ITEM 5.02. DEPARTURE OF DIRECTORS OR CERTAIN OFFICERS; ELECTION OF DIRECTORS; APPOINTMENT OF CERTAIN OFFICERS; COMPENSATORY ARRANGEMENTS OF CERTAIN OFFICERS.

The Compensation & Organizational Development Committee (the “Compensation Committee”) of the board of directors of Ralph Lauren Corporation (the “Company”) has authorized the granting of an additional type of restricted performance share unit award (“RPSUs”) under the Company’s 2010 Long-Term Stock Incentive Plan. Effective beginning in fiscal year 2013, the Company will grant this additional type of RPSU award (“Cliff/TSR RPSU”) with a three-year cliff vesting based on the attainment by the Company of a level of cumulative net earnings during such performance period established by the Compensation Committee, in its sole discretion, and also subject to an additional relative performance metric – a total shareholder return modifier (“TSR Modifier”). Under the terms of the Cliff/TSR RPSUs, applicable threshold, target and maximum levels of Company cumulative net earnings performance are established at the beginning of the applicable three-year performance period, and participants shall be entitled to vest in and receive payment with respect to a percentage of such Cliff/TSR RPSUs as set forth below:

Performance Level	% of Goal Achieved	Payout as a % of Target
Threshold	70%	75%
Target	100%	100%
Maximum	110% or more	150%

Vesting is interpolated for performance between 70% - 110% of target. No payout will be earned for cumulative net earnings performance below the Threshold level. At the end of the applicable three-year performance period, the actual number of Cliff/TSR RPSUs earned based on cumulative net earnings level attained as set forth above will be adjusted by the TSR Modifier. The TSR Modifier is based on the relative performance of the Company’s stock price (“Relative TSR”), which measures the performance of the Company’s share price and dividends compared to the TSR generated by the S&P 500 during the applicable three-year performance period. TSR shall be measured by share price appreciation plus dividends reinvested, with starting and ending share prices being based on the average closing prices for the 20 trading days ending immediately prior to the beginning and end of the three year performance period. At the end of the applicable three-year performance period, the Compensation Committee will adjust the final payout for each Cliff/TSR RPSU award by the amount of the TSR Modifier as set forth below:

Relative TSR Performance Range	TSR Adjustment
³ 80th Percentile	125%
³ 60th but <80th Percentile	112.5%
³ 40th but <60th Percentile	100%
³ 30th but <40th Percentile	87.5%

<30th Percentile

75%

There shall be no interpolation for performance between identified Relative TSR performance levels.

The above description is qualified in its entirety by reference to the Cliff Restricted Performance Share Unit with TSR Modifier Award Overview containing the standard terms of restricted performance share awards under the 2010 Long-Term Stock Incentive Plan, which is attached hereto as Exhibit 10.1 and incorporated herein by reference.
