Schedule of Investments (Unaudited)

March 31, 2010

(concluded)

[^] Amount designated as _____ has been rounded to zero.¹ Non-income producing security.² One of the ten largest portfolio holdings.³ Affiliated Company. An affiliated company is a company in which the Fund has ownership of at least 5% of the company's outstanding voting securities. Transactions during the year with companies which were affiliates are as follows:

Name of Issuer	Shares Held as of 12/31/09	Gross Additions	Gross Reductions	Income	Shares Held as of 3/31/10	Value as of 3/31/10
Addex Pharmaceuticals Ltd.	488,370	\$	\$	\$	488,370	\$ 6,333,429
	488,370	\$	\$	\$	488,370	\$ 6,333,429

⁴ Security valued by the Board's Pricing Committee. Restricted security not registered under the Securities Act of 1933, as amended, other than Rule 144A securities. At the end of the period, the value of these securities amounted to \$15,313,536 or 3.48% of the Fund's net assets. Additional information on the restricted securities is as follows:

Security	Acquisition Date	Acquisition Cost
Aravis Biotech II, LP	July 31, 2007-November 17, 2009	\$ 1,573,473
Kuros Biosurgery Holding AG	August 10, 2009-August 28, 2009	2,516,639
NovImmune SA Common Shares	October 7, 2009-December 11, 2009	1,551,109
NovImmune SA Preferred Shares	October 7, 2009-December 11, 2009	2,062,306
Synosia Therapeutics Holding AG	October 17, 2008-February 23, 2009	1,740,546
Zurmont Madison Private Equity, LP	September 13, 2007-December 22, 2009	7,876,791
		\$ 17,320,864

⁵ Illiquid. There is no public market for these securities.⁶ Security priced at fair value as determined by the Board's Pricing Committee. At the end of the period, the value of these securities amounted to \$15,313,536 or 3.48% of the Fund's net assets.

* Cost for Federal income tax purposes is \$297,688,723 and net unrealized appreciation (depreciation) consists of:

Gross Unrealized Appreciation	\$ 159,487,829
Gross Unrealized Depreciation	(25,685,963)
Net Unrealized Appreciation (Depreciation)	\$ 133,801,866

The description of each investment shown on the Schedule of Investments was obtained from Bloomberg as of March 31, 2010.

See Notes to Schedule of Investments.

THE SWISS HELVETIA FUND, INC.

Notes to Schedule of Investments

Note 1 Organization and Significant Accounting Policies

A. Organization

The Swiss Helvetia Fund, Inc. (the Fund) is registered under the Investment Company Act of 1940, as amended (the Act), as a non-diversified, closed-end investment management company. The Fund is organized as a corporation under the laws of the State of Delaware.

The investment objective of the Fund is to seek long-term growth of capital through investment in equity and equity-linked securities of Swiss companies. The Fund may also acquire and hold equity and equity-linked securities of non-Swiss companies in limited instances.

B. Valuation at Securities

The Fund values its investments at fair value.

When valuing listed equity securities, the Fund uses the last sale price prior to the calculation of the Fund's net asset value (NAV). When valuing equity securities that are not listed or that are listed but have not traded, the Fund uses the mean between the bid and asked prices for that day.

When valuing fixed income securities, the Fund uses the last bid price prior to the calculation of the Fund's NAV. If a current bid price is not available, the Fund uses the mean between the latest quoted bid and asked prices. When valuing fixed income securities that mature within sixty days, the Fund uses amortized cost, which approximates fair value.

It is the responsibility of the Fund's Board of Directors (the Board) to establish fair valuation procedures. When valuing securities for which market quotations are not readily available, or for which the market quotations that are available are considered unreliable, the Fund determines a fair value in good faith in accordance with these procedures. The Fund may use these procedures to establish the fair value of securities when, for example, a significant event occurs between the time the market closes and the time the Fund values its investments. After consideration of various factors, the Fund may value the securities at their last reported price or at some other value.

Swiss Exchange-listed options or options that are not listed at the request of a counterparty are valued using implied volatilities as input into widely accepted models (e.g., Black-Scholes). Eurex-listed options are valued at their most recent sale price (latest bid for long options and the latest ask for short options), or if there are not such sales, at the average of the most recent bid and asked quotations, or if such quotations are not available, at the last bid quotation (in the case of purchased options) or the last asked quotation (in the case of written options); however, if there are no such quotations, such contracts will be valued using the implied volatilities observed for similar options as an input to a model. Options traded in the over-the-counter market are valued at the price communicated by the counterparty to the option, which typically is the price at which the counterparty would close out the transaction.

Edgar Filing: SWISS HELVETIA FUND, INC. - Form N-Q/A

Various inputs are used to determine the value of the Fund's investments. These inputs are summarized in the three broad levels listed below:

Level 1 quoted prices in active markets for identical assets and liabilities

Level 2 other significant observable inputs (including quoted prices of similar securities, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

THE SWISS HELVETIA FUND, INC.

Notes to Schedule of Investments (continued)

The following is a summary of the inputs used to value the Fund's net assets as of March 31, 2010:

	Level 1 Quoted Prices	Level 2 Other Significant Observable Inputs	Level 3 Significant Unobservable Inputs	Total
Investments in Securities				
Common Stock*	\$ 409,047,276	\$	\$ 4,109,069	\$ 413,156,345
Preferred Stock			3,926,462	3,926,462
Convertible Corporate Bond		7,081,501		7,081,501
Private Equity Investments			7,278,005	7,278,005
Purchased Options	48,276			48,276
Total Investments in Securities	\$ 409,095,552	\$ 7,081,501	\$ 15,313,536	\$ 431,490,589

* Please see the Schedule of Investments for Industry classifications. The Industry Classification for Level 3 is Biotechnology (NovImmune SA) and Medical Technology (Kuros Biosurgery AG).

In January 2010, Financial Accounting Standards Board issued Accounting Standards Update 2010-06 (ASU 2010-06) to ASC 820-10, Fair Value Measurements and Disclosures - Overall. New disclosures and clarifications of existing disclosures are effective for interim periods while disclosures about purchases, sales, issuances, and settlements in the Level 3 roll forward of activity in fair value measurements are effective for interim and fiscal periods beginning after December 15, 2010. The Trust has adopted a policy of recognizing transfers between Level 1 and Level 2 at the reporting period end. For the three-month period ended March 31, 2010, there were no significant transfers between Level 1 and Level 2.

The following is a reconciliation of Level 3 assets for which significant unobservable inputs were used to determine fair value. The inputs and valuation techniques used in valuing the private equity funds include an analysis of the underlying investments which includes consideration of their valuations and potential events that could have a material impact on their operations.

	Common Stock	Preferred Stock	Private Equity Investments
Balance as of 12/31/2009	\$ 1,551,052	\$ 6,630,615	\$ 7,395,960
Change in Unrealized Appreciation/Depreciation	(27,704)	(118,432)	(117,955)
Net Purchases/(Sales)			
Balance as of 3/31/2010	\$ 1,523,348	\$ 6,512,183	\$ 7,278,005

C. Options

Edgar Filing: SWISS HELVETIA FUND, INC. - Form N-Q/A

The Fund may buy call options and put options, and may sell (write) covered call options. Options may be entered into on securities in which the Fund may invest and on Swiss stock indices. Option contracts are utilized to manage the Fund's exposure to changing security prices and to generate income. Purchasing call options tends to increase the Fund's exposure to the underlying instrument. Purchasing put options tends to decrease the Fund's exposure to the underlying instrument. The Fund pays a premium as an investment that is subsequently marked to market to reflect the current value of the option. Premiums paid for purchasing options which expire are treated as realized losses. The risk associated with purchasing put and call options is limited to the premium paid. Premiums paid for purchasing options which are exercised or closed are added to the amounts paid or offset against the proceeds on the underlying instrument to determine the realized gain or loss.

Writing call options tends to decrease the Fund's exposure to the underlying instrument. When the Fund writes a call option, such option is covered, meaning that the Fund holds the underlying instrument subject to being called by the option counterparty. When the Fund writes a call option, an amount equal to the premium received is recorded as a liability and subsequently marked to market to reflect the current value of the option written. Premiums received from writing options which expire are treated as realized gains.

 THE SWISS HELVETIA FUND, INC.

Notes to Schedule of Investments (continued)

Premiums received from writing options which are exercised or closed are added to the proceeds or offset against amounts paid on the underlying instrument to determine the realized gain or loss. The Fund as a writer of an option has no control over whether the underlying instrument may be sold (call) and, as a result, bears the market risk of an unfavorable change in the price of the instrument underlying the written option. There is the risk the Fund may not be able to enter into a closing transaction because of an illiquid market.

Transactions in options written during the period ended March 31, 2010, were as follows:

	Number of Contracts	Premiums Received
Outstanding, December 31, 2009	30,000	\$ 762,490
Written		
Exercised		
Expired		
Closed	(30,000)	(762,490)
Outstanding, March 31, 2010		\$
Market Value of Liability, March 31, 2010		\$

D. Foreign Currency Translation

The Fund maintains its accounting records in U.S. dollars. The Fund's assets are invested primarily in Swiss equities and equity-linked securities. In addition, the Fund makes its temporary investments in Swiss franc-denominated bank deposits, short-term debt securities and money market instruments. Substantially all income received by the Fund is in Swiss francs. The Fund's NAV, however, is reported, and distributions from the Fund are made, in U.S. dollars resulting in gain or loss from currency conversions in the ordinary course of business. Historically, the Fund has not entered into transactions designed to reduce currency risk and does not intend to do so in the future. The cost basis of foreign denominated assets and liabilities is determined on the date that they are first recorded within the Fund and translated to U.S. dollars. These assets and liabilities are subsequently valued each day at prevailing exchange rates. The difference between the original cost and current value denominated in U.S. dollars is recorded as unrealized foreign currency gain/loss. In valuing assets and liabilities, the Fund uses the prevailing exchange rate on the valuation date. In valuing securities transactions, the receipt of income and the payment of expenses, the Fund uses the prevailing exchange rate on the transaction date.

E. Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.

F. Concentration of Market Risk

Edgar Filing: SWISS HELVETIA FUND, INC. - Form N-Q/A

The Fund primarily invests in securities of Swiss issuers. Such investments may carry certain risks not ordinarily associated with investments in securities of U.S. issuers. These risks include future political and economic developments, unfavorable movements in the U.S. dollar relative to the Swiss franc, and the possible imposition of exchange controls and changes in governmental law and restrictions. In addition, concentrations of investments in securities of issuers located in a specific region exposes the Fund to the economic and government policies of that region and may increase risk compared to a fund whose investments are more diversified.

 THE SWISS HELVETIA FUND, INC.

Notes to Schedule of Investments (concluded)

Note 2 Private Equity and Other Illiquid Direct Investments

The Fund is permitted to invest in alternative investments that do not have a readily determinable fair value, and as such, has elected to use the practical expedient as calculated on the reporting entity's measurement date as the fair value of the investment. A listing of the investments held by the Fund and their attributes as of March 31, 2010 that qualify for these valuations are shown in the table below.

As of March 31, 2010, the Fund invested in private equity funds (limited partnerships). The Fund's investments are summarized in the Schedule of Investments. The Fund's capital commitments and the amounts disbursed to the private equity funds are shown in the table below:

Private Equity Funds International (a)	Original Capital Commitment*	Unfunded Commitments	Fair Value as of March 31, 2010
Zurmont Madison Private Equity LP	\$ 13,301,031	\$ 5,435,355	\$ 5,725,782
Aravis Biotech II LP	3,087,739	1,425,690	1,552,223

* The original capital commitment represents 14,000,000 and 3,250,000 Swiss francs for Zurmont Madison Private Equity LP and Aravis Biotech II LP, respectively. The exchange rate as of March 31, 2010 was used for conversion and equals 1.05255.

(a) This category includes two private equity funds that invest primarily in ventures, biotechnology and in management buyouts of industrial and consumer goods companies. There is no redemption right for the interests in these two funds. Instead, the nature of the investments in this category is that distributions are received through the realization of the underlying assets of a fund. If these investments were held, it is estimated that the underlying assets of each fund would be realized over 4 to 6 years.

Note 3 Subsequent Events

Subsequent events occurring after the date of this report have been evaluated for potential impact to this report through the date of this filing.

THE SCHEDULE OF INVESTMENTS SHOULD BE READ IN CONJUNCTION WITH THE FINANCIAL STATEMENTS AND NOTES TO FINANCIAL STATEMENTS WHICH ARE INCLUDED IN THE FUND'S SEMI-ANNUAL REPORT OR AUDITED ANNUAL REPORT. THESE REPORTS INCLUDE ADDITIONAL INFORMATION ABOUT CERTAIN SECURITY TYPES INVESTED IN BY THE FUND.

Item 2. Controls and Procedures.

- (a) **The registrant's Chief Executive Officer and Chief Financial Officer have concluded, based on their evaluation of the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940 (the Act)) as conducted within 90 days of the filing date of this report, that these disclosure controls and procedures are adequately designed and are operating effectively to ensure that information required to be disclosed by the registrant on Form N-Q is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.**

- (b) **There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the Act) that occurred during the registrant's most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, the registrant's internal control over financial reporting.**

Item 3. Exhibits.

Certifications pursuant to Rule 30a-2(a) are attached hereto.
