Use of Non-GAAP Financial Information

In establishing operating budgets, managing its business performance, and setting internal measurement targets, the Company excludes a number of items required by GAAP. Management believes that these accounting charges and credits, which typically are non-cash nature or affect the period-to-period comparability of results, are not useful in managing its operations and business. Historically, the Company has publicly presented supplemental non-GAAP measures in order to assist the investment community to see the Company through the eyes of management, and thereby enhance understanding of its operating performance. The non-GAAP measures used by management are operating expenses, net income (loss) and net income (loss) per share. The presentation of non-GAAP information is subject to material limitations, is not intended to be considered in isolation or as a substitute for results prepared in accordance with GAAP and is not necessarily comparable to non-GAAP results published by other companies. A reconciliation of non-GAAP measures to GAAP is included with the financial statements contained in the press release attached hereto as Exhibit 99.1.
