Press Release

STOCK TRADED: NYSE FOR IMMEDIATE RELEASE
TICKER SYMBOL: TR Wednesday, July 25, 2007

CHICAGO, ILLINOIS - July 25, 2007 - Melvin J. Gordon, Chairman, Tootsie Roll Industries, Inc. reported second quarter and first half 2007 sales and earnings.

Second quarter 2007 sales were \$101,901,000 compared to \$94,944,000 in second quarter 2006, an increase of \$6,957,000 or 7%. Second quarter 2007 net earnings were \$10,226,000 compared to \$12,858,000 in second quarter 2006, and earnings per share were \$.19 and \$.23 in second quarter 2007 and 2006, respectively, a decrease of \$.04 per share or 17%.

First half 2007 sales were \$194,815,000 compared to \$198,766,000 in first half 2006, a decrease of \$3,951,000 or 2%. First half 2007 net earnings

Edgar Filing: TOOTSIE ROLL INDUSTRIES INC - Form 8-K

were \$20,037,000 compared to \$25,220,000 in first half 2006, and earnings per share were \$.36 and \$.45 in first half 2007 and 2006, respectively, a decrease of \$.09 per share or 20%.

Mr. Gordon said, "The 7% increase in second quarter 2007 sales was achieved as a result of successful marketing programs which reflected increases in all of the Company's core brands. Although second quarter 2007 benefited from increased sales, second quarter 2007 results were adversely affected by higher input costs relating to major ingredients, packaging materials, freight and delivery, and products manufactured in Canada due to unfavorable foreign exchange rates. Substantially all of the Company's principal ingredient costs were significantly higher in second quarter 2007 compared to the corresponding period in the prior year. Second quarter 2007 comparative results were also adversely affected by a gain on the sale of securities in second quarter 2006, however, second quarter 2007 results did benefit from lower foreign taxes and resulting lower effective tax rate.

The first half 2007 sales decline reflects the conclusion of a contract to manufacture product under a private label for a third party and a non-recurring sale of certain inventory to a new foreign distributor in the prior year first quarter 2006. First half 2007 results were adversely affected by these lower sales and higher input costs, primarily relating to ingredients, as discussed above.

The Company has taken actions and implemented programs, including selected price increases primarily in 2006 as well as cost reduction programs in 2007, with the objective to recover some of these higher input costs. However, these actions have not allowed the Company to recover all of these increases in ingredient and other input costs in second quarter and first half 2007.

The Company's per share earnings for second quarter and first half 2007 did benefit from common stock purchases in the open market in 2006 and 2007 resulting in fewer shares outstanding."
