NOTICE OF ANNUAL GENERAL MEETING OF STOCKHOLDERS
To Be Held April 10, 2002

March 6, 2002

The Annual General Meeting of Stockholders of Schlumberger Limited (Schlumberger N.V.) will be held at the Avila Beach Hotel, Penstraat 130, Willemstad, Curacao, Netherlands Antilles, on Wednesday, April 10, 2002 at 10:30 in the morning (Curacao time), for the following purposes:

Edgar Filing: SCHLUMBERGER LTD /NY/ - Form PRE 14A

1. To elect 11 directors.
2. To report on the course of business during the year ended December 31, 2001, to adopt and approve the Company's Consolidated Balance Sheet as at December 31, 2001, its Consolidated Statement of Income for the year ended December 31, 2001, and the declaration of dividends by the Board of Directors as reflected in the Company's 2001 Annual Report to Stockholders.
3. To approve the appointment of PricewaterhouseCoopers LLP as independent public accountants to audit the accounts of the Company for 2002.

Action will also be taken upon such other matters as may come properly before the meeting.

The close of business on February 21, 2002 has been fixed as the record date for the meeting. All holders of common stock of record at the close of business on that date are entitled to vote at the meeting.

By order of the Board of Directors,

James L. Gunderson
Secretary

PROXY STATEMENT

March 6, 2002

This proxy statement is furnished in connection with the solicitation by the Board of Directors of Schlumberger Limited (Schlumberger N.V.) (the "Company") of proxies to be voted at the 2002 Annual General Meeting of Stockholders. The approximate mailing date of this proxy statement is March 6, 2002. Business at the meeting is conducted in accordance with the procedures determined by the Chairman of the meeting and is generally limited to matters properly brought before the meeting by or at the direction of the Board of Directors or by a stockholder in accordance with specified requirements requiring advance notice and disclosure of relevant information.

The Schlumberger 2001 Annual Report to Stockholders is included in this package as a separate document. The Company's Consolidated Balance Sheet as at December 31, 2001, its Consolidated Statement of Income for the year ended December 31, 2001 and the supplemental financial information with respect to dividends included in the Annual Report are incorporated by reference as part of this proxy soliciting material.

The Company will bear the cost of furnishing proxy material to all stockholders and of soliciting proxies by mail and telephone. D. F. King & Co., Inc. has been retained by the Company to assist in the solicitation of proxies for a fee estimated at \$10,000 plus reasonable expenses. The Company will reimburse brokerage firms, fiduciaries and custodians for their reasonable expenses in forwarding the solicitation material to the beneficial owners.

Voting Procedure

Each stockholder of record at the close of business on February 21, 2002 is entitled to one vote for each share registered in the stockholder's name. On that date there were __, __, __ outstanding shares of common stock of Schlumberger, excluding __, __, __ shares held in treasury.

Fifty percent of the outstanding shares, exclusive of shares held in

Edgar Filing: SCHLUMBERGER LTD /NY/ - Form PRE 14A

treasury, must be present in person or by proxy to constitute a quorum for the holding of the meeting. Abstentions and broker non-votes are counted for determining the presence of a quorum but are not counted as votes cast in the tabulation of votes on any matter brought before the meeting.

Shares cannot be voted at the meeting unless the owner of record is present in person or is represented by proxy. Schlumberger is incorporated in the Netherlands Antilles and, as required by Netherlands Antilles law, meetings of stockholders must be held in the Netherlands Antilles. The enclosed proxy card is a means by which a stockholder may authorize the voting of shares at the meeting. It may be revoked at any time by written notice to the Secretary of the Company before it is voted. If it is not revoked, the shares represented will be voted in accordance with the proxy.

1. Election of Directors

It is intended to fix the number of directors at 11 and to elect a Board of Directors of 11 members, each to hold office until the next Annual General Meeting of Stockholders and until a director's successor is elected and qualified or until a director's death, resignation or removal. Each of the nominees, except Jamie S. Gorelick, Andrew Gould and Adrian Lajous, is now a director and was previously elected by the stockholders. Don Ackerman, a director since 1982, Victor Grijalva, a director since 1998, John Mayo, a director since 2001 and Yoshihiko Wakumoto, a director since 1990 are not standing for reelection. Unless instructed otherwise, the proxies will be voted for the election of the 11 nominees named below. If any nominee is unable or unwilling to serve, proxies may be voted for another person designated by the Board of Directors. The Board knows of no reason why any nominee will be unable or unwilling to serve if elected.

A majority of the votes cast is required to elect each of the nominees for director.

The Board of Directors Recommends a Vote FOR All Nominees.

The Board of Directors' nominees for election to the Board, together with information furnished by them with respect to their business experience, and other information regarding them, are set forth below:

Board and Committees

Schlumberger has an Audit, a Compensation, a Finance, a Nominating and a Technology Committee.

The Audit Committee is comprised of four independent directors. It assists the Board in fulfilling its responsibilities to oversee the Company's financial reporting process and monitors the integrity of the Company's financial statements and the independence and performance of the Company's auditors. The Audit Committee recommends for appointment by the Board of Directors, subject to approval by the stockholders, a firm of independent certified public accountants whose duty is to examine the Schlumberger consolidated financial statements. Mrs. Stuntz is Chair of the Audit Committee, and Messrs. Levy-Lang, Mayo and Primat are the other members.

The Compensation Committee reviews and approves the compensation of the officers of the Company, advises on compensation and benefits matters and administers the Company's stock option plans. Mr. McCormick is Chair of the Compensation Committee. Messrs. Ackerman, Seydoux and Ullring are the other members.

Edgar Filing: SCHLUMBERGER LTD /NY/ - Form PRE 14A

The Finance Committee advises on various matters, including dividend and financial policies and the investment and reinvestment of funds. The Finance Committee periodically reviews the administration of the Schlumberger employee benefit plans and those of its subsidiaries. Mr. Levy-Lang is Chair of the Finance Committee and Messrs. Ackerman, Baird, Grijalva and Wakumoto are the other members.

The Nominating Committee recommends to the Board the number and names of persons to be proposed by the Board for election as directors at the annual general meetings of stockholders. It may also recommend to the Board persons to be appointed by the Board or to be elected by the stockholders to fill any vacancies which occur on the Board. Mr. Seydoux is Chair of the Nominating Committee, and Mrs. Stuntz, Messrs. Baird, Deutch and McCormick are the other members. The Nominating Committee will consider nominees recommended by stockholders who may submit nominations to Chair, Nominating Committee, care of the Secretary, Schlumberger Limited, 153 East 53 Street, 57th Floor, New York, New York 10022-4624.

The Technology Committee advises the Board and senior management on various matters including the quality and relevance of programs dealing with scientific research, development, information and manufacturing technology and also advises on research strategy and university relationships. Mr. Deutch is Chair of the Technology Committee and Mr. Levy-Lang is also a member.

During 2001 the Board of Directors held five meetings. The Audit Committee met four times; the Compensation Committee met four times; the Finance Committee met once; the Nominating Committee met five times; and the Technology Committee met twice. All incumbent director nominees attended at

4

least 83% of the aggregate of the meetings of the Board and of the committees of the Board on which such directors served.

Directors who are employees of Schlumberger do not receive compensation for serving on the Board or on committees of the Board. Board members who are not employees receive annual fees of \$40,000 each, annual stock awards of 500 shares of Schlumberger common stock and additional annual fees of \$10,000 as members of each of the committees on which they serve, except that the Chair of each Committee receives an annual fee of \$20,000, rather than the \$10,000 annual fee for committee service.

Audit Committee Report

The Audit Committee is comprised of four independent directors and operates under a written charter reviewed annually by the Board of Directors. The Audit Committee assists the Board in fulfilling its responsibilities to oversee the Company's financial reporting process and monitors the integrity of the Company's financial statements and the independence and performance of the Company's auditors. In this context, we have reviewed and discussed the Company's financial statements with Company management and the independent auditors, PricewaterhouseCoopers LLP, including matters raised by the independent auditors pursuant to Statement on Auditing Standards No. 61 (Communication with Audit Committees). The Audit Committee has reviewed and discussed such other matters as we deemed appropriate.

The Company's independent auditors provided the Audit Committee with written disclosures required by Independence Standards Board Standard No. 1

Edgar Filing: SCHLUMBERGER LTD /NY/ - Form PRE 14A

(Independence Discussions with Audit Committees), and we discussed the PricewaterhouseCoopers' independence with them.

We have considered whether the provision of services by PricewaterhouseCoopers LLP not related to the audit of the Company's financial statements and to the review of the Company's interim financial statements is compatible with maintaining PricewaterhouseCoopers' independence.

Based on the foregoing review and discussion, and relying on the representation of Company management and the independent auditors' report to the Audit Committee, the Audit Committee recommended that the Board of Directors include the audited financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2001 filed with the Securities and Exchange Commission.

Stock Option Grants Table

The following table sets forth certain information concerning options granted during 2001 to the named officers. Shown are hypothetical gains that could be realized for the respective options, based on assumed rates of annual compound stock price appreciation of 5% and 10% from the date the options were granted over the ten-year term of the options. Any amount realized upon exercise of the options will depend upon the market price of Schlumberger common stock at the time the option is exercised relative to the exercise price of the option. There is no assurance that the amounts reflected in this table will be realized.

Pension Plans

Schlumberger and certain of its subsidiaries maintain pension plans for employees, including executive officers, providing for lifetime pensions upon retirement after a specified number of years of service. Employees may participate in one or more pension plans in the course of their careers with the Company or its subsidiaries, in which case they become entitled to a pension from each plan based upon the benefits accrued during the years of service related to each plan. These plans are funded on an actuarial basis through cash contributions made by the Company or its subsidiaries. Certain of the plans also permit or require contributions by employees.

Benefits under the international staff pension plans of the Company and certain of its subsidiaries are based on a participant's pensionable salary (generally, base salary plus incentive) for each year in which the employee participates in the plans and the employee's length of service with the Company or the subsidiary. Since January 1, 1993, the benefit earned has been 3.2% of pensionable salary for each year of service. Benefits are payable upon normal retirement age, at or after age 55, or upon early retirement. Estimated annual benefits from these plans payable upon retirement are: \$37,052 for Mr. Baird, \$124,237 for Mr. Gould, \$61,612 for Mr. Liu, \$43,167 for Mr. Dijols and \$36,580 for Mr. Bismuth.

Benefits under the U.S. tax qualified pension plans of the Company and certain of its subsidiaries are based on an employee's admissible compensation

Edgar Filing: SCHLUMBERGER LTD /NY/ - Form PRE 14A

(generally, base salary plus incentive) for each year in which an employee participates in the U.S. plans and the employee's length of service with the Company or the subsidiary. From January 1, 1989, the benefit earned has been 1.5% of admissible compensation for service prior to the employee's completion of 15 years of active service and 2% of admissible compensation for service after completion of 15 years of active service. The Company has adopted a supplementary benefit plan for eligible employees, including executive officers. Amounts under the supplementary plan are accrued under an unfunded arrangement to pay each individual the additional amount which would have been payable under the plans if the amount had not been subject to limitations imposed by law on maximum annual benefit payments and on annual compensation recognized to compute plan benefits. Estimated annual benefits from the plans payable upon retirement (assuming retirement at age 65) are: \$43,292 for Mr. Dijols and, assuming admissible compensation continues at the December 31, 2001 levels, estimated annual benefits payable from the U.S. plans and the supplementary benefit plan are: \$715,795 for Mr. Baird; \$318,441 for Mr. Gould; \$213,241 for Mr. Pfister; \$206,603 for Mr. Liu and \$196,849 for Mr. Bismuth.

Corporate Performance Graph

The following graph compares the yearly percentage change in the cumulative total stockholder return on Schlumberger common stock, assuming reinvestment of dividends on the last day of the month of payment into common stock of Schlumberger, with the cumulative total return on the published Standard & Poor's 500 Stock Index and the cumulative total return on Value Line's Oilfield Services Industry Group over the preceding five-year period. The following graph is presented pursuant to Securities and Exchange Commission rules. Schlumberger believes that while total stockholder return is an important corporate performance indicator, it is subject to the vagaries of the market. In addition to the creation of stockholder value, the Schlumberger executive compensation program is based on financial and strategic results and the other factors set forth and discussed in the Compensation Committee Report beginning on page 9.

Compensation Committee Report on Executive Compensation

The Compensation Committee of the Board is composed entirely of outside Directors who review and approve compensation programs applicable to executive officers. Specific awards for these officers are approved by the Committee.

Three programs continue to provide the core compensation vehicles for executive officers:

- Base Salaries
- Annual Cash Incentive Awards
- Stock Option Grants

9

Base salaries are reviewed annually for competitiveness against a database of comparator company information provided by outside compensation consultants. The companies in the database are from industry segments in which Schlumberger competes: Oilfield Services and Information Technology with SchlumbergerSema. The companies in the database change slightly from year to year due to mergers and acquisitions as well as the normal movement of companies into and out of the database at their own volition.

The comparator companies used for compensation purposes are different from those in the Corporate Performance Graph (the Value Line Oilfield Services Industry Index).

While executive officer base salaries are reviewed annually to analyze their position versus the competitive market, they are adjusted less frequently. Except for significant changes in responsibility, an executive officer's base salary may be increased every three to five years and then by a significant amount. This has allowed the Company to focus primarily on variable compensation during periods of low inflation.

Mr. Gould's base salary was increased to \$800,000 based on increased corporate responsibilities. Mr. Pfister's base salary was increased to \$600,000 in April 2001, when he became Executive Vice President of SchlumbergerSema following the acquisition of Sema plc by the Company. Mr. Liu's base salary was increased to \$450,000 to position him competitively in the market.

Annual cash incentive awards for each executive officer are payable early in the calendar (fiscal) year and reflect performance against targets or objectives established in the preceding year.

Incentive awards for executive officers are calculated as a percentage of the base salary paid for the completed calendar year. The percent varies among executive officer positions to reflect the different levels of impact on Company results. For 2001, the incentive award ranges were:

- 0 to 100% for Mr. Baird
- 0 to 100% for Messrs. Gould and Pfister
- 0 to 75% for Mr. Liu
- 0 to 60% for Mr. Bismuth

Edgar Filing: SCHLUMBERGER LTD /NY/ - Form PRE 14A

With exceptional results incentive ranges can be exceeded.

One half of the incentive for each executive officer is a function of performance against financial targets for the Company (Messrs. Baird, Liu and Bismuth) or the business sector for which the executive officer is responsible (Messrs. Gould and Pfister). In 2001, the Company and the business sector targets were based on net income goals.

The second half of the incentive relates to performance against various objectives of each executive officer. Objectives may be strategic or personal and may relate solely to the completed fiscal year or be interim measures against longer-term objectives. The evaluation of the achievement of objectives is discretionary and subject to approval of the Committee.

Mr. Gould's cash compensation is in the top quartile of the comparator market based on the strong financial performance of the oilfield services sector in 2001. Mr. Pfister's cash compensation is in the third quartile of the comparator market. His objectives were the acquisition of Sema plc and its integration with Test and Transactions and the remaining businesses of the Resource Management Services Group. Mr. Liu's and Mr. Bismuth's results are based on financial goals established for the Company and specific functional and personal objectives. Mr. Liu's and Mr. Bismuth's compensation places them in the top half of the comparator companies.

10

Stock option grants are awarded on a general basis to eligible employees on an 18-month to two-year cycle. Grants are awarded on a discretionary basis to professional, managerial and technical employees who demonstrate exceptional performance in their current positions, as well as the likelihood of continuing high quality performance in the future. In addition, grants are awarded between general reviews to recognize promotions, substantial changes in responsibility, significant individual or team achievements, and under special circumstances. In 2001, following the acquisition of Sema plc, eligible SchlumbergerSema employees were recognized with a stock option grant.

Of the named executive officers, Messrs. Gould, Pfister and Bismuth were awarded stock option grants in 2001.

The stock option grants awarded by the Company are normally uniform in their terms for executive officers as well as for other optionees: 10-year term; vesting of 20% each year following the date of grant; and option price equal to fair market value on the date of grant. The Company occasionally awards grants with different vesting schedules in particular circumstances. The Company does not utilize below-market options, stock appreciation rights, phantom stock, restricted stock, performance units or reload options.

Section 162(m) of the Internal Revenue Code limits the deductibility of certain compensation expenses in excess of \$1,000,000 per individual. The Committee does not believe that the cash compensation payable in excess of this amount for fiscal year 2001 will result in any material loss of tax deduction. Therefore, the Committee has elected not to follow the provisions of Section 162(m) with regard to cash compensation. The Company's stock option plans are believed to be in compliance with the provisions of Section 162(m).

Bases for the Compensation of the Chief Executive Officer

As in past years, the same companies used for comparison purposes to review base salaries of other executive officers (and managerial employees

Edgar Filing: SCHLUMBERGER LTD /NY/ - Form PRE 14A

throughout Schlumberger) are analyzed to review the base salary of the Chief Executive Officer. The approximately 50 companies in the data base are from broad industry segments in which Schlumberger operates.

The Chief Executive Officer's salary remained at \$1,500,000 during 2001.

The annual incentive range for Mr. Baird was 100% of base salary in 2001. One-half of this award was measured against net income targets for the Company. These targets were exceeded, so payment on the financial portion of the incentive award is greater than 50% of base salary.

The second half of the award reflects the Committee's evaluation of Mr. Baird's excellent performance against strategic objectives established early in 2001 for the calendar year. These objectives were a combination of acquisitions, divestitures, and integration of new businesses. Disclosure of specific measures applied to evaluate achievement of Mr. Baird's objectives could adversely affect the Company's competitive position.

The total cash incentive awarded Mr. Baird for 2001 performance was \$2,000,000. In combination with base salary, this places him in the top quartile of comparator market data.

Mr. Baird has no employment agreement with the Company.

2. Financial Statements

The Company's Consolidated Balance Sheet as at December 31, 2001, its Consolidated Statement of Income for the year ended December 31, 2001, as audited by PricewaterhouseCoopers LLP, and the amount of dividends declared by the Board of Directors during 2001 are submitted to the stockholders pursuant to the Schlumberger Deed of Incorporation.

A majority of the votes cast is required for the adoption and approval of the financial results as set forth in the financial statements and of the declaration of dividends by the Board of Directors as reflected in the 2001 Annual Report to Stockholders.

The Board of Directors Recommends a Vote FOR Item 2.

3. Appointment of Auditors

PricewaterhouseCoopers LLP have been selected by the Board of Directors as independent public accountants to audit the accounts of the Company for the year 2002. The Schlumberger by-laws provide that the selection of auditors is subject to approval by the stockholders, and a majority of the votes cast is required for such approval. A representative of PricewaterhouseCoopers LLP will attend the 2002 Annual General Meeting and will have the opportunity to make a statement and respond to questions.

Fees Paid to PricewaterhouseCoopers LLP

Edgar Filing: SCHLUMBERGER LTD /NY/ - Form PRE 14A

PricewaterhouseCoopers LLP has billed the Company and its subsidiaries fees and out-of-pocket expenses as set forth in the table below for (i) the audit of the Company's 2001 annual financial statements and reviews of quarterly financial statements, (ii) financial information systems design and implementation work rendered in 2001 and (iii) all other services rendered in 2001.

	Audit Fees	Financial Information Systems Design and Implementation Fees	All Other Fees
	-----	-----	-----
Fiscal year 2001	\$6,305,000	\$1,385,000	\$7,255,000

The Board of Directors Recommends a Vote FOR Item 3.

Stockholder Proposals for 2003 Annual General Meeting

In order for a stockholder proposal to be considered for inclusion in the proxy statement for the 2003 Annual General Meeting of Stockholders, written proposals must be received by the Secretary of the Company, 153 East 53 Street, 57th Floor, New York, New York 10022-4624, no later than November 6, 2002. Pursuant to the rules under the Securities Exchange Act of 1934, the Company may use discretionary authority to vote with respect to stockholder proposals presented in person at the 2003 Annual General Meeting if the stockholder making the proposal has not given notice to the Company by January 20, 2003.

Other Matters

Stockholders may obtain a copy of Form 10-K filed with the Securities and Exchange Commission without charge by writing to the Secretary of the Company at 153 East 53 Street, 57th Floor, New York, New York 10022-4624.

12

The Board of Directors knows of no other matter to be presented at the Meeting. If any additional matter should be presented properly, it is intended that the enclosed proxy will be voted in accordance with the discretion of the persons named in the proxy.

Please sign, date, and return the accompanying proxy in the enclosed envelope at your earliest convenience.

By order of the Board of Directors,

James L. Gunderson
Secretary

Notes To Consolidated Financial Statements

Summary of Accounting Policies

The Consolidated Financial Statements of Schlumberger Limited and its subsidiaries have been prepared in accordance with accounting principles generally accepted in the United States of America. Refer to page XX for a description of Schlumberger's businesses.

DISCONTINUED OPERATIONS

On December 31, 1999, Schlumberger completed the spin-off of its offshore contract drilling business, Sedco Forex, to its stockholders and the subsequent merger of Sedco Forex and Transocean Offshore Inc., which changed its name to

Edgar Filing: SCHLUMBERGER LTD /NY/ - Form PRE 14A

Transocean Sedco Forex Inc. following the merger. The results for the Sedco Forex operations spun off by Schlumberger are reported as Discontinued Operations in the Consolidated Statement of Income.

PRINCIPLES OF CONSOLIDATION

The Consolidated Financial Statements include the accounts of majority-owned subsidiaries. Significant 20% - 50% owned companies are carried on the equity method and classified in Investments in Affiliated Companies. The pro rata share of Schlumberger after-tax earnings is included in Interest and Other Income. All inter-company accounts and transactions have been eliminated.

RECLASSIFICATIONS

Certain items from prior years have been reclassified to conform to the current year presentation.

USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Significant estimates include estimates of total cost under percentage of completion contracts, useful life of identifiable intangibles, inventory reserves, pension and postretirement actuarial assumptions and allowance for bad debt. While actual results could differ from these estimates, management believes that the estimates are reasonable.

REVENUE RECOGNITION

Product and Services Revenue

Schlumberger's products and services are generally sold based upon purchase orders or contracts with the customer that include fixed or determinable prices and that do not include right of return or other similar provisions or other significant post delivery obligations. Revenue is recognized for products upon delivery, customer acceptance and when title passes. Revenue is recognized when services are rendered and collectibility is reasonably assured.

Certain revenues are recognized on a time and materials basis, or on a percentage of completion basis, depending on the contract, as services are provided. Revenue from time and material service contracts are recognized as the services are provided. Revenue from fixed price contracts is recognized over the contract term based on the percentage of the cost of services provided during the period compared to the total estimated cost of services to be provided over the entire contract. Losses on contracts are recognized during the period in which the loss first becomes probable and reasonably estimated.

5

Software Revenue

Revenue derived from the sale of licenses for its software, maintenance and related services may include installation, consulting and training services.

If services are not essential to the functionality of the software, the revenue for each element of the contract is recognized separately based on its respective vendor specific objective evidence of fair value when all of the

Edgar Filing: SCHLUMBERGER LTD /NY/ - Form PRE 14A

following conditions are met: a signed contract is obtained, delivery has occurred, fee is fixed and determinable and collectibility is probable.

If an ongoing vendor obligation exists under the license arrangement, or if any uncertainties with regard to customer acceptance are significant, revenue for the related element is deferred based on its vendor specific objective evidence of fair value. Vendor specific objective evidence of fair value is determined as being the price for the element when sold separately. If vendor specific objective evidence of fair value does not exist for all undelivered elements, all revenue is deferred until sufficient evidence exists or all elements have been delivered.

TRANSLATION OF NON-US CURRENCIES

Oilfield Services' functional currency is primarily the US dollar. SchlumbergerSema functional currencies are primarily local currencies. All assets and liabilities recorded in functional currencies other than US dollars are translated at current exchange rates. The resulting adjustments are charged or credited directly to the Stockholders' Equity section of the Consolidated Balance Sheet. Revenue and expenses are translated at the weighted-average exchange rates for the period. All realized and unrealized transaction gains and losses are included in income in the period in which they occur. Schlumberger policy is to hedge against unrealized gains and losses on a monthly basis. Included in the 2001 results were transaction losses of \$7 million, compared with losses of \$4 million and \$12 million in 2000 and 1999, respectively.

Currency exchange contracts are entered into as a hedge against the effect of future settlement of assets and liabilities denominated in other than the functional currency of the individual businesses. Gains or losses on the contracts are recognized when the currency exchange rates fluctuate, and the resulting charge or credit partially offsets the unrealized currency gains or losses on those assets and liabilities. On December 31, 2001, contracts were outstanding for the US dollar equivalent of \$851 million in various foreign currencies. These contracts mature on various dates in 2002.

INVESTMENTS

Both short-term and long-term investments, held to maturity comprise primarily eurodollar time deposits, certificates of deposit and commercial paper, euronotes and eurobonds, substantially all denominated in US dollars. They are stated at cost plus accrued interest, which approximates market. Substantially all the investments designated as held to maturity that were purchased and matured during the year had original maturities of less than three months. Short-term investments that are designated as trading are stated at market. The unrealized gains/losses on such securities on December 31, 2001 were not significant.

For purposes of the Consolidated Statement of Cash Flows, Schlumberger does not consider short-term investments to be cash equivalents as they generally have original maturities in excess of three months.

INVENTORIES

Inventories are stated at average cost or at market, whichever is lower. Inventory consists of materials, supplies and finished goods.

GOODWILL AND INTANGIBLE ASSETS

Edgar Filing: SCHLUMBERGER LTD /NY/ - Form PRE 14A

Goodwill is amortized on a straight-line basis over 5 to 40 years. Accumulated goodwill amortization was \$645 million and \$563 million on December 31, 2001 and 2000, respectively. Intangible assets consist primarily of assembled workforce, technology, software and patents. Intangible assets are amortized over periods ranging from 3 to 10 years. Accumulated intangible assets amortization at December 31, 2001 and 2000 was \$123 million and \$35 million, respectively.

FIXED ASSETS AND DEPRECIATION

Fixed assets are stated at cost less accumulated depreciation, which is provided for by charges to income over the estimated useful lives of the assets using the straight-line method. Fixed assets include the manufacturing cost (average cost) of oilfield technical equipment manufactured or assembled by subsidiaries of Schlumberger. Expenditures for renewals, replacements and improvements are capitalized. Maintenance and repairs are charged to operating expenses as incurred. Upon sale or other disposition, the applicable amounts of asset cost and accumulated depreciation are removed from the accounts and the net amount, less proceeds from disposal, is charged or credited to income.

MULTICLIENT SEISMIC DATA

Schlumberger capitalizes the cost of obtaining multiclient surveys. Such costs are charged to Cost of goods sold and services based on a percentage of estimated total revenue that Schlumberger expects to receive from the sales of such data. The carrying value of individual surveys is periodically reviewed and adjustments to the value are made based upon the revised estimated revenues for the surveys.

CAPITALIZED INTEREST

Schlumberger capitalizes interest expense during the new construction or upgrade of qualifying assets. No interest expense was capitalized in 2001 and 2000. Interest expense capitalized in 1999 was \$5 million.

IMPAIRMENT OF LONG-LIVED ASSETS

Schlumberger reviews the carrying value of its long-lived assets, including goodwill and intangible assets, whenever events or changes in circumstances indicate that the historical cost-carrying value of an asset may no longer be appropriate. Schlumberger assesses recoverability of the carrying value of the asset by estimating the future net cash flows expected to result from the asset, including eventual disposition. If the future net cash flows are less than the carrying value of the asset, an impairment loss is recorded equal to the difference between the asset's carrying value and fair value.

TAXES ON INCOME

Schlumberger and its subsidiaries compute taxes on income in accordance with the tax rules and regulations of the many taxing authorities where the income is earned. The income tax rates imposed by these taxing authorities vary substantially. Taxable income may differ from pretax income for financial accounting purposes. To the extent that differences are due to revenue or expense items reported in one period for tax purposes and in another period for financial accounting purposes, an appropriate provision for deferred income taxes is made.

Approximately \$4 billion of consolidated income retained for use in the business on December 31, 2001 represented undistributed earnings of consolidated subsidiaries and the pro rata Schlumberger share of 20%-50% owned companies. No provision is made for deferred income taxes on those earnings considered to be indefinitely reinvested or earnings that would not be taxed when remitted.

EARNINGS PER SHARE

Basic earnings per share is calculated by dividing net income by the average number of common shares outstanding during the year. Diluted earnings per share is calculated by dividing net income by the average number of common shares outstanding assuming dilution, the calculation of which assumes that all stock options and warrants which are in the money are exercised at the beginning of the period and the proceeds used, by Schlumberger, to purchase shares at the average market price for the period. The following is a reconciliation from basic earnings per share to diluted earnings per share from continuing operations for each of the last three years:

RESEARCH & ENGINEERING

All research and engineering expenditures are expensed as incurred, including costs relating to patents or rights that may result from such expenditures. Included in 2001 expenditures was a charge of \$25 million for in-process R&D related to the Bull CP8 acquisition.

NEW ACCOUNTING STANDARDS

Edgar Filing: SCHLUMBERGER LTD /NY/ - Form PRE 14A

In June 2001, SFAS 141 (Business Combinations) and SFAS 142 (Goodwill and Other Intangible Assets) were issued. SFAS 141 has been adopted by Schlumberger for acquisitions subsequent to June 30, 2001. SFAS 142 will be adopted by Schlumberger commencing January 1, 2002. As required by SFAS 142, Schlumberger will undertake a review for impairment in 2002. The preliminary findings of an independent valuation indicated there will be no impairment writedown in 2002.

8

Amortization of goodwill and other intangibles included in Schlumberger's results are as follows:

(Stated in millions)			
Pretax			
	2001	2000	1999
Goodwill	\$ 270	\$ 96	\$ 85
Work force	22	-	-
Other Intangibles	55	5	-
	-----	-----	-----
	\$ 347	\$ 101	\$ 85
	=====	=====	=====

With the adoption of SFAS 142, the equivalent amount of amortization for other intangibles is estimated to be \$70 million in 2002. Amortization of goodwill and work force ceases.

In June 2001, SFAS 143 (Accounting for Asset Retirement Obligations) was issued. SFAS 143 will be adopted by Schlumberger commencing January 1, 2003. Schlumberger does not believe that the implementation of this standard will have any material effect on its financial position and results of operations.

In August 2001, SFAS 144 (Accounting for Impairment or Disposal of Long-Lived Assets) was issued. SFAS 144 will be adopted by Schlumberger commencing January 1, 2002. Schlumberger does not believe that the implementation of this standard will have any material effect on its financial position and results of operations.

In November, the FASB EITF staff issued announcement Topic D-103, "Income Statement Characterization of Reimbursements Received for "Out-of-Pocket"". As a result, customer reimbursements, including those relating to travel and other out-of-pocket expenses, and other similar third-party costs, will be required to be included as Revenues effective January 1, 2002, and an equivalent amount of reimbursable expenses will be included in expenses. The adoption of this announcement will not have an effect on net income.

Charges - continuing operations

Schlumberger recorded the following charges/credits in continuing operations:

In March 2001, a charge of \$25 million for in-process R&D related to the Bull CP8 acquisition.

Edgar Filing: SCHLUMBERGER LTD /NY/ - Form PRE 14A

In June 2001, a charge of \$280 million (\$0.48 per share - diluted) for the estimated impairment charge from the disposition of certain Resource Management Services businesses.

In September 2001, a pretax credit of \$42 million (after tax \$3 million) representing the gain on the sale of the worldwide gas compression business, partially offset by an impairment charge relating to the expected disposition of certain activities. The proceeds from the sale of the worldwide gas compression business included \$274 million in cash, a \$150 million long-term subordinated note and newly issued Hanover Compressor Company shares with a value of \$173 million. The shares have a three year marketability restriction. As part of the transaction, Schlumberger agreed that the financing of a certain joint venture project would be non-recourse to the buyer and would be executed prior to December 31, 2002. Accordingly, Schlumberger is obligated with respect to the financing to guarantee 30% (approximately \$80 million) until the project is completed in late 2002. If as of December 31, 2002 refinancing has not become non-recourse to the buyer or the project has not achieved substantial completion, the buyer has an option to put its interest in such joint venture back to Schlumberger. The gain on the sale of this joint venture has been deferred.

In December 2001, a pretax credit of \$119 million (net - \$5 million after tax and minority interest, \$0.01 per share - diluted), consisting primarily of the following:

9

- . A credit of \$223 million (\$117 million after tax) from the sale of the former Resource Management Services North American Water division.
- . A pretax charge of \$43 million (\$37 million after tax) for employee termination costs, principally in Europe and the US, related to Oilfield Services and SchlumbergerSema in response to current business conditions.
- . A tax charge for reorganization costs of \$29 million.
- . A further pretax charge of \$28 million (\$20 million after tax) related to the second quarter estimated loss on the divestiture of certain Resource Management Services businesses following the actual closing in the fourth quarter.
- . A \$33 million pretax asset writedown (\$23 after tax and minority interest) following a recent determination of technological impairment related to certain Land seismic assets in the newly formed joint venture.

The above 2001 pretax amounts are recorded: an aggregated \$119 million charge in Cost of goods sold and services, a \$25 million charge in Research & engineering and a \$10 million credit in Minority interest.

In December 2000, a pretax charge of \$84 million offset by a pretax gain of \$82 million (net - \$3 million after tax and minority interest, \$0.00 per share - diluted), consisting of the following:

- . A charge of \$29 million (\$25 million after tax) related primarily to the write down of certain inventory and severance costs in the Semiconductor Solutions business due to weak market conditions.
- . A charge of \$55 million (\$39 million after tax and minority interest) related to the creation of the WesternGeco seismic joint venture, including asset impairments and severance costs for Schlumberger's

Edgar Filing: SCHLUMBERGER LTD /NY/ - Form PRE 14A

existing Geco-Prakla business.

- . A credit of \$82 million (\$61 million after tax) resulting from the gain on the sale of two Gas Services businesses in Europe. Revenue and operating net results for these divested activities were \$110 million and a \$740,000 loss, respectively, in 2000 (10 months) and \$163 million and \$2.7 million profit, respectively in 1999.

The pretax gain on the sale of the Gas Services businesses is included in Interest & Other Income. The pretax Semiconductor Solutions and WesternGeco charges are included in Cost of goods sold and services. A \$9 million credit is included in Minority Interest relating to the WesternGeco charges.

In March 1999, a pretax charge of \$147 million partially offset by a pretax gain of \$103 million (net - \$58 million after tax, \$0.10 per share - diluted), consisting of the following:

- . A charge of \$118 million (\$118 million after tax) related to the downsizing of its global Oilfield Services activities, including \$108 million of severance costs and \$10 million for asset impairments.
- . A charge of \$29 million (\$20 million after tax) related to Resource Management Services and Test & Transactions, consisting principally of \$16 million of severance costs at several Resource Management Services facilities resulting from a downturn in business and \$5 million of asset write-downs.
- . A credit of \$103 million (\$80 million after tax) from the gain on the sale of financial instruments received in connection with the 1998 sale of the Retail Petroleum Systems business.

10

The pretax gain on the sale of financial instruments is included in Interest & other income. The pretax charge of \$147 million is classified in Cost of goods sold and services.

In December 1999, a pretax charge of \$77 million (\$71 million after tax), classified in Cost of goods sold and services, consisting primarily of the following:

- . A charge of \$31 million (\$26 million after tax) including \$23 million of asset impairments and \$8 million of severance costs related to reductions in the marine seismic fleet due to depressed market conditions.
- . A charge of \$38 million (\$37 million after tax) including \$33 million of asset impairments and \$5 million of severance costs related to the restructuring of its land drilling activity following the spin-off of its offshore drilling business to stockholders.

The December 2001 charge included severance costs of \$41 million (775 people) of which \$9 million (318 people) had been paid at December 31, 2001. The remaining severance costs are expected to be paid before June 30, 2002. The December 2000 charges included severance costs of \$9 million (380 people) which have been paid.

Discontinued Operations

On December 31, 1999, Schlumberger completed the spin-off of its offshore

Edgar Filing: SCHLUMBERGER LTD /NY/ - Form PRE 14A

contract drilling business, Sedco Forex, to its stockholders and the subsequent merger of Sedco Forex and Transocean Offshore Inc., which changed its name to Transocean Sedco Forex Inc. following the merger. The spin-off was approved by stockholders on December 10, 1999.

Upon completion of the merger, Schlumberger stockholders held approximately 52% of the ordinary shares of Transocean Sedco Forex Inc., and Transocean Offshore Inc. shareholders held the remaining 48%. Schlumberger retained no ownership in the combined company.

In the spin-off, Schlumberger stockholders received one share of Sedco Forex for each share of Schlumberger owned on the record date of December 20, 1999. In the merger, each Sedco Forex share was exchanged for 0.1936 ordinary share of Transocean Sedco Forex Inc. Stockholders received cash in lieu of fractional shares.

Results for the Sedco Forex operations spun off by Schlumberger for this transaction are reported as discontinued operations in the Consolidated Statement of Income.

Discontinued Operations on the Consolidated Statement of Income includes the operating results of the spun-off Sedco Forex business and the following charges:

- . In December 1999, an after-tax charge of \$50 million (\$0.09 per share - diluted) for costs directly associated with the spin-off.
- . In March 1999, an after-tax charge of \$33 million (\$0.06 per share - diluted) for severance costs (\$13 million) and legal claims.

As a result of the spin-off, Schlumberger Income Retained for Use in the Business was reduced by \$918 million representing the spun-off net assets of Sedco Forex (\$1.23 billion) less payments received in settlement of intercompany balances between Schlumberger and Sedco Forex (\$313 million). The net assets spun off included \$1.3 billion of fixed assets.

Pursuant to Accounting Principles Board Opinion (APB) No. 30, Reporting the Results of Operations-Reporting the Effects of Disposal of a Segment of a Business, and Extraordinary, Unusual and Infrequently Occurring Events and Transactions, the revenue and expenses of Sedco Forex have been excluded from the respective captions in the Consolidated Statement of Income. The net operating results of Sedco Forex have been reported, net of applicable income taxes, as Discontinued Operations.

Acquisition of Sema plc

On February 12, 2001, Schlumberger announced that it had reached an agreement with the board of directors of Sema plc on the terms of a recommended offer for the entire issued and to be issued share capital of Sema plc.

On March 8, 2001, a wholly owned subsidiary of Schlumberger acquired, through market purchases, approximately 20% of the issued share capital of Sema at a cost of \$1 billion.

On April 6, 2001, the offer for the shares of Sema plc was declared unconditional in all respects. The aggregate consideration for the acquisition of 100% of the issued Sema shares was \$5.15 billion (including expenses of the transaction) which was financed from existing cash resources and borrowings under a \$3 billion credit facility.

On October 3, 2001, wholly owned subsidiaries of Schlumberger issued \$1.9 billion European bonds (Euro 1.4 billion and (pound)425 million). The average rate of these bonds is 5.9% with maturity from 2008 through 2032. The proceeds from the issues were used to repay short-term bank loans originally taken out by those subsidiaries to finance the acquisition of Sema plc.

The acquisition was accounted for using the purchase method of accounting and the goodwill and identifiable intangibles aggregated \$5.19 billion which are being amortized on a straight line basis. Goodwill and identifiable intangibles are currently amortized on a straight line basis over a composite life of 18 years.

The aggregate value of goodwill and identifiable intangibles comprised the following:

	(Dollars in billions)
Cost (including expenses)	\$ 5.15
Purchase accounting adjustments /1/	0.34
Net tangible assets acquired	(0.30)

	\$ 5.19
	=====

1. Purchase accounting adjustments consisted primarily of severance costs (\$84 million - 1781 people), facility reductions (\$33 million), pension plan adjustments (\$136 million) and tax restructuring costs (\$50 million). At December 31, 2001, \$26 million (593 people) of the severance costs had been paid. The remaining severance costs are expected to be paid before June 30, 2002.

For financial reporting purposes, Schlumberger included the results of operations of Sema in its consolidated accounts commencing April 1, 2001. If Sema had been included in the consolidated financial statements of Schlumberger from January 1, consolidated revenue for the twelve months ended December 31, 2001 would have increased by \$538 million (unaudited) to \$14.3 billion (unaudited) and consolidated net income would have decreased by approximately \$140 million (unaudited), to \$382 million (unaudited), related primarily to increased interest expense and amortization of intangibles, and

Edgar Filing: SCHLUMBERGER LTD /NY/ - Form PRE 14A

lower interest income. On a proforma basis, Schlumberger 2000 operating revenue and net income would have been \$12 billion (unaudited) and \$300 million (unaudited), respectively.

Sema is an IT services company (with approximately 22,000 employees at the date of acquisition) that provides its customers with design, implementation, operations and management of information systems and IT-related consulting services. Among the industry sectors which Sema serves, Sema has increasingly focused on the telecommunications and finance sectors, and provides a range of its own software products specifically designed for these sectors in addition to its IT services. Sema's customers include a wide variety of businesses and governmental departments around the world. Sema's services and product offerings include systems integration and consulting; software products for the telecommunications, energy, transport and finance sectors; and outsourcing.

Other Acquisitions

During 2001, subsidiaries of Schlumberger acquired the following:

- . In March, Bull CP8, a market leader in microprocessor-based smart cards and associated systems applications for the banking, mobile communications and network security industries. The acquisition price was \$313 million in cash. Assets acquired included identifiable intangibles (primarily patents) of \$136 million and goodwill of \$140 million. In-process R&D, which aggregated \$25 million, was charged to expense in the first quarter.
- . In June, Infosynergi ASA, a Norwegian based company specializing in customer information and billing systems integration. The acquisition price was \$29 million in cash. Assets acquired included goodwill of \$29 million.
- . In September, Sensor Highways Limited, a UK based market leader in the design, manufacture and deployment of a new generation of fiber optic sensors specializing in real-time data solutions to the oil and gas, process and power distribution industries. The acquisition price was \$100 million, consisting of \$70 million in cash and \$30 million in notes. Assets acquired included identifiable intangibles of \$48 million and goodwill of \$50 million.
- . In September, Phoenix Petroleum Services, a UK based leader in providing tools, technologies and techniques for optimizing production in artificially lifted wells, particularly those using submersible pumps. The acquisition price was \$33 million in cash. Assets acquired included goodwill of \$26 million.

These acquisitions were accounted for using the purchase method of accounting.

During 2000, subsidiaries of Schlumberger acquired the following:

- . In January, Telweb Inc., an Internet access company based in Quebec, Canada. The purchase price was \$28 million and the assets acquired included goodwill of \$28 million.
- . In April, Operational Services, Inc., which provides a systematic approach to production management through efficient systems and processes. The purchase price was \$13 million and the assets acquired included goodwill of \$13 million.
- . In May, substantially all of the assets of CellNet Data Systems, Inc., a

Edgar Filing: SCHLUMBERGER LTD /NY/ - Form PRE 14A

provider of telemetry services for the development and deployment of large-scale automatic metering reading systems. The acquisition was handled through Chapter 11 procedure and was approved by the bankruptcy court. The purchase price was \$209 million and there was no goodwill arising on the acquisition.

- . In October, Data Marine Systems Limited, a global provider of telecommunications services for transmitting data from remote locations. The purchase price was \$83 million and the assets acquired included goodwill of \$75 million.

13

- . In November, a 70% interest in the Convergent Group, a provider of business consulting, software engineering, system integration and project management services. The purchase price was \$263 million and the assets acquired included goodwill of \$214 million.
- . In November, a 70% interest in WesternGeco, a new venture which combined the Schlumberger surface seismic business, Geco-Prakla, and the Western Geophysical seismic unit of Baker Hughes Incorporated. The purchase price was \$720 million which comprised \$500 million in cash and a 30% interest, valued at \$220 million, in Geco-Prakla. There was no goodwill arising on the acquisition.

These acquisitions were accounted for using the purchase method of accounting.

Unaudited APB 16 proforma results pertaining to the above acquisitions are not presented as the impact was not significant.

During 1999, subsidiaries of Schlumberger acquired Merak, a market leader in petroleum software solutions; Secure Oil Tools, a leader in multilateral completions; and substantially all of the assets of Panther Software Corporation, a provider of hardware and software products and services for managing large volumes of seismic data. These acquisitions were accounted for using the purchase method of accounting and the total goodwill arising on the acquisitions was \$106 million.

In the third quarter of 1999, the Omnes joint venture, created in 1995 between Schlumberger and Cable & Wireless, was restructured into two separate business units. Under the agreement, equal ownership and access to products, technology and intellectual property was given to both parent companies. Schlumberger retained ownership of the Omnes name. Omnes is now a fully operational company within Oilfield Services.

Investments in Affiliated Companies

In the third quarter of 1999, Schlumberger and Smith International Inc. entered into an agreement whereby their drilling fluids operations were combined to form a joint venture. Under the terms of the agreement, Schlumberger contributed its non-US drilling fluids business and a total of \$325 million to the joint venture. Schlumberger owns a 40% interest in the joint venture and records income using the equity method of accounting. Schlumberger's investment on December 31, 2001 and 2000 was \$573 million and \$461 million, respectively. Schlumberger's equity income from this joint venture in 2001 was \$51 million and \$33 million in 2000.

Investments

Edgar Filing: SCHLUMBERGER LTD /NY/ - Form PRE 14A

The Consolidated Balance Sheet reflects the Schlumberger investment portfolio separated between current and long term, based on maturity. Except for \$146 million of investments which are considered trading on December 31, 2001 (\$139 million in 2000), under normal circumstances it is the intent of Schlumberger to hold the investments until maturity.

Long-term investments mature as follows: \$123 million in 2003, \$173 million in 2004 and \$280 million in 2005.

On December 31, 2001, there were no interest rate swap arrangements outstanding related to investments. Interest rate swap arrangements had no material effect on consolidated interest income.

Securitization

In September 2000, a wholly-owned subsidiary of Schlumberger entered into an agreement to sell, on an ongoing basis, up to \$220 million of an undivided interest in its accounts receivable and subsequently amended up to \$350 million. The amount of receivables sold under this agreement totaled \$176 million at December 31, 2001. Costs of the program, which primarily consist of the purchasers' financing and administrative costs, were not significant.

14

Schlumberger continues to service the receivables and maintains an allowance for doubtful accounts based upon the expected collectibility of all Schlumberger accounts receivable, including the portion of receivables sold. Unless extended by amendment, the agreement expires in September 2002.

Fixed Assets

A summary of fixed assets follows:

December 31,	(Stated in millions)	
	2001	2000
	-----	-----
Land	\$ 82	\$ 80
Building & Improvements	1,050	1,081

Less accumulated depreciation	6,351	6,427
	-----	-----
	\$ 4,828	\$ 4,395
	=====	=====

The estimated useful lives of Buildings & Improvements are primarily 30 to 40 years. For Machinery & Equipment, 13% is being depreciated over 16 to 25 years, 14% over 10 to 15 years and 73% over 2 to 9 years.

Long-term Debt

	=====	=====

During December 2001, the principal US subsidiary of Schlumberger initiated a US commercial paper program. At December 31, 2001, commercial paper borrowings totaled \$335 million with a weighted average interest rate of 2.04%. Commercial paper borrowings are supported by a revolving credit agreement with the principal US subsidiary.

At December 31, 2001, the Euro borrowings included \$747 million of 7 year bonds at 5.25% and \$441 million of 10 year bonds at 5.875% issued by a principal subsidiary in France. The aggregate fair market value at December 31, 2001 approximated the stated value.

At December 31, 2001, the UK pound borrowings included \$362 million of 7 year bonds at 6.25% and \$253 million of 31 year bonds at 6.50% issued by a principal subsidiary in the UK. The aggregate fair market value at December 31, 2001 was \$642 million.

The remainder of the long-term debt is at variable interest rates; the weighted-average interest rate of the debt outstanding on December 31, 2001 was 3.19%. Such rates are reset every six months or sooner. The carrying value of long-term debt on December 31, 2001 approximates the aggregate fair market value.

15

Long-term debt on December 31, 2001, is due as follows: \$3,129 million in 2003, \$571 million in 2004, \$485 million in 2005, \$138 million in 2006 and \$1,893 million thereafter.

On December 31, 2001, interest rate swap arrangements outstanding were: pay fixed/receive floating on US dollar debt of \$800 million; pay fixed/receive floating on Japanese yen debt of \$84 million. These arrangements mature at various dates to December 2009. Interest rate swap arrangements increased consolidated interest expense in 2001 by \$16 million.

Lines of Credit

On December 31, 2001, wholly owned subsidiaries of Schlumberger had separate lines of credit agreements aggregating \$7.7 billion with commercial banks, of which \$7.1 billion was committed and \$2.5 billion was available and unused. Interest rates and other terms of borrowing under these lines of credit vary

Edgar Filing: SCHLUMBERGER LTD /NY/ - Form PRE 14A

from country to country. Commercial paper borrowings are classified as long-term debt to the extent of the available and unused committed facilities maturing in more than one year because of the ability under these credit agreements and the intent to maintain these obligations for longer than one year. In January 2002, Schlumberger and its subsidiaries replaced \$2.5 billion of revolving credit agreements and \$1.8 billion of term loans with three new revolving credit agreements totaling \$4.6 billion, of which \$3.6 billion matures in January 2007 and \$1 billion matures in January 2003. Schlumberger plans to use these new revolving credit facilities to backup borrowings under its commercial paper programs in the United States and Europe and therefore expects these facilities to remain largely undrawn. At January 31, 2002, \$3.7 billion of these new facilities was available unused.

Derivative Instruments and Hedging Activities

Commencing January 1, 2001, Schlumberger adopted SFAS 133 (Accounting for Derivative Instruments and Hedging Activities). Schlumberger uses derivative instruments such as interest rate swaps, currency swaps, forward currency contracts and foreign currency options. Forward currency contracts provide a hedge against currency fluctuations on assets/liabilities denominated in other than a functional currency. Options are usually entered into as a hedge against currency variations on firm commitments generally involving the construction of long-lived assets.

Schlumberger maintains a foreign-currency risk management strategy that uses derivative instruments to protect its interests from unanticipated fluctuations in earnings and cash flows caused by volatility in currency exchange rates. Movements in foreign currency exchange rates pose a risk to Schlumberger's operations as exchange rate changes may affect profitability and cash flow. Schlumberger uses foreign currency forward exchange contracts, swaps and options. Schlumberger also maintains an interest rate risk management strategy that uses fixed rate debt and derivatives to minimize significant, unanticipated earnings fluctuations caused by interest rate volatility.

Schlumberger's specific goals are (1) to manage interest rate sensitivity by modifying the repricing or maturity characteristics of certain of its debt and (2) to lower (where possible) the cost of borrowed funds.

By using derivative financial instruments to hedge exposure to changes in exchange rates and interest rates, Schlumberger exposes itself to credit risk and market risk. Schlumberger minimizes the credit risk by entering into transactions with high-quality counterparties, limiting the exposure to each counterparty and monitoring the financial condition of its counterparties. Market risk is managed through the setting and monitoring of parameters that limit the types and degree of market risk which are acceptable.

At December 31, 2001, Schlumberger recognized a net \$49.5 million charge in Stockholders' Equity relating to derivative instruments and hedging activities. This charge was primarily due to the change in the fair market value of Schlumberger's US interest rate swaps as a result of declining interest rates. The effect on Stockholders' Equity as of the date of adoption, January 1, 2001, was not significant.

Capital Stock

value \$0.01 per share, of which 575,890,398 and 572,724,694 shares were outstanding on December 31, 2001 and 2000, respectively. Schlumberger is also authorized to issue 200,000,000 shares of cumulative preferred stock, par value \$0.01 per share, which may be issued in series with terms and conditions determined by the Board of Directors. No shares of preferred stock have been issued. Holders of common stock and preferred stock are entitled to one vote for each share of stock held.

In January 1993, Schlumberger acquired the remaining 50% interest in the Dowell Schlumberger group of companies. The purchase price included a warrant, expiring in 7.5 years and valued at \$100 million, to purchase 15,153,018 shares of Schlumberger common stock at an exercise price of \$29.672 per share. The warrant was exercised by Dow Chemical on December 16, 1999.

Stock Compensation Plans

As of December 31, 2001, Schlumberger had two types of stock-based compensation plans, which are described below. Schlumberger applies APB Opinion 25 and related Interpretations in accounting for its plans. Accordingly, no compensation cost has been recognized for its stock option plans and its stock purchase plan. Had compensation cost for the stock-based Schlumberger plans been determined based on the fair value at the grant dates for awards under those plans, consistent with the method of SFAS 123, Schlumberger net income and earnings per share would have been the pro forma amounts indicated below:

STOCK OPTION PLANS

During 2001, 2000, 1999 and in prior years, officers and key employees were granted stock options under Schlumberger stock option plans. For all of the stock options granted, the exercise price of each option equals the market price of Schlumberger stock on the date of grant; an option's maximum term is ten years, and options generally vest in 20% increments over five years.

As required by SFAS 123, the fair value of each grant is estimated on the date of grant using the multiple option Black-Scholes option-pricing model with the following weighted-average assumptions used for 2001, 2000 and 1999: dividend of \$0.75; expected volatility of 32-35% for 2001 grants, 27-33% for 2000 grants and 25-29% for 1999 grants; risk-free interest rates for the 2001 grants of 4.91% for officers and 3.87%-5.01% for the 2001 grants to all other employees; risk-free interest rates for the 2000 grants of 5.75%-6.84% for officers and

Edgar Filing: SCHLUMBERGER LTD /NY/ - Form PRE 14A

5.69%-6.72% for the 2000 grants to all other employees; risk-free interest rates for the 1999 grants of 4.92%-5.29% for officers and 4.80%-6.25% for the 1999 grants to all other employees; and expected option lives of 5.51 years for officers and 5.02 years for other employees for 2001 grants, expected option lives of 7.16 years for officers and 5.49 years for other employees for 2000 grants, 7.14 years for officers and 5.28 years for other employees for 1999 grants.

EMPLOYEE STOCK PURCHASE PLAN

Under the Schlumberger Discounted Stock Purchase Plan, Schlumberger is authorized to issue up to 22,012,245 shares of common stock to its employees. Under the terms of the Plan, employees can choose each year to have up to 10% of their annual earnings withheld to purchase Schlumberger common stock. The purchase price of the stock is 85% of the lower of its beginning or end of the Plan year market price. Under the Plan, Schlumberger sold 1,752,833, 1,431,309 and 1,324,848 shares to employees in 2001, 2000 and 1999, respectively. Compensation cost has been computed for the fair value of the employees' purchase rights, which was estimated using the Black-Scholes model with the following assumptions for 2001, 2000 and 1999: Dividend of \$0.75; expected life of one year; expected volatility of 36% for 2001, 38% for 2000 and 40% for 1999; and risk-free interest rates of 3.03% for 2001, 5.71% for 2000 and 5.33% for 1999. The weighted-average fair value of those purchase rights granted in 2001, 2000 and 1999, was \$15.540, \$23.141 and \$19.829, respectively.

Income Tax Expense

Schlumberger and its subsidiaries operate in more than 100 taxing jurisdictions where statutory tax rates generally vary from 0% to 50%.

In 2001, pretax book income in the US included gains from business divestitures aggregating approximately \$360 million; outside the US, pretax book income includes losses on business divestitures of approximately \$300 million. Pretax book income from continuing operations subject to US and non-US income taxes for each of the three years ended December 31, was as follows:

	(Stated in millions)		
	2001	2000	1999
United States	\$ 714	\$ 51	\$ (172)
Outside United States	412	910	653

Pretax income	\$ 1,126	\$ 961	\$ 481
	=====	=====	=====

Schlumberger had net deductible temporary differences of \$1.0 billion on December 31, 2001, \$1.0 billion on December 31, 2000 and \$1.1 billion on

Edgar Filing: SCHLUMBERGER LTD /NY/ - Form PRE 14A

December 31, 1999. Temporary differences at December 31, 2001 pertain to postretirement medical benefits (\$0.5 billion), employee benefits (\$0.2 billion), and fixed assets, inventory and other (\$0.2 billion).

19

The components of consolidated income tax expense from continuing operations were as follows:

	(Stated in millions)		
	2001	2000	1999
	-----	-----	-----
Current:			
United States - Federal	\$ 337	\$ 21	\$ (74)

Consolidated taxes on income	\$ 575	\$ 228	\$ 141
	=====	=====	=====
Effective tax rate	51%	24%	30%
	=====	=====	=====

During 2001, Schlumberger recorded several charges/credits in continuing operations as more fully described on page XXX. Excluding these charges/credits, the consolidated effective tax rate would have been 32%. Excluding the charges/credits and amortization of goodwill/intangibles, the consolidated effective tax rate would have been 27%. The variation from the US statutory federal tax rate (35%) and 27% was due primarily to a substantial proportion of operations in countries where taxation on income is lower than in the US.

For 2000 and 1999, the variations from the US statutory federal tax rate (35%) and Schlumberger effective tax rates were due to several factors, including a substantial proportion of operations in countries where taxation on income is lower than in the US partially offset by the effect of permanent book/tax differences in the US, such as goodwill amortization.

Leases and Lease Commitments

Total rental expense was \$390 million in 2001, \$287 million in 2000 and \$303 million in 1999. Future minimum rental commitments under noncancelable leases for years ending December 31 are: \$173 million in 2002; \$152 million in 2003; \$141 million in 2004; \$108 million in 2005; and \$108 million in 2006. For the ensuing three five-year periods, these commitments decrease from \$300 million to \$76 million. The minimum rentals over the remaining terms of the leases aggregate to \$32 million.

Contingencies

The Consolidated Balance Sheet includes accruals for the estimated future costs associated with certain environmental remediation activities related to the past use or disposal of hazardous materials. Substantially all such costs relate to divested operations and to facilities or locations that are no longer in operation. Due to a number of uncertainties, including uncertainty of timing, the scope of remediation, future technology, regulatory changes and other factors, it is possible that the ultimate remediation costs may exceed the amounts estimated. However, in the opinion of management, such additional costs are not expected to be material relative to consolidated liquidity, financial position or future results of operations.

In addition, Schlumberger and its subsidiaries are party to various other legal proceedings. Although the ultimate disposition of these proceedings is not presently determinable, in the opinion of Schlumberger any liability that might ensue would not be material in relation to the consolidated liquidity, financial position or future results of operations.

20

Schlumberger's financial instruments that are exposed to concentrations of credit risk consist primarily of cash and cash equivalents and receivables from clients. Schlumberger places its cash and cash equivalents with financial institutions and corporations, and limits the amount of credit exposure with any one of them. Schlumberger actively evaluates the creditworthiness of the issuers in which it invests. The receivables from clients are concentrated within a few significant industries and geographies.

Segment Information

Schlumberger operates two reportable segments: Oilfield Services (OFS) and SchlumbergerSema (SLSEMA).

The Oilfield Services segment falls into four clearly defined economic and geographical areas and is evaluated on the following basis: First, North America (NAM) is a major self-contained market. Second, Latin America (LAM) comprises regional markets that share a common dependence on the United States. Third, Europe (ECA) is another major self-contained market that includes the CIS and West Africa, whose economy is increasingly linked to that of Europe. Fourth, Other Eastern includes the remainder of the Eastern Hemisphere, which consists of many countries at different stages of economic development that share a common dependence on the oil and gas industry. The Oilfield Services segment provides virtually all exploration and production services required during the life of an oil and gas reservoir. Schlumberger believes that all the products/services are interrelated and expects similar performance from each.

The SchlumbergerSema segment is a leading information technology services company providing domain expertise and global capabilities delivered on a local basis. The company has proven capabilities delivering consulting, systems integration, managed services and products serving the telecommunications, energy & utilities, finance, transport, public sector markets and oil and gas markets.

Corporate assets largely comprise short-term and long-term investments.

During the three years ended December 31, 2001, no single customer exceeded 10% of consolidated revenue.

The accounting policies of the segments are the same as those described in Summary of Accounting Policies.

Oilfield Services' net income eliminations include: certain headquarters administrative costs which are not allocated geographically, manufacturing and certain other operations, and costs maintained at the Oilfield Services level. In 2001, eliminations includes WesternGeco minority interest expense of \$35 million.

Elims/Other principally comprises the amortization of goodwill and other intangibles (\$347 million in 2001), as well as nonoperating expenses, such as certain intersegment charges and interest expense (except as shown above), which are not included in segment operating income.

Schlumberger did not have revenue from third-party customers in its country of domicile during the last three years. In each of the three years, only revenue in the US exceeded 10% of consolidated revenue. Revenue in the US in 2001, 2000 and 1999 was \$5.1 billion, \$3.5 billion and \$2.5 billion, respectively.

Pension and Other Benefit Plans

US PENSION PLANS

Schlumberger and its US subsidiary sponsor several defined benefit pension plans that cover substantially all employees. The benefits are based on years of service and compensation on a career-average pay basis. These plans are fully funded with a trustee in respect to past and current service. Charges to expense are based upon costs computed by independent actuaries. The funding policy is to annually contribute amounts that are allowable for federal income tax purposes. These contributions are intended to provide for benefits earned to date and those expected to be earned in the future.

The assumed discount rate, compensation increases and return on plan assets used to determine pension expense in 2001 were 7.5%, 4.5% and 9%, respectively. In 2000, the assumptions were 7.75%, 4.5% and 9%, respectively. In 1999, the assumptions were 7%, 4.5% and 9%, respectively.

Net pension cost in the US for 2001, 2000 and 1999, included the following components:

Effective January 1, 2000, Schlumberger and its subsidiaries amended their pension plans to improve retirement benefits for active employees.

The change in the projected benefit obligation, plan assets and funded status of the plans on December 31, 2001 and 2000, was as follows:

The assumed discount rate, the rate of compensation increases and the expected long-term rate of return on plan assets used to determine the projected benefit obligations were 7.25%, 4.5% and 9%, respectively, in 2001, and 7.5%, 4.5% and 9%, respectively, in 2000. Plan assets on December 31, 2001, consisted of common stocks (\$630 million), cash or cash equivalents (\$48 million), fixed income investments (\$326 million) and other investments (\$70 million). On December 31, 2001, there is no investment of the plan assets in Schlumberger common stock.

NON-US PENSION PLANS

Outside the US, subsidiaries of Schlumberger sponsor several defined benefit and defined contribution plans that cover substantially all employees who are not covered by statutory plans. For defined benefit plans, charges to expense are based upon costs computed by independent actuaries. These plans are substantially fully funded with trustees in respect to past and current service. For all defined benefit plans, pension expense was \$52 million, \$23 million and \$19 million in 2001, 2000 and 1999, respectively. Based on plan assets and the projected benefit obligation, the only significant defined benefit plan is in the UK.

The assumed discount rate, compensation increases and return on plan assets used to determine pension expense in 2001 and 2000 were 6%, 4% and 9%, respectively. In 1999, the assumptions were 7%, 4% and 9%, respectively.

25

Net pension cost in the UK plan for 2001 (including the Sema plc plans), 2000 and 1999 (translated into US dollars at the average exchange rate for the periods), included the following components:

The assumed discount rate and rate of compensation increases used to determine the projected benefit obligation were 6% and 4%, respectively, in 2001, and 6.5% and 4%, respectively, in 2000; the expected

long-term rate of return on plan assets was 9% in 2001 and 2000. Plan assets consisted of common stocks (\$702 million), cash or cash equivalents (\$23 million) and fixed income investments (\$143 million). None of the plan assets represented Schlumberger common stock.

For defined contribution plans, funding and cost are generally based upon a predetermined percentage of employee compensation. Charges to expense in 2001, 2000 and 1999, were \$32 million, \$22 million and \$24 million, respectively.

OTHER DEFERRED BENEFITS

In addition to providing pension benefits, Schlumberger and its subsidiaries have other deferred benefit programs, primarily profit sharing. Expenses for these programs were \$192 million, \$114 million and \$73 million in 2001, 2000 and 1999, respectively.

HEALTH CARE BENEFITS

Schlumberger and its US subsidiary provide health care benefits for certain active employees. The cost of providing these benefits is recognized as expense when incurred and aggregated \$68 million, \$60 million and \$53 million in 2001, 2000 and 1999, respectively. Outside the US, such benefits are mostly provided through government-sponsored programs.

POSTRETIREMENT BENEFITS OTHER THAN PENSIONS

Schlumberger and its US subsidiary provide certain health care benefits to former employees who have retired under the US pension plans.

The principal actuarial assumptions used to measure costs were a discount rate of 7.5% in 2001, 7.75% in 2000 and 7% in 1999. The overall medical cost trend rate assumption is 9.5% graded to 5% over the next six years and 5% thereafter.

Net periodic postretirement benefit cost in the US for 2001, 2000 and 1999, included the following components:

	(Stated in millions)		
	2001	2000	1999
	-----	-----	-----
Service cost - benefits earned during the period	\$ 13	\$ 10	\$ 11

The change in accumulated postretirement benefit obligation and funded status on December 31, 2001 and 2000, was as follows:

	(Stated in millions)	
	2001	2000
	-----	-----
Accumulated postretirement benefit obligation at beginning of the year	\$ 398	\$ 320
Service cost	13	10

Postretirement benefit liability	13	11

on December 31	----- \$ 505 =====	----- \$ 476 =====
----------------	--------------------------	--------------------------

The components of the accumulated postretirement benefit obligation on December 31, 2001 and 2000, were as follows:

	(Stated in millions)	
	2001	2000
	-----	-----
Retirees	\$ 237	\$ 216
Fully eligible	67	47
Actives	174	135
	-----	-----
	\$ 478	\$ 398
	=====	=====

The assumed discount rate used to determine the accumulated postretirement benefit obligation was 7.25% for 2001 and 7.50% for 2000.

If the assumed medical cost trend rate was increased by one percentage point, health care cost in 2001 would have been \$53 million, and the accumulated postretirement benefit obligation would have been \$560 million on December 31, 2001.

If the assumed medical cost trend rate was decreased by one percentage point, health care cost in 2001 would have been \$38 million, and the accumulated postretirement benefit obligation would have been \$412 million on December 31, 2001.
