

PLACER DOME INC
Form 425
November 01, 2005

Filed by Barrick Gold Corporation
This communication is filed pursuant to Rule 425 under The Securities
Act of 1933, as amended.
Subject Company: Placer Dome Inc.
Commission File Number: 1-9059
Date: November 1, 2005

Many Barrick and Placer Dome operating mines, projects and exploration properties are in close proximity: for example, Nevada, Chile, Australia and Tanzania. Barrick anticipates to capture synergies of approximately \$200 million a year. Barrick has the financial strength and expertise to realize the opportunities presented by this expanded asset base, and the established Regional Business structure to effectively integrate the assets, people and projects of both companies.

2 Based on reserves calculated at December 31, 2004 using an assumed price of \$375 per ounce for gold and \$5.50 per ounce for silver and an exchange ratio rate of \$1.45 C\$/US\$. Calculations were performed by employees of Barrick under the supervision of Rene L. Marion, P. Eng., Vice President, Technical Services of Barrick. Reserve calculations incorporate current and/or expected mine plans and cost levels. Barrick's normal data verification procedures have been employed in connection with the calculations. For a breakdown of reserves by category and for additional information on Barrick's reserve methodology, see Barrick's most recent Annual Information Form / Form 40-F on file with Canadian provincial securities regulatory authorities and the US Securities and Exchange Commission.
