2007.

On September 6, 2008, Bankcorp consolidated three of its subsidiaries, Ozaukee Bank, Community Bank Group (CBG), and Community Financial Group Mortgage, Inc., with and into the Bank. Community Bank Group and Community Financial Group Mortgage, Inc. were subsidiaries of Merchants and Manufacturers Bancorporation. This transaction was recorded at its carrying value and prior period financial statements have been restated to include operations from the time Ozaukee Bank and Merchants and Manufacturers Bancorporation were initially acquired by Bankcorp on February 29, 2008.

The consolidated financial statements have been prepared by management from the books and records of the Bank, without audit by independent certified public accountants. However, these statements reflect all adjustments and disclosures which are, in the opinion of management, necessary for a fair presentation of the results for the interim periods presented.

Because the results of operations are so closely related to and responsive to changes in economic conditions, the results for any interim period are not necessarily indicative of the results that can be expected for the entire year.

2. Legal Proceedings

The Bank and certain of its subsidiaries are defendants in various legal proceedings arising in the normal course of business. In the opinion of management, based on the advice of legal counsel, the ultimate resolution of these matters is not expected to have a material adverse effect on the Bank's consolidated financial position.

3. Cash Flows

In the Consolidated Statements of Cash Flows, cash and cash equivalents include cash and demand balances due from banks, interest-bearing deposits at banks and federal funds sold and securities purchased under agreement to resell. Cash interest payments for the nine months ended September 30 totaled \$707.3 million and \$977.6 million in 2008 and 2007, respectively. Cash income tax payments over the same periods totaled \$92.3 million and \$79.3 million, respectively.

In 2007, the Bank changed the composition of cash and cash equivalents, previously defined as cash and due from banks, to include interest-bearing deposits at banks and federal funds sold and securities purchased under agreement to resell. The change in policy is a change in accounting principle and was retrospectively applied to the 2007 consolidated statements of cash flow.

4. Restructuring Charge

The Bank recorded a restructuring charge of \$13.7 million for the period ended September 30, 2007. The objectives of the restructuring were to enhance customer service by directing spending and resources on front-line sales and service improvements, creating more effective processes and systems across the Bank and continuing accelerating the pace of the Bank's growth.

Table of Contents

HARRIS N.A. AND SUBSIDIARIES

The charge related to the elimination of approximately 200 positions in primarily non-customer-facing areas of the Bank across all support functions and business groups. Of the charge, \$11.5 million related to severance related costs and \$2.2 million was associated with premises related charges.

Premises related charges include lease cancellation payments for those locations where we have legally extinguished our lease obligations as well as the carrying value of abandoned assets in excess of their fair market value.

During the nine months ended September 30, 2008 a reversal of \$141,000 was recorded relating to the restructuring liability.

At September 30, 2008, \$4.1 million remained in other liabilities compared to \$7.1 million as of December 31, 2007 and \$3.4 million as of September 30, 2007 on the Consolidated Statements of Condition related to amounts to be paid in future periods.

5. Visa Indemnification Charge

Harris N.A. was a member of Visa U.S.A. Inc. (Visa U.S.A.) and in 2007 received shares of restricted stock in Visa, Inc. (Visa) as a result of its participation in the global restructuring of Visa U.S.A., Visa Canada Association, and Visa International Service Association in preparation for an initial public offering by Visa. Harris N.A. and other Visa U.S.A. member banks were obligated to share in potential losses resulting from certain indemnified litigation involving Visa that has been settled.

A member bank such as Harris N.A. was also required to recognize the contingent obligation to indemnify Visa under Visa's bylaws (as those bylaws were modified at the time of the Visa restructuring on October 3, 2007), for potential losses arising from the other indemnified litigation that has not yet settled at its estimated fair value in accordance FASB Interpretation No. 45, Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others. Harris N.A. is not a direct party to this litigation and does not have access to any specific, non-public information concerning the matters that are the subject of the indemnification obligations. While the estimation of any potential losses was highly judgmental, as of December 31, 2007, Harris N.A. recorded a liability and corresponding charge for the remaining litigation.

The total Visa indemnification charges recognized in 2007 by Harris N.A. amounted to \$34.0 million (pretax). The initial public offering (IPO) occurred on March 25, 2008 followed by a mandatory partial redemption of Harris restricted stock in Visa that took place in two parts: exchange for cash and funding of the covered litigation escrow account.

During the first quarter of 2008, the Bank received \$37.8 million in cash in conjunction with the mandatory partial redemption which was recognized as an equity security gain in the Consolidated Statements of Income since there was no basis in the stock. In addition, Visa funded the U.S. litigation escrow account with IPO proceeds. The Bank's share of the U.S. litigation escrow account funding was \$17.0 million which was recognized as a reversal to the Bank's 2007 litigation reserve and as a decrease to other non-interest expenses.

On October 27, 2008, Visa announced the settlement of the litigation involving Discover Financial Services. As a result, the Bank recorded an additional reserve for this matter of \$7.0 million (pretax) during the third quarter. As of September 30, 2008 the recorded reserve relating to the Visa litigation matter included in the Consolidated Statements of Condition was \$24.1 million.

6. Fair Value Measurements

The Bank adopted Statement of Financial Accounting Standards (FAS) No. 157, Fair Value Measurements, as of January 1, 2008. The Statement clarifies the methods for measuring fair value, establishes a fair value hierarchy and requires expanded disclosure. It applies when other standards require or permit assets or liabilities to

Table of Contents

HARRIS N.A. AND SUBSIDIARIES

be measured at fair value. The adoption of the Statement did not have a material effect on the Bank's financial position or results of operation. The FASB issued FASB Staff Position (FSP) No. FAS 157-2, "Effective Date of FASB Statement No. 157," in February 2008. The FSP delayed the effective date of FAS 157 for non-financial assets and liabilities that are measured at fair value on a nonrecurring basis to fiscal years beginning after November 15, 2008. The Bank adopted FSP 157-2 upon issuance and, as a result, the Bank delayed adopting the provisions of FAS 157 for non-financial assets and liabilities that are measured at fair value on a nonrecurring basis, including goodwill and other intangible assets. The FASB issued FSP 157-3, "Determining the Fair Value of a Financial Asset When the Market for That Asset Is Not Active," in October 2008. The FSP clarifies the application of the Statement in a market that is not active and identifies key considerations. The Bank adopted FSP 157-3 upon issuance. Disclosure of fair value measurements will be included in the footnotes to the Bank's December 31, 2008 consolidated financial statements.

7. Fair Value Option

The Bank adopted FAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities—Including an Amendment of FASB Statement No. 115, as of January 1, 2008. The Statement permits entities to choose to measure certain eligible items at fair value at specified election dates. In 2008, the Bank elected the fair value option for certain financial liabilities. The carrying value of those liabilities was \$67 million as of September 30, 2008.

8. Accounting for Endorsement Split-Dollar Life Insurance Arrangements

The Bank adopted Emerging Issues Task Force (EITF) Issue No. 06-04, "Accounting for Deferred Compensation and Postretirement Benefit Aspects of Endorsement Split-Dollar Life Insurance Arrangements," in the first quarter of 2008. It requires recognition of a liability and related compensation costs for endorsement split-dollar life insurance arrangements that provide employee benefits in postretirement periods. The Bank acquired endorsement split-dollar life insurance arrangements for certain employees through various bank acquisitions. The arrangements cover 19 participants. Upon adoption of the EITF, the Bank recognized a \$0.5 million increase in the liability for deferred compensation; recorded a \$0.3 million decrease in retained earnings and a \$0.2 million increase in deferred taxes.

9. Auction Rate Securities Purchase Program

Auction-rate securities (ARS) are typically short-term notes issued in the United States to fund long-term, fixed rate debt instruments (corporate or municipal bonds primarily issued by municipalities, student loan authorities and other sponsors). The interest rate on ARS is regularly reset every 7 to 35 days through auctions managed by financial institutions. A disruption in the market for ARS occurred in the early part of 2008. The Bank offered to purchase at par value plus accrued interest, where auctions were failing, approximately \$94 million (par value plus accrued interest) of certain holdings of ARS from client accounts. The purchases of these securities are expected to be substantially completed in the fourth quarter of 2008. A discounted cash flow valuation methodology was applied to determine an estimate of the fair value of the purchase commitment as of September 30, 2008, resulting in a pretax charge of \$9.4 million included in other non-interest expense for the period ended September 30, 2008.

HARRIS N.A. AND SUBSIDIARIES

FINANCIAL REVIEW

Third Quarter 2008 Compared with Third Quarter 2007

Summary

For the third quarter 2008 the Bank reported a net loss of \$25.4 million, a decrease of \$72.3 million, reflecting a higher provision for credit losses and the impact of credit markets.

Net interest income was \$261.3 million, up \$55.6 million or 27 percent, driven by the positive impact of the declining interest rate environment on borrowing costs, improvement in interest rate sensitive businesses, and additional revenue from the Wisconsin acquisitions (Note 1). Net interest margin increased to 2.82 percent in the third quarter of 2008 from 2.26 percent a year ago. Average earning assets declined to \$38.4 billion in 2008 from \$38.7 billion in 2007, a 1 percent decrease, as higher loan balances from the Wisconsin acquisitions and organic loan growth were more than offset by a decrease of \$2.6 billion in the investment securities portfolio.

Provision for loan losses was \$130.2 million compared to \$13.0 million a year ago. This reflects higher economic impairment primarily attributable to the impact of market conditions within the Bank's commercial residential developer and home equity portfolios. Net charge-offs increased to \$87.2 million from \$6.7 million in the prior year, reflecting higher write-offs in those portfolios. The provision for loan losses takes into account portfolio quality, current economic conditions, and management's estimate of probable loan losses.

Non-interest income was \$112.1 million, an increase of \$8.8 million or 8.5 percent. This was primarily attributable to a \$6.3 million increase in service charges and fees and an increase in net equity securities gains of \$3.8 million.

Third quarter 2008 non-interest expenses were \$298.1 million, an increase of \$61.0 million or 26 percent. Most of the increase is attributable to \$33.1 million of operating and integration costs associated with the Wisconsin acquisitions (Note 1) and a \$9.4 million charge related to auction rate securities held by customers (Note 9). Additionally, the Bank experienced higher charges for third party services of \$8.2 million, \$7.0 million additional Visa litigation costs (Note 5), FDIC insurance of \$4.0 million, increased salaries/employee benefits of \$2.7 million, \$2.5 million loss on sale of OREO, and higher occupancy/equipment costs of \$2.4 million and marketing costs of \$2.2 million. These were partially offset by a decline of \$5.0 million in inter-company service charges. The fluctuation in income tax expense (benefit) reflects the change from pretax income of \$59 million in 2007 to a pretax loss of \$55 million in 2008.

Nonperforming assets at September 30, 2008 were \$709 million or 2.55 percent of total loans, up from \$304 million or 1.19 percent at December 31, 2007 and \$269 million or 1.07 percent at September 30, 2007. At September 30, 2008, the allowance for loan losses was \$515 million, equal to 1.85 percent of loans outstanding, compared to \$367 million or 1.44 percent of loans outstanding and \$316 million or 1.25 percent of loans outstanding at December 31, 2007 and September 30, 2007 respectively. As a result, the ratio of the allowance for loan losses to nonperforming assets decreased from 117 percent at September 30, 2007 and 121 percent at December 31, 2007 to 73 percent at September 30, 2008.

At September 30, 2008, consolidated stockholder's equity of the Bank amounted to \$4.2 billion, up slightly from \$3.8 billion at December 31, 2007. During the third quarter of 2008, \$16.3 million of common stock was issued while \$12.1 million was issued in the third quarter of 2007. Return (loss) on equity was (2.42) percent in the current quarter, compared to 5.12 percent in last year's third quarter. Return (loss) on assets was (0.24) percent compared to

0.44 percent a year ago. The Bank declared and paid \$10.0 million in dividends on common stock in the third quarter of 2008 compared to \$20.0 million declared and paid in the third quarter of 2007.

At September 30, 2008, Tier 1 capital of the Bank amounted to \$3.73 billion, up from \$3.53 billion one year earlier. The Bank's September 30, 2008 Tier 1 and total risk-based capital ratios were 10.71 percent and 12.81 percent compared to respective ratios of 10.50 percent and 12.32 percent at September 30, 2007. The regulatory leverage capital ratio was 8.89 percent for the third quarter of 2008 compared to 8.33 percent in the same quarter of 2007. The Bank's capital ratios exceed the prescribed regulatory minimum for banks and meet the criteria of well capitalized under the regulatory framework.

Table of Contents

Nine Months Ended September 30, 2008 Compared with September 30, 2007

Summary

The Bank's net income for the nine months ended September 30, 2008 was \$49.4 million, a decrease of \$90.1 million or 65 percent, reflecting a higher provision for loan losses and the impact of troubled credit markets. Return on equity was 1.60 percent in the current year, compared to 5.24 percent for first nine months of last year. Return on assets was 0.16 percent compared to 0.44 percent a year ago.

Net interest income was \$743.6 million, up \$115.7 million or 18 percent, largely due to the benefit of an improved net interest margin and Wisconsin acquisitions (Note 1). Net interest margin increased to 2.70 percent in 2008 from 2.31 percent in the same period in 2007, primarily reflecting the decline in short-term market interest rates and the resulting cost for certain interest-bearing liabilities. Average earning assets of \$38.3 billion were essentially flat as a \$1.4 billion increase in loans and a \$0.4 billion increase in trading account securities were offset by a decrease of \$1.9 billion in securities available for sale, particularly in U.S. government agencies.

Year to date 2008 provision for loan losses was \$282.7 million compared to \$26.8 million in 2007. This reflects higher economic impairment primarily attributable to the impact of market conditions within the bank's commercial residential developer and home equity portfolios. Net charge-offs increased to \$166.4 million from \$38.8 million in the prior year, reflecting higher write-offs in those portfolios.

Non-interest income was \$369.2 million, an increase of \$72.0 million or 24 percent. The majority of the increase is attributable to an increase of \$42.2 million in equity securities gains due largely to our participation in the Visa initial public offering (Note 5), higher net gains on securities available for sale of \$16.6 million, an increase of \$11.2 million in service charges and fees, and \$8.0 million additional income from the Wisconsin acquisitions (Note 1). These increases were partially offset by a decrease of \$10.2 million in money market and bond trading gains.

Non-interest expenses were \$797.5 million, an increase of \$75.0 million or 10 percent, largely driven by \$60.3 million of operating and integration costs associated with the Wisconsin acquisitions (Note 1) and a \$9.4 million charge related to auction rate securities held by customers (Note 9). These were partially offset by \$10.0 million net reversal of Visa litigation costs (Note 5) and the \$13.4 million 2007 restructuring charge (Note 4). Excluding all of these items, expenses increased \$28.8 million or 4.1 percent from 2007, reflecting growth to support increased business activities. Personnel costs rose 3.0 percent as a \$21.6 million increase in salaries and other compensation was partially offset by a decrease of \$10.8 million in pension, profit sharing and other employee benefits due to lower pension and retiree medical costs. Net occupancy costs were also up \$5.6 million due to increased building depreciation and maintenance, rent expense and higher real estate tax expense. Additionally, increases in third party services (\$17.1 million), marketing costs (\$4.9 million), FDIC insurance (\$4.8 million) and legal (\$3.7 million) were partially offset by lower inter-company service charges of \$15.7 million. The fluctuation in income tax expense (benefit) reflects the change from pretax income of \$176 million in 2007 to \$33 million for the nine months ended September 30, 2008.

Table of Contents**Item 3. Quantitative and Qualitative Disclosures About Market Risk**

See Liquidity Risk Management and Market Risk Management under Management's Discussion and Analysis of Financial Condition and Results of Operations beginning on page 7.

The following table stratifies the Company's available-for-sale securities by maturity date:

	Oct. 1, 2008 to Dec. 31, 2008	Year Ending December 31,					Total	Fair Value at September 30, 2008
		2009	2010	2011	2012	Thereafter		
(in thousands except percentages)								
Mortgage-Backed								
Amortized cost	\$	\$ 50,760	\$ 43,671	\$ 23,802	\$	\$ 330,421	\$ 448,654	\$ 446,962
Average Yield		4.10%	4.57%	4.00%		4.86%	4.69%	
U.S. Treasury								
Amortized cost	\$ 19,997						\$ 19,997	\$ 19,996
Average Yield	6.59%						6.59%	

At September 30, 2008, the Company's investments held in mortgage-backed securities are secured by adjustable and fixed interest rate residential mortgage loans. The yield to maturity on each security depends on, among other things, the price at which each such security is purchased, the rate and timing of principal payments (including prepayments, repurchases, defaults and liquidations), the pass-through rate and interest rate fluctuations. Changes in interest rates could impact prepayment rates as well as default rates, which in turn would impact the value and yield to maturity of the Company's mortgage-backed securities. These investments are guaranteed by the Federal National Mortgage Association, (FNMA) or Freddie Mac, and none of the underlying loan collateral is represented by sub-prime mortgages.

Item 4T. Controls and Procedures**(a) Evaluation of Disclosure Controls and Procedures**

Harris Preferred Capital Corporation's management, with the participation of the Chief Executive Officer and Chief Financial Officer, has evaluated the Company's disclosure controls and procedures as of September 30, 2008. Based on this evaluation, management has concluded that the disclosure controls and procedures are effective to provide reasonable assurance that the information required to be disclosed by the Company in the reports filed under the Securities Exchange Act of 1934, as amended is (i) recorded, processed, summarized and reported within the time period specified in the Securities and Exchange Commission's rules and forms, and (ii) accumulated and communicated to management, including the Chief Executive Officer and the Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

(b) Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting that occurred during the quarter ended September 30, 2008 that has materially affected, or is reasonably likely to materially affect, internal control over financial reporting.
