Item 2.02. Results of Operations and Financial Condition

The information in this item (including Exhibit 99.1) is being furnished pursuant to Items 2.02 and 9.01 and shall not be deemed to be filed for purposes of Section 18 of the Securities Exchange Act of 1934 (the Exchange Act) or otherwise subject to the liabilities of that section, nor shall it be deemed to be incorporated by reference in any filing under the Securities Act of 1933 or the Exchange Act. On January 31, 2007, BankAtlantic Bancorp, Inc. (the Company) issued a press release announcing its financial results for the quarter and year ended December 31, 2006. The press release, and accompanying financial tables are attached hereto as Exhibit 99.1 and are incorporated herein by reference. In addition to financial results determined in accordance with generally accepted accounting principles (GAAP), the press release also contains financial information determined by methods other than in accordance with GAAP. The Company's management uses these non-GAAP measures, which it defines as operating measures, in their analysis of the Company's performance. These operating measures adjust GAAP net income to exclude a reserve for fines and penalties related to a compliance matter, an impairment charge related to the Company's former headquarters, and costs and gains associated with debt redemptions. The operating measures also adjust BankAtlantic's GAAP net interest margin to exclude interest income and interest expense associated with loan participations sold that were for a period of time accounted for as secured borrowings. The Company also uses certain internal allocation operating measures to determine net contribution and non-interest expense allocable to new bank branches (which we refer to as stores). The Company believes that these non-GAAP operating measures supplement our GAAP financial information and provide useful measures of evaluating the Company's operating results and any related trends that may be affecting the Company's business. These disclosures should not be viewed as a substitute for operating results determined in accordance with GAAP, nor are they necessarily comparable to non-GAAP performance measures that may be presented by other companies.
